(b) NEW MINIMUM FUNDING STANDARDS.—Part 3 of subtitle B of title I of such Act (as amended by subsection (a)) is amended by inserting after section 301 the following new section:

"SEC. 302. MINIMUM FUNDING STANDARDS.

"(a) REQUIREMENT TO MEET MINIMUM FUNDING STANDARD.—

"(1) IN GENERAL.—A plan to which this part applies shall satisfy the minimum funding standard applicable to the plan for any plan year.

"(2) MINIMUM FUNDING STANDARD.—For purposes of paragraph (1), a plan shall be treated as satisfying the minimum funding standard for a plan year if—

"(A) in the case of a defined benefit plan which is a single-employer plan, the employer makes contributions to or under the plan for the plan year which, in the aggregate, are not less than the minimum required contribution determined under section 303 for the plan for the plan year,

"(B) in the case of a money purchase plan which is a single-employer plan, the employer makes contributions to or under the plan for the plan year which are required under the terms of the plan, and

"(C) in the case of a multiemployer plan, the employers make contributions to or under the plan for any plan year which, in the aggregate, are sufficient to ensure that the plan does not have an accumulated funding deficiency under section 304 as of the end of the plan year.

"(b) LIABILITY FOR CONTRIBUTIONS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the amount of any contribution required by this section (including any required installments under paragraphs (3) and (4) of section 303(j)) shall be paid by the employer responsible for making contributions to or under the plan.

"(2) JOINT AND SEVERAL LIABILITY WHERE EMPLOYER MEMBER OF CONTROLLED GROUP.—If the employer referred to in paragraph (1) is a member of a controlled group, each member of such group shall be jointly and severally liable for payment of such contributions.

"(c) VARIANCE FROM MINIMUM FUNDING STANDARDS.—

"(1) WAIVER IN CASE OF BUSINESS HARDSHIP.—

"(A) IN GENERAL.—If—

"(i) an employer is (or in the case of a multiemployer plan, 10 percent or more of the number of employers contributing to or under the plan is) unable to satisfy the minimum funding standard for a plan year without temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan), and

"(ii) application of the standard would be adverse to the interests of plan participants in the aggregate,

the Secretary of the Treasury may, subject to subparagraph (C), waive the requirements of subsection (a) for such year with respect to all or any portion of the minimum funding standard. The Secretary of the Treasury shall not waive the minimum funding standard with respect to a plan for more than 3 of any 15 (5 of any 15 in the case of a multiemployer plan) consecutive plan years.

"(B) EFFECTS OF WAIVER.—If a waiver is granted under subparagraph (A) for any plan year—

"(i) in the case of a single-employer plan, the minimum required contribution under section 303 for the plan year shall be reduced by the amount of the waived funding deficiency and such amount shall be amortized as required under section 303(e), and

"(ii) in the case of a multiemployer plan, the funding standard account shall be credited under section 304(b)(3)(C) with the amount of the waived funding deficiency and such amount shall be amortized as required under section 304(b)(2)(C).

"(C) WAIVER OF AMORTIZED PORTION NOT ALLOWED.—The Secretary of the Treasury may not waive under subparagraph (A) any portion of the minimum funding standard under subsection (a) for a plan year which is attributable to any waived funding deficiency for any preceding plan year.

"(2) DETERMINATION OF BUSINESS HARDSHIP.—For purposes of this subsection, the factors taken into account in determining temporary substantial business hardship (substantial business hardship in the case of a multiemployer plan) shall include (but shall not be limited to) whether or not—

"(A) the employer is operating at an economic loss,

"(B) there is substantial unemployment or underemployment in the trade or business and in the industry concerned,

"(C) the sales and profits of the industry concerned are depressed or declining, and

"(D) it is reasonable to expect that the plan will be continued only if the waiver is granted.

"(3) WAIVED FUNDING DEFICIENCY.—For purposes of this part, the term 'waived funding deficiency' means the portion of the minimum funding standard under subsection (a) (determined without regard to the waiver) for a plan year waived by the Secretary of the Treasury and not satisfied by employer contributions.

"(4) SECURITY FOR WAIVERS FOR SINGLE-EMPLOYER PLANS, CONSULTATIONS.—

"(A) SECURITY MAY BE REQUIRED.—

"(i) IN GENERAL.—Except as provided in subparagraph (C), the Secretary of the Treasury may require an employer maintaining a defined benefit plan which is a single-employer plan (within the meaning of section 4001(a)(15)) to provide security to such plan as a condition for granting or modifying a waiver under paragraph (1).

"(ii) SPECIAL RULES.—Any security provided under clause (i) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Corporation, by a contributing sponsor (within the meaning of section 4001(a)(13)), or a member of such sponsor's controlled group (within the meaning of section 4001(a)(14)).

"(B) CONSULTATION WITH THE PENSION BENEFIT GUARANTY CORPORATION.—Except as provided in subparagraph (C), the Secretary of the Treasury shall, before granting or modifying a waiver under this subsection with respect to a plan described in subparagraph (A)(i)—

"(i) provide the Pension Benefit Guaranty Corporation with—

"(I) notice of the completed application for any waiver or modification, and

"(II) an opportunity to comment on such application within 30 days after receipt of such notice, and

"(ii) consider—

"(I) any comments of the Corporation under clause (i)(II), and

"(II) any views of any employee organization (within the meaning of section 3(4)) representing participants in the plan which are submitted in writing to the Secretary of the Treasury in connection with such application.

Information provided to the Corporation under this subparagraph shall be considered tax return information and subject to the safeguarding and reporting requirements of section 6103(p) of the Internal Revenue Code of 1986.

"(C) EXCEPTION FOR CERTAIN WAIVERS.—

"(i) IN GENERAL.—The preceding provisions of this paragraph shall not apply to any plan with respect to which the sum of—

"(I) the aggregate unpaid minimum required contributions for the plan year and all preceding plan years, and

"(II) the present value of all waiver amortization installments determined for the plan year and succeeding plan years under section 303(e)(2),

is less than $1,000,000.

"(ii) TREATMENT OF WAIVERS FOR WHICH APPLICATIONS ARE PENDING.—The amount described in clause (i)(I) shall include any increase in such amount which would result if all applications for waivers of the minimum funding standard under this subsection which are pending with respect to such plan were denied.

"(iii) UNPAID MINIMUM REQUIRED CONTRIBUTION.—For purposes of this subparagraph—

"(I) IN GENERAL.—The term 'unpaid minimum required contribution' means, with respect to any plan year, any minimum required contribution under section 303 for the plan year which is not paid on or before the due date (as determined under section 303(j)(1)) for the plan year.

"(II) ORDERING RULE.—For purposes of subclause (I), any payment to or under a plan for any plan year shall be allocated first to unpaid minimum required contributions for all preceding plan years on a first-in, first-out basis and then to the minimum required contribution under section 303 for the plan year.

"(5) SPECIAL RULES FOR SINGLE-EMPLOYER PLANS.—

"(A) APPLICATION MUST BE SUBMITTED BEFORE DATE 2½ MONTHS AFTER CLOSE OF YEAR.—In the case of a single-employer plan, no waiver may be granted under this subsection with respect to any plan for any plan year unless an application therefor is submitted to the Secretary of the Treasury not later than the 15th day of the 3rd month beginning after the close of such plan year.

"(B) SPECIAL RULE IF EMPLOYER IS MEMBER OF CONTROLLED GROUP.—In the case of a single-employer plan, if an employer is a member of a controlled group, the temporary substantial business hardship requirements of paragraph (1) shall be treated as met only if such requirements are met—

"(i) with respect to such employer, and

"(ii) with respect to the controlled group of which such employer is a member (determined by treating all members of such group as a single employer).

The Secretary of the Treasury may provide that an analysis of a trade or business or industry of a member need not be conducted if such Secretary determines such analysis is not necessary because the taking into account of such member would not significantly affect the determination under this paragraph.

"(6) ADVANCE NOTICE.—

"(A) IN GENERAL.—The Secretary of the Treasury shall, before granting a waiver under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such waiver to each affected party (as defined in section 4001(a)(21)). Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV and for benefit liabilities.

"(B) CONSIDERATION OF RELEVANT INFORMATION.—The Secretary of the Treasury shall consider any relevant information provided by a person to whom notice was given under subparagraph (A).

"(7) RESTRICTION ON PLAN AMENDMENTS.—

"(A) IN GENERAL.—No amendment of a plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan shall be adopted if a waiver under this subsection or an extension of time under section 304(d) is in effect with respect to the plan, or if a plan amendment described in subsection (d)(2) has been made at any time in the preceding 12 months (24 months in the case of a multiemployer plan). If a plan is amended in violation of the preceding sentence, any such waiver, or extension of time, shall not apply to any plan year ending on or after the date on which such amendment is adopted.

"(B) EXCEPTION.—Subparagraph (A) shall not apply to any plan amendment which—

"(i) the Secretary of the Treasury determines to be reasonable and which provides for only de minimis increases in the liabilities of the plan,

"(ii) only repeals an amendment described in subsection (d)(2), or

"(iii) is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986.

"(8) CROSS REFERENCE.—For corresponding duties of the Secretary of the Treasury with regard to implementation of the Internal Revenue Code of 1986, see section 412(c) of such Code.

"(d) MISCELLANEOUS RULES.—

"(1) CHANGE IN METHOD OR YEAR.—If the funding method, the valuation date, or a plan year for a plan is changed, the change shall take effect only if approved by the Secretary of the Treasury.

"(2) CERTAIN RETROACTIVE PLAN AMENDMENTS.—For purposes of this section, any amendment applying to a plan year which—

"(A) is adopted after the close of such plan year but no later than 2½ months after the close of the plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

"(B) does not reduce the accrued benefit of any participant determined as of the beginning of the first plan year to which the amendment applies, and

"(C) does not reduce the accrued benefit of any participant determined as of the time of adoption except to the extent required by the circumstances,

shall, at the election of the plan administrator, be deemed to have been made on the first day of such plan year. No amendment described in this paragraph which reduces the accrued benefits of any participant shall take effect unless the plan administrator files a notice with the Secretary of the Treasury notifying him of such amendment and such Secretary has approved such amendment, or within 90 days after the date on which such notice was filed, failed to disapprove such amendment. No amendment described in this subsection shall be approved by the Secretary of the Treasury unless such Secretary determines that such amendment is necessary because of a temporary substantial business hardship (as determined under subsection (c)(2)) or a substantial business hardship (as so determined) in the case of a multiemployer plan and that a waiver under subsection (c) (or, in the case of a multiemployer plan, any extension of the amortization period under section 304(d)) is unavailable or inadequate.

"(3) CONTROLLED GROUP.—For purposes of this section, the term 'controlled group' means any group treated as a single employer under subsection (b), (c), (m), or (o) of section 414 of the Internal Revenue Code of 1986.".

(c) CLERICAL AMENDMENT.—The table of contents in section 1 of such Act is amended by striking the items relating to sections 302 through 308 and inserting the following new item:

"Sec. 302. Minimum funding standards.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to plan years beginning after 2007.

SEC. 102. FUNDING RULES FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

(a) IN GENERAL.—Part 3 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (as amended by section 101 of this Act) is amended by inserting after section 302 the following new section:

"SEC. 303. MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

"(a) MINIMUM REQUIRED CONTRIBUTION.—For purposes of this section and section 302(a)(2)(A), except as provided in subsection (f), the term 'minimum required contribution' means, with respect to any plan year of a single-employer plan—

"(1) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) is less than the funding target of the plan for the plan year, the sum of—

"(A) the target normal cost of the plan for the plan year, "(B) the shortfall amortization charge (if any) for the plan for the plan year determined under subsection (c), and

"(C) the waiver amortization charge (if any) for the plan for the plan year as determined under subsection (e); or

"(2) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) equals or exceeds the funding target of the plan for the plan year, the target normal cost of the plan for the plan year reduced (but not below zero) by such excess.

"(b) TARGET NORMAL COST.—For purposes of this section, except as provided in subsection (i)(2) with respect to plans in at-risk status, the term 'target normal cost' means, for any plan year, the present value of all benefits which are expected to accrue or to be earned under the plan during the plan year. For purposes of this subsection, if any benefit attributable to services performed in a preceding plan year is increased by reason of any increase in compensation during the current plan year, the increase in such benefit shall be treated as having accrued during the current plan year.

"(c) SHORTFALL AMORTIZATION CHARGE.—

"(1) IN GENERAL.—For purposes of this section, the shortfall amortization charge for a plan for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to the shortfall amortization bases for such plan year and each of the 6 preceding plan years.

"(2) SHORTFALL AMORTIZATION INSTALLMENT.—For purposes of paragraph (1)—

"(A) DETERMINATION.—The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-plan-year period beginning with such plan year.

"(B) SHORTFALL INSTALLMENT.—The shortfall amortization installment for any plan year in the 7-plan-year period under subparagraph (A) with respect to any shortfall amortization base is the annual installment determined under subparagraph (A) for that year for that base.

"(C) SEGMENT RATES.—In determining any shortfall amortization installment under this paragraph, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

"(3) SHORTFALL AMORTIZATION BASE.—For purposes of this section, the shortfall amortization base of a plan for a plan year is—

"(A) the funding shortfall of such plan for such plan year, minus

"(B) the present value (determined using the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2)) of the aggregate total of the shortfall amortization installments and waiver amortization installments which have been determined for such plan year and any succeeding plan year with respect to the shortfall amortization bases and waiver amortization bases of the plan for any plan year preceding such plan year.

"(4) FUNDING SHORTFALL.—For purposes of this section, the funding shortfall of a plan for any plan year is the excess (if any) of—

"(A) the funding target of the plan for the plan year, over

"(B) the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) for the plan year which are held by the plan on the valuation date.

"(5) EXEMPTION FROM NEW SHORTFALL AMORTIZATION BASE.—

"(A) IN GENERAL.—In any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(A)) is equal to or greater than the funding target of the plan for the plan year, the shortfall amortization base of the plan for such plan year shall be zero.

"(B) TRANSITION RULE.—

"(i) IN GENERAL.—Except as provided in clauses (iii) and (iv), in the case of plan years beginning after 2007 and before 2011, only the applicable percentage of the funding target shall be taken into account under paragraph (3)(A) in determining the funding shortfall for the plan year for purposes of subparagraph (A).

"(ii) APPLICABLE PERCENTAGE.—For purposes of subparagraph (A), the applicable percentage shall be determined in accordance with the following table:

"**In the case of a plan year beginning in calendar year:**	**The applicable percentage is**
2008	92
2009	94
2010	96.

"(iii) LIMITATION.—Clause (i) shall not apply with respect to any plan year after 2008 unless the shortfall amortization base for each of the preceding years beginning after 2007 was zero (determined after application of this subparagraph).

"(iv) TRANSITION RELIEF NOT AVAILABLE FOR NEW OR DEFICIT REDUCTION PLANS.—Clause (i) shall not apply to a plan—

"(I) which was not in effect for a plan year beginning in 2007, or

"(II) which was in effect for a plan year beginning in 2007 and which was subject to section 302(d) (as in effect for plan years beginning in 2007), determined after the application of paragraphs (6) and (9) thereof.

"(6) EARLY DEEMED AMORTIZATION UPON ATTAINMENT OF FUNDING TARGET.—In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the shortfall amortization charge for such plan year and succeeding plan years, the shortfall amortization bases for all preceding plan years (and all shortfall amortization installments determined with respect to such bases) shall be reduced to zero.

"(d) RULES RELATING TO FUNDING TARGET.—For purposes of this section—

"(1) FUNDING TARGET.—Except as provided in subsection (i)(1) with respect to plans in at-risk status, the funding target of a plan for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

"(2) FUNDING TARGET ATTAINMENT PERCENTAGE.—The 'funding target attainment percentage' of a plan for a plan year is the ratio (expressed as a percentage) which—

"(A) the value of plan assets for the plan year (as reduced under subsection (f)(4)(B)), bears to

"(B) the funding target of the plan for the plan year (determined without regard to subsection (i)(1)).

"(e) WAIVER AMORTIZATION CHARGE.—

"(1) DETERMINATION OF WAIVER AMORTIZATION CHARGE.—The waiver amortization charge (if any) for a plan for any plan year is the aggregate total of the waiver amortization installments for such plan year with respect to the waiver amortization bases for each of the 5 preceding plan years.

"(2) WAIVER AMORTIZATION INSTALLMENT.—For purposes of paragraph (1)—

"(A) DETERMINATION.—The waiver amortization installments are the amounts necessary to amortize the waiver amortization base of the plan for any plan year in level annual installments over a period of 5 plan years beginning with the succeeding plan year.

"(B) WAIVER INSTALLMENT.—The waiver amortization installment for any plan year in the 5-year period under subparagraph (A) with respect to any waiver amortization base is the annual installment determined under subparagraph (A) for that year for that base.

"(3) INTEREST RATE.—In determining any waiver amortization installment under this subsection, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

"(4) WAIVER AMORTIZATION BASE.—The waiver amortization base of a plan for a plan year is the amount of the waived funding deficiency (if any) for such plan year under section 302(c).

"(5) EARLY DEEMED AMORTIZATION UPON ATTAINMENT OF FUNDING TARGET.—In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the waiver amortization charge for such plan year and succeeding plan years, the waiver amortization bases for all preceding plan years (and all waiver amortization installments determined with respect to such bases) shall be reduced to zero.

"(f) REDUCTION OF MINIMUM REQUIRED CONTRIBUTION BY PREFUNDING BALANCE AND FUNDING STANDARD CARRYOVER BALANCE.—

"(1) ELECTION TO MAINTAIN BALANCES.—

"(A) PREFUNDING BALANCE.—The plan sponsor of a single-employer plan may elect to maintain a prefunding balance.

"(B) FUNDING STANDARD CARRYOVER BALANCE.—

"(i) IN GENERAL.—In the case of a single-employer plan described in clause (ii), the plan sponsor may elect to maintain a funding standard carryover balance, until such balance is reduced to zero.

"(ii) PLANS MAINTAINING FUNDING STANDARD ACCOUNT IN 2007.—A plan is described in this clause if the plan—

"(I) was in effect for a plan year beginning in 2007, and

"(II) had a positive balance in the funding standard account under section 302(b) as in effect for such plan year and determined as of the end of such plan year.

"(2) APPLICATION OF BALANCES.—A prefunding balance and a funding standard carryover balance maintained pursuant to this paragraph—

"(A) shall be available for crediting against the minimum required contribution, pursuant to an election under paragraph (3),

"(B) shall be applied as a reduction in the amount treated as the value of plan assets for purposes of this section, to the extent provided in paragraph (4), and

"(C) may be reduced at any time, pursuant to an election under paragraph (5).

"(3) ELECTION TO APPLY BALANCES AGAINST MINIMUM REQUIRED CONTRIBUTION.—

"(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), in the case of any plan year in which the plan sponsor elects to credit against the minimum required contribution for the current plan year all or a portion of the prefunding balance or the funding standard carryover balance for the current plan year (not in excess of such minimum required contribution), the minimum required contribution for the plan year shall be reduced as of the first day of the plan year by the amount so credited by the plan sponsor. For purposes of the preceding sentence, the minimum required contribution shall be determined after taking into account any waiver under section 302(c).

"(B) COORDINATION WITH FUNDING STANDARD CARRYOVER BALANCE.—To the extent that any plan has a funding standard carryover balance greater than zero, no amount of the prefunding balance of such plan may be credited under this paragraph in reducing the minimum required contribution.

"(C) LIMITATION FOR UNDERFUNDED PLANS.—The preceding provisions of this paragraph shall not apply for any plan year if the ratio (expressed as a percentage) which—

"(i) the value of plan assets for the preceding plan year (as reduced under paragraph (4)(C)), bears to

"(ii) the funding target of the plan for the preceding plan year (determined without regard to subsection (i)(1)),

is less than 80 percent. In the case of plan years beginning in 2008, the ratio under this subparagraph may be determined using such methods of estimation as the Secretary of the Treasury may prescribe.

"(4) EFFECT OF BALANCES ON AMOUNTS TREATED AS VALUE OF PLAN ASSETS.—In the case of any plan maintaining a prefunding balance or a funding standard carryover balance pursuant to this subsection, the amount treated as the value of plan assets shall be deemed to be such amount, reduced as provided in the following subparagraphs:

"(A) APPLICABILITY OF SHORTFALL AMORTIZATION BASE.—For purposes of subsection (c)(5), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance, but only if an election under paragraph (2) applying any portion of the prefunding balance in reducing the minimum required contribution is in effect for the plan year.

"(B) DETERMINATION OF EXCESS ASSETS, FUNDING SHORTFALL, AND FUNDING TARGET ATTAINMENT PERCENTAGE.—

"(i) IN GENERAL.—For purposes of subsections (a), (c)(4)(B), and (d)(2)(A), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance and the funding standard carryover balance.

"(ii) SPECIAL RULE FOR CERTAIN BINDING AGREEMENTS WITH PBGC.—For purposes of subsection (c)(4)(B), the value of plan assets shall not be deemed to be reduced for a plan year by the amount of the specified balance if, with respect to such balance, there is in effect for a plan year a binding written agreement with the Pension Benefit Guaranty Corporation which provides that such balance is not available to reduce the minimum required contribution for the plan year. For purposes of the preceding sentence, the term 'specified balance' means the prefunding balance or the funding standard carryover balance, as the case may be.

"(C) AVAILABILITY OF BALANCES IN PLAN YEAR FOR CREDITING AGAINST MINIMUM REQUIRED CONTRIBUTION.—For purposes of paragraph (3)(C)(i) of this subsection, the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance.

"(5) ELECTION TO REDUCE BALANCE PRIOR TO DETERMINATIONS OF VALUE OF PLAN ASSETS AND CREDITING AGAINST MINIMUM REQUIRED CONTRIBUTION.—

"(A) IN GENERAL.—The plan sponsor may elect to reduce by any amount the balance of the prefunding balance and the funding standard carryover balance for any plan year (but not below zero). Such reduction shall be effective prior to any determination of the value of plan assets for such plan year under this section and application of the balance in reducing the minimum required contribution for such plan for such plan year pursuant to an election under paragraph (2).

"(B) COORDINATION BETWEEN PREFUNDING BALANCE AND FUNDING STANDARD CARRYOVER BALANCE.—To the extent that any plan has a funding standard carryover balance greater than zero, no election may be made under subparagraph (A) with respect to the prefunding balance.

"(6) PREFUNDING BALANCE.—

"(A) IN GENERAL.—A prefunding balance maintained by a plan shall consist of a beginning balance of zero, increased and decreased to the extent provided in subparagraphs (B) and (C), and adjusted further as provided in paragraph (8).

"(B) INCREASES.—

"(i) IN GENERAL.—As of the first day of each plan year beginning after 2008, the prefunding balance of a plan shall be increased by the amount elected by the plan sponsor for the plan year. Such amount shall not exceed the excess (if any) of—

"(I) the aggregate total of employer contributions to the plan for the preceding plan year, over—

"(II) the minimum required contribution for such preceding plan year.

"(ii) ADJUSTMENTS FOR INTEREST.—Any excess contributions under clause (i) shall be properly adjusted for interest accruing for the periods between the first day of the current plan year and the dates on which the excess contributions were made, determined by using the effective interest rate for the preceding plan year and by treating contributions as being first used to satisfy the minimum required contribution.

"(iii) CERTAIN CONTRIBUTIONS NECESSARY TO AVOID BENEFIT LIMITATIONS DISREGARDED.—The excess described in clause (i) with respect to any preceding plan year shall be reduced (but not below zero) by the amount of contributions an employer would be required to make under paragraph (1), (2), or (4) of section 206(g) to avoid a benefit limitation which would otherwise be imposed under such paragraph for the preceding plan year. Any contribution which may be taken into account in satisfying the requirements of more than 1 of such paragraphs shall be taken into account only once for purposes of this clause.

"(C) DECREASE.—The prefunding balance of a plan shall be decreased (but not below zero) by—

"(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

"(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).

"(7) FUNDING STANDARD CARRYOVER BALANCE.—

"(A) IN GENERAL.—A funding standard carryover balance maintained by a plan shall consist of a beginning balance determined under subparagraph (B), decreased to the extent provided in subparagraph (C), and adjusted further as provided in paragraph (8).

"(B) BEGINNING BALANCE.—The beginning balance of the funding standard carryover balance shall be the positive balance described in paragraph (1)(B)(ii)(II).

"(C) DECREASES.—The funding standard carryover balance of a plan shall be decreased (but not below zero) by—

"(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

"(ii) as of the time specified in paragraph (5))(A), any reduction in such balance elected under paragraph (5).

"(8) ADJUSTMENTS FOR INVESTMENT EXPERIENCE.—In determining the prefunding balance or the funding standard carryover balance of a plan as of the first day of the plan year, the plan sponsor shall, in accordance with regulations prescribed by the Secretary of the Treasury, adjust such balance to reflect the rate of return on plan assets for the preceding plan year. Notwithstanding subsection (g)(3), such rate of return shall be determined on the basis of fair market value and shall properly take into account, in accordance with such regulations, all contributions, distributions, and other plan payments made during such period.

"(9) ELECTIONS.—Elections under this subsection shall be made at such times, and in such form and manner, as shall be prescribed in regulations of the Secretary of the Treasury.

"(g) VALUATION OF PLAN ASSETS AND LIABILITIES.—

"(1) TIMING OF DETERMINATIONS.—Except as otherwise provided under this subsection, all determinations under this section for a plan year shall be made as of the valuation date of the plan for such plan year.

"(2) VALUATION DATE.—For purposes of this section—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the valuation date of a plan for any plan year shall be the first day of the plan year.

"(B) EXCEPTION FOR SMALL PLANS.—If, on each day during the preceding plan year, a plan had 100 or fewer participants, the plan may designate any day during the plan year as its valuation date for such plan year and succeeding plan years. For purposes of this subparagraph, all defined benefit plans which are single-employer plans and are maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account.

"(C) APPLICATION OF CERTAIN RULES IN DETERMINATION OF PLAN SIZE.—For purposes of this paragraph—

"(i) PLANS NOT IN EXISTENCE IN PRECEDING YEAR.—In the case of the first plan year of any plan, subparagraph (B) shall apply to such plan by taking into account the number of participants that the plan is reasonably expected to have on days during such first plan year.

"(ii) PREDECESSORS.—Any reference in subparagraph (B) to an employer shall include a reference to any predecessor of such employer.

"(3) DETERMINATION OF VALUE OF PLAN ASSETS.—For purposes of this section—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the value of plan assets shall be the fair market value of the assets.

"(B) AVERAGING ALLOWED.—A plan may determine the value of plan assets on the basis of the averaging of fair market values, but only if such method—

"(i) is permitted under regulations prescribed by the Secretary of the Treasury,

"(ii) does not provide for averaging of such values over more than the period beginning on the last day of the 25th month preceding the month in which the valuation date occurs and ending on the valuation date (or a similar period in the case of a valuation date which is not the 1st day of a month), and

"(iii) does not result in a determination of the value of plan assets which, at any time, is lower than 90 percent or greater than 110 percent of the fair market value of such assets at such time.

Any such averaging shall be adjusted for contributions and distributions (as provided by the Secretary of the Treasury).

“(4) ACCOUNTING FOR CONTRIBUTION RECEIPTS.—For purposes of determining the value of assets under paragraph (3)—

“(A) PRIOR YEAR CONTRIBUTIONS.—If—

“(i) an employer makes any contribution to the plan after the valuation date for the plan year in which the contribution is made, and

“(ii) the contribution is for a preceding plan year,

the contribution shall be taken into account as an asset of the plan as of the valuation date, except that in the case of any plan year beginning after 2008, only the present value (determined as of the valuation date) of such contribution may be taken into account. For purposes of the preceding sentence, present value shall be determined using the effective interest rate for the preceding plan year to which the contribution is properly allocable.

“(B) SPECIAL RULE FOR CURRENT YEAR CONTRIBUTIONS MADE BEFORE VALUATION DATE.—If any contributions for any plan year are made to or under the plan during the plan year but before the valuation date for the plan year, the assets of the plan as of the valuation date shall not include—

“(i) such contributions, and

“(ii) interest on such contributions for the period between the date of the contributions and the valuation date, determined by using the effective interest rate for the plan year.

“(h) ACTUARIAL ASSUMPTIONS AND METHODS.—

“(1) IN GENERAL.—Subject to this subsection, the determination of any present value or other computation under this section shall be made on the basis of actuarial assumptions and methods—

“(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

“(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

“(2) INTEREST RATES.—

“(A) EFFECTIVE INTEREST RATE.—For purposes of this section, the term ‘effective interest rate’ means, with respect to any plan for any plan year, the single rate of interest which, if used to determine the present value of the plan's accrued or earned benefits referred to in subsection (d)(1), would result in an amount equal to the funding target of the plan for such plan year.

“(B) INTEREST RATES FOR DETERMINING FUNDING TARGET.—For purposes of determining the funding target and normal cost of a plan for any plan year, the interest rate used in determining the present value of the benefits of the plan shall be—

“(i) in the case of benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year, the first segment rate with respect to the applicable month,

“(ii) in the case of benefits reasonably determined to be payable during the 15-year period beginning at the end of the period described in clause (i), the second segment rate with respect to the applicable month, and

“(iii) in the case of benefits reasonably determined to be payable after the period described in clause (ii), the third segment rate with respect to the applicable month.

“(C) SEGMENT RATES.—For purposes of this paragraph—

“(i) FIRST SEGMENT RATE.—The term ‘first segment rate’ means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 5-year period commencing with such month.

“(ii) SECOND SEGMENT RATE.—The term ‘second segment rate’ means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 15-year period beginning at the end of the period described in clause (i).

“(iii) THIRD SEGMENT RATE.—The term ‘third segment rate’ means, with respect to any month, the single rate of interest which shall be determined by the Secretary of the Treasury for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during periods beginning after the period described in clause (ii).

“(D) CORPORATE BOND YIELD CURVE.—For purposes of this paragraph—

“(i) IN GENERAL.—The term ‘corporate bond yield curve’ means, with respect to any month, a yield curve which is prescribed by the Secretary of the Treasury for such month and which reflects the average, for the 24-month period ending with the month preceding such month, of monthly yields on investment grade corporate bonds with varying maturities and that are in the top 3 quality levels available.

“(ii) ELECTION TO USE YIELD CURVE.—Solely for purposes of determining the minimum required contribution under this section, the plan sponsor may, in lieu of the segment rates determined under subparagraph (C), elect to use interest rates under the corporate bond yield curve. For purposes of the preceding sentence such curve shall be determined without regard to the 24-month averaging described in clause (i) . Such election, once made, may be revoked only with the consent of the Secretary of the Treasury.

“(E) APPLICABLE MONTH.—For purposes of this paragraph, the term ‘applicable month’ means, with respect to any plan for any plan year, the month which includes the valuation date of such plan for such plan year or, at the election of the plan sponsor, any of the 4 months which precede such month. Any election made under this subparagraph shall apply to the plan year for which the election is made and all succeeding plan years, unless the election is revoked with the consent of the Secretary of the Treasury.

“(F) PUBLICATION REQUIREMENTS.—The Secretary of the Treasury shall publish for each month the corporate bond yield curve (and the corporate bond yield curve reflecting the modification described in section 205(g)(3)(B)(iii)(I)) for such month and each of the rates determined under subparagraph (B) for such month. The Secretary of the Treasury shall also publish a description of the methodology used to determine such yield curve and such rates which is sufficiently detailed to enable plans to make reasonable projections regarding the yield curve and such rates for future months based on the plan's projection of future interest rates.

“(G) TRANSITION RULE.—

“(i) IN GENERAL.—Notwithstanding the preceding provisions of this paragraph, for plan years beginning in 2008 or 2009, the first, second, or third segment rate for a plan with respect to any month shall be equal to the sum of—

“(I) the product of such rate for such month determined without regard to this subparagraph, multiplied by the applicable percentage, and

“(II) the product of the rate determined under the rules of section 302(b)(5)(B)(ii)(II) (as in effect for plan years beginning in 2007), multiplied by a percentage equal to 100 percent minus the applicable percentage.

“(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is 33⅓ percent for plan years beginning in 2008 and 66⅔ percent for plan years beginning in 2009.

“(iii) NEW PLANS INELIGIBLE.—Clause (i) shall not apply to any plan if the first plan year of the plan begins after December 31, 2007.

“(iv) ELECTION.—The plan sponsor may elect not to have this subparagraph apply. Such election, once made, may be revoked only with the consent of the Secretary of the Treasury.

“(3) MORTALITY TABLES.—

“(A) IN GENERAL.—Except as provided in subparagraph (C) or (D), the Secretary of the Treasury shall by regulation prescribe mortality tables to be used in determining any present value or making any computation under this section. Such tables shall be based on the actual experience of pension plans and projected trends in such experience. In prescribing such tables, the Secretary of the Treasury shall take into account results of available independent studies of mortality of individuals covered by pension plans.

“(B) PERIODIC REVISION.—The Secretary of the Treasury shall (at least every 10 years) make revisions in any table in effect under subparagraph (A) to reflect the actual experience of pension plans and projected trends in such experience.

“(C) SUBSTITUTE MORTALITY TABLE.—

“(i) IN GENERAL.—Upon request by the plan sponsor and approval by the Secretary of the Treasury, a mortality table which meets the requirements of clause (iii) shall be used in determining any present value or making any computation under this section during the period of consecutive plan years (not to exceed 10) specified in the request.

“(ii) EARLY TERMINATION OF PERIOD.—Notwithstanding clause (i), a mortality table described in clause (i) shall cease to be in effect as of the earliest of—

“(I) the date on which there is a significant charge in the participations in the plan by reason of a plan spinoff or merger or otherwise, or

“(II) the date on which the plan actuary determines that such table does not meet the requirements of clause (iii).

“(iii) REQUIREMENTS.—A mortality table meets the requirements of this clause if—

“(I) there is a sufficient number of plan participants, and the pension plans have been maintained for a sufficient period of time, to have credible information necessary for purposes of subclause (II), and

“(II) such table reflects the actual experience of the pension plans maintained by the sponsor and projected trends in general mortality experience.

“(iv) ALL PLANS IN CONTROLLED GROUP MUST USE SEPARATE TABLE.—Except as provided by the Secretary of the Treasury, a plan sponsor may not use a mortality table under this subparagraph for any plan maintained by the plan sponsor unless—

“(I) a separate mortality table is established and used under this subparagraph for each other plan maintained by the plan sponsor and if the plan sponsor is a member of a controlled group, each member of the controlled group, and

“(II) the requirements of clause (iii) are met separately with respect to the table so established for each such plan, determined by only taking into account the participants of such plan, the time such plan has been in existence, and the actual experience of such plan.

“(v) DEADLINE FOR SUBMISSION AND DISPOSITION OF APPLICATION.—

“(I) SUBMISSION.—The plan sponsor shall submit a mortality table to the Secretary of the Treasury for approval under this subparagraph at least 7 months before the 1st day of the period described in clause (i).

“(II) DISPOSITION.—Any mortality table submitted to the Secretary of the Treasury for approval under this subparagraph shall be treated as in effect as of the 1st day of the period described in clause (i) unless the Secretary of the Treasury, during the 180-day period beginning on the date of such submission, disapproves of such table and provides the reasons that such table fails to meet the requirements of clause (iii). The 180-day period shall be extended upon mutual agreement of the Secretary of the Treasury and the plan sponsor.

“(D) SEPARATE MORTALITY TABLES FOR THE DISABLED.—Notwithstanding subparagraph (A)—

“(i) IN GENERAL.—The Secretary of the Treasury shall establish mortality tables which may be used (in lieu of the tables under subparagraph (A)) under this subsection for individuals who are entitled to benefits under the plan on account of disability. The Secretary of the Treasury shall establish separate tables for individuals whose disabilities occur in plan years beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

“(ii) SPECIAL RULE FOR DISABILITIES OCCURRING AFTER 1994.—In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under clause (i) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

“(iii) PERIODIC REVISION.—The Secretary of the Treasury shall (at least every 10 years) make revisions in any table in effect under clause (i) to reflect the actual experience of pension plans and projected trends in such experience.

“(4) PROBABILITY OF BENEFIT PAYMENTS IN THE FORM OF LUMP SUMS OR OTHER OPTIONAL FORMS.—For purposes of determining any present value or making any computation under this section, there shall be taken into account—

“(A) the probability that future benefit payments under the plan will be made in the form of optional forms of benefits provided under the plan (including lump sum distributions, determined on the basis of the plan's experience and other related assumptions), and

“(B) any difference in the present value of such future benefit payments resulting from the use of actuarial assumptions, in determining benefit payments in any such optional form of benefits, which are different from those specified in this subsection.

“(5) APPROVAL OF LARGE CHANGES IN ACTUARIAL ASSUMPTIONS.—

“(A) IN GENERAL.—No actuarial assumption used to determine the funding target for a plan to which this paragraph applies may be changed without the approval of the Secretary of the Treasury.

“(B) PLANS TO WHICH PARAGRAPH APPLIES.—This paragraph shall apply to a plan only if—

“(i) the plan is a single-employer plan to which title IV applies,

“(ii) the aggregate unfunded vested benefits as of the close of the preceding plan year (as determined under section 4006(a)(3)(E)(iii)) of such plan and all other plans maintained by the contributing sponsors (as defined in section 4001(a)(13)) and members of such sponsors' controlled groups (as defined in section 4001(a)(14)) which are covered by title IV (disregarding plans with no unfunded vested benefits) exceed $50,000,000, and

“(iii) the change in assumptions (determined after taking into account any changes in interest rate and mortality table) results in a decrease in the funding shortfall of the plan for the current plan year that exceeds $50,000,000, or that exceeds $5,000,000 and that is 5 percent or more of the funding target of the plan before such change.

“(i) SPECIAL RULES FOR AT-RISK PLANS.—

“(1) FUNDING TARGET FOR PLANS IN AT-RISK STATUS.—

“(A) IN GENERAL.—In the case of a plan which is in at-risk status for a plan year, the funding target of the plan for the plan year shall be equal to the sum of—

“(i) the present value of all benefits accrued or earned under the plan as of the beginning of the plan year, as determined by using the additional actuarial assumptions described in subparagraph (B), and

“(ii) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor determined under subparagraph (C).

“(B) ADDITIONAL ACTUARIAL ASSUMPTIONS.—The actuarial assumptions described in this subparagraph are as follows:

“(i) All employees who are not otherwise assumed to retire as of the valuation date but who will be eligible to elect benefits during the plan year and the 10 succeeding plan years shall be assumed to retire at the earliest retirement date under the plan but not before the end of the plan year for which the at-risk funding target and at-risk target normal cost are being determined.

“(ii) All employees shall be assumed to elect the retirement benefit available under the plan at the assumed retirement age (determined after application of clause (i)) which would result in the highest present value of benefits.

“(C) LOADING FACTOR.—The loading factor applied with respect to a plan under this paragraph for any plan year is the sum of—

“(i) $700, times the number of participants in the plan, plus

“(ii) 4 percent of the funding target (determined without regard to this paragraph) of the plan for the plan year.

“(2) TARGET NORMAL COST OF AT-RISK PLANS.—In the case of a plan which is in at-risk status for a plan year, the target normal cost of the plan for such plan year shall be equal to the sum of—

“(A) the present value of all benefits which are expected to accrue or be earned under the plan during the plan year, determined using the additional actuarial assumptions described in paragraph (1)(B), plus

“(B) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor equal to 4 percent of the target normal cost (determined without regard to this paragraph) of the plan for the plan year.

“(3) MINIMUM AMOUNT.—In no event shall—

“(A) the at-risk funding target be less than the funding target, as determined without regard to this subsection, or

“(B) the at-risk target normal cost be less than the target normal cost, as determined without regard to this subsection.

“(4) DETERMINATION OF AT-RISK STATUS.—For purposes of this subsection—

“(A) IN GENERAL.—A plan is in at-risk status for a plan year if—

“(i) the funding target attainment percentage for the preceding plan year (determined under this section without regard to this subsection) is less than 80 percent, and

“(ii) the funding target attainment percentage for the preceding plan year (determined under this section by using the additional actuarial assumptions described in paragraph (1)(B) in computing the funding target) is less than 70 percent.

“(B) TRANSITION RULE.—In the case of plan years beginning in 2008, 2009, and 2010, subparagraph (A)(i) shall be applied by substituting the following percentages for ‘80 percent’:

“(i) 65 percent in the case of 2008.

“(ii) 70 percent in the case of 2009.

“(iii) 75 percent in the case of 2010.

In the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year under subparagraph (A)(ii) may be determined using such methods of estimation as the Secretary of the Treasury may provide.

“(C) SPECIAL RULE FOR EMPLOYEES OFFERED EARLY RETIREMENT IN 2006.—

“(i) IN GENERAL.—For purposes of subparagraph (A)(ii), the additional actuarial assumptions described in paragraph (1)(B) shall not be taken into account with respect to any employee if—

“(I) such employee is employed by a specified automobile manufacturer,

“(II) such employee is offered a substantial amount of additional cash compensation, substantially enhanced retirement benefits under the plan, or materially reduced employment duties on the condition that by a specified date (not later than December 31, 2010) the employee retires (as defined under the terms of the plan),

“(III) such offer is made during 2006 and pursuant to a bona fide retirement incentive program and requires, by the terms of the offer, that such offer can be accepted not later than a specified date (not later than December 31, 2006), and

“(IV) such employee does not elect to accept such offer before the specified date on which the offer expires.

“(ii) SPECIFIED AUTOMOBILE MANUFACTURER.—For purposes of clause (i), the term ‘specified automobile manufacturer’ means—

“(I) any manufacturer of automobiles, and

“(II) any manufacturer of automobile parts which supplies such parts directly to a manufacturer of automobiles and which, after a transaction or series of transactions ending in 1999, ceased to be a member of a controlled group which included such manufacturer of automobiles.

“(5) TRANSITION BETWEEN APPLICABLE FUNDING TARGETS AND BETWEEN APPLICABLE TARGET NORMAL COSTS.—

“(A) IN GENERAL.—In any case in which a plan which is in at-risk status for a plan year has been in such status for a consecutive period of fewer than 5 plan years, the applicable amount of the funding target and of the target normal cost shall be, in lieu of the amount determined without regard to this paragraph, the sum of—

“(i) the amount determined under this section without regard to this subsection, plus “(ii) the transition percentage for such plan year of the excess of the amount determined under this subsection (without regard to this paragraph) over the amount determined under this section without regard to this subsection.

“(B) TRANSITION PERCENTAGE.—For purposes of subparagraph (A), the transition percentage shall be determined in accordance with the following table:

“If the consecutive number of years (including the plan year) the plan is in at-risk status is—	The transition percentage is—
1	20
2	40
3	60
4	80.

“(C) YEARS BEFORE EFFECTIVE DATE.—For purposes of this paragraph, plan years beginning before 2008 shall not be taken into account.

“(6) SMALL PLAN EXCEPTION.—If, on each day during the preceding plan year, a plan had 500 or fewer participants, the plan shall not be treated as in at-risk status for the plan year. For purposes of this paragraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account and the rules of subsection (g)(2)(C) shall apply.

“(j) PAYMENT OF MINIMUM REQUIRED CONTRIBUTIONS.—

“(1) IN GENERAL.—For purposes of this section, the due date for any payment of any minimum required contribution for any plan year shall be 8½ months after the close of the plan year.

“(2) INTEREST.—Any payment required under paragraph (1) for a plan year that is made on a date other than the valuation date for such plan year shall be adjusted for interest accruing for the period between the valuation date and the payment date, at the effective rate of interest for the plan for such plan year.

“(3) ACCELERATED QUARTERLY CONTRIBUTION SCHEDULE FOR UNDERFUNDED PLANS.—

“(A) FAILURE TO TIMELY MAKE REQUIRED INSTALLMENT.—In any case in which the plan has a funding shortfall for the preceding plan year, the employer maintaining the plan shall make the required installments under this paragraph and if the employer fails to pay the full amount of a required installment for the plan year, then the amount of interest charged under paragraph (2) on the underpayment for the period of underpayment shall be determined by using a rate of interest equal to the rate otherwise used under paragraph (2) plus 5 percentage points.

“(B) AMOUNT OF UNDERPAYMENT, PERIOD OF UNDERPAYMENT.—For purposes of subparagraph (A)—

“(i) AMOUNT.—The amount of the underpayment shall be the excess of—

“(I) the required installment, over

“(II) the amount (if any) of the installment contributed to or under the plan on or before the due date for the installment.

“(ii) PERIOD OF UNDERPAYMENT.—The period for which any interest is charged under this paragraph with respect to any portion of the underpayment shall run from the due date for the installment to the date on which such portion is contributed to or under the plan.

“(iii) ORDER OF CREDITING CONTRIBUTIONS.—For purposes of clause (i)(II), contributions shall be credited against unpaid required installments in the order in which such installments are required to be paid.

“(C) NUMBER OF REQUIRED INSTALLMENTS; DUE DATES.—For purposes of this paragraph—

“(i) PAYABLE IN 4 INSTALLMENTS.—There shall be 4 required installments for each plan year.

“(ii) TIME FOR PAYMENT OF INSTALLMENTS.—The due dates for required installments are set forth in the following table:

In the case of the following required installment:	The due date is:
1st	April 15
2nd	July 15
3rd	October 15
4th	January 15 of the following year.

“(D) AMOUNT OF REQUIRED INSTALLMENT.—For purposes of this paragraph—

“(i) IN GENERAL.—The amount of any required installment shall be 25 percent of the required annual payment.

“(ii) REQUIRED ANNUAL PAYMENT.—For purposes of clause (i), the term ‘required annual payment’ means the lesser of—

“(I) 90 percent of the minimum required contribution (determined without regard to this subsection) to the plan for the plan year under this section, or

“(II) 100 percent of the minimum required contribution (determined without regard to this subsection or to any waiver under section 302(c)) to the plan for the preceding plan year.

Subclause (II) shall not apply if the preceding plan year referred to in such clause was not a year of 12 months.

“(E) FISCAL YEARS AND SHORT YEARS.—

“(i) FISCAL YEARS.—In applying this paragraph to a plan year beginning on any date other than January 1, there shall be substituted for the months specified in this paragraph, the months which correspond thereto.

“(ii) SHORT PLAN YEAR.—This subparagraph shall be applied to plan years of less than 12 months in accordance with regulations prescribed by the Secretary of the Treasury.

“(4) LIQUIDITY REQUIREMENT IN CONNECTION WITH QUARTERLY CONTRIBUTIONS.—

“(A) IN GENERAL.—A plan to which this paragraph applies shall be treated as failing to pay the full amount of any required installment under paragraph (3) to the extent that the value of the liquid assets paid in such installment is less than the liquidity shortfall (whether or not such liquidity shortfall exceeds the amount of such installment required to be paid but for this paragraph).

“(B) PLANS TO WHICH PARAGRAPH APPLIES.—This paragraph shall apply to a plan (other than a plan described in subsection (g)(2)(B)) which—

“(i) is required to pay installments under paragraph (3) for a plan year, and

“(ii) has a liquidity shortfall for any quarter during such plan year.

“(C) PERIOD OF UNDERPAYMENT.—For purposes of paragraph (3)(A), any portion of an installment that is treated as not paid under subparagraph (A) shall continue to be treated as unpaid until the close of the quarter in which the due date for such installment occurs.

“(D) LIMITATION ON INCREASE.—If the amount of any required installment is increased by reason of subparagraph (A), in no event shall such increase exceed the amount which, when added to prior installments for the plan year, is necessary to increase the funding target attainment percentage of the plan for the plan year (taking into account the expected increase in funding target due to benefits accruing or earned during the plan year) to 100 percent.

“(E) DEFINITIONS.—For purposes of this paragraph—

“(i) LIQUIDITY SHORTFALL.—The term ‘liquidity shortfall’ means, with respect to any required installment, an amount equal to the excess (as of the last day of the quarter for which such installment is made) of—

“(I) the base amount with respect to such quarter, over

“(II) the value (as of such last day) of the plan's liquid assets.

“(ii) BASE AMOUNT.—

“(I) IN GENERAL.—The term ‘base amount’ means, with respect to any quarter, an amount equal to 3 times the sum of the adjusted disbursements from the plan for the 12 months ending on the last day of such quarter.

“(II) SPECIAL RULE.—If the amount determined under subclause (I) exceeds an amount equal to 2 times the sum of the adjusted disbursements from the plan for the 36 months ending on the last day of the quarter and an enrolled actuary certifies to the satisfaction of the Secretary of the Treasury that such excess is the result of nonrecurring circumstances, the base amount with respect to such quarter shall be determined without regard to amounts related to those nonrecurring circumstances.

“(iii) DISBURSEMENTS FROM THE PLAN.—The term ‘disbursements from the plan’ means all disbursements from the trust, including purchases of annuities, payments of single sums and other benefits, and administrative expenses.

“(iv) ADJUSTED DISBURSEMENTS.—The term ‘adjusted disbursements’ means disbursements from the plan reduced by the product of—

“(I) the plan's funding target attainment percentage for the plan year, and

“(II) the sum of the purchases of annuities, payments of single sums, and such other disbursements as the Secretary of the Treasury shall provide in regulations.

“(v) LIQUID ASSETS.—The term ‘liquid assets’ means cash, marketable securities, and such other assets as specified by the Secretary of the Treasury in regulations.

“(vi) QUARTER.—The term ‘quarter’ means, with respect to any required installment, the 3-month period preceding the month in which the due date for such installment occurs.

“(F) REGULATIONS.—The Secretary of the Treasury may prescribe such regulations as are necessary to carry out this paragraph.

“(k) IMPOSITION OF LIEN WHERE FAILURE TO MAKE REQUIRED CONTRIBUTIONS.—

“(1) IN GENERAL.—In the case of a plan to which this subsection applies (as provided under paragraph (2)), if—

“(A) any person fails to make a contribution payment required by section 302 and this section before the due date for such payment, and

“(B) the unpaid balance of such payment (including interest), when added to the aggregate unpaid balance of all preceding such payments for which payment was not made before the due date (including interest), exceeds $1,000,000,

then there shall be a lien in favor of the plan in the amount determined under paragraph (3) upon all property and rights to property, whether real or personal, belonging to such person and any other person who is a member of the same controlled group of which such person is a member.

"(2) PLANS TO WHICH SUBSECTION APPLIES.—This subsection shall apply to a single-employer plan covered under section 4021 for any plan year for which the funding target attainment percentage (as defined in subsection (d)(2)) of such plan is less than 100 percent.

"(3) AMOUNT OF LIEN.—For purposes of paragraph (1), the amount of the lien shall be equal to the aggregate unpaid balance of contribution payments required under this section and section 302 for which payment has not been made before the due date.

"(4) NOTICE OF FAILURE; LIEN.—

"(A) NOTICE OF FAILURE.—A person committing a failure described in paragraph (1) shall notify the Pension Benefit Guaranty Corporation of such failure within 10 days of the due date for the required contribution payment.

"(B) PERIOD OF LIEN.—The lien imposed by paragraph (1) shall arise on the due date for the required contribution payment and shall continue until the last day of the first plan year in which the plan ceases to be described in paragraph (1)(B). Such lien shall continue to run without regard to whether such plan continues to be described in paragraph (2) during the period referred to in the preceding sentence.

"(C) CERTAIN RULES TO APPLY.—Any amount with respect to which a lien is imposed under paragraph (1) shall be treated as taxes due and owing the United States and rules similar to the rules of subsections (c), (d), and (e) of section 4068 shall apply with respect to a lien imposed by subsection (a) and the amount with respect to such lien.

"(5) ENFORCEMENT.—Any lien created under paragraph (1) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Pension Benefit Guaranty Corporation, by the contributing sponsor (or any member of the controlled group of the contributing sponsor).

"(6) DEFINITIONS.—For purposes of this subsection—

"(B) DUE DATE; REQUIRED INSTALLMENT.—The terms 'due date' and 'required installment' have the meanings given such terms by subsection (j), except that in the case of a payment other than a required installment, the due date shall be the date such payment is required to be made under section 303.

(b) CLERICAL AMENDMENT.—The table of sections in section 1 of such Act (as amended by section 101) is amended by inserting after the item relating to section 302 the following new item:

"Sec. 303. Minimum funding standards for
single-employer defined benefit
pension plans.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to plan years beginning after 2007.

SEC. 103. BENEFIT LIMITATIONS UNDER SINGLE-EMPLOYER PLANS.

(a) FUNDING-BASED LIMITS ON BENEFITS AND BENEFIT ACCRUALS UNDER SINGLE-EMPLOYER PLANS.—Section 206 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1056) is amended by adding at the end the following new subsection:

"(g) FUNDING-BASED LIMITS ON BENEFITS AND BENEFIT ACCRUALS UNDER SINGLE-EMPLOYER PLANS.—

"(1) FUNDING-BASED LIMITATION ON SHUTDOWN BENEFITS AND OTHER UNPREDICTABLE CONTINGENT EVENT BENEFITS UNDER SINGLE-EMPLOYER PLANS.—

"(A) IN GENERAL.—If a participant of a defined benefit plan which is a single-employer plan is entitled to an unpredictable contingent event benefit payable with respect to any event occurring during any plan year, the plan shall provide that such benefit may not be provided if the adjusted funding target attainment percentage for such plan year—

"(i) is less than 60 percent, or

"(ii) would be less than 60 percent taking into account such occurrence.

"(B) EXEMPTION.—Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to—

"(i) in the case of subparagraph (A)(i), the amount of the increase in the funding target of the plan (under section 303) for the plan year attributable to the occurrence referred to in subparagraph (A), and

"(ii) in the case of subparagraph (A)(ii), the amount sufficient to result in a funding target attainment percentage of 60 percent.

"(C) UNPREDICTABLE CONTINGENT EVENT.—For purposes of this paragraph, the term 'unpredictable contingent event benefit' means any benefit payable solely by reason of—

"(i) a plant shutdown (or similar event, as determined by the Secretary of the Treasury), or

"(ii) an event other than the attainment of any age, performance of any service, receipt or derivation of any compensation, or occurrence of death or disability.

"(2) LIMITATIONS ON PLAN AMENDMENTS INCREASING LIABILITY FOR BENEFITS.—

"(A) IN GENERAL.—No amendment to a defined benefit plan which is a single-employer plan which has the effect of increasing liabilities of the plan by reason of increases in benefits, establishment of new benefits, changing the rate of benefit accrual, or changing the rate at which benefits become nonforfeitable may take effect during any plan year if the adjusted funding target attainment percentage for such plan year is—

"(i) less than 80 percent, or

"(ii) would be less than 80 percent taking into account such amendment.

"(B) EXEMPTION.—Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year (or if later, the effective date of the amendment), upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to—

"(i) in the case of subparagraph (A)(i), the amount of the increase in the funding target of the plan (under section 303) for the plan year attributable to the amendment, and

"(ii) in the case of subparagraph (A)(ii), the amount sufficient to result in an adjusted funding target attainment percentage of 80 percent.

"(C) EXCEPTION FOR CERTAIN BENEFIT INCREASES.—Subparagraph (A) shall not apply to any amendment which provides for an increase in benefits under a formula which is not based on a participant's compensation, but only if the rate of such increase is not in excess of the contemporaneous rate of increase in average wages of participants covered by the amendment.

"(3) LIMITATIONS ON ACCELERATED BENEFIT DISTRIBUTIONS.—

"(A) FUNDING PERCENTAGE LESS THAN 60 PERCENT.—A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, the plan may not pay any prohibited payment after the valuation date for the plan year.

"(B) BANKRUPTCY.—A defined benefit plan which is a single-employer plan shall provide that, during any period in which the plan sponsor is a debtor in a case under title 11, United States Code, or similar Federal or State law, the plan may not pay any prohibited payment. The preceding sentence shall not apply on or after the date on which the enrolled actuary of the plan certifies that the adjusted funding target attainment percentage of such plan is not less than 100 percent.

"(C) LIMITED PAYMENT IF PERCENTAGE AT LEAST 60 PERCENT BUT LESS THAN 80 PERCENT.—

"(i) IN GENERAL.—A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is 60 percent or greater but less than 80 percent, the plan may not pay any prohibited payment after the valuation date for the plan year to the extent the amount of the payment exceeds the lesser of—

"(I) 50 percent of the amount of the payment which could be made without regard to this subsection, or

"(II) the present value (determined under guidance prescribed by the Pension Benefit Guaranty Corporation, using the interest and mortality assumptions under section 205(g)) of the maximum guarantee with respect to the participant under section 4022.

"(ii) ONE-TIME APPLICATION.—

"(I) IN GENERAL.—The plan shall also provide that only 1 prohibited payment meeting the requirements of clause (i) may be made with respect to any participant during any period of consecutive plan years to which the limitations under either subparagraph (A) or (B) or this subparagraph applies.

"(II) TREATMENT OF BENEFICIARIES.—For purposes of this clause, a participant and any beneficiary on his behalf (including an alternate payee, as defined in section 206(d)(3)(K)) shall be treated as 1 participant. If the accrued benefit of a participant is allocated to such an alternate payee and 1 or more other persons, the amount under clause (i) shall be allocated among such persons in the same manner as the accrued benefit is allocated unless the qualified domestic relations order (as defined in section 206(d)(3)(B)(i)) provides otherwise.

"(D) EXCEPTION.—This paragraph shall not apply to any plan for any plan year if the terms of such plan (as in effect for the period beginning on September 1, 2005, and ending with such plan year) provide for no benefit accruals with respect to any participant during such period.

"(E) PROHIBITED PAYMENT.—For purpose of this paragraph, the term 'prohibited payment' means—

"(i) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 204(b)(1)(G)), to a participant or beneficiary whose annuity starting date (as defined in section 205(h)(2)) occurs during any period a limitation under subparagraph (A) or (B) is in effect,

"(ii) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and

"(iii) any other payment specified by the Secretary of the Treasury by regulations.

"(4) LIMITATION ON BENEFIT ACCRUALS FOR PLANS WITH SEVERE FUNDING SHORTFALLS.—

"(A) IN GENERAL.—A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, benefit accruals under the plan shall cease as of the valuation date for the plan year.

"(B) EXEMPTION.—Subparagraph (A) shall cease to apply with respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 303) equal to the amount sufficient to result in an adjusted funding target attainment percentage of 60 percent.

"(5) RULES RELATING TO CONTRIBUTIONS REQUIRED TO AVOID BENEFIT LIMITATIONS.—

"(A) SECURITY MAY BE PROVIDED.—

"(i) IN GENERAL.—For purposes of this subsection, the adjusted funding target attainment percentage shall be determined by treating as an asset of the plan any security provided by a plan sponsor in a form meeting the requirements of clause (ii).

"(ii) FORM OF SECURITY.—The security required under clause (i) shall consist of—

"(I) a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412 of this Act,

"(II) cash, or United States obligations which mature in 3 years or less, held in escrow by a bank or similar financial institution, or

"(III) such other form of security as is satisfactory to the Secretary of the Treasury and the parties involved.

"(iii) ENFORCEMENT.—Any security provided under clause (i) may be perfected and enforced at any time after the earlier of—

"(I) the date on which the plan terminates,

"(II) if there is a failure to make a payment of the minimum required contribution for any plan year beginning after the security is provided, the due date for the payment under section 303(j), or

"(III) if the adjusted funding target attainment percentage is less than 60 percent for a consecutive period of 7 years, the valuation date for the last year in the period.

"(iv) RELEASE OF SECURITY.—The security shall be released (and any amounts thereunder shall be refunded together with any interest accrued thereon) at such time as the Secretary of the Treasury may prescribe in regulations, including regulations for partial releases of the security by reason of increases in the funding target attainment percentage.

"(B) PREFUNDING BALANCE OR FUNDING STANDARD CARRYOVER BALANCE MAY NOT BE USED.—No prefunding balance or funding standard carryover balance under section 303(f) may be used under paragraph (1), (2), or (4) to satisfy any payment an employer may make under any such paragraph to avoid or terminate the application of any limitation under such paragraph.

"(C) DEEMED REDUCTION OF FUNDING BALANCES.—

"(i) IN GENERAL.—Subject to clause (iii), in any case in which a benefit limitation under paragraph (1), (2), (3), or (4) would (but for this subparagraph and determined without regard to paragraph (1)(B), (2)(B), or (4)(B)) apply to such plan for the plan year, the plan sponsor of such plan shall be treated for purposes of this Act as having made an election under section 303(f) to reduce the prefunding balance or funding standard carryover balance by such amount as is necessary for such benefit limitation to not apply to the plan for such plan year.

"(ii) EXCEPTION FOR INSUFFICIENT FUNDING BALANCES.—Clause (i) shall not apply with respect to a benefit limitation for any plan year if the application of clause (i) would not result in the benefit limitation not applying for such plan year.

"(iii) RESTRICTIONS OF CERTAIN RULES TO COLLECTIVELY BARGAINED PLANS.—With respect to any benefit limitation under paragraph (1), (2), or (4), clause (i) shall only apply in the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers.

"(6) NEW PLANS.—Paragraphs (1), (2) and (4) shall not apply to a plan for the first 5 plan years of the plan. For purposes of this paragraph, the reference in this paragraph to a plan shall include a reference to any predecessor plan.

"(7) PRESUMED UNDERFUNDING FOR PURPOSES OF BENEFIT LIMITATIONS.—

"(A) PRESUMPTION OF CONTINUED UNDERFUNDING.—In any case in which a benefit limitation under paragraph (1), (2), (3), or (4) has been applied to a plan with respect to the plan year preceding the current plan year, the adjusted funding target attainment percentage of the plan for the current plan year shall be presumed to be equal to the adjusted funding target attainment percentage of the plan for the preceding plan year until the enrolled actuary of the plan certifies the actual adjusted funding target attainment percentage of the plan for the current plan year.

"(B) PRESUMPTION OF UNDERFUNDING AFTER 10TH MONTH.—In any case in which no certification of the adjusted funding target attainment percentage for the current plan year is made with respect to the plan before the first day of the 10th month of such year, for purposes of paragraphs (1), (2), (3), and (4), such first day shall be deemed, for purposes of such paragraph, to be the valuation date of the plan for the current plan year and the plan's adjusted funding target attainment percentage shall be conclusively presumed to be less than 60 percent as of such first day.

"(C) PRESUMPTION OF UNDERFUNDING AFTER 4TH MONTH FOR NEARLY UNDERFUNDED PLANS.—In any case in which—

"(i) a benefit limitation under paragraph (1), (2), (3), or (4) did not apply to a plan with respect to the plan year preceding the current plan year, but the adjusted funding target attainment percentage of the plan for such preceding plan year was not more than 10 percentage points greater than the percentage which would have caused such paragraph to apply to the plan with respect to such preceding plan year, and

"(ii) as of the first day of the 4th month of the current plan year, the enrolled actuary of the plan has not certified the actual adjusted funding target attainment percentage of the plan for the current plan year,

until the enrolled actuary so certifies, such first day shall be deemed, for purposes of such paragraph, to be the valuation date of the plan for the current plan year and the adjusted funding target attainment percentage of the plan as of such first day shall, for purposes of such paragraph, be presumed to be equal to 10 percentage points less than the adjusted funding target attainment percentage of the plan for such preceding plan year.

"(8) TREATMENT OF PLAN AS OF CLOSE OF PROHIBITED OR CESSATION PERIOD.—For purposes of applying this part—

"(A) OPERATION OF PLAN AFTER PERIOD.—Unless the plan provides otherwise, payments and accruals will resume effective as of the day following the close of the period for which any limitation of payment or accrual of benefits under paragraph (3) or (4) applies.

"(B) TREATMENT OF AFFECTED BENEFITS.—Nothing in this paragraph shall be construed as affecting the plan's treatment of benefits which would have been paid or accrued but for this subsection.

"(9) TERMS RELATING TO FUNDING TARGET ATTAINMENT PERCENTAGE.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'funding target attainment percentage' has the same meaning given such term by section 303(d)(2).

"(B) ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE.—The term 'adjusted funding target attainment percentage' means the funding target attainment percentage which is determined under subparagraph (A) by increasing each of the amounts under subparagraphs (A) and (B) of section 303(d)(2) by the aggregate amount of purchases of annuities for employees other than highly compensated employees (as defined in section 414(q) of the Internal Revenue Code of 1986) which were made by the plan during the preceding 2 plan years.

"(C) APPLICATION TO PLANS WHICH ARE FULLY FUNDED WITHOUT REGARD TO REDUCTIONS FOR FUNDING BALANCES.—

"(i) IN GENERAL.—In the case of a plan for any plan year, if the funding target attainment percentage is 100 percent or more (determined without regard to this subparagraph and without regard to the reduction in the value of assets under section 303(f)(4)), the funding target attainment percentage for purposes of subparagraphs (A) and (B) shall be determined without regard to such reduction.

"(ii) TRANSITION RULE.—Clause (i) shall be applied to plan years beginning after 2007 and before 2011 by substituting for '100 percent' the applicable percentage determined in accordance with the following table:

"In the case of a plan year beginning in calendar year:	**The applicable percentage is**
2008	92
2009	94
2010	96.

"(iii) LIMITATION.—Clause (ii) shall not apply with respect to any plan year after 2008 unless the funding target attainment percentage (determined without regard to this subparagraph) of the plan for each preceding plan year after 2007 was not less than the applicable percentage with respect to such preceding plan year determined under clause (ii).

"(10) SPECIAL RULE FOR 2008.—For purposes of this subsection, in the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year may be determined using such methods of estimation as the Secretary of the Treasury may provide.".

"(2) in the case of a plan to which section 206(g)(4) applies, after the valuation date for the plan year described in section 206(g)(4)(B) for which the plan's adjusted funding target attainment percentage for the plan year is less than 60 percent (or, if earlier, the date such percentage is deemed to be less than 60 percent under section 206(g)(7)), and

"SEC. 412. MINIMUM FUNDING STANDARDS.

"(a) Requirement To Meet Minimum Funding Standard.—

"(1) In general.—A plan to which this section applies shall satisfy the minimum funding standard applicable to the plan for any plan year.

"(2) Minimum funding standard.—For purposes of paragraph (1), a plan shall be treated as satisfying the minimum funding standard for a plan year if—

"(A) in the case of a defined benefit plan which is not a multiemployer plan, the employer makes contributions to or under the plan for the plan year which, in the aggregate, are not less than the minimum required contribution determined under section 430 for the plan for the plan year,

"(B) in the case of a money purchase plan which is not a multiemployer plan, the employer makes contributions to or under the plan for the plan year which are required under the terms of the plan, and

"(C) in the case of a multiemployer plan, the employers make contributions to or under the plan for any plan year which, in the aggregate, are sufficient to ensure that the plan does not have an accumulated funding deficiency under section 431 as of the end of the plan year.

"(b) Liability for Contributions.—

"(1) In general.—Except as provided in paragraph (2), the amount of any contribution required by this section (including any required installments under paragraphs (3) and (4) of section 430(j)) shall be paid by the employer responsible for making contributions to or under the plan.

"(ii) application of the standard would be adverse to the interests of plan participants in the aggregate,

the Secretary may, subject to subparagraph (C), waive the requirements of subsection (a) for such year with respect to all or any portion of the minimum funding standard. The Secretary shall not waive the minimum funding standard with respect to a plan for more than 3 of any 15 (5 of any 15 in the case of a multiemployer plan) consecutive plan years

"(B) Effects of waiver.—If a waiver is granted under subparagraph (A) for any plan year—

"(i) in the case of a defined benefit plan which is not a multiemployer plan, the minimum required contribution under section 430 for the plan year shall be reduced by the amount of the waived funding deficiency and such amount shall be amortized as required under section 430(e), and

"(ii) in the case of a multiemployer plan, the funding standard account shall be credited under section 431(b)(3)(C) with the amount of the waived funding deficiency and such amount shall be amortized as required under section 431(b)(2)(C).

"(A) the employer is operating at an economic loss,

"(B) there is substantial unemployment or underemployment in the trade or business and in the industry concerned,

"(C) the sales and profits of the industry concerned are depressed or declining, and

"(D) it is reasonable to expect that the plan will be continued only if the waiver is granted.

"(3) Waived funding deficiency.—For purposes of this section and part III of this subchapter, the term 'waived funding deficiency' means the portion of the minimum funding standard under subsection (a) (determined without regard to the waiver) for a plan year waived by the Secretary and not satisfied by employer contributions.

"(4) Security for waivers for single-employer plans, consultations.—

"(A) Security may be required.—

"(i) In general.—Except as provided in subparagraph (C), the Secretary may require an employer maintaining a defined benefit plan which is a single-employer plan (within the meaning of section 4001(a)(15) of the Employee Retirement Income Security Act of 1974) to provide security to such plan as a condition for granting or modifying a waiver under paragraph (1).

"(ii) Special rules.—Any security provided under clause (i) may be perfected and enforced only by the Pension Benefit Guaranty Corporation, or at the direction of the Corporation, by a contributing sponsor (within the meaning of section 4001(a)(13) of the Employee Retirement Income Security Act of 1974), or a member of such sponsor's controlled group (within the meaning of section 4001(a)(14) of such Act).

“(B) CONSULTATION WITH THE PENSION BENEFIT GUARANTY CORPORATION.—Except as provided in subparagraph (C), the Secretary shall, before granting or modifying a waiver under this subsection with respect to a plan described in subparagraph (A)(i)—

“(i) provide the Pension Benefit Guaranty Corporation with—

“(I) notice of the completed application for any waiver or modification, and

“(II) an opportunity to comment on such application within 30 days after receipt of such notice, and

“(ii) consider—

“(I) any comments of the Corporation under clause (i)(II), and

“(II) any views of any employee organization (within the meaning of section 3(4) of the Employee Retirement Income Security Act of 1974) representing participants in the plan which are submitted in writing to the Secretary in connection with such application.

Information provided to the Corporation under this subparagraph shall be considered tax return information and subject to the safeguarding and reporting requirements of section 6103(p).

“(C) EXCEPTION FOR CERTAIN WAIVERS.—

“(i) IN GENERAL.—The preceding provisions of this paragraph shall not apply to any plan with respect to which the sum of—

“(I) the aggregate unpaid minimum required contributions (within the meaning of section 4971(c)(4)) for the plan year and all preceding plan years, and

“(II) the present value of all waiver amortization installments determined for the plan year and succeeding plan years under section 430(e)(2),

is less than $1,000,000.

“(ii) TREATMENT OF WAIVERS FOR WHICH APPLICATIONS ARE PENDING.—The amount described in clause (i)(I) shall include any increase in such amount which would result if all applications for waivers of the minimum funding standard under this subsection which are pending with respect to such plan were denied.

“(5) SPECIAL RULES FOR SINGLE-EMPLOYER PLANS.—

“(A) APPLICATION MUST BE SUBMITTED BEFORE DATE 2½ MONTHS AFTER CLOSE OF YEAR.—In the case of a defined benefit plan which is not a multiemployer plan, no waiver may be granted under this subsection with respect to any plan for any plan year unless an application therefor is submitted to the Secretary not later than the 15th day of the 3rd month beginning after the close of such plan year.

“(B) SPECIAL RULE IF EMPLOYER IS MEMBER OF CONTROLLED GROUP.—In the case of a defined benefit plan which is not a multiemployer plan, if an employer is a member of a controlled group, the temporary substantial business hardship requirements of paragraph (1) shall be treated as met only if such requirements are met—

“(i) with respect to such employer, and

“(ii) with respect to the controlled group of which such employer is a member (determined by treating all members of such group as a single employer).

The Secretary may provide that an analysis of a trade or business or industry of a member need not be conducted if the Secretary determines such analysis is not necessary because the taking into account of such member would not significantly affect the determination under this paragraph.

“(6) ADVANCE NOTICE.—

“(A) IN GENERAL.—The Secretary shall, before granting a waiver under this subsection, require each applicant to provide evidence satisfactory to the Secretary that the applicant has provided notice of the filing of the application for such waiver to each affected party (as defined in section 4001(a)(21) of the Employee Retirement Income Security Act of 1974). Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV of the Employee Retirement Income Security Act of 1974 and for benefit liabilities.

“(B) CONSIDERATION OF RELEVANT INFORMATION.—The Secretary shall consider any relevant information provided by a person to whom notice was given under subparagraph (A).

“(7) RESTRICTION ON PLAN AMENDMENTS.—

“(A) IN GENERAL.—No amendment of a plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan shall be adopted if a waiver under this subsection or an extension of time under section 431(d) is in effect with respect to the plan, or if a plan amendment described in subsection (d)(2) has been made at any time in the preceding 12 months (24 months in the case of a multiemployer plan). If a plan is amended in violation of the preceding sentence, any such waiver, or extension of time, shall not apply to any plan year ending on or after the date on which such amendment is adopted.

“(B) EXCEPTION.—Subparagraph (A) shall not apply to any plan amendment which—

“(i) the Secretary determines to be reasonable and which provides for only de minimis increases in the liabilities of the plan,

“(ii) only repeals an amendment described in subsection (d)(2), or

“(iii) is required as a condition of qualification under part I of subchapter D, of chapter 1.

“(d) MISCELLANEOUS RULES.—

“(1) CHANGE IN METHOD OR YEAR.—If the funding method, the valuation date, or a plan year for a plan is changed, the change shall take effect only if approved by the Secretary.

“(2) CERTAIN RETROACTIVE PLAN AMENDMENTS.—For purposes of this section, any amendment applying to a plan year which—

“(A) is adopted after the close of such plan year but no later than 2½ months after the close of the plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

“(B) does not reduce the accrued benefit of any participant determined as of the beginning of the first plan year to which the amendment applies, and

“(C) does not reduce the accrued benefit of any participant determined as of the time of adoption except to the extent required by the circumstances,

shall, at the election of the plan administrator, be deemed to have been made on the first day of such plan year. No amendment described in this paragraph which reduces the accrued benefits of any participant shall take effect unless the plan administrator files a notice with the Secretary notifying him of such amendment and the Secretary has approved such amendment, or within 90 days after the date on which such notice was filed, failed to disapprove such amendment. No amendment described in this subsection shall be approved by the Secretary unless the Secretary determines that such amendment is necessary because of a temporary substantial business hardship (as determined under subsection (c)(2)) or a substantial business hardship (as so determined) in the case of a multiemployer plan and that a waiver under subsection (c) (or, in the case of a multiemployer plan, any extension of the amortization period under section 431(d)) is unavailable or inadequate.

“(3) CONTROLLED GROUP.—For purposes of this section, the term ‘controlled group’ means any group treated as a single employer under subsection (b), (c), (m), or (o) of section 414.

“(e) PLANS TO WHICH SECTION APPLIES.—

“(1) IN GENERAL.—Except as provided in paragraphs (2) and (4), this section applies to a plan if, for any plan year beginning on or after the effective date of this section for such plan under the Employee Retirement Income Security Act of 1974—

“(A) such plan included a trust which qualified (or was determined by the Secretary to have qualified) under section 401(a), or

“(B) such plan satisfied (or was determined by the Secretary to have satisfied) the requirements of section 403(a).

“(2) EXCEPTIONS.—This section shall not apply to—

“(A) any profit-sharing or stock bonus plan,

“(B) any insurance contract plan described in paragraph (3),

“(C) any governmental plan (within the meaning of section 414(d)),

“(D) any church plan (within the meaning of section 414(e)) with respect to which the election provided by section 410(d) has not been made,

“(E) any plan which has not, at any time after September 2, 1974, provided for employer contributions, or

“(F) any plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

No plan described in subparagraph (C), (D), or (F) shall be treated as a qualified plan for purposes of section 401(a) unless such plan meets the requirements of section 401(a)(7) as in effect on September 1, 1974.

“(3) CERTAIN INSURANCE CONTRACT PLANS.—A plan is described in this paragraph if—

“(A) the plan is funded exclusively by the purchase of individual insurance contracts,

“(B) such contracts provide for level annual premium payments to be paid extending not later than the retirement age for each individual participating in the plan, and commencing with the date the individual became a participant in the plan (or, in the case of an increase in benefits, commencing at the time such increase becomes effective),

“(C) benefits provided by the plan are equal to the benefits provided under each contract at normal retirement age under the plan and are guaranteed by an insurance carrier (licensed under the laws of a State to do business with the plan) to the extent premiums have been paid,

“(D) premiums payable for the plan year, and all prior plan years, under such contracts have been paid before lapse or there is reinstatement of the policy,

“(E) no rights under such contracts have been subject to a security interest at any time during the plan year, and

“(F) no policy loans are outstanding at any time during the plan year.

A plan funded exclusively by the purchase of group insurance contracts which is determined under regulations prescribed by the Secretary to have the same characteristics as contracts described in the preceding sentence shall be treated as a plan described in this paragraph.

"(4) CERTAIN TERMINATED MULTIEMPLOYER PLANS.—This section applies with respect to a terminated multiemployer plan to which section 4021 of the Employee Retirement Income Security Act of 1974 applies until the last day of the plan year in which the plan terminates (within the meaning of section 4041A(a)(2) of such Act).".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to plan years beginning after December 31, 2007.

SEC. 112. FUNDING RULES FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

(a) IN GENERAL.—Subchapter D of chapter 1 of the Internal Revenue Code of 1986 (relating to deferred compensation, etc.) is amended by adding at the end the following new part:

"PART III—MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS

"SEC. 430. MINIMUM FUNDING STANDARDS FOR SINGLE-EMPLOYER DEFINED BENEFIT PENSION PLANS.

"(a) MINIMUM REQUIRED CONTRIBUTION.—For purposes of this section and section 412(a)(2)(A), except as provided in subsection (f), the term 'minimum required contribution' means, with respect to any plan year of a defined benefit plan which is not a multiemployer plan—

"(1) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) is less than the funding target of the plan for the plan year, the sum of—

"(A) the target normal cost of the plan for the plan year,

"(B) the shortfall amortization charge (if any) for the plan for the plan year determined under subsection (c), and

"(C) the waiver amortization charge (if any) for the plan for the plan year as determined under subsection (e);

"(2) in any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) equals or exceeds the funding target of the plan for the plan year, the target normal cost of the plan for the plan year reduced (but not below zero) by such excess.

"(b) TARGET NORMAL COST.—For purposes of this section, except as provided in subsection (i)(2) with respect to plans in at-risk status, the term 'target normal cost' means, for any plan year, the present value of all benefits which are expected to accrue or to be earned under the plan during the plan year. For purposes of this subsection, if any benefit attributable to services performed in a preceding plan year is increased by reason of any increase in compensation during the current plan year, the increase in such benefit shall be treated as having accrued during the current plan year.

"(c) SHORTFALL AMORTIZATION CHARGE.—

"(1) IN GENERAL.—For purposes of this section, the shortfall amortization charge for a plan for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to the shortfall amortization bases for such plan year and each of the 6 preceding plan years.

"(2) SHORTFALL AMORTIZATION INSTALLMENT.—For purposes of paragraph (1)—

"(A) DETERMINATION.—The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-plan-year period beginning with such plan year.

"(B) SHORTFALL INSTALLMENT.—The shortfall amortization installment for any plan year in the 7-plan-year period under subparagraph (A) with respect to any shortfall amortization base is the annual installment determined under subparagraph (A) for that year for that base.

"(C) SEGMENT RATES.—In determining any shortfall amortization installment under this paragraph, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

"(3) SHORTFALL AMORTIZATION BASE.—For purposes of this section, the shortfall amortization base of a plan for a plan year is—

"(A) the funding shortfall of such plan for such plan year, minus

"(B) the present value (determined using the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2)) of the aggregate total of the shortfall amortization installments and waiver amortization installments which have been determined for such plan year and any succeeding plan year with respect to the shortfall amortization bases and waiver amortization bases of the plan for any plan year preceding such plan year.

"(4) FUNDING SHORTFALL.—For purposes of this section, the funding shortfall of a plan for any plan year is the excess (if any) of—

"(A) the funding target of the plan for the plan year, over

"(B) the value of plan assets of the plan (as reduced under subsection (f)(4)(B)) for the plan year which are held by the plan on the valuation date.

"(5) EXEMPTION FROM NEW SHORTFALL AMORTIZATION BASE.—

"(A) IN GENERAL.—In any case in which the value of plan assets of the plan (as reduced under subsection (f)(4)(A)) is equal to or greater than the funding target of the plan for the plan year, the shortfall amortization base of the plan for such plan year shall be zero.

"(B) TRANSITION RULE.—

"(i) IN GENERAL.—Except as provided in clauses (iii) and (iv), in the case of plan years beginning after 2007 and before 2011, only the applicable percentage of the funding target shall be taken into account under paragraph (3)(A) in determining the funding shortfall for the plan year for purposes of subparagraph (A).

"(ii) APPLICABLE PERCENTAGE.—For purposes of subparagraph (A), the applicable percentage shall be determined in accordance with the following table:

"**In the case of a plan year beginning in calendar year:**	**The applicable percentage is**
2008	92
2009	94
2010	96.

"(iii) LIMITATION.—Clause (i) shall not apply with respect to any plan year after 2008 unless the shortfall amortization base for each of the preceding years beginning after 2007 was zero (determined after application of this subparagraph).

"(iv) TRANSITION RELIEF NOT AVAILABLE FOR NEW OR DEFICIT REDUCTION PLANS.—Clause (i) shall not apply to a plan—

"(I) which was not in effect for a plan year beginning in 2007, or

"(II) which was in effect for a plan year beginning in 2007 and which was subject to section 412(l) (as in effect for plan years beginning in 2007), determined after the application of paragraphs (6) and (9) thereof.

"(6) EARLY DEEMED AMORTIZATION UPON ATTAINMENT OF FUNDING TARGET.—In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the shortfall amortization charge for such plan year and succeeding plan years, the shortfall amortization bases for all preceding plan years (and all shortfall amortization installments determined with respect to such bases) shall be reduced to zero.

"(d) RULES RELATING TO FUNDING TARGET.—For purposes of this section—

"(1) FUNDING TARGET.—Except as provided in subsection (i)(1) with respect to plans in at-risk status, the funding target of a plan for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

"(2) FUNDING TARGET ATTAINMENT PERCENTAGE.—The 'funding target attainment percentage' of a plan for a plan year is the ratio (expressed as a percentage) which—

"(A) the value of plan assets for the plan year (as reduced under subsection (f)(4)(B)), bears to

"(B) the funding target of the plan for the plan year (determined without regard to subsection (i)(1)).

"(e) WAIVER AMORTIZATION CHARGE.—

"(1) DETERMINATION OF WAIVER AMORTIZATION CHARGE.—The waiver amortization charge (if any) for a plan for any plan year is the aggregate total of the waiver amortization installments for such plan year with respect to the waiver amortization bases for each of the 5 preceding plan years.

"(2) WAIVER AMORTIZATION INSTALLMENT.—For purposes of paragraph (1)—

"(A) DETERMINATION.—The waiver amortization installments are the amounts necessary to amortize the waiver amortization base of the plan for any plan year in level annual installments over a period of 5 plan years beginning with the succeeding plan year.

"(B) WAIVER INSTALLMENT.—The waiver amortization installment for any plan year in the 5-year period under subparagraph (A) with respect to any waiver amortization base is the annual installment determined under subparagraph (A) for that year for that base.

"(3) INTEREST RATE.—In determining any waiver amortization installment under this subsection, the plan sponsor shall use the segment rates determined under subparagraph (C) of subsection (h)(2), applied under rules similar to the rules of subparagraph (B) of subsection (h)(2).

"(4) WAIVER AMORTIZATION BASE.—The waiver amortization base of a plan for a plan year is the amount of the waived funding deficiency (if any) for such plan year under section 412(c).

"(5) EARLY DEEMED AMORTIZATION UPON ATTAINMENT OF FUNDING TARGET.—In any case in which the funding shortfall of a plan for a plan year is zero, for purposes of determining the waiver amortization charge for such plan year and succeeding plan years, the waiver amortization bases for all preceding plan years (and all waiver amortization installments determined with respect to such bases) shall be reduced to zero.

"(f) REDUCTION OF MINIMUM REQUIRED CONTRIBUTION BY PREFUNDING BALANCE AND FUNDING STANDARD CARRYOVER BALANCE.—

"(1) ELECTION TO MAINTAIN BALANCES.—

"(A) PREFUNDING BALANCE.—The plan sponsor of a defined benefit plan which is not a multiemployer plan may elect to maintain a prefunding balance.

"(B) FUNDING STANDARD CARRYOVER BALANCE.—

"(i) IN GENERAL.—In the case of a defined benefit plan (other than a multiemployer plan) described in clause (ii), the plan sponsor may elect to maintain a funding standard carryover balance, until such balance is reduced to zero.

"(ii) PLANS MAINTAINING FUNDING STANDARD ACCOUNT IN 2007.—A plan is described in this clause if the plan—

"(I) was in effect for a plan year beginning in 2007, and

"(II) had a positive balance in the funding standard account under section 412(b) as in effect for such plan year and determined as of the end of such plan year.

"(2) APPLICATION OF BALANCES.—A prefunding balance and a funding standard carryover balance maintained pursuant to this paragraph—

"(A) shall be available for crediting against the minimum required contribution, pursuant to an election under paragraph (3),

"(B) shall be applied as a reduction in the amount treated as the value of plan assets for purposes of this section, to the extent provided in paragraph (4), and

"(C) may be reduced at any time, pursuant to an election under paragraph (5).

"(3) ELECTION TO APPLY BALANCES AGAINST MINIMUM REQUIRED CONTRIBUTION.—

"(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), in the case of any plan year in which the plan sponsor elects to credit against the minimum required contribution for the current plan year all or a portion of the prefunding balance or the funding standard carryover balance for the current plan year (not in excess of such minimum required contribution), the minimum required contribution for the plan year shall be reduced as of the first day of the plan year by the amount so credited by the plan sponsor as of the first day of the plan year. For purposes of the preceding sentence, the minimum required contribution shall be determined after taking into account any waiver under section 412(c).

"(B) COORDINATION WITH FUNDING STANDARD CARRYOVER BALANCE.—To the extent that any plan has a funding standard carryover balance greater than zero, no amount of the prefunding balance of such plan may be credited under this paragraph in reducing the minimum required contribution.

"(C) LIMITATION FOR UNDERFUNDED PLANS.—The preceding provisions of this paragraph shall not apply for any plan year if the ratio (expressed as a percentage) which—

"(i) the value of plan assets for the preceding plan year (as reduced under paragraph (4)(C)), bears to

"(ii) the funding target of the plan for the preceding plan year (determined without regard to subsection (i)(1)),

is less than 80 percent. In the case of plan years beginning in 2008, the ratio under this subparagraph may be determined using such methods of estimation as the Secretary may prescribe.

"(4) EFFECT OF BALANCES ON AMOUNTS TREATED AS VALUE OF PLAN ASSETS.—In the case of any plan maintaining a prefunding balance or a funding standard carryover balance pursuant to this subsection, the amount treated as the value of plan assets shall be deemed to be such amount, reduced as provided in the following subparagraphs:

"(A) APPLICABILITY OF SHORTFALL AMORTIZATION BASE.—For purposes of subsection (c)(5), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance, but only if an election under paragraph (2) applying any portion of the prefunding balance in reducing the minimum required contribution is in effect for the plan year.

"(B) DETERMINATION OF EXCESS ASSETS, FUNDING SHORTFALL, AND FUNDING TARGET ATTAINMENT PERCENTAGE.—

"(i) IN GENERAL.—For purposes of subsections (a), (c)(4)(B), and (d)(2)(A), the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance and the funding standard carryover balance.

"(ii) SPECIAL RULE FOR CERTAIN BINDING AGREEMENTS WITH PBGC.—For purposes of subsection (c)(4)(B), the value of plan assets shall not be deemed to be reduced for a plan year by the amount of the specified balance if, with respect to such balance, there is in effect for a plan year a binding written agreement with the Pension Benefit Guaranty Corporation which provides that such balance is not available to reduce the minimum required contribution for the plan year. For purposes of the preceding sentence, the term 'specified balance' means the prefunding balance or the funding standard carryover balance, as the case may be.

"(C) AVAILABILITY OF BALANCES IN PLAN YEAR FOR CREDITING AGAINST MINIMUM REQUIRED CONTRIBUTION.—For purposes of paragraph (3)(C)(i) of this subsection, the value of plan assets is deemed to be such amount, reduced by the amount of the prefunding balance.

"(5) ELECTION TO REDUCE BALANCE PRIOR TO DETERMINATIONS OF VALUE OF PLAN ASSETS AND CREDITING AGAINST MINIMUM REQUIRED CONTRIBUTION.—

"(A) IN GENERAL.—The plan sponsor may elect to reduce by any amount the balance of the prefunding balance and the funding standard carryover balance for any plan year (but not below zero). Such reduction shall be effective prior to any determination of the value of plan assets for such plan year under this section and application of the balance in reducing the minimum required contribution for such plan for such plan year pursuant to an election under paragraph (2).

"(B) COORDINATION BETWEEN PREFUNDING BALANCE AND FUNDING STANDARD CARRYOVER BALANCE.—To the extent that any plan has a funding standard carryover balance greater than zero, no election may be made under subparagraph (A) with respect to the prefunding balance.

"(6) PREFUNDING BALANCE.—

"(A) IN GENERAL.—A prefunding balance maintained by a plan shall consist of a beginning balance of zero, increased and decreased to the extent provided in subparagraphs (B) and (C), and adjusted further as provided in paragraph (8).

"(B) INCREASES.—

"(i) IN GENERAL.—As of the first day of each plan year beginning after 2008, the prefunding balance of a plan shall be increased by the amount elected by the plan sponsor for the plan year. Such amount shall not exceed the excess (if any) of—

"(I) the aggregate total of employer contributions to the plan for the preceding plan year, over—

"(II) the minimum required contribution for such preceding plan year.

"(ii) ADJUSTMENTS FOR INTEREST.—Any excess contributions under clause (i) shall be properly adjusted for interest accruing for the periods between the first day of the current plan year and the dates on which the excess contributions were made, determined by using the effective interest rate for the preceding plan year and by treating contributions as being first used to satisfy the minimum required contribution.

"(iii) CERTAIN CONTRIBUTIONS NECESSARY TO AVOID BENEFIT LIMITATIONS DISREGARDED.—The excess described in clause (i) with respect to any preceding plan year shall be reduced (but not below zero) by the amount of contributions an employer would be required to make under paragraph (1), (2), or (4) of section 206(g) to avoid a benefit limitation which would otherwise be imposed under such paragraph for the preceding plan year. Any contribution which may be taken into account in satisfying the requirements of more than 1 of such paragraphs shall be taken into account only once for purposes of this clause.

"(C) DECREASES.—The prefunding balance of a plan shall be decreased (but not below zero) by the sum of—

"(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

"(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).

"(7) FUNDING STANDARD CARRYOVER BALANCE.—

"(A) IN GENERAL.—A funding standard carryover balance maintained by a plan shall consist of a beginning balance determined under subparagraph (B), decreased to the extent provided in subparagraph (C), and adjusted further as provided in paragraph (8).

"(B) BEGINNING BALANCE.—The beginning balance of the funding standard carryover balance shall be the positive balance described in paragraph (1)(B)(ii)(II).

"(C) DECREASES.—The funding standard carryover balance of a plan shall be decreased (but not below zero) by—

"(i) as of the first day of each plan year after 2008, the amount of such balance credited under paragraph (2) (if any) in reducing the minimum required contribution of the plan for the preceding plan year, and

"(ii) as of the time specified in paragraph (5)(A), any reduction in such balance elected under paragraph (5).

"(8) ADJUSTMENTS FOR INVESTMENT EXPERIENCE.—In determining the prefunding balance or the funding standard carryover balance of a plan as of the first day of the plan year, the plan sponsor shall, in accordance with regulations prescribed by the Secretary of the Treasury, adjust such balance to reflect the rate of return on plan assets for the preceding plan year. Notwithstanding subsection (g)(3), such rate of return shall be determined on the basis of fair market value and shall properly take into account, in accordance with such regulations, all contributions, distributions, and other plan payments made during such period.

"(9) ELECTIONS.—Elections under this subsection shall be made at such times, and in such form and manner, as shall be prescribed in regulations of the Secretary.

"(g) VALUATION OF PLAN ASSETS AND LIABILITIES.—

"(1) TIMING OF DETERMINATIONS.—Except as otherwise provided under this subsection, all determinations under this section for a plan year shall be made as of the valuation date of the plan for such plan year.

"(2) VALUATION DATE.—For purposes of this section—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the valuation date of a plan for any plan year shall be the first day of the plan year.

"(B) EXCEPTION FOR SMALL PLANS.—If, on each day during the preceding plan year, a plan had 100 or fewer participants, the plan may designate any day during the plan year as its valuation date for such plan year and succeeding plan years. For purposes of this subparagraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account.

"(C) APPLICATION OF CERTAIN RULES IN DETERMINATION OF PLAN SIZE.—For purposes of this paragraph—

"(i) PLANS NOT IN EXISTENCE IN PRECEDING YEAR.—In the case of the first plan year of any plan, subparagraph (B) shall apply to such plan by taking into account the number of participants that the plan is reasonably expected to have on days during such first plan year.

"(ii) PREDECESSORS.—Any reference in subparagraph (B) to an employer shall include a reference to any predecessor of such employer.

"(3) DETERMINATION OF VALUE OF PLAN ASSETS.—For purposes of this section—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the value of plan assets shall be the fair market value of the assets.

"(B) AVERAGING ALLOWED.—A plan may determine the value of plan assets on the basis of the averaging of fair market values, but only if such method—

"(i) is permitted under regulations prescribed by the Secretary,

"(ii) does not provide for averaging of such values over more than the period beginning on the last day of the 25th month preceding the month in which the valuation date occurs and ending on the valuation date (or a similar period in the case of a valuation date which is not the 1st day of a month), and

"(iii) does not result in a determination of the value of plan assets which, at any time, is lower than 90 percent or greater than 110 percent of the fair market value of such assets at such time.

Any such averaging shall be adjusted for contributions and distributions (as provided by the Secretary).

"(4) ACCOUNTING FOR CONTRIBUTION RECEIPTS.—For purposes of determining the value of assets under paragraph (3)—

"(A) PRIOR YEAR CONTRIBUTIONS.—If—

"(i) an employer makes any contribution to the plan after the valuation date for the plan year in which the contribution is made, and

"(ii) the contribution is for a preceding plan year,

the contribution shall be taken into account as an asset of the plan as of the valuation date, except that in the case of any plan year beginning after 2008, only the present value (determined as of the valuation date) of such contribution may be taken into account. For purposes of the preceding sentence, present value shall be determined using the effective interest rate for the preceding plan year to which the contribution is properly allocable.

"(B) SPECIAL RULE FOR CURRENT YEAR CONTRIBUTIONS MADE BEFORE VALUATION DATE.—If any contributions for any plan year are made to or under the plan during the plan year but before the valuation date for the plan year, the assets of the plan as of the valuation date shall not include—

"(i) such contributions, and

"(ii) interest on such contributions for the period between the date of the contributions and the valuation date, determined by using the effective interest rate for the plan year.

"(h) ACTUARIAL ASSUMPTIONS AND METHODS.—

"(1) IN GENERAL.—Subject to this subsection, the determination of any present value or other computation under this section shall be made on the basis of actuarial assumptions and methods—

"(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

"(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

"(2) INTEREST RATES.—

"(A) EFFECTIVE INTEREST RATE.—For purposes of this section, the term 'effective interest rate' means, with respect to any plan for any plan year, the single rate of interest which, if used to determine the present value of the plan's accrued or earned benefits referred to in subsection (d)(1), would result in an amount equal to the funding target of the plan for such plan year.

"(B) INTEREST RATES FOR DETERMINING FUNDING TARGET.—For purposes of determining the funding target of a plan for any plan year, the interest rate used in determining the present value of the liabilities of the plan shall be—

"(i) in the case of benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year, the first segment rate with respect to the applicable month,

"(ii) in the case of benefits reasonably determined to be payable during the 15-year period beginning at the end of the period described in clause (i), the second segment rate with respect to the applicable month, and

"(iii) in the case of benefits reasonably determined to be payable after the period described in clause (ii), the third segment rate with respect to the applicable month.

"(C) SEGMENT RATES.—For purposes of this paragraph—

"(i) FIRST SEGMENT RATE.—The term 'first segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 5-year period commencing with such month.

"(ii) SECOND SEGMENT RATE.—The term 'second segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during the 15-year period beginning at the end of the period described in clause (i).

"(iii) THIRD SEGMENT RATE.—The term 'third segment rate' means, with respect to any month, the single rate of interest which shall be determined by the Secretary for such month on the basis of the corporate bond yield curve for such month, taking into account only that portion of such yield curve which is based on bonds maturing during periods beginning after the period described in clause (ii).

"(D) CORPORATE BOND YIELD CURVE.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'corporate bond yield curve' means, with respect to any month, a yield curve which is prescribed by the Secretary for such month and which reflects the average, for the 24-month period ending with the month preceding such month, of monthly yields on investment grade corporate bonds with varying maturities and that are in the top 3 quality levels available.

"(ii) ELECTION TO USE YIELD CURVE.—Solely for purposes of determining the minimum required contribution under this section, the plan sponsor may, in lieu of the segment rates determined under subparagraph (C), elect to use interest rates under the corporate bond yield curve. For purposes of the preceding sentence such curve shall be determined without regard to the 24-month averaging described in clause (i) . Such election, once made, may be revoked only with the consent of the Secretary.

"(E) APPLICABLE MONTH.—For purposes of this paragraph, the term 'applicable month' means, with respect to any plan for any plan year, the month which includes the valuation date of such plan for such plan year or, at the election of the plan sponsor, any of the 4 months which precede such month. Any election made under this subparagraph shall apply to the plan year for which the election is made and all succeeding plan years, unless the election is revoked with the consent of the Secretary.

"(F) PUBLICATION REQUIREMENTS.—The Secretary shall publish for each month the corporate bond yield curve (and the corporate bond yield curve reflecting the modification described in section 417(e)(3)(D)(i) for such month and each of the rates determined under subparagraph (B) for such month. The Secretary shall also publish a description of the methodology used to determine such yield curve and such rates which is sufficiently detailed to enable plans to make reasonable projections regarding the yield curve and such rates for future months based on the plan's projection of future interest rates.

"(G) TRANSITION RULE.—

"(i) IN GENERAL.—Notwithstanding the preceding provisions of this paragraph, for plan years beginning in 2008 or 2009, the first, second, or third segment rate for a plan with respect to any month shall be equal to the sum of—

"(I) the product of such rate for such month determined without regard to this subparagraph, multiplied by the applicable percentage, and

"(II) the product of the rate determined under the rules of section 412(b)(5)(B)(ii)(II) (as in effect for plan years beginning in 2007), multiplied by a percentage equal to 100 percent minus the applicable percentage.

"(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is 33⅓ percent for plan years beginning in 2008 and 66⅔ percent for plan years beginning in 2009.

"(iii) NEW PLANS INELIGIBLE.—Clause (i) shall not apply to any plan if the first plan year of the plan begins after December 31, 2007.

"(iv) ELECTION.—The plan sponsor may elect not to have this subparagraph apply. Such election, once made, may be revoked only with the consent of the Secretary.

"(3) MORTALITY TABLES.—

"(A) IN GENERAL.—Except as provided in subparagraph (C) or (D), the Secretary shall by regulation prescribe mortality tables to be used in determining any present value or making any computation under this section. Such tables shall be based on the actual experience of pension plans and projected trends in such experience. In prescribing such tables, the Secretary shall take into account results of available independent studies of mortality of individuals covered by pension plans.

"(B) PERIODIC REVISION.—The Secretary shall (at least every 10 years) make revisions in any table in effect under subparagraph (A) to reflect the actual experience of pension plans and projected trends in such experience.

‘‘(C) SUBSTITUTE MORTALITY TABLE.—

‘‘(i) IN GENERAL.—Upon request by the plan sponsor and approval by the Secretary, a mortality table which meets the requirements of clause (iii) shall be used in determining any present value or making any computation under this section during the period of consecutive plan years (not to exceed 10) specified in the request.

‘‘(ii) EARLY TERMINATION OF PERIOD.—Notwithstanding clause (i), a mortality table described in clause (i) shall cease to be in effect as of the earliest of—

‘‘(I) the date on which there is a significant change in the participants in the plan by reason of a plan spinoff or merger or otherwise, or

‘‘(II) the date on which the plan actuary determines that such table does not meet the requirements of clause (iii).

‘‘(iii) REQUIREMENTS.—A mortality table meets the requirements of this clause if—

‘‘(I) there is a sufficient number of plan participants, and the pension plans have been maintained for a sufficient period of time, to have credible information necessary for purposes of subclause (II), and

‘‘(II) such table reflects the actual experience of the pension plans maintained by the sponsor and projected trends in general mortality experience.

‘‘(iv) ALL PLANS IN CONTROLLED GROUP MUST USE SEPARATE TABLE.—Except as provided by the Secretary, a plan sponsor may not use a mortality table under this subparagraph for any plan maintained by the plan sponsor unless—

‘‘(I) a separate mortality table is established and used under this subparagraph for each other plan maintained by the plan sponsor and if the plan sponsor is a member of a controlled group, each member of the controlled group, and

‘‘(II) the requirements of clause (iii) are met separately with respect to the table so established for each such plan, determined by only taking into account the participants of such plan, the time such plan has been in existence, and the actual experience of such plan.

‘‘(v) DEADLINE FOR SUBMISSION AND DISPOSITION OF APPLICATION.—

‘‘(I) SUBMISSION.—The plan sponsor shall submit a mortality table to the Secretary for approval under this subparagraph at least 7 months before the 1st day of the period described in clause (i).

‘‘(II) DISPOSITION.—Any mortality table submitted to the Secretary for approval under this subparagraph shall be treated as in effect as of the 1st day of the period described in clause (i) unless the Secretary, during the 180-day period beginning on the date of such submission, disapproves of such table and provides the reasons that such table fails to meet the requirements of clause (iii). The 180-day period shall be extended upon mutual agreement of the Secretary and the plan sponsor.

‘‘(D) SEPARATE MORTALITY TABLES FOR THE DISABLED.—Notwithstanding subparagraph (A)—

‘‘(i) IN GENERAL.—The Secretary shall establish mortality tables which may be used (in lieu of the tables under subparagraph (A)) under this subsection for individuals who are entitled to benefits under the plan on account of disability. The Secretary shall establish separate tables for individuals whose disabilities occur in plan years beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

‘‘(ii) SPECIAL RULE FOR DISABILITIES OCCURRING AFTER 1994.—In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under clause (i) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

‘‘(iii) PERIODIC REVISION.—The Secretary shall (at least every 10 years) make revisions in any table in effect under clause (i) to reflect the actual experience of pension plans and projected trends in such experience.

‘‘(4) PROBABILITY OF BENEFIT PAYMENTS IN THE FORM OF LUMP SUMS OR OTHER OPTIONAL FORMS.—For purposes of determining any present value or making any computation under this section, there shall be taken into account—

‘‘(A) the probability that future benefit payments under the plan will be made in the form of optional forms of benefits provided under the plan (including lump sum distributions, determined on the basis of the plan's experience and other related assumptions), and

‘‘(B) any difference in the present value of such future benefit payments resulting from the use of actuarial assumptions, in determining benefit payments in any such optional form of benefits, which are different from those specified in this subsection.

‘‘(5) APPROVAL OF LARGE CHANGES IN ACTUARIAL ASSUMPTIONS.—

‘‘(A) IN GENERAL.—No actuarial assumption used to determine the funding target for a plan to which this paragraph applies may be changed without the approval of the Secretary.

‘‘(B) PLANS TO WHICH PARAGRAPH APPLIES.—This paragraph shall apply to a plan only if—

‘‘(i) the plan is a defined benefit plan (other than a multiemployer plan) to which title IV of the Employee Retirement Income Security Act of 1974 applies,

‘‘(ii) the aggregate unfunded vested benefits as of the close of the preceding plan year (as determined under section 4006(a)(3)(E)(iii) of the Employee Retirement Income Security Act of 1974) of such plan and all other plans maintained by the contributing sponsors (as defined in section 4001(a)(13) of such Act) and members of such sponsors' controlled groups (as defined in section 4001(a)(14) of such Act) which are covered by title IV (disregarding plans with no unfunded vested benefits) exceed $50,000,000, and

‘‘(iii) the change in assumptions (determined after taking into account any changes in interest rate and mortality table) results in a decrease in the funding shortfall of the plan for the current plan year that exceeds $50,000,000, or that exceeds $5,000,000 and that is 5 percent or more of the funding target of the plan before such change.

‘‘(i) SPECIAL RULES FOR AT-RISK PLANS.—

‘‘(1) FUNDING TARGET FOR PLANS IN AT-RISK STATUS.—

‘‘(A) IN GENERAL.—In the case of a plan which is in at-risk status for a plan year, the funding target of the plan for the plan year shall be equal to the sum of—

‘‘(i) the present value of all benefits accrued or earned under the plan as of the beginning of the plan year, as determined by using the additional actuarial assumptions described in subparagraph (B), and

‘‘(ii) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor determined under subparagraph (C).

‘‘(B) ADDITIONAL ACTUARIAL ASSUMPTIONS.—The actuarial assumptions described in this subparagraph are as follows:

‘‘(i) All employees who are not otherwise assumed to retire as of the valuation date but who will be eligible to elect benefits during the plan year and the 10 succeeding plan years shall be assumed to retire at the earliest retirement date under the plan but not before the end of the plan year for which the at-risk funding target and at-risk target normal cost are being determined.

‘‘(ii) All employees shall be assumed to elect the retirement benefit available under the plan at the assumed retirement age (determined after application of clause (i)) which would result in the highest present value of benefits.

‘‘(C) LOADING FACTOR.—The loading factor applied with respect to a plan under this paragraph for any plan year is the sum of—

‘‘(i) $700, times the number of participants in the plan, plus

‘‘(ii) 4 percent of the funding target (determined without regard to this paragraph) of the plan for the plan year.

‘‘(2) TARGET NORMAL COST OF AT-RISK PLANS.—In the case of a plan which is in at-risk status for a plan year, the target normal cost of the plan for such plan year shall be equal to the sum of—

‘‘(A) the present value of all benefits which are expected to accrue or be earned under the plan during the plan year, determined using the additional actuarial assumptions described in paragraph (1)(B), plus

‘‘(B) in the case of a plan which also has been in at-risk status for at least 2 of the 4 preceding plan years, a loading factor equal to 4 percent of the target normal cost (determined without regard to this paragraph) of the plan for the plan year.

‘‘(3) MINIMUM AMOUNT.—In no event shall—

‘‘(A) the at-risk funding target be less than the funding target, as determined without regard to this subsection, or

‘‘(B) the at-risk target normal cost be less than the target normal cost, as determined without regard to this subsection.

‘‘(4) DETERMINATION OF AT-RISK STATUS.—For purposes of this subsection—

‘‘(A) IN GENERAL.—A plan is in at-risk status for a plan year if—

‘‘(i) the funding target attainment percentage for the preceding plan year (determined under this section without regard to this subsection) is less than 80 percent, and

‘‘(ii) the funding target attainment percentage for the preceding plan year (determined under this section by using the additional actuarial assumptions described in paragraph (1)(B) in computing the funding target) is less than 70 percent.

‘‘(B) TRANSITION RULE.—In the case of plan years beginning in 2008, 2009, and 2010, subparagraph (A)(i) shall be applied by substituting the following percentages for '80 percent':

‘‘(i) 65 percent in the case of 2008.

‘‘(ii) 70 percent in the case of 2009.

‘‘(iii) 75 percent in the case of 2010.

In the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year under subparagraph (A)(ii) may be determined using such methods of estimation as the Secretary may provide.

‘‘(C) SPECIAL RULE FOR EMPLOYEES OFFERED EARLY RETIREMENT IN 2006.—

‘‘(i) IN GENERAL.—For purposes of subparagraph (A)(ii), the additional actuarial assumptions described in paragraph (1)(B) shall not be taken into account with respect to any employee if—

‘‘(I) such employee is employed by a specified automobile manufacturer,

‘‘(II) such employee is offered a substantial amount of additional cash compensation, substantially enhanced retirement benefits under the plan, or materially reduced employment duties on the condition that by a specified date (not later than December 31, 2010) the employee retires (as defined under the terms of the plan),

"(III) such offer is made during 2006 and pursuant to a bona fide retirement incentive program and requires, by the terms of the offer, that such offer can be accepted not later than a specified date (not later than December 31, 2006), and

"(IV) such employee does not elect to accept such offer before the specified date on which the offer expires.

"(ii) Specified automobile manufacturer.—For purposes of clause (i), the term 'specified automobile manufacturer' means—

"(I) any manufacturer of automobiles, and

"(II) any manufacturer of automobile parts which supplies such parts directly to a manufacturer of automobiles and which, after a transaction or series of transactions ending in 1999, ceased to be a member of a controlled group which included such manufacturer of automobiles.

"(5) Transition between applicable funding targets and between applicable target normal costs.—

"(A) In general.—In any case in which a plan which is in at-risk status for a plan year has been in such status for a consecutive period of fewer than 5 plan years, the applicable amount of the funding target and of the target normal cost shall be, in lieu of the amount determined without regard to this paragraph, the sum of—

"(i) the amount determined under this section without regard to this subsection, plus

"(ii) the transition percentage for such plan year of the excess of the amount determined under this subsection (without regard to this paragraph) over the amount determined under this section without regard to this subsection.

"(B) Transition percentage.—For purposes of subparagraph (A), the transition percentage shall be determined in accordance with the following table:

"

"If the consecutive number of years (including the plan year) the plan is in at-risk status is—	The transition percentage is—
1	20
2	40
3	60
4	80.

"(C) Years before effective date.—For purposes of this paragraph, plan years beginning before 2008 shall not be taken into account.

"(6) Small plan exception.—If, on each day during the preceding plan year, a plan had 500 or fewer participants, the plan shall not be treated as in at-risk status for the plan year. For purposes of this paragraph, all defined benefit plans (other than multiemployer plans) maintained by the same employer (or any member of such employer's controlled group) shall be treated as 1 plan, but only participants with respect to such employer or member shall be taken into account and the rules of subsection (g)(2)(C) shall apply.

"(j) Payment of Minimum Required Contributions.—

"(1) In general.—For purposes of this section, the due date for any payment of any minimum required contribution for any plan year shall be 8½ months after the close of the plan year.

"(3) Accelerated quarterly contribution schedule for underfunded plans.—

"(A) Failure to timely make required installment.—In any case in which the plan has a funding shortfall for the preceding plan year, the employer maintaining the plan shall make the required installments under this paragraph and if the employer fails to pay the full amount of a required installment for the plan year, then the amount of interest charged under paragraph (2) on the underpayment for the period of underpayment shall be determined by using a rate of interest equal to the rate otherwise used under paragraph (2) plus 5 percentage points.

"(B) Amount of underpayment, period of underpayment.—For purposes of subparagraph (A)—

"(i) Amount.—The amount of the underpayment shall be the excess of—

"(I) the required installment, over

"(4) Liquidity requirement in connection with quarterly contributions.—

"(A) In general.—A plan to which this paragraph applies shall be treated as failing to pay the full amount of any required installment under paragraph (3) to the extent that the value of the liquid assets paid in such installment is less than the liquidity shortfall (whether or not such liquidity shortfall exceeds the amount of such installment required to be paid but for this paragraph).

"(B) Plans to which paragraph applies.—This paragraph shall apply to a plan (other than a plan described in subsection (g)(2)(B)) which—

"(i) is required to pay installments under paragraph (3) for a plan year, and

"(D) Limitation on increase.—If the amount of any required installment is increased by reason of subparagraph (A), in no event shall such increase exceed the amount which, when added to prior installments for the plan year, is necessary to increase the funding target attainment percentage of the plan for the plan year (taking into account the expected increase in funding target due to benefits accruing or earned during the plan year) to 100 percent.

"(E) Definitions.—For purposes of this paragraph—

"(i) Liquidity shortfall.—The term 'liquidity shortfall' means, with respect to any required installment, an amount equal to the excess (as of the last day of the quarter for which such installment is made) of—

"(ii) Base amount.—

"(I) In general.—The term 'base amount' means, with respect to any quarter, an amount equal to 3 times the sum of the adjusted disbursements from the plan for the 12 months ending on the last day of such quarter.

"(II) Special rule.—If the amount determined under subclause (I) exceeds an amount equal to 2 times the sum of the adjusted disbursements from the plan for the 36 months ending on the last day of the quarter and an enrolled actuary certifies to the satisfaction of the Secretary that such excess is the result of nonrecurring circumstances, the base amount with respect to such quarter shall be determined without regard to amounts related to those nonrecurring circumstances.

"(A) less than 80 percent, or

"(B) would be less than 80 percent taking into account such amendment.

“(B) ONE-TIME APPLICATION.—

“(i) IN GENERAL.—The plan shall also provide that only 1 prohibited payment meeting the requirements of subparagraph (A) may be made with respect to any participant during any period of consecutive plan years to which the limitations under either paragraph (1) or (2) or this paragraph applies.

“(ii) TREATMENT OF BENEFICIARIES.—For purposes of this subparagraph, a participant and any beneficiary on his behalf (including an alternate payee, as defined in section 414(p)(8)) shall be treated as 1 participant. If the accrued benefit of a participant is allocated to such an alternate payee and 1 or more other persons, the amount under subparagraph (A) shall be allocated among such persons in the same manner as the accrued benefit is allocated unless the qualified domestic relations order (as defined in section 414(p)(1)(A)) provides otherwise.

“(4) EXCEPTION.—This subsection shall not apply to any plan for any plan year if the terms of such plan (as in effect for the period beginning on September 1, 2005, and ending with such plan year) provide for no benefit accruals with respect to any participant during such period.

“(5) PROHIBITED PAYMENT.—For purpose of this subsection, the term ‘prohibited payment’ means—

“(A) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 411(a)(9)), to a participant or beneficiary whose annuity starting date (as defined in section 417(f)(2)) occurs during any period a limitation under paragraph (1) or (2) is in effect,

“(B) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and

“(C) any other payment specified by the Secretary by regulations.

“(e) LIMITATION ON BENEFIT ACCRUALS FOR PLANS WITH SEVERE FUNDING SHORTFALLS.—

“(1) IN GENERAL.—A defined benefit plan which is a single-employer plan shall provide that, in any case in which the plan's adjusted funding target attainment percentage for a plan year is less than 60 percent, benefit accruals under the plan shall cease as of the valuation date for the plan year.

“(2) EXEMPTION.—Paragraph (1) shall cease to apply with respect to any plan year, effective as of the first day of the plan year, upon payment by the plan sponsor of a contribution (in addition to any minimum required contribution under section 430) equal to the amount sufficient to result in an adjusted funding target attainment percentage of 60 percent.

“(f) RULES RELATING TO CONTRIBUTIONS REQUIRED TO AVOID BENEFIT LIMITATIONS.—

“(1) SECURITY MAY BE PROVIDED.—

“(A) IN GENERAL.—For purposes of this section, the adjusted funding target attainment percentage shall be determined by treating as an asset of the plan any security provided by a plan sponsor in a form meeting the requirements of subparagraph (B).

“(B) FORM OF SECURITY.—The security required under subparagraph (A) shall consist of—

“(i) a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412 of the Employee Retirement Income Security Act of 1974,

“(ii) cash, or United States obligations which mature in 3 years or less, held in escrow by a bank or similar financial institution, or

“(iii) such other form of security as is satisfactory to the Secretary and the parties involved.

“(C) ENFORCEMENT.—Any security provided under subparagraph (A) may be perfected and enforced at any time after the earlier of—

“(i) the date on which the plan terminates,

“(ii) if there is a failure to make a payment of the minimum required contribution for any plan year beginning after the security is provided, the due date for the payment under section 430(j), or

“(iii) if the adjusted funding target attainment percentage is less than 60 percent for a consecutive period of 7 years, the valuation date for the last year in the period.

“(D) RELEASE OF SECURITY.—The security shall be released (and any amounts thereunder shall be refunded together with any interest accrued thereon) at such time as the Secretary may prescribe in regulations, including regulations for partial releases of the security by reason of increases in the funding target attainment percentage.

“(2) PREFUNDING BALANCE OR FUNDING STANDARD CARRYOVER BALANCE MAY NOT BE USED.—No prefunding balance under section 430(f) or funding standard carryover balance may be used under subsection (b), (c), or (e) to satisfy any payment an employer may make under any such subsection to avoid or terminate the application of any limitation under such subsection.

“(3) DEEMED REDUCTION OF FUNDING BALANCES.—

“(A) IN GENERAL.—Subject to subparagraph (C), in any case in which a benefit limitation under subsection (b), (c), (d), or (e) would (but for this subparagraph and determined without regard to subsection (b)(2), (c)(2), or (e)(2)) apply to such plan for the plan year, the plan sponsor of such plan shall be treated for purposes of this title as having made an election under section 430(f) to reduce the prefunding balance or funding standard carryover balance by such amount as is necessary for such benefit limitation to not apply to the plan for such plan year.

“(B) EXCEPTION FOR INSUFFICIENT FUNDING BALANCES.—Subparagraph (A) shall not apply with respect to a benefit limitation for any plan year if the application of subparagraph (A) would not result in the benefit limitation not applying for such plan year.

“(C) RESTRICTIONS OF CERTAIN RULES TO COLLECTIVELY BARGAINED PLANS.—With respect to any benefit limitation under subsection (b), (c), or (e), subparagraph (A) shall only apply in the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers.

“(g) NEW PLANS.—Subsections (b), (c), and (e) shall not apply to a plan for the first 5 plan years of the plan. For purposes of this subsection, the reference in this subsection to a plan shall include a reference to any predecessor plan.

“(h) PRESUMED UNDERFUNDING FOR PURPOSES OF BENEFIT LIMITATIONS.—

“(1) PRESUMPTION OF CONTINUED UNDERFUNDING.—In any case in which a benefit limitation under subsection (b), (c), (d), or (e) has been applied to a plan with respect to the plan year preceding the current plan year, the adjusted funding target attainment percentage of the plan for the current plan year shall be presumed to be equal to the adjusted funding target attainment percentage of the plan for the preceding plan year until the enrolled actuary of the plan certifies the actual adjusted funding target attainment percentage of the plan for the current plan year.

“(2) PRESUMPTION OF UNDERFUNDING AFTER 10TH MONTH.—In any case in which no certification of the adjusted funding target attainment percentage for the current plan year is made with respect to the plan before the first day of the 10th month of such year, for purposes of subsections (b), (c), (d), and (e), such first day shall be deemed, for purposes of such subsection, to be the valuation date of the plan for the current plan year and the plan's adjusted funding target attainment percentage shall be conclusively presumed to be less than 60 percent as of such first day.

“(3) PRESUMPTION OF UNDERFUNDING AFTER 4TH MONTH FOR NEARLY UNDERFUNDED PLANS.—In any case in which—

“(A) a benefit limitation under subsection (b), (c), (d), or (e) did not apply to a plan with respect to the plan year preceding the current plan year, but the adjusted funding target attainment percentage of the plan for such preceding plan year was not more than 10 percentage points greater than the percentage which would have caused such subsection to apply to the plan with respect to such preceding plan year, and

“(B) as of the first day of the 4th month of the current plan year, the enrolled actuary of the plan has not certified the actual adjusted funding target attainment percentage of the plan for the current plan year,

until the enrolled actuary so certifies, such first day shall be deemed, for purposes of such subsection, to be the valuation date of the plan for the current plan year and the adjusted funding target attainment percentage of the plan as of such first day shall, for purposes of such subsection, be presumed to be equal to 10 percentage points less than the adjusted funding target attainment percentage of the plan for such preceding plan year.

“(i) TREATMENT OF PLAN AS OF CLOSE OF PROHIBITED OR CESSATION PERIOD.—For purposes of applying this title—

“(1) OPERATION OF PLAN AFTER PERIOD.—Unless the plan provides otherwise, payments and accruals will resume effective as of the day following the close of the period for which any limitation of payment or accrual of benefits under subsection (d) or (e) applies.

"(2) TREATMENT OF AFFECTED BENEFITS.—Nothing in this subsection shall be construed as affecting the plan's treatment of benefits which would have been paid or accrued but for this section.

"(j) TERMS RELATING TO FUNDING TARGET ATTAINMENT PERCENTAGE.—For purposes of this section—

"(1) IN GENERAL.—The term 'funding target attainment percentage' has the same meaning given such term by section 430(d)(2).

"(2) ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE.—The term 'adjusted funding target attainment percentage' means the funding target attainment percentage which is determined under paragraph (1) by increasing each of the amounts under subparagraphs (A) and (B) of section 430(d)(2) by the aggregate amount of purchases of annuities for employees other than highly compensated employees (as defined in section 414(q)) which were made by the plan during the preceding 2 plan years.

"(3) APPLICATION TO PLANS WHICH ARE FULLY FUNDED WITHOUT REGARD TO REDUCTIONS FOR FUNDING BALANCES.—

"(A) IN GENERAL.—In the case of a plan for any plan year, if the funding target attainment percentage is 100 percent or more (determined without regard to this paragraph and without regard to the reduction in the value of assets under section 430(f)(4)(A)), the funding target attainment percentage for purposes of paragraph (1) shall be determined without regard to such reduction.

"(B) TRANSITION RULE.—Subparagraph (A) shall be applied to plan years beginning after 2007 and before 2011 by substituting for '100 percent' the applicable percentage determined in accordance with the following table:

"In the case of a plan year beginning in calendar year:	**The applicable percentage is**
2008	92
2009	94
2010	96.

"(C) LIMITATION.—Subparagraph (B) shall not apply with respect to any plan year after 2008 unless the funding target attainment percentage (determined without regard to this paragraph) of the plan for each preceding plan year after 2007 was not less than the applicable percentage with respect to such preceding plan year determined under subparagraph (B).

"(k) SPECIAL RULE FOR 2008.—For purposes of this section, in the case of plan years beginning in 2008, the funding target attainment percentage for the preceding plan year may be determined using such methods of estimation as the Secretary may provide.".

(2) COLLECTIVE BARGAINING EXCEPTION.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified before January 1, 2008, the amendments made by this section shall not apply to plan years beginning before the earlier of—

(A) the later of—

(i) the date on which the last collective bargaining agreement relating to the plan terminates (determined without regard to any extension thereof agreed to after the date of the enactment of this Act), or

(ii) the first day of the first plan year to which the amendments made by this subsection would (but for this subparagraph) apply, or

(B) January 1, 2010.

For purposes of subparagraph (A)(i), any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added by this section shall not be treated as a termination of such collective bargaining agreement.

"(7) SPECIAL RULES RELATING TO CHARGES AND CREDITS TO FUNDING STANDARD ACCOUNT.—For purposes of this part—

"(A) WITHDRAWAL LIABILITY.—Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV shall be considered an amount contributed by the employer to or under the plan. The Secretary of the Treasury may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments from being unduly reflected as advance funding for plan liabilities.

"(B) ADJUSTMENTS WHEN A MULTIEMPLOYER PLAN LEAVES REORGANIZATION.—If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year—

"(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

"(ii) shall be taken into account in subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 4243(a) as of the end of the last plan year that the plan was in reorganization.

"(C) PLAN PAYMENTS TO SUPPLEMENTAL PROGRAM OR WITHDRAWAL LIABILITY PAYMENT FUND.—Any amount paid by a plan during a plan year to the Pension Benefit Guaranty Corporation pursuant to section 4222 of this Act or to a fund exempt under section 501(c)(22) of the Internal Revenue Code of 1986 pursuant to section 4223 of this Act shall reduce the amount of contributions considered received by the plan for the plan year.

"(D) INTERIM WITHDRAWAL LIABILITY PAYMENTS.—Any amount paid by an employer pending a final determination of the employer's withdrawal liability under part 1 of subtitle E of title IV and subsequently refunded to the employer by the plan shall be charged to the funding standard account in accordance with regulations prescribed by the Secretary of the Treasury.

"(E) ELECTION FOR DEFERRAL OF CHARGE FOR PORTION OF NET EXPERIENCE LOSS.—If an election is in effect under section 302(b)(7)(F) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) for any plan year, the funding standard account shall be charged in the plan year to which the portion of the net experience loss deferred by such election was deferred with the amount so deferred (and paragraph (2)(B)(iii) shall not apply to the amount so charged).

"(F) FINANCIAL ASSISTANCE.—Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this section and section 302 in such manner as is determined by the Secretary of the Treasury.

"(G) SHORT-TERM BENEFITS.—To the extent that any plan amendment increases the unfunded past service liability under the plan by reason of an increase in benefits which are not payable as a life annuity but are payable under the terms of the plan for a period that does not exceed 14 years from the effective date of the amendment, paragraph (2)(B)(ii) shall be applied separately with respect to such increase in unfunded past service liability by substituting the number of years of the period during which such benefits are payable for '15'.

"(c) ADDITIONAL RULES.—

"(1) DETERMINATIONS TO BE MADE UNDER FUNDING METHOD.—For purposes of this part, normal costs, accrued liability, past service liabilities, and experience gains and losses shall be determined under the funding method used to determine costs under the plan.

"(2) VALUATION OF ASSETS.—

"(A) IN GENERAL.—For purposes of this part, the value of the plan's assets shall be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value and which is permitted under regulations prescribed by the Secretary of the Treasury.

"(B) ELECTION WITH RESPECT TO BONDS.—The value of a bond or other evidence of indebtedness which is not in default as to principal or interest may, at the election of the plan administrator, be determined on an amortized basis running from initial cost at purchase to par value at maturity or earliest call date. Any election under this subparagraph shall be made at such time and in such manner as the Secretary of the Treasury shall by regulations provide, shall apply to all such evidences of indebtedness, and may be revoked only with the consent of such Secretary.

"(3) ACTUARIAL ASSUMPTIONS MUST BE REASONABLE.—For purposes of this section, all costs, liabilities, rates of interest, and other factors under the plan shall be determined on the basis of actuarial assumptions and methods—

"(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

"(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

"(4) TREATMENT OF CERTAIN CHANGES AS EXPERIENCE GAIN OR LOSS.—For purposes of this section, if—

"(A) a change in benefits under the Social Security Act or in other retirement benefits created under Federal or State law, or

"(B) a change in the definition of the term 'wages' under section 3121 of the Internal Revenue Code of 1986, or a change in the amount of such wages taken into account under regulations prescribed for purposes of section 401(a)(5) of such Code,

results in an increase or decrease in accrued liability under a plan, such increase or decrease shall be treated as an experience loss or gain.

"(5) Full funding.—If, as of the close of a plan year, a plan would (without regard to this paragraph) have an accumulated funding deficiency in excess of the full funding limitation—

"(A) the funding standard account shall be credited with the amount of such excess, and

"(B) all amounts described in subparagraphs (B), (C), and (D) of subsection (b) (2) and subparagraph (B) of subsection (b)(3) which are required to be amortized shall be considered fully amortized for purposes of such subparagraphs.

"(6) Full-funding limitation.—

"(A) In general.—For purposes of paragraph (5), the term 'full-funding limitation' means the excess (if any) of—

"(i) the accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan), over

"(ii) the lesser of—

"(I) the fair market value of the plan's assets, or

"(II) the value of such assets determined under paragraph (2).

"(B) Minimum amount.—

"(i) In general.—In no event shall the full-funding limitation determined under subparagraph (A) be less than the excess (if any) of—

"(I) 90 percent of the current liability of the plan (including the expected increase in current liability due to benefits accruing during the plan year), over

"(II) the value of the plan's assets determined under paragraph (2).

"(ii) Assets.—For purposes of clause (i), assets shall not be reduced by any credit balance in the funding standard account.

"(C) Full funding limitation.—For purposes of this paragraph, unless otherwise provided by the plan, the accrued liability under a multiemployer plan shall not include benefits which are not nonforfeitable under the plan after the termination of the plan (taking into consideration section 411(d)(3) of the Internal Revenue Code of 1986).

"(D) Current liability.—For purposes of this paragraph—

"(i) In general.—The term 'current liability' means all liabilities to employees and their beneficiaries under the plan.

"(ii) Treatment of unpredictable contingent event benefits.—For purposes of clause (i), any benefit contingent on an event other than—

"(I) age, service, compensation, death, or disability, or

"(II) an event which is reasonably and reliably predictable (as determined by the Secretary of the Treasury),

shall not be taken into account until the event on which the benefit is contingent occurs.

"(iii) Interest rate used.—The rate of interest used to determine current liability under this paragraph shall be the rate of interest determined under subparagraph (E).

"(iv) Mortality tables.—

"(I) Commissioners' standard table.—In the case of plan years beginning before the first plan year to which the first tables prescribed under subclause (II) apply, the mortality table used in determining current liability under this paragraph shall be the table prescribed by the Secretary of the Treasury which is based on the prevailing commissioners' standard table (described in section 807(d)(5)(A) of the Internal Revenue Code of 1986) used to determine reserves for group annuity contracts issued on January 1, 1993.

"(II) Secretarial authority.—The Secretary of the Treasury may by regulation prescribe for plan years beginning after December 31, 1999, mortality tables to be used in determining current liability under this subsection. Such tables shall be based upon the actual experience of pension plans and projected trends in such experience. In prescribing such tables, such Secretary shall take into account results of available independent studies of mortality of individuals covered by pension plans.

"(v) Separate mortality tables for the disabled.—Notwithstanding clause (iv)—

"(I) In general.—The Secretary of the Treasury shall establish mortality tables which may be used (in lieu of the tables under clause (iv)) to determine current liability under this subsection for individuals who are entitled to benefits under the plan on account of disability. Such Secretary shall establish separate tables for individuals whose disabilities occur in plan years beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

"(II) Special rule for disabilities occurring after 1994.—In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under subclause (I) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

"(vi) Periodic review.—The Secretary of the Treasury shall periodically (at least every 5 years) review any tables in effect under this subparagraph and shall, to the extent such Secretary determines necessary, by regulation update the tables to reflect the actual experience of pension plans and projected trends in such experience.

"(E) Required change of interest rate.—For purposes of determining a plan's current liability for purposes of this paragraph—

"(i) In general.—If any rate of interest used under the plan under subsection (b)(6) to determine cost is not within the permissible range, the plan shall establish a new rate of interest within the permissible range.

"(ii) Permissible range.—For purposes of this subparagraph—

"(I) In general.—Except as provided in subclause (II), the term 'permissible range' means a rate of interest which is not more than 5 percent above, and not more than 10 percent below, the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.

"(II) Secretarial authority.—If the Secretary of the Treasury finds that the lowest rate of interest permissible under subclause (I) is unreasonably high, such Secretary may prescribe a lower rate of interest, except that such rate may not be less than 80 percent of the average rate determined under such subclause.

"(iii) Assumptions.—Notwithstanding paragraph (3)(A), the interest rate used under the plan shall be—

"(I) determined without taking into account the experience of the plan and reasonable expectations, but

"(II) consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under the plan.

"(7) Annual valuation.—

"(A) In general.—For purposes of this section, a determination of experience gains and losses and a valuation of the plan's liability shall be made not less frequently than once every year, except that such determination shall be made more frequently to the extent required in particular cases under regulations prescribed by the Secretary of the Treasury.

"(B) Valuation date.—

"(i) Current year.—Except as provided in clause (ii), the valuation referred to in subparagraph (A) shall be made as of a date within the plan year to which the valuation refers or within one month prior to the beginning of such year.

"(ii) Use of prior year valuation.—The valuation referred to in subparagraph (A) may be made as of a date within the plan year prior to the year to which the valuation refers if, as of such date, the value of the assets of the plan are not less than 100 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

"(iii) Adjustments.—Information under clause (ii) shall, in accordance with regulations, be actuarially adjusted to reflect significant differences in participants.

"(iv) Limitation.—A change in funding method to use a prior year valuation, as provided in clause (ii), may not be made unless as of the valuation date within the prior plan year, the value of the assets of the plan are not less than 125 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

"(8) Time when certain contributions deemed made.—For purposes of this section, any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this subparagraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary of the Treasury.

"(d) Extension of Amortization Periods for Multiemployer Plans.—

"(1) Automatic extension upon application by certain plans.—

"(A) In general.—If the plan sponsor of a multiemployer plan—

"(i) submits to the Secretary of the Treasury an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), and

"(ii) includes with the application a certification by the plan's actuary described in subparagraph (B),

the Secretary of the Treasury shall extend the amortization period for the period of time (not in excess of 5 years) specified in the application. Such extension shall be in addition to any extension under paragraph (2).

"(B) Criteria.—A certification with respect to a multiemployer plan is described in this subparagraph if the plan's actuary certifies that, based on reasonable assumptions—

"(i) absent the extension under subparagraph (A), the plan would have an accumulated funding deficiency in the current plan year or any of the 9 succeeding plan years,

"(ii) the plan sponsor has adopted a plan to improve the plan's funding status,

"(iii) the plan is projected to have sufficient assets to timely pay expected benefits and anticipated expenditures over the amortization period as extended, and

"(iv) the notice required under paragraph (3)(A) has been provided.

"(C) TERMINATION.—The preceding provisions of this paragraph shall not apply with respect to any application submitted after December 31, 2014.

"(2) ALTERNATIVE EXTENSION.—

"(A) IN GENERAL.—If the plan sponsor of a multiemployer plan submits to the Secretary of the Treasury an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), the Secretary of the Treasury may extend the amortization period for a period of time (not in excess of 10 years reduced by the number of years of any extension under paragraph (1) with respect to such unfunded liability) if the Secretary of the Treasury makes the determination described in subparagraph (B). Such extension shall be in addition to any extension under paragraph (1).

"(B) DETERMINATION.—The Secretary of the Treasury may grant an extension under subparagraph (A) if such Secretary determines that—

"(i) such extension would carry out the purposes of this Act and would provide adequate protection for participants under the plan and their beneficiaries, and

"(ii) the failure to permit such extension would—

"(I) result in a substantial risk to the voluntary continuation of the plan, or a substantial curtailment of pension benefit levels or employee compensation, and

"(II) be adverse to the interests of plan participants in the aggregate.

"(C) ACTION BY SECRETARY OF THE TREASURY.—The Secretary of the Treasury shall act upon any application for an extension under this paragraph within 180 days of the submission of such application. If such Secretary rejects the application for an extension under this paragraph, such Secretary shall provide notice to the plan detailing the specific reasons for the rejection, including references to the criteria set forth above.

"(3) ADVANCE NOTICE.—

"(A) IN GENERAL.—The Secretary of the Treasury shall, before granting an extension under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such extension to each affected party (as defined in section 4001(a)(21)) with respect to the affected plan. Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV and for benefit liabilities.

"(B) CONSIDERATION OF RELEVANT INFORMATION.—The Secretary of the Treasury shall consider any relevant information provided by a person to whom notice was given under paragraph (1).".

(b) SHORTFALL FUNDING METHOD.—

(1) IN GENERAL.—A multiemployer plan meeting the criteria of paragraph (2) may adopt, use, or cease using, the shortfall funding method and such adoption, use, or cessation of use of such method, shall be deemed approved by the Secretary of the Treasury under section 302(d)(1) of the Employee Retirement Income Security Act of 1974 and section 412(d)(1) of the Internal Revenue Code of 1986.

(2) CRITERIA.—A multiemployer pension plan meets the criteria of this clause if—

(A) the plan has not used the shortfall funding method during the 5-year period ending on the day before the date the plan is to use the method under paragraph (1); and

(B) the plan is not operating under an amortization period extension under section 304(d) of such Act and did not operate under such an extension during such 5-year period.

(3) SHORTFALL FUNDING METHOD DEFINED.—For purposes of this subsection, the term "shortfall funding method" means the shortfall funding method described in Treasury Regulations section 1.412(c)(1)-2 (26 C.F.R. 1.412(c)(1)-2).

(4) BENEFIT RESTRICTIONS TO APPLY.—The benefit restrictions under section 302(c)(7) of such Act and section 412(c)(7) of such Code shall apply during any period a multiemployer plan is on the shortfall funding method pursuant to this subsection.

(5) USE OF SHORTFALL METHOD NOT TO PRECLUDE OTHER OPTIONS.—Nothing in this subsection shall be construed to affect a multiemployer plan's ability to adopt the shortfall funding method with the Secretary's permission under otherwise applicable regulations or to affect a multiemployer plan's right to change funding methods, with or without the Secretary's consent, as provided in applicable rules and regulations.

(c) CONFORMING AMENDMENTS.—

(1) Section 301 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1081) is amended by striking subsection (d).

(2) The table of contents in section 1 of such Act (as amended by this Act) is amended by inserting after the item relating to section 303 the following new item:

"Sec. 304. Minimum funding standards for multiemployer plans.".

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to plan years beginning after 2007.

(2) SPECIAL RULE FOR CERTAIN AMORTIZATION EXTENSIONS.—If the Secretary of the Treasury grants an extension under section 304 of the Employee Retirement Income Security Act of 1974 and section 412(e) of the Internal Revenue Code of 1986 with respect to any application filed with the Secretary of the Treasury on or before June 30, 2005, the extension (and any modification thereof) shall be applied and administered under the rules of such sections as in effect before the enactment of this Act, including the use of the rate of interest determined under section 6621(b) of such Code.

SEC. 202. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED OR CRITICAL STATUS.

(a) IN GENERAL.—Part 3 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 (as amended by the preceding provisions of this Act) is amended by inserting after section 304 the following new section:

"ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS OR CRITICAL STATUS

"SEC. 305. (a) GENERAL RULE.—For purposes of this part, in the case of a multiemployer plan in effect on July 16, 2006—

"(1) if the plan is in endangered status—

"(A) the plan sponsor shall adopt and implement a funding improvement plan in accordance with the requirements of subsection (c), and

"(B) the requirements of subsection (d) shall apply during the funding plan adoption period and the funding improvement period, and

"(2) if the plan is in critical status—

"(A) the plan sponsor shall adopt and implement a rehabilitation plan in accordance with the requirements of subsection (e), and

"(B) the requirements of subsection (f) shall apply during the rehabilitation plan adoption period and the rehabilitation period.

"(b) DETERMINATION OF ENDANGERED AND CRITICAL STATUS.—For purposes of this section—

"(1) ENDANGERED STATUS.—A multiemployer plan is in endangered status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is not in critical status for the plan year and, as of the beginning of the plan year, either—

"(A) the plan's funded percentage for such plan year is less than 80 percent, or

"(B) the plan has an accumulated funding deficiency for such plan year, or is projected to have such an accumulated funding deficiency for any of the 6 succeeding plan years, taking into account any extension of amortization periods under section 304(d).

For purposes of this section, a plan shall be treated as in seriously endangered status for a plan year if the plan is described in both subparagraphs (A) and (B).

"(2) CRITICAL STATUS.—A multiemployer plan is in critical status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is described in 1 or more of the following subparagraphs as of the beginning of the plan year:

"(A) A plan is described in this subparagraph if—

"(i) the funded percentage of the plan is less than 65 percent, and

"(ii) the sum of—

"(I) the fair market value of plan assets, plus

"(II) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 6 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all nonforfeitable benefits projected to be payable under the plan during the current plan year and each of the 6 succeeding plan years (plus administrative expenses for such plan years).

"(B) A plan is described in this subparagraph if—

"(i) the plan has an accumulated funding deficiency for the current plan year, not taking into account any extension of amortization periods under section 304(d), or

"(ii) the plan is projected to have an accumulated funding deficiency for any of the 3 succeeding plan years (4 succeeding plan years if the funded percentage of the plan is 65 percent or less), not taking into account any extension of amortization periods under section 304(d).

"(C) A plan is described in this subparagraph if—

"(i)(I) the plan's normal cost for the current plan year, plus interest (determined at the rate used for determining costs under the plan) for the current plan year on the amount of unfunded benefit liabilities under the plan as of the last date of the preceding plan year, exceeds

"(II) the present value of the reasonably anticipated employer and employee contributions for the current plan year,

"(ii) the present value, as of the beginning of the current plan year, of nonforfeitable benefits of inactive participants is greater than the present value of nonforfeitable benefits of active participants, and

"(iii) the plan has an accumulated funding deficiency for the current plan year, or is projected to have such a deficiency for any of the 4 succeeding plan years, not taking into account any extension of amortization periods under section 304(d).

"(D) A plan is described in this subparagraph if the sum of—

"(i) the fair market value of plan assets, plus

"(ii) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 4 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all benefits projected to be payable under the plan during the current plan year and each of the 4 succeeding plan years (plus administrative expenses for such plan years).

"(3) ANNUAL CERTIFICATION BY PLAN ACTUARY.—

"(A) IN GENERAL.—Not later than the 90th day of each plan year of a multiemployer plan, the plan actuary shall certify to the Secretary of the Treasury and to the plan sponsor—

"(i) whether or not the plan is in endangered status for such plan year and whether or not the plan is or will be in critical status for such plan year, and

"(ii) in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

"(B) ACTUARIAL PROJECTIONS OF ASSETS AND LIABILITIES.—

"(i) IN GENERAL.—In making the determinations and projections under this subsection, the plan actuary shall make projections required for the current and succeeding plan years of the current value of the assets of the plan and the present value of all liabilities to participants and beneficiaries under the plan for the current plan year as of the beginning of such year. The actuary's projections shall be based on reasonable actuarial estimates, assumptions, and methods that, except as provided in clause (iii), offer the actuary's best estimate of anticipated experience under the plan. The projected present value of liabilities as of the beginning of such year shall be determined based on the most recent of either—

"(I) the actuarial statement required under section 103(d) with respect to the most recently filed annual report, or

"(II) the actuarial valuation for the preceding plan year.

"(ii) DETERMINATIONS OF FUTURE CONTRIBUTIONS.—Any actuarial projection of plan assets shall assume—

"(I) reasonably anticipated employer contributions for the current and succeeding plan years, assuming that the terms of the one or more collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years, or

"(II) that employer contributions for the most recent plan year will continue indefinitely, but only if the plan actuary determines there have been no significant demographic changes that would make such assumption unreasonable.

"(iii) PROJECTED INDUSTRY ACTIVITY.—Any projection of activity in the industry or industries covered by the plan, including future covered employment and contribution levels, shall be based on information provided by the plan sponsor, which shall act reasonably and in good faith.

"(C) PENALTY FOR FAILURE TO SECURE TIMELY ACTUARIAL CERTIFICATION.—Any failure of the plan's actuary to certify the plan's status under this subsection by the date specified in subparagraph (A) shall be treated for purposes of section 502(c)(2) as a failure or refusal by the plan administrator to file the annual report required to be filed with the Secretary under section 101(b)(4).

"(D) NOTICE.—

"(i) IN GENERAL.—In any case in which it is certified under subparagraph (A) that a multiemployer plan is or will be in endangered or critical status for a plan year, the plan sponsor shall, not later than 30 days after the date of the certification, provide notification of the endangered or critical status to the participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation, and the Secretary.

"(ii) PLANS IN CRITICAL STATUS.—If it is certified under subparagraph (A) that a multiemployer plan is or will be in critical status, the plan sponsor shall include in the notice under clause (i) an explanation of the possibility that—

"(I) adjustable benefits (as defined in subsection (e)(8)) may be reduced, and

"(II) such reductions may apply to participants and beneficiaries whose benefit commencement date is on or after the date such notice is provided for the first plan year in which the plan is in critical status.

"(iii) MODEL NOTICE.—The Secretary shall prescribe a model notice that a multiemployer plan may use to satisfy the requirements under clause (ii).

"(c) FUNDING IMPROVEMENT PLAN MUST BE ADOPTED FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS.—

"(1) IN GENERAL.—In any case in which a multiemployer plan is in endangered status for a plan year, the plan sponsor, in accordance with this subsection—

"(A) shall adopt a funding improvement plan not later than 240 days following the required date for the actuarial certification of endangered status under subsection (b)(3)(A), and

"(B) within 30 days after the adoption of the funding improvement plan—

"(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to meet the applicable benchmarks in accordance with the funding improvement plan, including—

"(I) one proposal for reductions in the amount of future benefit accruals necessary to achieve the applicable benchmarks, assuming no amendments increasing contributions under the plan (other than amendments increasing contributions necessary to achieve the applicable benchmarks after amendments have reduced future benefit accruals to the maximum extent permitted by law), and

"(II) one proposal for increases in contributions under the plan necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the plan, and

"(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to achieving the applicable benchmarks in accordance with the funding improvement plan.

For purposes of this section, the term 'applicable benchmarks' means the requirements applicable to the multiemployer plan under paragraph (3) (as modified by paragraph (5)).

"(2) EXCEPTION FOR YEARS AFTER PROCESS BEGINS.—Paragraph (1) shall not apply to a plan year if such year is in a funding plan adoption period or funding improvement period by reason of the plan being in endangered status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial determination year with respect to the funding improvement plan to which it relates.

"(3) FUNDING IMPROVEMENT PLAN.—For purposes of this section—

"(A) IN GENERAL.—A funding improvement plan is a plan which consists of the actions, including options or a range of options to be proposed to the bargaining parties, formulated to provide, based on reasonably anticipated experience and reasonable actuarial assumptions, for the attainment by the plan during the funding improvement period of the following requirements:

"(i) INCREASE IN PLAN'S FUNDING PERCENTAGE.—The plan's funded percentage as of the close of the funding improvement period equals or exceeds a percentage equal to the sum of—

"(I) such percentage as of the beginning of such period, plus

"(II) 33 percent of the difference between 100 percent and the percentage under subclause (I).

"(ii) AVOIDANCE OF ACCUMULATED FUNDING DEFICIENCIES.—No accumulated funding deficiency for any plan year during the funding improvement period (taking into account any extension of amortization periods under section 304(d)).

"(B) SERIOUSLY ENDANGERED PLANS.—In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A)(i)(II) shall be applied by substituting '20 percent' for '33 percent'.

"(4) FUNDING IMPROVEMENT PERIOD.—For purposes of this section—

"(A) IN GENERAL.—The funding improvement period for any funding improvement plan adopted pursuant to this subsection is the 10-year period beginning on the first day of the first plan year of the multiemployer plan beginning after the earlier of—

"(i) the second anniversary of the date of the adoption of the funding improvement plan, or

"(ii) the expiration of the collective bargaining agreements in effect on the due date for the actuarial certification of endangered status for the initial determination year under subsection (b)(3)(A) and covering, as of such due date, at least 75 percent of the active participants in such multiemployer plan.

"(B) SERIOUSLY ENDANGERED PLANS.—In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A) shall be applied by substituting '15-year period' for '10-year period'.

"(C) COORDINATION WITH CHANGES IN STATUS.—

"(i) Plans no longer in endangered status.—If the plan's actuary certifies under subsection (b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is no longer in endangered status and is not in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the preceding plan year.

"(ii) Plans in critical status.—If the plan's actuary certifies under subsection (b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the plan year preceding the first plan year in the rehabilitation period with respect to such status.

"(D) Plans in endangered status at end of period.—If the plan's actuary certifies under subsection (b)(3)(A) for the first plan year following the close of the period described in subparagraph (A) that the plan is in endangered status, the provisions of this subsection and subsection (d) shall be applied as if such first plan year were an initial determination year, except that the plan may not be amended in a manner inconsistent with the funding improvement plan in effect for the preceding plan year until a new funding improvement plan is adopted.

"(5) Special rules for seriously endangered plans more than 70 percent funded.—

"(A) In general.—If the funded percentage of a plan in seriously endangered status was more than 70 percent as of the beginning of the initial determination year—

"(i) paragraphs (3)(B) and (4)(B) shall apply only if the plan's actuary certifies, within 30 days after the certification under subsection (b)(3)(A) for the initial determination year, that, based on the terms of the plan and the collective bargaining agreements in effect at the time of such certification, the plan is not projected to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), and

"(ii) if there is a certification under clause (i), the plan may, in formulating its funding improvement plan, only take into account the rules of paragraph (3)(B) and (4)(B) for plan years in the funding improvement period beginning on or before the date on which the last of the collective bargaining agreements described in paragraph (4)(A)(ii) expires.

"(B) Special rule after expiration of agreements.—Notwithstanding subparagraph (A)(ii), if, for any plan year ending after the date described in subparagraph (A)(ii), the plan actuary certifies (at the time of the annual certification under subsection (b)(3)(A) for such plan year) that, based on the terms of the plan and collective bargaining agreements in effect at the time of that annual certification, the plan is not projected to be able to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), paragraphs (3)(B) and (4)(B) shall continue to apply for such year.

"(6) Updates to funding improvement plan and schedules.—

"(A) Funding improvement plan.—The plan sponsor shall annually update the funding improvement plan and shall file the update with the plan's annual report under section 104.

"(C) Duration of schedule.—A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

"(7) Imposition of default schedule where failure to adopt funding improvement plan.—

"(A) In general.—If—

"(i) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered endangered status expires, and

"(ii) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to agree on changes to contribution or benefit schedules necessary to meet the applicable benchmarks in accordance with the funding improvement plan,

the plan sponsor shall implement the schedule described in paragraph (1)(B)(i)(I) beginning on the date specified in subparagraph (B).

"(B) Date of implementation.—The date specified in this subparagraph is the earlier of the date—

"(i) on which the Secretary certifies that the parties are at an impasse, or

"(ii) which is 180 days after the date on which the collective bargaining agreement described in subparagraph (A) expires.

"(8) Funding plan adoption period.—For purposes of this section, the term 'funding plan adoption period' means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial determination year and ending on the day before the first day of the funding improvement period.

"(d) Rules for Operation of Plan During Adoption and Improvement Periods.—

"(1) Special rules for plan adoption period.—During the funding plan adoption period—

"(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for—

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation,

"(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986 or to comply with other applicable law, and

"(C) in the case of a plan in seriously endangered status, the plan sponsor shall take all reasonable actions which are consistent with the terms of the plan and applicable law and which are expected, based on reasonable assumptions, to achieve—

"(i) an increase in the plan's funded percentage, and

"(ii) postponement of an accumulated funding deficiency for at least 1 additional plan year.

Actions under subparagraph (C) include applications for extensions of amortization periods under section 304(d), use of the shortfall funding method in making funding standard account computations, amendments to the plan's benefit structure, reductions in future benefit accruals, and other reasonable actions consistent with the terms of the plan and applicable law.

"(2) Compliance with funding improvement plan.—

"(A) In general.—A plan may not be amended after the date of the adoption of a funding improvement plan so as to be inconsistent with the funding improvement plan.

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation.

"(C) Special rules for benefit increases.—A plan may not be amended after the date of the adoption of a funding improvement plan so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that the benefit increase is consistent with the funding improvement plan and is paid for out of contributions not required by the funding improvement plan to meet the applicable benchmark in accordance with the schedule contemplated in the funding improvement plan.

"(e) Rehabilitation Plan Must Be Adopted for Multiemployer Plans in Critical Status.—

"(1) In general.—In any case in which a multiemployer plan is in critical status for a plan year, the plan sponsor, in accordance with this subsection—

"(A) shall adopt a rehabilitation plan not later than 240 days following the required date for the actuarial certification of critical status under subsection (b)(3)(A), and

"(B) within 30 days after the adoption of the rehabilitation plan—

"(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to emerge from critical status in accordance with the rehabilitation plan, and

"(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to emerging from critical status in accordance with the rehabilitation plan.

The schedule or schedules described in subparagraph (B)(i) shall reflect reductions in future benefit accruals and adjustable benefits, and increases in contributions, that the plan sponsor determines are reasonably necessary to emerge from critical status. One schedule shall be designated as the default schedule and such schedule shall assume that there are no increases in contributions under the plan other than the increases necessary to emerge from critical status after future benefit accruals and other benefits (other than benefits the reduction or elimination of which are not permitted under section 204(g)) have been reduced to the maximum extent permitted by law.

"(2) Exception for years after process begins.—Paragraph (1) shall not apply to a plan year if such year is in a rehabilitation plan adoption period or rehabilitation period by reason of the plan being in critical status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial critical year with respect to the rehabilitation plan to which it relates.

“(3) REHABILITATION PLAN.—For purposes of this section—

“(A) IN GENERAL.—A rehabilitation plan is a plan which consists of—

“(i) actions, including options or a range of options to be proposed to the bargaining parties, formulated, based on reasonably anticipated experience and reasonable actuarial assumptions, to enable the plan to cease to be in critical status by the end of the rehabilitation period and may include reductions in plan expenditures (including plan mergers and consolidations), reductions in future benefit accruals or increases in contributions, if agreed to by the bargaining parties, or any combination of such actions, or

“(ii) if the plan sponsor determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan can not reasonably be expected to emerge from critical status by the end of the rehabilitation period, reasonable measures to emerge from critical status at a later time or to forestall possible insolvency (within the meaning of section 4245).

A rehabilitation plan must provide annual standards for meeting the requirements of such rehabilitation plan. Such plan shall also include the schedules required to be provided under paragraph (1)(B)(i) and if clause (ii) applies, shall set forth the alternatives considered, explain why the plan is not reasonably expected to emerge from critical status by the end of the rehabilitation period, and specify when, if ever, the plan is expected to emerge from critical status in accordance with the rehabilitation plan.

“(B) UPDATES TO REHABILITATION PLAN AND SCHEDULES.—

“(i) REHABILITATION PLAN.—The plan sponsor shall annually update the rehabilitation plan and shall file the update with the plan's annual report under section 104.

“(ii) SCHEDULES.—The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

“(iii) DURATION OF SCHEDULE.—A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

“(C) IMPOSITION OF DEFAULT SCHEDULE WHERE FAILURE TO ADOPT REHABILITATION PLAN.—

“(i) IN GENERAL.—If—

“(I) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered critical status expires, and

“(II) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to adopt a contribution or benefit schedules with terms consistent with the rehabilitation plan and the schedule from the plan sponsor under paragraph (1)(B)(i),

the plan sponsor shall implement the default schedule described in the last sentence of paragraph (1) beginning on the date specified in clause (ii).

“(ii) DATE OF IMPLEMENTATION.—The date specified in this clause is the earlier of the date—

“(I) on which the Secretary certifies that the parties are at an impasse, or

“(II) which is 180 days after the date on which the collective bargaining agreement described in clause (i) expires.

“(4) REHABILITATION PERIOD.—For purposes of this section—

“(A) IN GENERAL.—The rehabilitation period for a plan in critical status is the 10-year period beginning on the first day of the first plan year of the multiemployer plan following the earlier of—

“(i) the second anniversary of the date of the adoption of the rehabilitation plan, or

“(ii) the expiration of the collective bargaining agreements in effect on the date of the due date for the actuarial certification of critical status for the initial critical year under subsection (a)(1) and covering, as of such date at least 75 percent of the active participants in such multiemployer plan.

If a plan emerges from critical status as provided under subparagraph (B) before the end of such 10-year period, the rehabilitation period shall end with the plan year preceding the plan year for which the determination under subparagraph (B) is made.

“(B) EMERGENCE.—A plan in critical status shall remain in such status until a plan year for which the plan actuary certifies, in accordance with subsection (b)(3)(A), that the plan is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method and taking into account any extension of amortization periods under section 304(d).

“(5) REHABILITATION PLAN ADOPTION PERIOD.—For purposes of this section, the term ‘rehabilitation plan adoption period’ means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial critical year and ending on the day before the first day of the rehabilitation period.

“(6) LIMITATION ON REDUCTION IN RATES OF FUTURE ACCRUALS.—Any reduction in the rate of future accruals under the default schedule described in paragraph (1)(B)(i) shall not reduce the rate of future accruals below—

“(A) a monthly benefit (payable as a single life annuity commencing at the participant's normal retirement age) equal to 1 percent of the contributions required to be made with respect to a participant, or the equivalent standard accrual rate for a participant or group of participants under the collective bargaining agreements in effect as of the first day of the initial critical year, or

“(B) if lower, the accrual rate under the plan on such first day.

The equivalent standard accrual rate shall be determined by the plan sponsor based on the standard or average contribution base units which the plan sponsor determines to be representative for active participants and such other factors as the plan sponsor determines to be relevant. Nothing in this paragraph shall be construed as limiting the ability of the plan sponsor to prepare and provide the bargaining parties with alternative schedules to the default schedule that established lower or higher accrual and contribution rates than the rates otherwise described in this paragraph.

“(7) AUTOMATIC EMPLOYER SURCHARGE.—

“(A) IMPOSITION OF SURCHARGE.—Each employer otherwise obligated to make contributions for the initial critical year shall be obligated to pay to the plan for such year a surcharge equal to 5 percent of the contributions otherwise required under the applicable collective bargaining agreement (or other agreement pursuant to which the employer contributes). For each succeeding plan year in which the plan is in critical status for a consecutive period of years beginning with the initial critical year, the surcharge shall be 10 percent of the contributions otherwise so required.

“(B) ENFORCEMENT OF SURCHARGE.—The surcharges under subparagraph (A) shall be due and payable on the same schedule as the contributions on which the surcharges are based. Any failure to make a surcharge payment shall be treated as a delinquent contribution under section 515 and shall be enforceable as such.

“(C) SURCHARGE TO TERMINATE UPON COLLECTIVE BARGAINING AGREEMENT RENEGOTIATION.—The surcharge under this paragraph shall cease to be effective with respect to employees covered by a collective bargaining agreement (or other agreement pursuant to which the employer contributes), beginning on the effective date of a collective bargaining agreement (or other such agreement) that includes terms consistent with a schedule presented by the plan sponsor under paragraph (1)(B)(i), as modified under subparagraph (B) of paragraph (3).

“(D) SURCHARGE NOT TO APPLY UNTIL EMPLOYER RECEIVES NOTICE.—The surcharge under this paragraph shall not apply to an employer until 30 days after the employer has been notified by the plan sponsor that the plan is in critical status and that the surcharge is in effect.

“(E) SURCHARGE NOT TO GENERATE INCREASED BENEFIT ACCRUALS.—Notwithstanding any provision of a plan to the contrary, the amount of any surcharge under this paragraph shall not be the basis for any benefit accrual under the plan.

“(8) BENEFIT ADJUSTMENTS.—

“(A) ADJUSTABLE BENEFITS.—

“(i) IN GENERAL.—Notwithstanding section 204(g), the plan sponsor shall, subject to the notice requirements in subparagraph (C), make any reductions to adjustable benefits which the plan sponsor deems appropriate, based upon the outcome of collective bargaining over the schedule or schedules provided under paragraph (1)(B)(i).

“(ii) EXCEPTION FOR RETIREES.—Except in the case of adjustable benefits described in clause (iv)(III), the plan sponsor of a plan in critical status shall not reduce adjustable benefits of any participant or beneficiary whose benefit commencement date is before the date on which the plan provides notice to the participant or beneficiary under subsection (b)(3)(D) for the initial critical year.

“(iii) PLAN SPONSOR FLEXIBILITY.—The plan sponsor shall include in the schedules provided to the bargaining parties an allowance for funding the benefits of participants with respect to whom contributions are not currently required to be made, and shall reduce their benefits to the extent permitted under this title and considered appropriate by the plan sponsor based on the plan's then current overall funding status.

“(iv) ADJUSTABLE BENEFIT DEFINED.—For purposes of this paragraph, the term ‘adjustable benefit’ means—

“(I) benefits, rights, and features under the plan, including post-retirement death benefits, 60-month guarantees, disability benefits not yet in pay status, and similar benefits,

“(II) any early retirement benefit or retirement-type subsidy (within the meaning of section 204(g)(2)(A)) and any benefit payment option (other than the qualified joint-and survivor annuity), and

“(III) benefit increases that would not be eligible for a guarantee under section 4022A on the first day of initial critical year because the increases were adopted (or, if later, took effect) less than 60 months before such first day.

"(B) NORMAL RETIREMENT BENEFITS PROTECTED.—Except as provided in subparagraph (A)(iv)(III), nothing in this paragraph shall be construed to permit a plan to reduce the level of a participant's accrued benefit payable at normal retirement age.

"(C) NOTICE REQUIREMENTS.—

"(i) IN GENERAL.—No reduction may be made to adjustable benefits under subparagraph (A) unless notice of such reduction has been given at least 30 days before the general effective date of such reduction for all participants and beneficiaries to—

"(I) plan participants and beneficiaries,

"(II) each employer who has an obligation to contribute (within the meaning of section 4212(a)) under the plan, and

"(ii) CONTENT OF NOTICE.—The notice under clause (i) shall contain—

"(II) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

"(iii) FORM AND MANNER.—Any notice under clause (i)—

"(II) shall be written in a manner so as to be understood by the average plan participant, and

"(III) may be provided in written, electronic, or other appropriate form to the extent such form is reasonably accessible to persons to whom the notice is required to be provided.

The Secretary shall in the regulations prescribed under subclause (I) establish a model notice that a plan sponsor may use to meet the requirements of this subparagraph.

"(9) ADJUSTMENTS DISREGARDED IN WITHDRAWAL LIABILITY DETERMINATION.—

"(A) BENEFIT REDUCTIONS.—Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201.

"(B) SURCHARGES.—Any surcharges under paragraph (7) shall be disregarded in determining an employer's withdrawal liability under section 4211, except for purposes of determining the unfunded vested benefits attributable to an employer under section 4211(c)(4) or a comparable method approved under section 4211(c)(5).

"(C) SIMPLIFIED CALCULATIONS.—The Pension Benefit Guaranty Corporation shall prescribe simplified methods for the application of this paragraph in determining withdrawal liability.

"(f) RULES FOR OPERATION OF PLAN DURING ADOPTION AND REHABILITATION PERIOD.—

"(1) COMPLIANCE WITH REHABILITATION PLAN.—

"(A) IN GENERAL.—A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to be inconsistent with the rehabilitation plan.

"(B) SPECIAL RULES FOR BENEFIT INCREASES.—A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that such increase is paid for out of additional contributions not contemplated by the rehabilitation plan, and, after taking into account the benefit increase, the multiemployer plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the rehabilitation plan.

"(2) RESTRICTION ON LUMP SUMS AND SIMILAR BENEFITS.—

"(A) IN GENERAL.—Effective on the date the notice of certification of the plan's critical status for the initial critical year under subsection (b)(3)(D) is sent, and notwithstanding section 204(g), the plan shall not pay—

"(3) ADJUSTMENTS DISREGARDED IN WITHDRAWAL LIABILITY DETERMINATION.—Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201.

"(4) SPECIAL RULES FOR PLAN ADOPTION PERIOD.—During the rehabilitation plan adoption period—

"(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for—

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation, and

"(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986 or to comply with other applicable law.

"(g) EXPEDITED RESOLUTION OF PLAN SPONSOR DECISIONS.—If, within 60 days of the due date for adoption of a funding improvement plan or a rehabilitation plan under subsection (e), the plan sponsor of a plan in endangered status or a plan in critical status has not agreed on a funding improvement plan or rehabilitation plan, then any member of the board or group that constitutes the plan sponsor may require that the plan sponsor enter into an expedited dispute resolution procedure for the development and adoption of a funding improvement plan or rehabilitation plan.

"(2) NONBARGAINED EMPLOYEES ONLY.—In the case of an employer that contributes to a multiemployer plan only with respect to employees who are not covered by a collective bargaining agreement, this section shall be applied as if the employer were the bargaining party, and its participation agreement with the plan were a collective bargaining agreement with a term ending on the first day of the plan year beginning after the employer is provided the schedule or schedules described in subsections (c) and (e).

(1) In general.—Clause (i) of section 4205(b)(2)(A) of such Act (29 U.S.C. 1385(b)(2)(A)) is amended by inserting "or to an entity or entities owned or controlled by the employer" after "to another location".

(2) Effective date.—The amendment made by this subsection shall apply with respect to work transferred on or after the date of the enactment of this Act.

(c) Application of Rules to Plans Primarily Covering Employees in the Building and Construction Industry.—

(1) In general.—Section 4210(b) of such Act (29 U.S.C. 1390(b)) is amended—

(A) by striking paragraph (1); and

(B) by redesignating paragraphs (2) through (4) as paragraphs (1) through (3), respectively.

(2) Fresh start option.—Section 4211(c)(5) of such Act (29 U.S.C. 1391(c)(5)) is amended by adding at the end the following new subparagraph:

"(E) Fresh start option.—Notwithstanding paragraph (1), a plan may be amended to provide that the withdrawal liability method described in subsection (b) shall be applied by substituting the plan year which is specified in the amendment and for which the plan has no unfunded vested benefits for the plan year ending before September 26, 1980.".

(3) EFFECTIVE DATE.—The amendments made by this subsection shall apply with respect to plan withdrawals occurring on or after January 1, 2007.

(d) PROCEDURES APPLICABLE TO DISPUTES INVOLVING PENSION PLAN WITHDRAWAL LIABILITY.—

(1) IN GENERAL.—Section 4221 of Employee Retirement Income Security Act of 1974 (29 U.S.C. 1401) is amended by adding at the end the following:

"(g) PROCEDURES APPLICABLE TO CERTAIN DISPUTES.—

"(1) IN GENERAL.—If—

"(A) a plan sponsor of a plan determines that—

"(i) a complete or partial withdrawal of an employer has occurred, or

"(ii) an employer is liable for withdrawal liability payments with respect to such complete or partial withdrawal, and

"(B) such determination is based in whole or in part on a finding by the plan sponsor under section 4212(c) that a principal purpose of any transaction which occurred after December 31, 1998, and at least 5 years (2 years in the case of a small employer) before the date of the complete or partial withdrawal was to evade or avoid withdrawal liability under this subtitle,

then the person against which the withdrawal liability is assessed based solely on the application of section 4212(c) may elect to use the special rule under paragraph (2) in applying subsection (d) of this section and section 4219(c) to such person.

"(2) SPECIAL RULE.—Notwithstanding subsection (d) and section 4219(c), if an electing person contests the plan sponsor's determination with respect to withdrawal liability payments under paragraph (1) through an arbitration proceeding pursuant to subsection (a), through an action brought in a court of competent jurisdiction for review of such an arbitration decision, or as otherwise permitted by law, the electing person shall not be obligated to make the withdrawal liability payments until a final decision in the arbitration proceeding, or in court, upholds the plan sponsor's determination, but only if the electing person—

"(A) provides notice to the plan sponsor of its election to apply the special rule in this paragraph within 90 days after the plan sponsor notifies the electing person of its liability by reason of the application of section 4212(c); and

"(B) if a final decision in the arbitration proceeding, or in court, of the withdrawal liability dispute has not been rendered within 12 months from the date of such notice, the electing person provides to the plan, effective as of the first day following the 12-month period, a bond issued by a corporate surety company that is an acceptable surety for purposes of section 412 of this Act, or an amount held in escrow by a bank or similar financial institution satisfactory to the plan, in an amount equal to the sum of the withdrawal liability payments that would otherwise be due under subsection (d) and section 4219(c) for the 12-month period beginning with the first anniversary of such notice. Such bond or escrow shall remain in effect until there is a final decision in the arbitration proceeding, or in court, of the withdrawal liability dispute, at which time such bond or escrow shall be paid to the plan if such final decision upholds the plan sponsor's determination.

"(3) DEFINITION OF SMALL EMPLOYER.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'small employer' means any employer which, for the calendar year in which the transaction referred to in paragraph (1)(B) occurred and for each of the 3 preceding years, on average—

"(i) employs not more than 500 employees, and

"(ii) is required to make contributions to the plan for not more than 250 employees.

"(B) CONTROLLED GROUP.—Any group treated as a single employer under subsection (b)(1) of section 4001, without regard to any transaction that was a basis for the plan's finding under section 4212, shall be treated as a single employer for purposes of this subparagraph.

"(4) ADDITIONAL SECURITY PENDING RESOLUTION OF DISPUTE.—If a withdrawal liability dispute to which this subsection applies is not concluded by 12 months after the electing person posts the bond or escrow described in paragraph (2), the electing person shall, at the start of each succeeding 12-month period, provide an additional bond or amount held in escrow equal to the sum of the withdrawal liability payments that would otherwise be payable to the plan during that period.

"(5) The liability of the party furnishing a bond or escrow under this subsection shall be reduced, upon the payment of the bond or escrow to the plan, by the amount thereof."

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to any person that receives a notification under section 4219(b)(1) of the Employee Retirement Income Security Act of 1974 on or after the date of enactment of this Act with respect to a transaction that occurred after December 31, 1998.

SEC. 205. PROHIBITION ON RETALIATION AGAINST EMPLOYERS EXERCISING THEIR RIGHTS TO PETITION THE FEDERAL GOVERNMENT.

Section 510 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1140) is amended by inserting before the last sentence thereof the following new sentence: "In the case of a multiemployer plan, it shall be unlawful for the plan sponsor or any other person to discriminate against any contributing employer for exercising rights under this Act or for giving information or testifying in any inquiry or proceeding relating to this Act before Congress."

SEC. 206. SPECIAL RULE FOR CERTAIN BENEFITS FUNDED UNDER AN AGREEMENT APPROVED BY THE PENSION BENEFIT GUARANTY CORPORATION.

In the case of a multiemployer plan that is a party to an agreement that was approved by the Pension Benefit Guaranty Corporation prior to June 30, 2005, and that—

(1) increases benefits, and

(2) provides for special withdrawal liability rules under section 4203(f) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1383),

the amendments made by sections 201, 202, 211, and 212 of this Act shall not apply to the benefit increases under any plan amendment adopted prior to June 30, 2005, that are funded pursuant to such agreement if the plan is funded in compliance with such agreement (and any amendments thereto).

Subtitle B—Amendments to Internal Revenue Code of 1986

SEC. 211. FUNDING RULES FOR MULTIEMPLOYER DEFINED BENEFIT PLANS.

(a) IN GENERAL.—Subpart A of part III of subchapter D of chapter 1 of the Internal Revenue Code of 1986 (as added by this Act) is amended by inserting after section 430 the following new section:

"SEC. 431. MINIMUM FUNDING STANDARDS FOR MULTIEMPLOYER PLANS.

"(a) IN GENERAL.—For purposes of section 412, the accumulated funding deficiency of a multiemployer plan for any plan year is—

"(1) except as provided in paragraph (2), the amount, determined as of the end of the plan year, equal to the excess (if any) of the total charges to the funding standard account of the plan for all plan years (beginning with the first plan year for which this part applies to the plan) over the total credits to such account for such years, and

"(2) if the multiemployer plan is in reorganization for any plan year, the accumulated funding deficiency of the plan determined under section 4243 of the Employee Retirement Income Security Act of 1974.

"(b) FUNDING STANDARD ACCOUNT.—

"(1) ACCOUNT REQUIRED.—Each multiemployer plan to which this part applies shall establish and maintain a funding standard account. Such account shall be credited and charged solely as provided in this section.

"(2) CHARGES TO ACCOUNT.—For a plan year, the funding standard account shall be charged with the sum of—

"(A) the normal cost of the plan for the plan year,

"(B) the amounts necessary to amortize in equal annual installments (until fully amortized)—

"(i) in the case of a plan which comes into existence on or after January 1, 2008, the unfunded past service liability under the plan on the first day of the first plan year to which this section applies, over a period of 15 plan years,

"(ii) separately, with respect to each plan year, the net increase (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 15 plan years,

"(ii) separately, with respect to each plan year, the net increase (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 15 plan years,

"(iii) separately, with respect to each plan year, the net experience loss (if any) under the plan, over a period of 15 plan years, and

"(iv) separately, with respect to each plan year, the net loss (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 15 plan years,

"(C) the amount necessary to amortize each waived funding deficiency (within the meaning of section 412(c)(3)) for each prior plan year in equal annual installments (until fully amortized) over a period of 15 plan years,

"(D) the amount necessary to amortize in equal annual installments (until fully amortized) over a period of 5 plan years any amount credited to the funding standard account under section 412(b)(3)(D) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006), and

"(E) the amount necessary to amortize in equal annual installments (until fully amortized) over a period of 20 years the contributions which would be required to be made under the plan but for the provisions of section 412(c)(7)(A)(i)(I) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006).

"(3) CREDITS TO ACCOUNT.—For a plan year, the funding standard account shall be credited with the sum of—

"(A) the amount considered contributed by the employer to or under the plan for the plan year,

"(B) the amount necessary to amortize in equal annual installments (until fully amortized)—

“(i) separately, with respect to each plan year, the net decrease (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 15 plan years,

“(ii) separately, with respect to each plan year, the net experience gain (if any) under the plan, over a period of 15 plan years, and

“(iii) separately, with respect to each plan year, the net gain (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 15 plan years.

“(C) the amount of the waived funding deficiency (within the meaning of section 412(c)(3)) for the plan year, and

“(D) in the case of a plan year for which the accumulated funding deficiency is determined under the funding standard account if such plan year follows a plan year for which such deficiency was determined under the alternative minimum funding standard under section 412(g) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006), the excess (if any) of any debit balance in the funding standard account (determined without regard to this subparagraph) over any debit balance in the alternative minimum funding standard account.

“(4) SPECIAL RULE FOR AMOUNTS FIRST AMORTIZED IN PLAN YEARS BEFORE 2008.—In the case of any amount amortized under section 412(b) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) over any period beginning with a plan year beginning before 2008 in lieu of the amortization described in paragraphs (2)(B) and (3)(B), such amount shall continue to be amortized under such section as so in effect.

“(5) COMBINING AND OFFSETTING AMOUNTS TO BE AMORTIZED.—Under regulations prescribed by the Secretary, amounts required to be amortized under paragraph (2) or paragraph (3), as the case may be—

“(A) may be combined into one amount under such paragraph to be amortized over a period determined on the basis of the remaining amortization period for all items entering into such combined amount, and

“(B) may be offset against amounts required to be amortized under the other such paragraph, with the resulting amount to be amortized over a period determined on the basis of the remaining amortization periods for all items entering into whichever of the two amounts being offset is the greater.

“(6) INTEREST.—The funding standard account (and items therein) shall be charged or credited (as determined under regulations prescribed by the Secretary of the Treasury) with interest at the appropriate rate consistent with the rate or rates of interest used under the plan to determine costs.

“(7) SPECIAL RULES RELATING TO CHARGES AND CREDITS TO FUNDING STANDARD ACCOUNT.—For purposes of this part—

“(A) WITHDRAWAL LIABILITY.—Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall be considered an amount contributed by the employer to or under the plan. The Secretary may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments from being unduly reflected as advance funding for plan liabilities.

“(B) ADJUSTMENTS WHEN A MULTIEMPLOYER PLAN LEAVES REORGANIZATION.—If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year—

“(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

“(ii) shall be taken into account in subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 4243(a) of such Act as of the end of the last plan year that the plan was in reorganization.

“(C) PLAN PAYMENTS TO SUPPLEMENTAL PROGRAM OR WITHDRAWAL LIABILITY PAYMENT FUND.—Any amount paid by a plan during a plan year to the Pension Benefit Guaranty Corporation pursuant to section 4222 of such Act or to a fund exempt under section 501(c)(22) pursuant to section 4223 of such Act shall reduce the amount of contributions considered received by the plan for the plan year.

“(D) INTERIM WITHDRAWAL LIABILITY PAYMENTS.—Any amount paid by an employer pending a final determination of the employer's withdrawal liability under part 1 of subtitle E of title IV of such Act and subsequently refunded to the employer by the plan shall be charged to the funding standard account in accordance with regulations prescribed by the Secretary.

“(E) ELECTION FOR DEFERRAL OF CHARGE FOR PORTION OF NET EXPERIENCE LOSS.—If an election is in effect under section 412(b)(7)(F) (as in effect on the day before the date of the enactment of the Pension Protection Act of 2006) for any plan year, the funding standard account shall be charged in the plan year to which the portion of the net experience loss deferred by such election was deferred with the amount so deferred (and paragraph (2)(B)(iii) shall not apply to the amount so charged).

“(F) FINANCIAL ASSISTANCE.—Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this section and section 412 in such manner as is determined by the Secretary.

“(G) SHORT-TERM BENEFITS.—To the extent that any plan amendment increases the unfunded past service liability under the plan by reason of an increase in benefits which are not payable as a life annuity but are payable under the terms of the plan for a period that does not exceed 14 years from the effective date of the amendment, paragraph (2)(B)(ii) shall be applied separately with respect to such increase in unfunded past service liability by substituting the number of years of the period during which such benefits are payable for ‘15’.

“(c) ADDITIONAL RULES.—

“(1) DETERMINATIONS TO BE MADE UNDER FUNDING METHOD.—For purposes of this part, normal costs, accrued liability, past service liabilities, and experience gains and losses shall be determined under the funding method used to determine costs under the plan.

“(2) VALUATION OF ASSETS.—

“(A) IN GENERAL.—For purposes of this part, the value of the plan's assets shall be determined on the basis of any reasonable actuarial method of valuation which takes into account fair market value and which is permitted under regulations prescribed by the Secretary.

“(B) ELECTION WITH RESPECT TO BONDS.—The value of a bond or other evidence of indebtedness which is not in default as to principal or interest may, at the election of the plan administrator, be determined on an amortized basis running from initial cost at purchase to par value at maturity or earliest call date. Any election under this subparagraph shall be made at such time and in such manner as the Secretary shall by regulations provide, shall apply to all such evidences of indebtedness, and may be revoked only with the consent of the Secretary.

“(3) ACTUARIAL ASSUMPTIONS MUST BE REASONABLE.—For purposes of this section, all costs, liabilities, rates of interest, and other factors under the plan shall be determined on the basis of actuarial assumptions and methods—

“(A) each of which is reasonable (taking into account the experience of the plan and reasonable expectations), and

“(B) which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

“(4) TREATMENT OF CERTAIN CHANGES AS EXPERIENCE GAIN OR LOSS.—For purposes of this section, if—

“(A) a change in benefits under the Social Security Act or in other retirement benefits created under Federal or State law, or

“(B) a change in the definition of the term ‘wages’ under section 3121, or a change in the amount of such wages taken into account under regulations prescribed for purposes of section 401(a)(5),

results in an increase or decrease in accrued liability under a plan, such increase or decrease shall be treated as an experience loss or gain.

“(5) FULL FUNDING.—If, as of the close of a plan year, a plan would (without regard to this paragraph) have an accumulated funding deficiency in excess of the full funding limitation—

“(A) the funding standard account shall be credited with the amount of such excess, and

“(B) all amounts described in subparagraphs (B), (C), and (D) of subsection (b) (2) and subparagraph (B) of subsection (b)(3) which are required to be amortized shall be considered fully amortized for purposes of such subparagraphs.

“(6) FULL-FUNDING LIMITATION.—

“(A) IN GENERAL.—For purposes of paragraph (5), the term ‘full-funding limitation’ means the excess (if any) of—

“(i) the accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan), over

“(ii) the lesser of—

“(I) the fair market value of the plan's assets, or

“(II) the value of such assets determined under paragraph (2).

“(B) MINIMUM AMOUNT.—

“(i) IN GENERAL.—In no event shall the full-funding limitation determined under subparagraph (A) be less than the excess (if any) of—

“(I) 90 percent of the current liability of the plan (including the expected increase in current liability due to benefits accruing during the plan year), over

“(II) the value of the plan's assets determined under paragraph (2).

“(ii) ASSETS.—For purposes of clause (i), assets shall not be reduced by any credit balance in the funding standard account.

“(C) FULL FUNDING LIMITATION.—For purposes of this paragraph, unless otherwise provided by the plan, the accrued liability under a multiemployer plan shall not include benefits which are not nonforfeitable under the plan after the termination of the plan (taking into consideration section 411(d)(3)).

"(D) CURRENT LIABILITY.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'current liability' means all liabilities to employees and their beneficiaries under the plan.

"(ii) TREATMENT OF UNPREDICTABLE CONTINGENT EVENT BENEFITS.—For purposes of clause (i), any benefit contingent on an event other than—

"(I) age, service, compensation, death, or disability, or

"(II) an event which is reasonably and reliably predictable (as determined by the Secretary),

shall not be taken into account until the event on which the benefit is contingent occurs.

"(iii) INTEREST RATE USED.—The rate of interest used to determine current liability under this paragraph shall be the rate of interest determined under subparagraph (E).

"(iv) MORTALITY TABLES.—

"(I) COMMISSIONERS' STANDARD TABLE.—In the case of plan years beginning before the first plan year to which the first tables prescribed under subclause (II) apply, the mortality table used in determining current liability under this paragraph shall be the table prescribed by the Secretary which is based on the prevailing commissioners' standard table (described in section 807(d)(5)(A)) used to determine reserves for group annuity contracts issued on January 1, 1993.

"(II) SECRETARIAL AUTHORITY.—The Secretary may by regulation prescribe for plan years beginning after December 31, 1999, mortality tables to be used in determining current liability under this subsection. Such tables shall be based upon the actual experience of pension plans and projected trends in such experience. In prescribing such tables, the Secretary shall take into account results of available independent studies of mortality of individuals covered by pension plans.

"(v) SEPARATE MORTALITY TABLES FOR THE DISABLED.—Notwithstanding clause (iv)—

"(I) IN GENERAL.—The Secretary shall establish mortality tables which may be used (in lieu of the tables under clause (iv)) to determine current liability under this subsection for individuals who are entitled to benefits under the plan on account of disability. The Secretary shall establish separate tables for individuals whose disabilities occur in plan years beginning before January 1, 1995, and for individuals whose disabilities occur in plan years beginning on or after such date.

"(II) SPECIAL RULE FOR DISABILITIES OCCURRING AFTER 1994.—In the case of disabilities occurring in plan years beginning after December 31, 1994, the tables under subclause (I) shall apply only with respect to individuals described in such subclause who are disabled within the meaning of title II of the Social Security Act and the regulations thereunder.

"(vi) PERIODIC REVIEW.—The Secretary shall periodically (at least every 5 years) review any tables in effect under this subparagraph and shall, to the extent such Secretary determines necessary, by regulation update the tables to reflect the actual experience of pension plans and projected trends in such experience.

"(E) REQUIRED CHANGE OF INTEREST RATE.—For purposes of determining a plan's current liability for purposes of this paragraph—

"(i) IN GENERAL.—If any rate of interest used under the plan under subsection (b)(6) to determine cost is not within the permissible range, the plan shall establish a new rate of interest within the permissible range.

"(ii) PERMISSIBLE RANGE.—For purposes of this subparagraph—

"(I) IN GENERAL.—Except as provided in subclause (II), the term 'permissible range' means a rate of interest which is not more than 5 percent above, and not more than 10 percent below, the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.

"(II) SECRETARIAL AUTHORITY.—If the Secretary finds that the lowest rate of interest permissible under subclause (I) is unreasonably high, the Secretary may prescribe a lower rate of interest, except that such rate may not be less than 80 percent of the average rate determined under such subclause.

"(iii) ASSUMPTIONS.—Notwithstanding paragraph (3)(A), the interest rate used under the plan shall be—

"(I) determined without taking into account the experience of the plan and reasonable expectations, but

"(II) consistent with the assumptions which reflect the purchase rates which would be used by insurance companies to satisfy the liabilities under the plan.

"(7) ANNUAL VALUATION.—

"(A) IN GENERAL.—For purposes of this section, a determination of experience gains and losses and a valuation of the plan's liability shall be made not less frequently than once every year, except that such determination shall be made more frequently to the extent required in particular cases under regulations prescribed by the Secretary.

"(B) VALUATION DATE.—

"(i) CURRENT YEAR.—Except as provided in clause (ii), the valuation referred to in subparagraph (A) shall be made as of a date within the plan year to which the valuation refers or within one month prior to the beginning of such year.

"(ii) USE OF PRIOR YEAR VALUATION.—The valuation referred to in subparagraph (A) may be made as of a date within the plan year prior to the year to which the valuation refers if, as of such date, the value of the assets of the plan are not less than 100 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

"(iii) ADJUSTMENTS.—Information under clause (ii) shall, in accordance with regulations, be actuarially adjusted to reflect significant differences in participants.

"(iv) LIMITATION.—A change in funding method to use a prior year valuation, as provided in clause (ii), may not be made unless as of the valuation date within the prior plan year, the value of the assets of the plan are not less than 125 percent of the plan's current liability (as defined in paragraph (6)(D) without regard to clause (iv) thereof).

"(8) TIME WHEN CERTAIN CONTRIBUTIONS DEEMED MADE.—For purposes of this section, any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this subparagraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary.

"(d) EXTENSION OF AMORTIZATION PERIODS FOR MULTIEMPLOYER PLANS.—

"(1) AUTOMATIC EXTENSION UPON APPLICATION BY CERTAIN PLANS.—

"(A) IN GENERAL.—If the plan sponsor of a multiemployer plan—

"(i) submits to the Secretary an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), and

"(ii) includes with the application a certification by the plan's actuary described in subparagraph (B),

the Secretary shall extend the amortization period for the period of time (not in excess of 5 years) specified in the application. Such extension shall be in addition to any extension under paragraph (2).

"(B) CRITERIA.—A certification with respect to a multiemployer plan is described in this subparagraph if the plan's actuary certifies that, based on reasonable assumptions—

"(i) absent the extension under subparagraph (A), the plan would have an accumulated funding deficiency in the current plan year or any of the 9 succeeding plan years,

"(ii) the plan sponsor has adopted a plan to improve the plan's funding status,

"(iii) the plan is projected to have sufficient assets to timely pay expected benefits and anticipated expenditures over the amortization period as extended, and

"(iv) the notice required under paragraph (3)(A) has been provided.

"(C) TERMINATION.—The preceding provisions of this paragraph shall not apply with respect to any application submitted after December 31, 2014.

"(2) ALTERNATIVE EXTENSION.—

"(A) IN GENERAL.—If the plan sponsor of a multiemployer plan submits to the Secretary an application for an extension of the period of years required to amortize any unfunded liability described in any clause of subsection (b)(2)(B) or described in subsection (b)(4), the Secretary may extend the amortization period for a period of time (not in excess of 10 years reduced by the number of years of any extension under paragraph (1) with respect to such unfunded liability) if the Secretary makes the determination described in subparagraph (B). Such extension shall be in addition to any extension under paragraph (1).

"(B) DETERMINATION.—The Secretary may grant an extension under subparagraph (A) if the Secretary determines that—

"(i) such extension would carry out the purposes of this Act and would provide adequate protection for participants under the plan and their beneficiaries, and

"(ii) the failure to permit such extension would—

"(I) result in a substantial risk to the voluntary continuation of the plan, or a substantial curtailment of pension benefit levels or employee compensation, and

"(II) be adverse to the interests of plan participants in the aggregate.

"(C) ACTION BY SECRETARY.—The Secretary shall act upon any application for an extension under this paragraph within 180 days of the submission of such application. If the Secretary rejects the application for an extension under this paragraph, the Secretary shall provide notice to the plan detailing the specific reasons for the rejection, including references to the criteria set forth above.

"(3) ADVANCE NOTICE.—

"(A) IN GENERAL.—The Secretary shall, before granting an extension under this subsection, require each applicant to provide evidence satisfactory to such Secretary that the applicant has provided notice of the filing of the application for such extension to each affected party (as defined in section 4001(a)(21) of the Employee Retirement Income Security Act of 1974) with respect to the affected plan. Such notice shall include a description of the extent to which the plan is funded for benefits which are guaranteed under title IV of such Act and for benefit liabilities.

"(B) CONSIDERATION OF RELEVANT INFORMATION.—The Secretary shall consider any relevant information provided by a person to whom notice was given under paragraph (1).".

(b) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to plan years beginning after 2007.

(2) SPECIAL RULE FOR CERTAIN AMORTIZATION EXTENSIONS.—If the Secretary of the Treasury grants an extension under section 304 of the Employee Retirement Income Security Act of 1974 and section 412(e) of the Internal Revenue Code of 1986 with respect to any application filed with the Secretary of the Treasury on or before June 30, 2005, the extension (and any modification thereof) shall be applied and administered under the rules of such sections as in effect before the enactment of this Act, including the use of the rate of interest determined under section 6621(b) of such Code.

SEC. 212. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED OR CRITICAL STATUS.

(a) IN GENERAL.—Subpart A of part III of subchapter D of chapter 1 of the Internal Revenue Code of 1986 (as amended by this Act) is amended by inserting after section 431 the following new section:

"SEC. 432. ADDITIONAL FUNDING RULES FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS OR CRITICAL STATUS.

"(a) GENERAL RULE.—For purposes of this part, in the case of a multiemployer plan in effect on July 16, 2006—

"(1) if the plan is in endangered status—

"(A) the plan sponsor shall adopt and implement a funding improvement plan in accordance with the requirements of subsection (c), and

"(B) the requirements of subsection (d) shall apply during the funding plan adoption period and the funding improvement period, and

"(2) if the plan is in critical status—

"(A) the plan sponsor shall adopt and implement a rehabilitation plan in accordance with the requirements of subsection (e), and

"(B) the requirements of subsection (f) shall apply during the rehabilitation plan adoption period and the rehabilitation period.

"(b) DETERMINATION OF ENDANGERED AND CRITICAL STATUS.—For purposes of this section—

"(1) ENDANGERED STATUS.—A multiemployer plan is in endangered status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is not in critical status for the plan year and, as of the beginning of the plan year, either—

"(A) the plan's funded percentage for such plan year is less than 80 percent, or

"(B) the plan has an accumulated funding deficiency for such plan year, or is projected to have such an accumulated funding deficiency for any of the 6 succeeding plan years, taking into account any extension of amortization periods under section 431(d).

For purposes of this section, a plan shall be treated as in seriously endangered status for a plan year if the plan is described in both subparagraphs (A) and (B).

"(2) CRITICAL STATUS.—A multiemployer plan is in critical status for a plan year if, as determined by the plan actuary under paragraph (3), the plan is described in 1 or more of the following subparagraphs as of the beginning of the plan year:

"(A) A plan is described in this subparagraph if—

"(i) the funded percentage of the plan is less than 65 percent, and

"(ii) the sum of—

"(I) the fair market value of plan assets, plus

"(II) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 6 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all nonforfeitable benefits projected to be payable under the plan during the current plan year and each of the 6 succeeding plan years (plus administrative expenses for such plan years).

"(B) A plan is described in this subparagraph if—

"(i) the plan has an accumulated funding deficiency for the current plan year, not taking into account any extension of amortization periods under section 431(d), or

"(ii) the plan is projected to have an accumulated funding deficiency for any of the 3 succeeding plan years (4 succeeding plan years if the funded percentage of the plan is 65 percent or less), not taking into account any extension of amortization periods under section 431(d).

"(C) A plan is described in this subparagraph if—

"(i)(I) the plan's normal cost for the current plan year, plus interest (determined at the rate used for determining costs under the plan) for the current plan year on the amount of unfunded benefit liabilities under the plan as of the last date of the preceding plan year, exceeds

"(II) the present value of the reasonably anticipated employer and employee contributions for the current plan year,

"(ii) the present value, as of the beginning of the current plan year, of nonforfeitable benefits of inactive participants is greater than the present value of nonforfeitable benefits of active participants, and

"(iii) the plan has an accumulated funding deficiency for the current plan year, or is projected to have such a deficiency for any of the 4 succeeding plan years, not taking into account any extension of amortization periods under section 431(d).

"(D) A plan is described in this subparagraph if the sum of—

"(i) the fair market value of plan assets, plus

"(ii) the present value of the reasonably anticipated employer contributions for the current plan year and each of the 4 succeeding plan years, assuming that the terms of all collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years,

is less than the present value of all benefits projected to be payable under the plan during the current plan year and each of the 4 succeeding plan years (plus administrative expenses for such plan years).

"(3) ANNUAL CERTIFICATION BY PLAN ACTUARY.—

"(A) IN GENERAL.—Not later than the 90th day of each plan year of a multiemployer plan, the plan actuary shall certify to the Secretary and to the plan sponsor—

"(i) whether or not the plan is in endangered status for such plan year and whether or not the plan is or will be in critical status for such plan year, and

"(ii) in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

"(B) ACTUARIAL PROJECTIONS OF ASSETS AND LIABILITIES.—

"(i) IN GENERAL.—In making the determinations and projections under this subsection, the plan actuary shall make projections required for the current and succeeding plan years of the current value of the assets of the plan and the present value of all liabilities to participants and beneficiaries under the plan for the current plan year as of the beginning of such year. The actuary's projections shall be based on reasonable actuarial estimates, assumptions, and methods that, except as provided in clause (iii), offer the actuary's best estimate of anticipated experience under the plan. The projected present value of liabilities as of the beginning of such year shall be determined based on the most recent of either—

"(I) the actuarial statement required under section 103(d) of the Employee Retirement Income Security Act of 1974 with respect to the most recently filed annual report, or

"(II) the actuarial valuation for the preceding plan year.

"(ii) DETERMINATIONS OF FUTURE CONTRIBUTIONS.—Any actuarial projection of plan assets shall assume—

"(I) reasonably anticipated employer contributions for the current and succeeding plan years, assuming that the terms of the one or more collective bargaining agreements pursuant to which the plan is maintained for the current plan year continue in effect for succeeding plan years, or

"(II) that employer contributions for the most recent plan year will continue indefinitely, but only if the plan actuary determines there have been no significant demographic changes that would make such assumption unreasonable.

"(iii) PROJECTED INDUSTRY ACTIVITY.—Any projection of activity in the industry or industries covered by the plan, including future covered employment and contribution levels, shall be based on information provided by the plan sponsor, which shall act reasonably and in good faith.

"(C) PENALTY FOR FAILURE TO SECURE TIMELY ACTUARIAL CERTIFICATION.—Any failure of the plan's actuary to certify the plan's status under this subsection by the date specified in subparagraph (A) shall be treated for purposes of section 502(c)(2) of the Employee Retirement Income Security Act of 1974 as a failure or refusal by the plan administrator to file the annual report required to be filed with the Secretary under section 101(b)(4) of such Act.

"(D) NOTICE.—

"(i) IN GENERAL.—In any case in which it is certified under subparagraph (A) that a multiemployer plan is or will be in endangered or critical status for a plan year, the plan sponsor shall, not later than 30 days after the date of the certification, provide notification of the endangered or critical status to the participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation, and the Secretary of Labor.

"(ii) PLANS IN CRITICAL STATUS.—If it is certified under subparagraph (A) that a multiemployer plan is or will be in critical status, the plan sponsor shall include in the notice under clause (i) an explanation of the possibility that—

“(I) adjustable benefits (as defined in subsection (e)(8)) may be reduced, and

“(II) such reductions may apply to participants and beneficiaries whose benefit commencement date is on or after the date such notice is provided for the first plan year in which the plan is in critical status.

“(iii) MODEL NOTICE.—The Secretary of Labor shall prescribe a model notice that a multiemployer plan may use to satisfy the requirements under clause (ii).

“(c) FUNDING IMPROVEMENT PLAN MUST BE ADOPTED FOR MULTIEMPLOYER PLANS IN ENDANGERED STATUS.—

“(1) IN GENERAL.—In any case in which a multiemployer plan is in endangered status for a plan year, the plan sponsor, in accordance with this subsection—

“(A) shall adopt a funding improvement plan not later than 240 days following the required date for the actuarial certification of endangered status under subsection (b)(3)(A), and

“(B) within 30 days after the adoption of the funding improvement plan—

“(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to meet the applicable benchmarks in accordance with the funding improvement plan, including—

“(I) one proposal for reductions in the amount of future benefit accruals necessary to achieve the applicable benchmarks, assuming no amendments increasing contributions under the plan (other than amendments increasing contributions necessary to achieve the applicable benchmarks after amendments have reduced future benefit accruals to the maximum extent permitted by law), and

“(II) one proposal for increases in contributions under the plan necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the plan, and

“(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to achieving the applicable benchmarks in accordance with the funding improvement plan.

For purposes of this section, the term ‘applicable benchmarks’ means the requirements applicable to the multiemployer plan under paragraph (3) (as modified by paragraph (5)).

“(2) EXCEPTION FOR YEARS AFTER PROCESS BEGINS.—Paragraph (1) shall not apply to a plan year if such year is in a funding plan adoption period or funding improvement period by reason of the plan being in endangered status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial determination year with respect to the funding improvement plan to which it relates.

“(3) FUNDING IMPROVEMENT PLAN.—For purposes of this section—

“(A) IN GENERAL.—A funding improvement plan is a plan which consists of the actions, including options or a range of options to be proposed to the bargaining parties, formulated to provide, based on reasonably anticipated experience and reasonable actuarial assumptions, for the attainment by the plan during the funding improvement period of the following requirements:

“(i) INCREASE IN PLAN'S FUNDING PERCENTAGE.—The plan's funded percentage as of the close of the funding improvement period equals or exceeds a percentage equal to the sum of—

“(I) such percentage as of the beginning of such period, plus

“(II) 33 percent of the difference between 100 percent and the percentage under subclause (I).

“(ii) AVOIDANCE OF ACCUMULATED FUNDING DEFICIENCIES.—No accumulated funding deficiency for any plan year during the funding improvement period (taking into account any extension of amortization periods under section 304(d)).

“(B) SERIOUSLY ENDANGERED PLANS.—In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A)(i)(II) shall be applied by substituting ‘20 percent’ for ‘33 percent’.

“(4) FUNDING IMPROVEMENT PERIOD.—For purposes of this section—

“(A) IN GENERAL.—The funding improvement period for any funding improvement plan adopted pursuant to this subsection is the 10-year period beginning on the first day of the first plan year of the multiemployer plan beginning after the earlier of—

“(i) the second anniversary of the date of the adoption of the funding improvement plan, or

“(ii) the expiration of the collective bargaining agreements in effect on the due date for the actuarial certification of endangered status for the initial determination year under subsection (b)(3)(A) and covering, as of such due date, at least 75 percent of the active participants in such multiemployer plan.

“(B) SERIOUSLY ENDANGERED PLANS.—In the case of a plan in seriously endangered status, except as provided in paragraph (5), subparagraph (A) shall be applied by substituting ‘15-year period’ for ‘10-year period’.

“(C) COORDINATION WITH CHANGES IN STATUS.—

“(i) PLANS NO LONGER IN ENDANGERED STATUS.—If the plan's actuary certifies under subsection (b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is no longer in endangered status and is not in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the preceding plan year.

“(ii) PLANS IN CRITICAL STATUS.—If the plan's actuary certifies under subsection (b)(3)(A) for a plan year in any funding plan adoption period or funding improvement period that the plan is in critical status, the funding plan adoption period or funding improvement period, whichever is applicable, shall end as of the close of the plan year preceding the first plan year in the rehabilitation period with respect to such status.

“(D) PLANS IN ENDANGERED STATUS AT END OF PERIOD.—If the plan's actuary certifies under subsection (b)(3)(A) for the first plan year following the close of the period described in subparagraph (A) that the plan is in endangered status, the provisions of this subsection and subsection (d) shall be applied as if such first plan year were an initial determination year, except that the plan may not be amended in a manner inconsistent with the funding improvement plan in effect for the preceding plan year until a new funding improvement plan is adopted.

“(5) SPECIAL RULES FOR SERIOUSLY ENDANGERED PLANS MORE THAN 70 PERCENT FUNDED.—

“(A) IN GENERAL.—If the funded percentage of a plan in seriously endangered status was more than 70 percent as of the beginning of the initial determination year—

“(i) paragraphs (3)(B) and (4)(B) shall apply only if the plan's actuary certifies, within 30 days after the certification under subsection (b)(3)(A) for the initial determination year, that, based on the terms of the plan and the collective bargaining agreements in effect at the time of such certification, the plan is not projected to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), and

“(ii) if there is a certification under clause (i), the plan may, in formulating its funding improvement plan, only take into account the rules of paragraph (3)(B) and (4)(B) for plan years in the funding improvement period beginning on or before the date on which the last of the collective bargaining agreements described in paragraph (4)(A)(ii) expires.

“(B) SPECIAL RULE AFTER EXPIRATION OF AGREEMENTS.—Notwithstanding subparagraph (A)(ii), if, for any plan year ending after the date described in subparagraph (A)(ii), the plan actuary certifies (at the time of the annual certification under subsection (b)(3)(A) for such plan year) that, based on the terms of the plan and collective bargaining agreements in effect at the time of that annual certification, the plan is not projected to be able to meet the requirements of paragraph (3)(A) (without regard to paragraphs (3)(B) and (4)(B)), paragraphs (3)(B) and (4)(B) shall continue to apply for such year.

“(6) UPDATES TO FUNDING IMPROVEMENT PLANS AND SCHEDULES.—

“(A) FUNDING IMPROVEMENT PLAN.—The plan sponsor shall annually update the funding improvement plan and shall file the update with the plan's annual report under section 104 of the Employee Retirement Income Security Act of 1974.

“(B) SCHEDULES.—The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

“(C) DURATION OF SCHEDULE.—A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

“(7) IMPOSITION OF DEFAULT SCHEDULE WHERE FAILURE TO ADOPT FUNDING IMPROVEMENT PLAN.—

“(A) IN GENERAL.—If—

“(i) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered endangered status expires, and

“(ii) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to agree on changes to contribution or benefit schedules necessary to meet the applicable benchmarks in accordance with the funding improvement plan,

the plan sponsor shall implement the schedule described in paragraph (1)(B)(i)(I) beginning on the date specified in subparagraph (B).

“(B) DATE OF IMPLEMENTATION.—The date specified in this subparagraph is the earlier of the date—

“(i) on which the Secretary of Labor certifies that the parties are at an impasse, or

“(ii) which is 180 days after the date on which the collective bargaining agreement described in subparagraph (A) expires.

“(8) FUNDING PLAN ADOPTION PERIOD.—For purposes of this section, the term ‘funding plan adoption period’ means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial determination year and ending on the day before the first day of the funding improvement period.

"(d) RULES FOR OPERATION OF PLAN DURING ADOPTION AND IMPROVEMENT PERIODS.—

"(1) SPECIAL RULES FOR PLAN ADOPTION PERIOD.—During the funding plan adoption period—

"(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for—

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation,

"(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 or to comply with other applicable law, and

"(C) in the case of a plan in seriously endangered status, the plan sponsor shall take all reasonable actions which are consistent with the terms of the plan and applicable law and which are expected, based on reasonable assumptions, to achieve—

"(i) an increase in the plan's funded percentage, and

"(ii) postponement of an accumulated funding deficiency for at least 1 additional plan year.

Actions under subparagraph (C) include applications for extensions of amortization periods under section 431(d), use of the shortfall funding method in making funding standard account computations, amendments to the plan's benefit structure, reductions in future benefit accruals, and other reasonable actions consistent with the terms of the plan and applicable law.

"(2) COMPLIANCE WITH FUNDING IMPROVEMENT PLAN.—

"(A) IN GENERAL.—A plan may not be amended after the date of the adoption of a funding improvement plan so as to be inconsistent with the funding improvement plan.

"(B) NO REDUCTION IN CONTRIBUTIONS.—A plan sponsor may not during any funding improvement period accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for—

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation.

"(C) SPECIAL RULES FOR BENEFIT INCREASES.—A plan may not be amended after the date of the adoption of a funding improvement plan so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that the benefit increase is consistent with the funding improvement plan and is paid for out of contributions not required by the funding improvement plan to meet the applicable benchmark in accordance with the schedule contemplated in the funding improvement plan.

"(e) REHABILITATION PLAN MUST BE ADOPTED FOR MULTIEMPLOYER PLANS IN CRITICAL STATUS.—

"(1) IN GENERAL.—In any case in which a multiemployer plan is in critical status for a plan year, the plan sponsor, in accordance with this subsection—

"(A) shall adopt a rehabilitation plan not later than 240 days following the required date for the actuarial certification of critical status under subsection (b)(3)(A), and

"(B) within 30 days after the adoption of the rehabilitation plan—

"(i) shall provide to the bargaining parties 1 or more schedules showing revised benefit structures, revised contribution structures, or both, which, if adopted, may reasonably be expected to enable the multiemployer plan to emerge from critical status in accordance with the rehabilitation plan, and

"(ii) may, if the plan sponsor deems appropriate, prepare and provide the bargaining parties with additional information relating to contribution rates or benefit reductions, alternative schedules, or other information relevant to emerging from critical status in accordance with the rehabilitation plan.

The schedule or schedules described in subparagraph (B)(i) shall reflect reductions in future benefit accruals and adjustable benefits, and increases in contributions, that the plan sponsor determines are reasonably necessary to emerge from critical status. One schedule shall be designated as the default schedule and such schedule shall assume that there are no increases in contributions under the plan other than the increases necessary to emerge from critical status after future benefit accruals and other benefits (other than benefits the reduction or elimination of which are not permitted under section 411(d)(6)) have been reduced to the maximum extent permitted by law.

"(2) EXCEPTION FOR YEARS AFTER PROCESS BEGINS.—Paragraph (1) shall not apply to a plan year if such year is in a rehabilitation plan adoption period or rehabilitation period by reason of the plan being in critical status for a preceding plan year. For purposes of this section, such preceding plan year shall be the initial critical year with respect to the rehabilitation plan to which it relates.

"(3) REHABILITATION PLAN.—For purposes of this section—

"(A) IN GENERAL.—A rehabilitation plan is a plan which consists of—

"(i) actions, including options or a range of options to be proposed to the bargaining parties, formulated, based on reasonably anticipated experience and reasonable actuarial assumptions, to enable the plan to cease to be in critical status by the end of the rehabilitation period and may include reductions in plan expenditures (including plan mergers and consolidations), reductions in future benefit accruals or increases in contributions, if agreed to by the bargaining parties, or any combination of such actions, or

"(ii) if the plan sponsor determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan can not reasonably be expected to emerge from critical status by the end of the rehabilitation period, reasonable measures to emerge from critical status at a later time or to forestall possible insolvency (within the meaning of section 4245 of the Employee Retirement Income Security Act of 1974).

A rehabilitation plan must provide annual standards for meeting the requirements of such rehabilitation plan. Such plan shall also include the schedules required to be provided under paragraph (1)(B)(i) and if clause (ii) applies, shall set forth the alternatives considered, explain why the plan is not reasonably expected to emerge from critical status by the end of the rehabilitation period, and specify when, if ever, the plan is expected to emerge from critical status in accordance with the rehabilitation plan.

"(B) UPDATES TO REHABILITATION PLAN AND SCHEDULES.—

"(i) REHABILITATION PLAN.—The plan sponsor shall annually update the rehabilitation plan and shall file the update with the plan's annual report under section 104 of the Employee Retirement Income Security Act of 1974.

"(ii) SCHEDULES.—The plan sponsor shall annually update any schedule of contribution rates provided under this subsection to reflect the experience of the plan.

"(iii) DURATION OF SCHEDULE.—A schedule of contribution rates provided by the plan sponsor and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

"(C) IMPOSITION OF DEFAULT SCHEDULE WHERE FAILURE TO ADOPT REHABILITATION PLAN.—

"(i) IN GENERAL.—If—

"(I) a collective bargaining agreement providing for contributions under a multiemployer plan that was in effect at the time the plan entered critical status expires, and

"(II) after receiving one or more schedules from the plan sponsor under paragraph (1)(B), the bargaining parties with respect to such agreement fail to adopt a contribution or benefit schedules with terms consistent with the rehabilitation plan and the schedule from the plan sponsor under paragraph (1)(B)(i),

the plan sponsor shall implement the default schedule described in the last sentence of paragraph (1) beginning on the date specified in clause (ii).

"(ii) DATE OF IMPLEMENTATION.—The date specified in this clause is the earlier of the date—

"(I) on which the Secretary of Labor certifies that the parties are at an impasse, or

"(II) which is 180 days after the date on which the collective bargaining agreement described in clause (i) expires.

"(4) REHABILITATION PERIOD.—For purposes of this section—

"(A) IN GENERAL.—The rehabilitation period for a plan in critical status is the 10-year period beginning on the first day of the first plan year of the multiemployer plan following the earlier of—

"(i) the second anniversary of the date of the adoption of the rehabilitation plan, or

"(ii) the expiration of the collective bargaining agreements in effect on the date of the due date for the actuarial certification of critical status for the initial critical year under subsection (a)(1) and covering, as of such date at least 75 percent of the active participants in such multiemployer plan.

If a plan emerges from critical status as provided under subparagraph (B) before the end of such 10-year period, the rehabilitation period shall end with the plan year preceding the plan year for which the determination under subparagraph (B) is made.

"(B) EMERGENCE.—A plan in critical status shall remain in such status until a plan year for which the plan actuary certifies, in accordance with subsection (b)(3)(A), that the plan is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method and taking into account any extension of amortization periods under section 431(d).

“(5) REHABILITATION PLAN ADOPTION PERIOD.—For purposes of this section, the term ‘rehabilitation plan adoption period’ means the period beginning on the date of the certification under subsection (b)(3)(A) for the initial critical year and ending on the day before the first day of the rehabilitation period.

“(6) LIMITATION ON REDUCTION IN RATES OF FUTURE ACCRUALS.—Any reduction in the rate of future accruals under the default schedule described in paragraph (1)(B)(i) shall not reduce the rate of future accruals below—

“(A) a monthly benefit (payable as a single life annuity commencing at the participant's normal retirement age) equal to 1 percent of the contributions required to be made with respect to a participant, or the equivalent standard accrual rate for a participant or group of participants under the collective bargaining agreements in effect as of the first day of the initial critical year, or

“(B) if lower, the accrual rate under the plan on such first day.

The equivalent standard accrual rate shall be determined by the plan sponsor based on the standard or average contribution base units which the plan sponsor determines to be representative for active participants and such other factors as the plan sponsor determines to be relevant. Nothing in this paragraph shall be construed as limiting the ability of the plan sponsor to prepare and provide the bargaining parties with alternative schedules to the default schedule that established lower or higher accrual and contribution rates than the rates otherwise described in this paragraph.

“(7) AUTOMATIC EMPLOYER SURCHARGE.—

“(A) IMPOSITION OF SURCHARGE.—Each employer otherwise obligated to make a contribution for the initial critical year shall be obligated to pay to the plan for such year a surcharge equal to 5 percent of the contribution otherwise required under the applicable collective bargaining agreement (or other agreement pursuant to which the employer contributes). For each succeeding plan year in which the plan is in critical status for a consecutive period of years beginning with the initial critical year, the surcharge shall be 10 percent of the contribution otherwise so required.

“(B) ENFORCEMENT OF SURCHARGE.—The surcharges under subparagraph (A) shall be due and payable on the same schedule as the contributions on which the surcharges are based. Any failure to make a surcharge payment shall be treated as a delinquent contribution under section 515 of the Employee Retirement Income Security Act of 1974 and shall be enforceable as such.

“(C) SURCHARGE TO TERMINATE UPON COLLECTIVE BARGAINING AGREEMENT RENEGOTIATION.—The surcharge under this paragraph shall cease to be effective with respect to employees covered by a collective bargaining agreement (or other agreement pursuant to which the employer contributes), beginning on the effective date of a collective bargaining agreement (or other such agreement) that includes terms consistent with a schedule presented by the plan sponsor under paragraph (1)(B)(i), as modified under subparagraph (B) of paragraph (3).

“(D) SURCHARGE NOT TO APPLY UNTIL EMPLOYER RECEIVES NOTICE.—The surcharge under this paragraph shall not apply to an employer until 30 days after the employer has been notified by the plan sponsor that the plan is in critical status and that the surcharge is in effect.

“(E) SURCHARGE NOT TO GENERATE INCREASED BENEFIT ACCRUALS.—Notwithstanding any provision of a plan to the contrary, the amount of any surcharge under this paragraph shall not be the basis for any benefit accrual under the plan.

“(8) BENEFIT ADJUSTMENTS.—

“(A) ADJUSTABLE BENEFITS.—

“(i) IN GENERAL.—Notwithstanding section 204(g), the plan sponsor shall, subject to the notice requirement under subparagraph (C), make any reductions to adjustable benefits which the plan sponsor deems appropriate, based upon the outcome of collective bargaining over the schedule or schedules provided under paragraph (1)(B)(i).

“(ii) EXCEPTION FOR RETIREES.—Except in the case of adjustable benefits described in clause (iv)(III), the plan sponsor of a plan in critical status shall not reduce adjustable benefits of any participant or beneficiary whose benefit commencement date is before the date on which the plan provides notice to the participant or beneficiary under subsection (b)(3)(D) for the initial critical year.

“(iii) PLAN SPONSOR FLEXIBILITY.—The plan sponsor shall include in the schedules provided to the bargaining parties an allowance for funding the benefits of participants with respect to whom contributions are not currently required to be made, and shall reduce their benefits to the extent permitted under this title and considered appropriate by the plan sponsor based on the plan's then current overall funding status.

“(iv) ADJUSTABLE BENEFIT DEFINED.—For purposes of this paragraph, the term ‘adjustable benefit’ means—

“(I) benefits, rights, and features under the plan, including post-retirement death benefits, 60-month guarantees, disability benefits not yet in pay status, and similar benefits,

“(II) any early retirement benefit or retirement-type subsidy (within the meaning of section 411(d)(6)(B)(i)) and any benefit payment option (other than the qualified joint-and survivor annuity), and

“(III) benefit increases that would not be eligible for a guarantee under section 4022A of the Employee Retirement Income Security Act of 1974 on the first day of initial critical year because the increases were adopted (or, if later, took effect) less than 60 months before such first day.

“(B) NORMAL RETIREMENT BENEFITS PROTECTED.—Except as provided in subparagraph (A)(iv)(III), nothing in this paragraph shall be construed to permit a plan to reduce the level of a participant's accrued benefit payable at normal retirement age.

“(C) NOTICE REQUIREMENTS.—

“(i) IN GENERAL.—No reduction may be made to adjustable benefits under subparagraph (A) unless notice of such reduction has been given at least 30 days before the general effective date of such reduction for all participants and beneficiaries to—

“(I) plan participants and beneficiaries,

“(II) each employer who has an obligation to contribute (within the meaning of section 4212(a)) under the plan, and

“(III) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer.

“(ii) CONTENT OF NOTICE.—The notice under clause (i) shall contain—

“(I) sufficient information to enable participants and beneficiaries to understand the effect of any reduction on their benefits, including an estimate (on an annual or monthly basis) of any affected adjustable benefit that a participant or beneficiary would otherwise have been eligible for as of the general effective date described in clause (i), and

“(II) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

“(iii) FORM AND MANNER.—Any notice under clause (i)—

“(I) shall be provided in a form and manner prescribed in regulations of the Secretary of Labor,

“(II) shall be written in a manner so as to be understood by the average plan participant, and

“(III) may be provided in written, electronic, or other appropriate form to the extent such form is reasonably accessible to persons to whom the notice is required to be provided.

The Secretary of Labor shall in the regulations prescribed under subclause (I) establish a model notice that a plan sponsor may use to meet the requirements of this subparagraph.

“(9) ADJUSTMENTS DISREGARDED IN WITHDRAWAL LIABILITY DETERMINATION.—

“(A) BENEFIT REDUCTIONS.—Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201 of the Employee Retirement Income Security Act of 1974.

“(B) SURCHARGES.—Any surcharges under paragraph (7) shall be disregarded in determining an employer's withdrawal liability under section 4211 of such Act, except for purposes of determining the unfunded vested benefits attributable to an employer under section 4211(c)(4) of such Act or a comparable method approved under section 4211(c)(5) of such Act.

“(C) SIMPLIFIED CALCULATIONS.—The Pension Benefit Guaranty Corporation shall prescribe simplified methods for the application of this paragraph in determining withdrawal liability.

“(f) RULES FOR OPERATION OF PLAN DURING ADOPTION AND REHABILITATION PERIOD.—

“(1) COMPLIANCE WITH REHABILITATION PLAN.—

“(A) IN GENERAL.—A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to be inconsistent with the rehabilitation plan.

“(B) SPECIAL RULES FOR BENEFIT INCREASES.—A plan may not be amended after the date of the adoption of a rehabilitation plan under subsection (e) so as to increase benefits, including future benefit accruals, unless the plan actuary certifies that such increase is paid for out of additional contributions not contemplated by the rehabilitation plan, and, after taking into account the benefit increase, the multiemployer plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the rehabilitation plan.

“(2) RESTRICTION ON LUMP SUMS AND SIMILAR BENEFITS.—

“(A) IN GENERAL.—Effective on the date the notice of certification of the plan's critical status for the initial critical year under subsection (b)(3)(D) is sent, and notwithstanding section 411(d)(6), the plan shall not pay—

“(i) any payment, in excess of the monthly amount paid under a single life annuity (plus any social security supplements described in the last sentence of section 411(b)(1)(A)),

“(ii) any payment for the purchase of an irrevocable commitment from an insurer to pay benefits, and "(iii) any other payment specified by the Secretary by regulations.

"(B) EXCEPTION.—Subparagraph (A) shall not apply to a benefit which under section 411(a)(11) may be immediately distributed without the consent of the participant or to any makeup payment in the case of a retroactive annuity starting date or any similar payment of benefits owed with respect to a prior period.

"(3) ADJUSTMENTS DISREGARDED IN WITHDRAWAL LIABILITY DETERMINATION.—Any benefit reductions under this subsection shall be disregarded in determining a plan's unfunded vested benefits for purposes of determining an employer's withdrawal liability under section 4201 of the Employee Retirement Income Security Act of 1974.

"(4) SPECIAL RULES FOR PLAN ADOPTION PERIOD.—During the rehabilitation plan adoption period—

"(A) the plan sponsor may not accept a collective bargaining agreement or participation agreement with respect to the multiemployer plan that provides for—

"(i) a reduction in the level of contributions for any participants,

"(ii) a suspension of contributions with respect to any period of service, or

"(iii) any new direct or indirect exclusion of younger or newly hired employees from plan participation, and

"(B) no amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 or to comply with other applicable law.

"(g) EXPEDITED RESOLUTION OF PLAN SPONSOR DECISIONS.—If, within 60 days of the due date for adoption of a funding improvement plan or a rehabilitation plan under subsection (e), the plan sponsor of a plan in endangered status or a plan in critical status has not agreed on a funding improvement plan or rehabilitation plan, then any member of the board or group that constitutes the plan sponsor may require that the plan sponsor enter into an expedited dispute resolution procedure for the development and adoption of a funding improvement plan or rehabilitation plan.

"(h) NONBARGAINED PARTICIPATION.—

"(1) BOTH BARGAINED AND NONBARGAINED EMPLOYEE-PARTICIPANTS.—In the case of an employer that contributes to a multiemployer plan with respect to both employees who are covered by one or more collective bargaining agreements and employees who are not so covered, if the plan is in endangered status or in critical status, benefits of and contributions for the nonbargained employees, including surcharges on those contributions, shall be determined as if those nonbargained employees were covered under the first to expire of the employer's collective bargaining agreements in effect when the plan entered endangered or critical status.

"(2) NONBARGAINED EMPLOYEES ONLY.—In the case of an employer that contributes to a multiemployer plan only with respect to employees who are not covered by a collective bargaining agreement, this section shall be applied as if the employer were the bargaining party, and its participation agreement with the plan were a collective bargaining agreement with a term ending on the first day of the plan year beginning after the employer is provided the schedule or schedules described in subsections (c) and (e).

"(II) the interest rate and mortality table used to determine the amount of any benefit under the plan payable in the form of an annuity payable at normal retirement age shall be the rate and table specified under the plan for such purpose as of the termination date, except that if such interest rate is a variable rate, the interest rate shall be determined under the rules of subclause (I).

"(C) Certain offsets permitted.—A plan shall not be treated as failing to meet the requirements of paragraph (1)(H)(i) solely because the plan provides offsets against benefits under the plan to the extent such offsets are allowable in applying the requirements of section 401(a) of the Internal Revenue Code of 1986.

"(D) Permitted disparities in plan contributions or benefits.—A plan shall not be treated as failing to meet the requirements of paragraph (1)(H) solely because the plan provides a disparity in contributions or benefits with respect to which the requirements of section 401(l) of the Internal Revenue Code of 1986 are met.

solely because the present value of the accrued benefit (or any portion thereof) of any participant is, under the terms of the plan, equal to the amount expressed as the balance in the hypothetical account described in paragraph (3) or as an accumulated percentage of the participant's final average compensation.

"(2) 3-year vesting.—In the case of an applicable defined benefit plan, such plan shall be treated as meeting the requirements of subsection (a)(2) only if an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions.

A plan shall not be treated as failing to meet the requirements of this subclause merely because the plan provides for a reasonable minimum guaranteed rate of return or for a rate of return that is equal to the greater of a fixed or variable rate of return.

"(II) PRESERVATION OF CAPITAL.—An interest credit (or an equivalent amount) of less than zero shall in no event result in the account balance or similar amount being less than the aggregate amount of contributions credited to the account.

"(III) MARKET RATE OF RETURN.—The Secretary of the Treasury may provide by regulation for rules governing the calculation of a market rate of return for purposes of subclause (I) and for permissible methods of crediting interest to the account (including fixed or variable interest rates) resulting in effective rates of return meeting the requirements of subclause (I).

"(ii) SPECIAL RULE FOR PLAN CONVERSIONS.—If, after June 29, 2005, an applicable plan amendment is adopted, the plan shall be treated as failing to meet the requirements of paragraph (1)(H) unless the requirements of clause (iii) are met with respect to each individual who was a participant in the plan immediately before the adoption of the amendment.

"(iii) RATE OF BENEFIT ACCRUAL.—Subject to clause (iv), the requirements of this clause are met with respect to any participant if the accrued benefit of the participant under the terms of the plan as in effect after the amendment is not less than the sum of—

"(I) the participant's accrued benefit for years of service before the effective date of the amendment, determined under the terms of the plan as in effect before the amendment, plus

"(II) the participant's accrued benefit for years of service after the effective date of the amendment, determined under the terms of the plan as in effect after the amendment.

"(iv) SPECIAL RULES FOR EARLY RETIREMENT SUBSIDIES.—For purposes of clause (iii)(I), the plan shall credit the accumulation account or similar amount with the amount of any early retirement benefit or retirement-type subsidy for the plan year in which the participant retires if, as of such time, the participant has met the age, years of service, and other requirements under the plan for entitlement to such benefit or subsidy.

"(v) APPLICABLE PLAN AMENDMENT.—For purposes of this subparagraph—

"(I) IN GENERAL.—The term 'applicable plan amendment' means an amendment to a defined benefit plan which has the effect of converting the plan to an applicable defined benefit plan.

"(II) SPECIAL RULE FOR COORDINATED BENEFITS.—If the benefits of 2 or more defined benefit plans established or maintained by an employer are coordinated in such a manner as to have the effect of the adoption of an amendment described in subclause (I), the sponsor of the defined benefit plan or plans providing for such coordination shall be treated as having adopted such a plan amendment as of the date such coordination begins.

"(III) MULTIPLE AMENDMENTS.—The Secretary of the Treasury shall issue regulations to prevent the avoidance of the purposes of this subparagraph through the use of 2 or more plan amendments rather than a single amendment.

"(IV) APPLICABLE DEFINED BENEFIT PLAN.—For purposes of this subparagraph, the term 'applicable defined benefit plan' has the meaning given such term by section 203(f)(3) of the Employee Retirement Income Security Act of 1974.

"(vi) TERMINATION REQUIREMENTS.—An applicable defined benefit plan shall not be treated as meeting the requirements of clause (i) unless the plan provides that, upon the termination of the plan—

"(I) if the interest credit rate (or an equivalent amount) under the plan is a variable rate, the rate of interest used to determine accrued benefits under the plan shall be equal to the average of the rates of interest used under the plan during the 5-year period ending on the termination date, and

"(II) the interest rate and mortality table used to determine the amount of any benefit under the plan payable in the form of an annuity payable at normal retirement age shall be the rate and table specified under the plan for such purpose as of the termination date, except that if such interest rate is a variable rate, the interest rate shall be determined under the rules of subclause (I).

"(C) CERTAIN OFFSETS PERMITTED.—A plan shall not be treated as failing to meet the requirements of paragraph (1) solely because the plan provides offsets against benefits under the plan to the extent such offsets are allowable in applying the requirements of section 401(a) of the Internal Revenue Code of 1986.

"(D) PERMITTED DISPARITIES IN PLAN CONTRIBUTIONS OR BENEFITS.—A plan shall not be treated as failing to meet the requirements of paragraph (1) solely because the plan provides a disparity in contributions or benefits with respect to which the requirements of section 401(l) of the Internal Revenue Code of 1986 are met.

"(E) INDEXING PERMITTED.—

"(i) IN GENERAL.—A plan shall not be treated as failing to meet the requirements of paragraph (1) solely because the plan provides for indexing of accrued benefits under the plan.

"(ii) PROTECTION AGAINST LOSS.—Except in the case of any benefit provided in the form of a variable annuity, clause (i) shall not apply with respect to any indexing which results in an accrued benefit less than the accrued benefit determined without regard to such indexing.

"(iii) INDEXING.—For purposes of this subparagraph, the term 'indexing' means, in connection with an accrued benefit, the periodic adjustment of the accrued benefit by means of the application of a recognized investment index or methodology.

"(F) EARLY RETIREMENT BENEFIT OR RETIREMENT-TYPE SUBSIDY.—For purposes of this paragraph, the terms 'early retirement benefit' and 'retirement-type subsidy' have the meaning given such terms in section 203(g)(2)(A) of the Employee Retirement Income Security Act of 1974.

"(G) BENEFIT ACCRUED TO DATE.—For purposes of this paragraph, any reference to the accrued benefit shall be a reference to such benefit accrued to date.".

(d) NO INFERENCE.—Nothing in the amendments made by this section shall be construed to create an inference with respect to—

(1) the treatment of applicable defined benefit plans or conversions to applicable defined benefit plans under sections 204(b)(1)(H) of the Employee Retirement Income Security Act of 1974, 4(i)(1) of the Age Discrimination in Employment Act of 1967, and 411(b)(1)(H) of the Internal Revenue Code of 1986, as in effect before such amendments, or

(2) the determination of whether an applicable defined benefit plan fails to meet the requirements of sections 203(a)(2), 204(c), or 204(g) of the Employee Retirement Income Security Act of 1974 or sections 411(a)(2), 411(c), or 417(e) of such Code, as in effect before such amendments, solely because the present value of the accrued benefit (or any portion thereof) of any participant is, under the terms of the plan, equal to the amount expressed as the balance in a hypothetical account or as an accumulated percentage of the participant's final average compensation.

For purposes of this subsection, the term "applicable defined benefit plan" has the meaning given such term by section 203(f)(3) of the Employee Retirement Income Security Act of 1974 and section 411(a)(13)(C) of such Code, as in effect after such amendments.

(4) SPECIAL RULE FOR COLLECTIVELY BARGAINED PLANS.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified on or before the date of the enactment of this Act, the requirements described in paragraph (3) shall, for purposes of applying the amendments made by subsections (a) and (b), not apply to plan years beginning before—

(A) the earlier of—

(i) the date on which the last of such collective bargaining agreements terminates (determined without regard to any extension thereof on or after such date of enactment), or

(ii) January 1, 2008, or

(B) January 1, 2010.

“(f) QUALIFIED TRANSFERS TO COVER FUTURE RETIREE HEALTH COSTS AND COLLECTIVELY BARGAINED RETIREE HEALTH BENEFITS.—

“(1) IN GENERAL.—An employer maintaining a defined benefit plan (other than a multiemployer plan) may, in lieu of a qualified transfer, elect for any taxable year to have the plan make—

“(A) a qualified future transfer, or

“(B) a collectively bargained transfer.

Except as provided in this subsection, a qualified future transfer and a collectively bargained transfer shall be treated for purposes of this title and the Employee Retirement Income Security Act of 1974 as if it were a qualified transfer.

“(2) QUALIFIED FUTURE AND COLLECTIVELY BARGAINED TRANSFERS.—For purposes of this subsection—

“(A) IN GENERAL.—The terms ‘qualified future transfer’ and ‘collectively bargained transfer’ mean a transfer which meets all of the requirements for a qualified transfer, except that—

“(i) the determination of excess pension assets shall be made under subparagraph (B),

“(ii) the limitation on the amount transferred shall be determined under subparagraph (C),

“(iii) the minimum cost requirements of subsection (c)(3) shall be modified as provided under subparagraph (D), and

“(iv) in the case of a collectively bargained transfer, the requirements of subparagraph (E) shall be met with respect to the transfer.

“(B) EXCESS PENSION ASSETS.—

“(i) IN GENERAL.—In determining excess pension assets for purposes of this subsection, subsection (e)(2) shall be applied by substituting ‘120 percent’ for ‘125 percent’.

“(ii) REQUIREMENT TO MAINTAIN FUNDED STATUS.—If, as of any valuation date of any plan year in the transfer period, the amount determined under subsection (e)(2)(B) (after application of clause (i)) exceeds the amount determined under subsection (e)(2)(A), either—

“(I) the employer maintaining the plan shall make contributions to the plan in an amount not less than the amount required to reduce such excess to zero as of such date, or

“(II) there is transferred from the health benefits account to the plan an amount not less than the amount required to reduce such excess to zero as of such date.

“(i) in the case of a qualified future transfer shall be equal to the sum of—

“(I) if the transfer period includes the taxable year of the transfer, the amount determined under subsection (b)(3) for such taxable year, plus

“(II) in the case of all other taxable years in the transfer period, the sum of the qualified current retiree health liabilities which the plan reasonably estimates, in accordance with guidance issued by the Secretary, will be incurred for each of such years, and

“(ii) in the case of a collectively bargained transfer, shall not exceed the amount which is reasonably estimated, in accordance with the provisions of the collective bargaining agreement and generally accepted accounting principles, to be the amount the employer maintaining the plan will pay (whether directly or through reimbursement) out of such account during the collectively bargained cost maintenance period for collectively bargained retiree health liabilities.

“(D) MINIMUM COST REQUIREMENTS.—

“(i) IN GENERAL.—The requirements of subsection (c)(3) shall be treated as met if—

“(I) in the case of a qualified future transfer, each group health plan or arrangement under which applicable health benefits are provided provides applicable health benefits during the period beginning with the first year of the transfer period and ending with the last day of the 4th year following the transfer period such that the annual average amount of such the applicable employer cost during such period is not less than the applicable employer cost determined under subsection (c)(3)(A) with respect to the transfer, and

“(II) in the case of a collectively bargained transfer, each collectively bargained group health plan under which collectively bargained health benefits are provided provides that the collectively bargained employer cost for each taxable year during the collectively bargained cost maintenance period shall not be less than the amount specified by the collective bargaining agreement.

“(ii) ELECTION TO MAINTAIN BENEFITS FOR FUTURE TRANSFERS.—An employer may elect, in lieu of the requirements of clause (i)(I), to meet the requirements of subsection (c)(3) by meeting the requirements of such subsection (as in effect before the amendments made by section 535 of the Tax Relief Extension Act of 1999) for each of the years described in the period under clause (i)(I).

“(III) involves a plan maintained by an employer which, in its taxable year ending in 2005, provided health benefits or coverage to retirees and their spouses and dependents under all of the benefit plans maintained by the employer, but only if the aggregate cost (including administrative expenses) of such benefits or coverage which would have been allowable as a deduction to the employer (if such benefits or coverage had been provided directly by the employer and the employer used the cash receipts and disbursements method of accounting) is at least 5 percent of the gross receipts of the employer (determined in accordance with the last sentence of subsection (c)(2)(E)(ii)(II)) for such taxable year, or a plan maintained by a successor to such employer.

“(ii) USE OF ASSETS.—Any assets transferred to a health benefits account in a collectively bargained transfer (and any income allocable thereto) shall be used only to pay collectively bargained retiree health liabilities (other than liabilities of key employees not taken into account under paragraph (6)(B)(iii)) for the taxable year of the transfer or for any subsequent taxable year during the collectively bargained cost maintenance period (whether directly or through reimbursement).

“(3) COORDINATION WITH OTHER TRANSFERS.—In applying subsection (b)(3) to any subsequent transfer during a taxable year in a transfer period or collectively bargained cost maintenance period, qualified current retiree health liabilities shall be reduced by any such liabilities taken into account with respect to the qualified future transfer or collectively bargained transfer to which such period relates.

“(4) SPECIAL DEDUCTION RULES FOR COLLECTIVELY BARGAINED TRANSFERS.—In the case of a collectively bargained transfer—

“(A) the limitation under subsection (d)(1)(C) shall not apply, and

“(B) notwithstanding subsection (d)(2), an employer may contribute an amount to a health benefits account or welfare benefit fund (as defined in section 419(e)(1)) with respect to collectively bargained retiree health liabilities for which transferred assets are required to be used under subsection (c)(1)(B), and the deductibility of any such contribution shall be governed by the limits applicable to the deductibility of contributions to a welfare benefit fund under a collective bargaining agreement (as determined under section 419A(f)(5)(A)) without regard to whether such contributions are made to a health benefits account or welfare benefit fund and without regard to the provisions of section 404 or the other provisions of this section.

The Secretary shall provide rules to ensure that the application of this paragraph does not result in a deduction being allowed more than once for the same contribution or for 2 or more contributions or expenditures relating to the same collectively bargained retiree health liabilities.

“(5) TRANSFER PERIOD.—For purposes of this subsection, the term ‘transfer period’ means, with respect to any transfer, a period of consecutive taxable years (not less than 2) specified in the election under paragraph (1) which begins and ends during the 10-taxable-year period beginning with the taxable year of the transfer.

“(ii) REDUCTION FOR AMOUNTS PREVIOUSLY SET ASIDE.—The amount determined under clause (i) shall be reduced by the value (as of the close of the plan year preceding the year of the collectively bargained transfer) of the assets in all health benefits accounts or welfare benefit funds (as defined in section 419(e)(1)) set aside to pay for the collectively bargained retiree health liabilities.

“(iii) KEY EMPLOYEES EXCLUDED.—If an employee is a key employee (within the meaning of section 416(I)(1)) with respect to any plan year ending in a taxable year, such employee shall not be taken into account in computing collectively bargained retiree health liabilities for such taxable year or in calculating collectively bargained employer cost under subsection (c)(3)(C).

‘‘(2) For purposes of this subsection, the term ‘automatic contribution arrangement’ means an arrangement——

‘‘(A) under which a participant may elect to have the plan sponsor make payments as contributions under the plan on behalf of the participant, or to the participant directly in cash,

‘‘(B) under which a participant is treated as having elected to have the plan sponsor make such contributions in an amount equal to a uniform percentage of compensation provided under the plan until the participant specifically elects not to have such contributions made (or specifically elects to have such contributions made at a different percentage), and

‘‘(C) under which such contributions are invested in accordance with regulations prescribed by the Secretary under section 404(c)(5).

‘‘(3)(A) The plan administrator of an automatic contribution arrangement shall, within a reasonable period before such plan year, provide to each participant to whom the arrangement applies for such plan year notice of the participant's rights and obligations under the arrangement which—

‘‘(i) is sufficiently accurate and comprehensive to apprise the participant of such rights and obligations, and

‘‘(ii) is written in a manner calculated to be understood by the average participant to whom the arrangement applies.

‘‘(B) A notice shall not be treated as meeting the requirements of subparagraph (A) with respect to a participant unless—

‘‘(i) the notice includes an explanation of the participant's right under the arrangement not to have elective contributions made on the participant's behalf (or to elect to have such contributions made at a different percentage),

‘‘(ii) the participant has a reasonable period of time, after receipt of the notice described in clause (i) and before the first elective contribution is made, to make such election, and

‘‘(x) SPECIAL RULES FOR ELIGIBLE COMBINED DEFINED BENEFIT PLANS AND QUALIFIED CASH OR DEFERRED ARRANGEMENTS.—

‘‘(1) GENERAL RULE.—Except as provided in this subsection, the requirements of this title shall be applied to any defined benefit plan or applicable defined contribution plan which are part of an eligible combined plan in the same manner as if each such plan were not a part of the eligible combined plan.

‘‘(2) ELIGIBLE COMBINED PLAN.—For purposes of this subsection—

‘‘(A) IN GENERAL.—The term ‘eligible combined plan’ means a plan—

‘‘(i) which is maintained by an employer which, at the time the plan is established, is a small employer,

‘‘(ii) which consists of a defined benefit plan and an applicable defined contribution plan,

‘‘(iii) the assets of which are held in a single trust forming part of the plan and are clearly identified and allocated to the defined benefit plan and the applicable defined contribution plan to the extent necessary for the separate application of this title under paragraph (1), and

‘‘(iv) with respect to which the benefit, contribution, vesting, and nondiscrimination requirements of subparagraphs (B), (C), (D), (E), and (F) are met.

For purposes of this subparagraph, the term ‘small employer’ has the meaning given such term by section 4980D(d)(2), except that such section shall be applied by substituting ‘500’ for ‘50’ each place it appears.

‘‘(B) BENEFIT REQUIREMENTS.—

‘‘(i) IN GENERAL.—The benefit requirements of this subparagraph are met with respect to the defined benefit plan forming part of the eligible combined plan if the accrued benefit of each participant derived from employer contributions, when expressed as an annual retirement benefit, is not less than the applicable percentage of the participant's final average pay. For purposes of this clause, final average pay shall be determined using the period of consecutive years (not exceeding 5) during which the participant had the greatest aggregate compensation from the employer.

‘‘(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is the lesser of—

‘‘If the participant's age as of the beginning of the year is—	**The percentage is—**
30 or less	2
Over 30 but less than 40	4

50 or over	8.

‘‘(iv) YEARS OF SERVICE.—For purposes of this subparagraph, years of service shall be determined under the rules of paragraphs (4), (5), and (6) of section 411(a), except that the plan may not disregard any year of service because of a participant making, or failing to make, any elective deferral with respect to the qualified cash or deferred arrangement to which subparagraph (C) applies.

‘‘(C) CONTRIBUTION REQUIREMENTS.—

‘‘(i) IN GENERAL.—The contribution requirements of this subparagraph with respect to any applicable defined contribution plan forming part of an eligible combined plan are met if—

‘‘(II) the employer is required to make matching contributions on behalf of each employee eligible to participate in the arrangement in an amount equal to 50 percent of the elective contributions of the employee to the extent such elective contributions do not exceed 4 percent of compensation.

Rules similar to the rules of clauses (ii) and (iii) of section 401(k)(12)(B) shall apply for purposes of this clause.

‘‘(ii) NONELECTIVE CONTRIBUTIONS.—An applicable defined contribution plan shall not be treated as failing to meet the requirements of clause (i) because the employer makes nonelective contributions under the plan but such contributions shall not be taken into account in determining whether the requirements of clause (i)(II) are met.

‘‘(D) VESTING REQUIREMENTS.—The vesting requirements of this subparagraph are met if—

‘‘(i) in the case of a defined benefit plan forming part of an eligible combined plan an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit under the plan derived from employer contributions, and

‘‘(ii) in the case of an applicable defined contribution plan forming part of eligible combined plan—

‘‘(I) an employee has a nonforfeitable right to any matching contribution made under the qualified cash or deferred arrangement included in such plan by an employer with respect to any elective contribution, including matching contributions in excess of the contributions required under subparagraph (C)(i)(II), and

‘‘(II) an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit derived under the arrangement from nonelective contributions of the employer.

For purposes of this subparagraph, the rules of section 411 shall apply to the extent not inconsistent with this subparagraph.

‘‘(E) UNIFORM PROVISION OF CONTRIBUTIONS AND BENEFITS.—In the case of a defined benefit plan or applicable defined contribution plan forming part of an eligible combined plan, the requirements of this subparagraph are met if all contributions and benefits under each such plan, and all rights and features under each such plan, must be provided uniformly to all participants.

"(B) MATCHING CONTRIBUTIONS.—In applying section 401(m)(11) to any matching contribution with respect to a contribution to which paragraph (2)(C) applies, the contribution requirement of paragraph (2)(C) and the notice requirements of paragraph (5)(B) shall be substituted for the requirements otherwise applicable under clauses (i) and (ii) of section 401(m)(11)(A).

"(II) has a reasonable period of time after receipt of such notice and before the first elective contribution is made to make such election.

"(iii) ANNUAL NOTICE OF RIGHTS AND OBLIGATIONS.—The requirements of this clause are met if each employee eligible to participate in the arrangement is, within a reasonable period before any year, given notice of the employee's rights and obligations under the arrangement.

The requirements of clauses (i) and (ii) of section 401(k)(12)(D) shall be met with respect to the notices described in clauses (ii) and (iii) of this subparagraph.

The SPEAKER pro tempore (Mr. PUTNAM). Pursuant to House Resolution 966, general debate shall not exceed 1 hour, equally divided and controlled by the chairman and ranking minority member of the Committee on Ways and Means and the Committee on Education and the Workforce.

The gentleman from California (Mr. THOMAS), the gentleman from New York (Mr. RANGEL), the gentleman from California (Mr. MCKEON), and the gentleman from California (Mr. GEORGE MILLER) each will control 15 minutes.

□ 2130

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the title of this bill, as we indicated, is the Pension Protection Act of 2006; but it is much more than that. Within the bill also are tax items, trade items, charitable provisions.

One of the reasons I am pleased to bring this to the floor is that it is in essence the combination of more than 5 months of working on a very important area of public law that affects tens of millions of Americans. It is about the agreement workers have with their employers as to what they are going to be able to earn, not for the time they are working but for the time they are retired.

Our current pension system is, frankly, broken. It moved rapidly into a known broken situation, and we have responded, not as quickly as perhaps we would have liked, but I think we have responded in a way that, as we discussed, this bill I think you will find there is, at least there was on the conference committee and there should be in this House, broad bipartisan support.

For example, on this side of the aisle, I could say I hold a letter from the General Motors Corporation endorsing the changes we are making in pension law. And someone would say, aha. But then I would pick up a letter and say, I hold a letter from the United Auto Workers who are supportive of this pension change. And I could do that for industry after industry showing that you not only have the corporate structure in support but you have the workers in support.

This is a bill that makes fundamental changes in transparency, in payment arrangements, which means the promise made from employers to employees and employees to employers has a greater chance than a long, long time of being honored. It is important legislation. The Ways and Means Committee will spend some time on the text, trade, and charitable provisions, but I want to say that I am very proud of the product that has been produced. It will move off this floor, it will move through the Senate, and it will be signed by the President. And the time line in doing that will save many employees from what would have been a certain failure to have pensions if we did not act before we adjourned for our summer district work period.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I ask unanimous consent to yield my time to be controlled by the gentleman from California (Mr. GEORGE MILLER).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentleman from Washington (Mr. MCDERMOTT).

Mr. MCDERMOTT. Mr. Speaker, this is one of those bills in the middle of the night; this is a 21-page summary. There isn't anybody here, perhaps four or five conference members may know what is in it. None of us have seen the bill, so you have got to trust the leadership.

Now, this bill imposes new red tape and fees on employers that wish to provide their employees with defined benefit pensions. It makes it harder to give a defined benefit.

Those opposing this measure of course will say they believe that the bill's new requirements will impose requirements to discourage employers from offering a traditional pension plan. Supporters are saying this bill will strengthen everything. But if the aim of this bill is to strengthen pensions, why does it exempt Halliburton from the bill's requirements?

No one could possibly have read the text of this bill. But we do have this 21-page summary, I say, which says that the proposal delays the effective action on funding and benefit limitation rules for defense contractors. Those who are ripping us off in Iraq by the billions are not being brought under this bill. This provision was not in the House nor was it in the Senate version of the bill.

If the funding and limitation rules are so good for everyone, which is what the majority contends, why aren't they good enough for Halliburton? Of course, I know Halliburton is a friend of the Vice President. Perhaps we need CSI to come in here to uncover how this bill got put together, but we know enough to oppose the bill. This proposal continues to promote the philosophy of conservatives, which is that people are better off alone. You are on your own, folks. We are going to give you a 401(k), and good luck, no defined benefits anymore. This is to end pensions as we have known them.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

It is times like these that you have to resist the temptation of saying, okay, let's just go home and not pass this bill. But the gentleman from Washington, from Seattle, perhaps wouldn't be able to get back if he were flying Northwest Airlines, and so the fervor of his speech not to act would in fact have to bump into reality sooner than I think he might like.

Mr. Speaker, I would like to yield the remainder of the time to be controlled by the gentleman of Michigan, a fellow conferee on the pension conference (Mr. CAMP).

Mr. CAMP of Michigan. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the Pension Protection Act. By approving this bill, the House of Representatives is taking an important step towards safeguarding employee pensions and reforming the current system to ensure all American workers receive their full promised retirement benefits. This bill is a significant improvement over current law.

The bill before us today shores up the single defined benefit system so that companies cannot escape their obligations. Instead of allowing firms to routinely underfund their plans, H.R. 4 requires employers to fund 100 percent of their liabilities. The bill also requires employers to make up contributions faster than the 30 years under current law.

More importantly, the Pension Protection Act lives up to its name by not allowing companies to make promises to their workers they cannot hope to fulfill. If pension plans are critically underfunded, executives will no longer be able to commit new pension benefits to workers under the false premise that they have the money to make good on those faulty assurances.

In Michigan, the auto industry is critical to our State's economy. I want to thank Chairman THOMAS and Mr. Leader BOEHNER for their leadership, ensuring Michigan's manufacturers continue to operate robust pension plans. I am particularly pleased H.R. 4 has the support of United Auto Makers and the United Automobile Workers. I worked hard to ensure the auto sector and its workers are not subject to unfair, unrealistic rules that would unnecessarily penalize this critical sector of the American economy.

H.R. 4 also provides relief to the struggling airline industry. The Pension Protection Act is a huge victory to the pilots, flight attendants, baggage handlers, and other employees in the airline industry that have worked hard for their pensions and expect them to be there upon retirement. This bill allows airline companies that have frozen their plans and taken that responsible step more time to make good on their commitments and preserve their workers' benefits.

Absent legislation, some airlines would be forced to terminate their pension plans. If this were to happen, the PBGC would incur billions of additional pension liability, and employees would receive a fraction of their promised benefits. The Pension Protection Act prevents this and enables airlines to fully meet the obligations to their workers. I urge all of my colleagues to pass this important bill for America's workers.

Mr. Speaker, I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 3 minutes to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. Mr. Speaker, this bill offers much to recommend in improving pension law. In particular, I applaud the inclusion of relief for multi-employer plans and the clearing up of some of the contradictions and ambiguities around hybrid defined benefit plans. But I must rise in opposition to this bill for two reasons.

The first is that the bill makes a mistake that the majority said from the very outset it did not want to make, which was to favor one industry over another in affording relief for single-employer plans. Not only does this bill afford more protection for some industries over others, but within an industry, within the airline industry, it exhibits I believe unwise favoritism for some airlines over others. The majority started this process by saying it did not want to choose winners and losers among industries. What in fact I believe it has done is to choose winners and losers within an industry, which I think is unwise and a bad precedent to set.

Secondly, I must rise in opposition to this bill because of its procedural irregularity. There is a conference which was seated several months ago that is dealing with these issues. What is before us tonight is a brand-new bill, not a conference report. This does not recognize months of negotiation between the two Houses and between the two parties. It is a brand-new bill that starts without anyone I think truly vetting or understanding.

And I must say that my Democratic colleagues who are conferees on this bill, Mr. MILLER, Mr. RANGEL, Mr. PAYNE, among the three of them they have 90 years of experience in this House, and they were afforded no opportunity to attend a meeting of the conference, to ask a question at the conference, to express their views at the conference. This is not disrespect to them; it is disrespect to their constituents and to the millions of people whose views are represented by Mr. MILLER and Mr. RANGEL and Mr. PAYNE and others.

This is an awfully important area of legislation. To rush head on with a bill that no one has read, ignoring a conference that has never met, that ignores 90 years of experience from Members on this side I think is a mistake. So despite the good that I know is in this bill, I would urge a "no" vote.

Mr. CAMP of Michigan. Mr. Speaker, I yield 2¼ minutes to the gentlewoman from Connecticut, a distinguished member of the Ways and Means Committee (Mrs. JOHNSON).

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise in strong support of this Pension Protection Act of 2006. Not only does it ensure that employers and unions will fund their plans, but it enables individuals to make a much greater effort toward providing for their retirement security as well.

Nothing is more important to Americans than the gut-wrenching issue of being secure in their old age. It is important to seniors, it is important to their families, it is important to young people to know that they can plan for the future. And it is a pity that only 50 percent of America's workers participate in pension plans. This bill makes a simple change that will result in 85 to 90 percent of working Americans who work for companies with pension plans participating in those plans, as opposed to 50 percent. That is big. That is important. It is a simple mechanism, but it will help many, many more young people get into those pension plans, take advantage of employer contributions, and prepare for their retirement.

It also does something else we don't know much about, we don't pay attention to it, we don't think about it: it makes permanent the saver's credit. If you don't make much money, putting money aside for retirement is really hard. We have a little plan by which the government gives you a dollar for every dollar you save for low- and middle-income earners. This makes that permanent, and that will enable us to grow that program appropriately. It also indexes it to inflation so those people can never be robbed of the power of this help in saving for their retirement.

□ 2145

This is not a perfect bill, but it does some really important things for working people and it helps us think ahead. We have a lot of people with 401(k) plans, and at 65, they are blowing them. One of the things this bill does is to encourage new products to plan for our future by changing the tax treatment of 401(k) money invested in an annuity that can provide a paycheck for life or cover long-term care if needed.

We need to be thinking anew about all the challenges of retirement, not just the income challenge.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland (Mr. CARDIN).

Mr. CARDIN. Mr. Speaker, I thank my friend for yielding me this time.

Mr. Speaker, I am really conflicted on this bill because there are good provisions in it. The provisions which I had the opportunity to work with our former colleague, Mr. Portman, provisions that would make permanent the changes in the tax law in 2001, makes it easier for people to save for their retirement, employers to provide pension plans; provisions for automatic enrollment so that employees have a better chance of having a retirement savings. The permanency and indexing of the saver's credit, I think, is a very important provision. The split tax refund. I can go on and on and on.

But I must tell you, I was listening to Mr. ANDREWS and I think that he raises a very valid point on the process. You have to, at times, understand that process is important so we do the right thing here.

I heard reference to approving a conference report, but this is not a conference report. We have a letter from the Senate Members of the conference report urging the House Members of the conference committee to join them in a product that is different than what we have before us today.

There are concerns in this legislation that I do not know if they have been addressed, including the airline industry, including the way we treat employers who have well-funded plans today as to whether they will continue those plans.

So, Mr. Speaker, this bill is coming up with no notice, no opportunity for us to review it, and without an opportunity for our conferees to present their report.

So I do not know what to tell the Members to do here. I doubt if we will have time to review all the provisions that are in this bill. I doubt whether we will know exactly what is involved, and we do not have the comfort of knowing that it is the product of a conference committee. It is a new bill that is before us.

So I just urge my colleagues to be very careful in consideration of this legislation. It is very important legislation. It does some very good things, but I am concerned there may be some unintended consequences.

Mr. CAMP of Michigan. Mr. Speaker, I yield 2¼ minutes to the gentleman from Arizona (Mr. HAYWORTH), a distinguished member of the Ways and Means Committee.

Mr. HAYWORTH. Mr. Speaker, I thank my colleague from Michigan for his hard work as part of the conference, and I rise in strong support of the Pension Protection Act.

I listened with great interest to the criticisms offered from the other side of the aisle, especially my friends from New Jersey and California, and indeed, it is somewhat reminiscent of the initial evaluation by a Hollywood agent of a young actor. The shorthand note was, "can't sing, can't act, dances a little." And of course, it turned out to be the great Fred Astaire.

Now, with all due respect to Mr. Astaire and his song and dance, the song and dance offered by the other side, the criticisms, when you take a look, focus on process, not policy. Indeed, my friends from New Jersey and Maryland readily concede that there are many desirable policies in this bill, reforming the outdated single employer defined benefit pension plans.

We heard the chairman of the committee say not only was there a letter from General Motors but also from the United Auto Workers, and yet we hear the process is somehow terribly flawed and that even within the airline industries some airlines are treated differently. Mr. Speaker, the different airlines are reacting differently to the concerns they face. It is not some sort of vast conspiracy with malice aforethought to pick winners and losers. It comes from different responses from the businesses involved.

No, a clear level look at what we are doing says that this is, in fact, precisely the bill at this time.

As to the process, we heard mention made of the other body. We are mindful that there are those who aspire to become part of the other body, but Mr. Speaker, without impugning any action, although I know we have changed the rules, the fact is a lot of folks basically want to blow up this agreement.

We need this bill. It is a good bill. Vote for it.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Ms. WOOLSEY).

Ms. WOOLSEY. Mr. Speaker, if this bill is so great, why are executives not being treated the same way as the rank-and-file workers? It is hard to believe that in the face of all of the corporate scandals that we have been experiencing over the last few years, that this legislation still allows for executives to receive a golden parachute. Unbelievably, executives who have run their companies into the ground can continue to receive large lump sum payments from their underfunded pension plans at the same time that the rank-and-file employees' benefits have been frozen.

You heard me right. If a company's plan is underfunded by 80 percent, rank-and-file workers cannot receive new benefits or lump sum payments. Meanwhile, the restrictions for executives do not start until the plan is underfunded by 60 percent. That difference adds up to billions and billions of dollars.

Whatever happened to the captain going down with the ship? The way this bill reads the only boat the Republican majority is familiar with is the *Titanic*, because they are giving lifeboats to the first class passengers only.

Mr. Speaker, we live in a country that values equality. Why oh why in the world would we allow this pension bill to pass the House treating executive pension benefits differently from their workers? What happened to what is good for the goose is good for the gander? If workers' pensions are underfunded, then so are executives. It is time to end the golden parachute or, as the gander goes, the golden egg.

I urge my colleagues, vote against this conference report and support workers benefits.

Mr. CAMP of Michigan. Mr. Speaker, I yield 2 minutes to the gentlewoman from Pennsylvania (Ms. HART), a distinguished member of the Ways and Means Committee.

Ms. HART. Mr. Speaker, I thank the gentleman for yielding, and I especially thank the chairman for answering the call of families across the Nation to make 529 qualified tuition programs permanent.

What are those plans? For those of you who do not know, the 529 section allows for tax-free college savings. This is something that has encouraged so many families to save for college. The figures in assets in 529 plans have grown from $13 billion in 2001 to more than $65 billion today. This has provided for so many families to save for education, and it is more important than ever because we know workers with the least education have generally experienced the slowest wage growth over the past three decades. Making this plan permanent allows families to plan for the future and make sure that they will get that education.

Also, the pension changes are so very important. In the communities that I represent, we experienced terrible, really unfairness, on pension plans when US Airways filed for bankruptcy and turned their pension plans over to the PBGC, and unfortunately, their executives took a golden parachute.

The gentlewoman who just spoke before me was wrong in her statement that those executives continue to do this. The plans must be funded before these executives could have a special set-aside pension plan for themselves. We ended that practice of unfairness of these large company executives stealing the money away while their rank-and-file workers lose.

The bill encourages greater transparency for the employees to know the health of their pension plan. These are such important changes that anyone who does not support it is not supporting the retirement security for the people in their district. It is so important that people know the status of their finances as they work through their working life so they have expectation of their pension, they have expectation of how much income they will receive, and this bill will help them get there.

Mr. Speaker, I encourage my colleagues to support this.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself 30 seconds just to correct the record.

The legislation does not require the funding of these plans. Executives can continue to get benefits out of these plans if they are only 60 percent funded. The gentlewoman from California was correct. Workers can only get benefits if they are 80 percent funded.

So the executives can continue to draw down the assets of the corporations, but the employees cannot.

Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts (Mr. NEAL), a member of the Ways and Means Committee.

Mr. NEAL of Massachusetts. Mr. Speaker, I thank the gentleman.

When you hear this argument and this debate, remember, a year ago, these are the people that were going to abandon the Social Security system. These are the people that were going to throw the Social Security system overboard.

I heard the gentleman from Arizona say, well, there is good things in the legislation and there is bad things in the legislation. Does anybody remember the S&L issue around here or did we have amnesia? There were good things about deregulating the S&Ls, and it cost the American taxpayer $500 billion, but a decade later.

The Wall Street Journal published a poll yesterday. I hear my Republican friends talking about how great everything is. How good everything is on Wall Street.

The American people are asked, in what direction is the country headed, right or wrong? And by almost two-thirds they say the wrong direction. They are paying $3.15 a gallon for gasoline, their health care plan is being taken away, and their retirement plan is being compromised, if not jeopardized. 401(k) plans are replacing the defined benefit that we had all come to know.

That is where the anxiety is coming from. That is why the American people think the country's headed in the wrong direction.

You are about to hasten the demise of the defined benefit plan by embracing this legislation tonight, and I want to say something as well to those who are witnessing the debate.

It has not been vetted through the committee system. It has not been presented back and forth between two parties. It is being put up on a Friday night, once again because they think you are not watching. That is the way the Ways and Means Committee has operated during the last few years. That is the way legislation's brought to the floor, no opportunity for the minority to ever be heard. We simply put it in front of this body, late at night so people cannot witness it, and then we move on from there. Whether it is good or bad, we will not have our fingerprints on it.

Mr. CAMP of Michigan. Mr. Speaker, what is the time remaining?

The SPEAKER pro tempore. The gentleman from Michigan (Mr. CAMP) has 2¾ minutes remaining, and the gentleman from California (Mr. GEORGE MILLER) has 18½ minutes remaining.

Mr. CAMP of Michigan. Mr. Speaker, I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 15 seconds to the gentleman from North Carolina (Mr. ETHERIDGE).

Mr. ETHERIDGE. Mr. Speaker, I thank the gentleman for yielding.

I served in business for 19 years and have been in public life a long time. I have signed a lot of contracts, but never in my life have I signed a contract that I have not read. We are asking the Members of this body to sign a contract with the American people that we have not read.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. OWENS).

Mr. OWENS. Mr. Speaker, we have not an accidental shipwreck here. We have a deliberate shipwreck being set up.

I am not the oldest person in this body tonight, but I have been here a long time and seen the great swindle of the savings and loans collapse. This is a swindle that will be even bigger.

We have the full faith and credit somewhere behind the pension guaranty fund. It is not there, we are going to put it behind there, and it is the American taxpayers who are going to pay when this whole pension system collapses.

I do not know what grand formula is in motion here and who the genius is, but the looting of America is going along very well, and this is one more step in that direction.

It is going to be a huge, like an economic asteroid collapsing on the economy when this pension benefit guaranty fund collapses as the savings and loans did.

□ 2200

We can't even get a figure as to how many billions of dollars were lost in the savings and loans. If you go looking for it, it is nebulous. But at least $1 trillion of taxpayer money has gone down the drain, and is still going, partially because it was funded with 30-year bonds.

I watched while it unfolded. And the savings and loans criminals, really, were not punished. It was a great example of how you could steal millions and get away with it. Silverado Bank comes to mind, because we had relatives of the administration involved in that one, and on and on it goes, with Members of Congress on the boards, and all kinds of things that happened, and they got away with it.

Now we have corporate America having mismanaged these pensions all this time, having looted them in many different ways. Enron certainly shows us how they can do that in quite a clear fashion. But there are many other different ways that the people in control have looted the pension funds, destroying them, and they are going to ask the American people to bail them out. That is what is most devastating about tonight.

Mr. CAMP of Michigan. Mr. Speaker, I yield 1½ minutes to the distinguished gentleman from the Ways and Means Committee, the gentleman from Wisconsin (Mr. RYAN).

Mr. RYAN of Wisconsin. Mr. Speaker, I am sitting here listening to this debate and I am wondering, what bill are they talking about? Are they talking about the bill that 70 Democrats voted for earlier in the year that got 294 votes? Are they talking about the bill that is endorsed by the United Auto Workers, by the building trades? Are they talking about the bill that was negotiated between Democrats and Republicans, between the House and the other body? Because that is the bill we are talking about right here. This bill was written with the input from labor, with the input from management, with the input from employees and employers.

What is wrong? What needs to be fixed? Well, you know what needs to be fixed? If an employer promises their employee they are going to fund their pension, by golly, that is exactly what they should do. That is what this bill does. It makes sure they do in fact fund that pension 100 percent.

If an employer wants to prefund their employees' pension, wants to do good by helping them ahead of time, we want to change the rules so they can do that. And you know what, if an employer wants to exploit loopholes and rip off their employees, shortchange their pension, as the current law allows employers to do, we have got to stop them from doing that. And that is what this bill does.

That is why this bill is supported by unions, by management, by Republicans, by Democrats, by the House and the other body. This is a bill that is a good bill that has been negotiated for a year, and I urge its passage.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 4 minutes to the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. I am pleased to follow the preceding speaker, who like me is on the Ways and Means Committee. He knows darn well the Ways and Means Committee had nothing to do with this bill. This bill has been marked up in a nontransparent conference committee, and then last night, on the eve of the vote, the Republicans walked and didn't vote. It is utter nonsense the gamesmanship that has been played.

But there have been deals cut. A lot of deals have been cut. So some unions cut their deal and they are for it; some companies are for it; some industries are for it. And I don't have any problem with any of them. What I have a problem with, with this bill, is the great majority of plans, covering 20 million workers in the workforce today, with pension protection, pensions that they are counting on to pay that monthly payment in old age.

We have seen this argument before. Remember last year, when the President wanted to privatize Social Security? Suddenly, we heard about how Social Security was on the rocks; we had to end Social Security as we knew it to save it. We had to privatize it to protect it. This is the same thing that is going on now. They are saying pensions are on the rocks. We have to pass this bill to save pensions.

Baloney. Don't believe a word of it. Jane Bryant Quinn, noted commentator on financial matters, writes in a recent column about the recovering health of pension funding. "Plans are coming back to sounder footing, thanks to rising interest rates, massive corporate catch-up contributions to their plans, limitations on benefits and the recovery in the markets."

And in addition to that, my colleagues, we passed a big premium increase in that budget and so more money is coming in yet. But none of that is mentioned. And so there is a lot of confusion on the floor.

Does this bill toughen that funding requirement or not? It is the wrong question, my colleagues, and I used to be a solvency regulator as a former insurance commissioner. The right question here is: Will this bill continue pensions or will this bill make their freezing and termination more likely? And on that, consider the words of David Wyss, chief economist for Standard & Poor's. "The more that is required of plans, the sooner they will go extinct." Private pensions are going the way of the Dodo.

Because, you see, when you make funding too onerous or too unpredictable, you force the executives to cancel or terminate or freeze the plan. And that is exactly what is at foot. So the enemies of pensions can stand on the floor and say they are protecting workers by increasing funding, but they know all along they are going to cause the freezing of plans.

We have a trend here that is very worrisome, because my friends, this is the mounting number of frozen pension plans. And I am telling you, if we pass this bill, this number is going to skyrocket. Indeed, one trade group with expertise in this area predicts 60 percent of the plans might freeze if the bill is passed.

Let me tell you what happens when a plan freezes. It means that you no longer get to count future years' earnings in your retirement benefit. So baby boomers in the workforce today, following this debate, you are going to get killed under this bill. You are not going to get final rate of pay as considering your pension benefit. Instead, you are going to get a reduced pension than you ever counted on, and they are going to swap you for a 401(k).

Is that a fair trade? Well, Jane Bryant Quinn's column says that workers in this situation may take an annual company contribution in their 401(k) of 15 percent to be equal. Now, how many of you know of 401(k)'s where they put in 15 percent?

So what we are seeing here, directed right at the baby boom workers, is a bill that will cause the freezing of their pension, the reduction of their benefit, and yet the majority, in their hypocrisy, has the nerve to suggest they are doing it to protect workers. Kill this bill. Protect worker pensions.

Mr. CAMP of Michigan. Mr. Speaker, I yield myself the balance of my time.

I urge Members to vote for this Pension Protection Act because this bill reforms the current system. What we have seen through the years in the steel industry and some of the airline industry, and the auto industry is on the brink, we have seen plans terminated and put over on the PBGC. Everybody loses there, certainly potentially the American taxpayer, but more importantly, the workers in those companies end up not receiving the benefits they remember promised.

This legislation requires plans to be fully funded. That is an important step forward. It also ensures that the plans have a realistic reflection of the value of their plan so that we don't have some rule that doesn't make any sense that values a plan at an unrealistic amount. The plans are fully funded at a mark-to-market amount that actually reflects the value of the market.

This bill represents a compromise between the House and Senate on multiemployer provisions, which strengthens the multiemployer plans as well as the defined benefit plans. This legislation also would allow shutdown benefits if plans are funded above a certain level, which are so important as we have this changing dynamic in our economy that will continue to protect our workers.

This legislation is better than current law, reforms current law, strengthens our plans, and will ensure that plans are not terminated and put on the PBGC.

Mr. Speaker, I yield back the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I reserve the balance of my time.

Mr. MCKEON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4, the Pension Protection Act, and I ask my colleagues to join me in doing the same. We followed a long road to get to this point, and there have been many bumps along the way. But when you are considering such substantial legislation, such fundamental reforms, especially in a bill where we haven't had reforms like this for over 20 years, that is to be expected.

At the end of the day, however, what we have brought to the floor tonight represents the reform package agreed upon by House and Senate pension conference principals after many, many meetings. After a long and sometimes difficult process, this bill provides us just what we were looking for at the outset: Reforms that significantly strengthen outdated worker pension laws for workers, retirees, and taxpayers. And that is a major and a long, overdue victory.

In the fall of 2004, nearly 2 years ago, the House Education Workforce Committee, led by then-Chairman BOEHNER, unveiled six principles to fix our Nation's outdated pension laws. These pillars represented the foundation for the defined benefit pension overhaul Congress was about to embark upon, and our committee pledged to incorporate them into the final legislative product we would send to President Bush. Mr. Speaker, the Pension Protection Act meets that pledge.

We pledged to craft a bill that provides certainty by establishing a permanent interest rate to more accurately calculate employers' pension liabilities so they fund their pension promises. We have done just that.

We pledged to craft a bill that relies on common sense by enabling employers to build a cushion in their pension plans during good economic times. And we have done just that.

We pledged to craft a bill that establishes stability by enclosing funding loopholes and ensuring employers make adequate and consistent cash payments to their plans. And we have done just that.

We pledged to craft a bill that promises greater transparency by giving employees timely and straightforward information about the health of their plans. And we have done just that.

We pledged to craft a bill that values honesty by ending the practice of allowing employers and union leaders, when faced with a severely underfunded pension plan, to dig their hole even deeper by promising extra benefits to employees and retirees. And we have done just that.

And, finally, we pledged to craft a bill that enhances retirement security portability by ensuring that hybrid plans, such as cash balance pensions, which offer portable, more generous worker benefits, remain a viable part of the defined benefits system. And we have done just that.

In short, this bill will reform broken pension rules that no longer serve the interests of workers who count on their retirement savings being there for them when they need it. I am proud to have played a role in crafting it, and I thank Chairman THOMAS, my neighbor from California, chairman of the Ways and Means Committee, and, in particular, my former chairman, Leader BOEHNER, for leading the charge on this important issue. Going all the way back to his days as Employer-Employee Relations Subcommittee Chair, our majority leader has been a tireless advocate for the reforms we are considering tonight, and I thank him for his commitment.

I also want to thank my committee staff for their work on this legislation, Ed Gilroy, Jim Paretti, Steve Perrotta, and Mr. BOEHNER's pension policy adviser, Stacey Dion. They have been truly remarkable throughout this process, putting in innumerable hours, and we literally would not be here tonight without them.

Mr. Speaker, I urge swift passage of H.R. 4, both here in the House this evening and in the Senate next week.

Mr. Speaker, I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I continue to reserve the balance of my time.

Mr. McKEON. Mr. Speaker, I am happy to yield 3 minutes to a member of the committee, a member of the conference committee, and thank him for his work on this bill, the gentleman from Minnesota (Mr. KLINE).

Mr. KLINE. Mr. Speaker, I thank the gentleman, my chairman, for yielding.

Mr. Speaker, I rise today in very strong support of H.R. 4, the Pension Protection Act of 2006. This legislation provides security and peace of mind for working families across our Nation. Many Americans have worked their entire lives for their pensions, and nothing is more important to them than making sure these obligations are met. This legislation protects the interest of workers, retirees, and taxpayers, and it helps employers continue to offer these benefits.

As vice chairman of the Employer-Employee Relations Subcommittee, I have worked over the last few years with my colleagues to reform these antiquated pension laws. This legislation reflects our negotiations with House and Senate leaders concluded in recent days. I am proud to have championed the inclusion of airline relief in this final package.

□ 2215

The Pension Protection Act strikes the necessary balance between the many diverse groups with an interest in a healthy pension system. The passage of this bill protects the pensions of more than 9,000 Northwest Airline pension plan participants who live in my district alone. I am honored to represent these individuals here in Congress and to support this much needed legislation on their behalf and on behalf of all my constituents.

Without this legislation, Mr. Speaker, it is not a matter of if the airline terminates its plans; it is a matter of when. This bill will allow Northwest Airlines to emerge from bankruptcy with its pension plans intact.

Curtis Shoemake, a 30-year Northwest Airline pilot from Minnesota, summed up the situation when he remarked, "It's a win-win for everybody. It's a win because it protects our pensions. It's a win because the PBGC is not burdened with the termination of our pension. I'm hopeful that Congress will step up to the plate and do the right thing."

Tonight, Mr. Speaker, I am asking my colleagues to join me in doing the right thing. Let's take the next step toward solving our Nation's pension crisis. Vote for this legislation and strengthen America's pension system for the workers of today and of tomorrow.

Mr. GEORGE MILLER of California. Mr. Speaker, I continue to reserve the balance of my time.

Mr. McKEON. Mr. Speaker, I yield 1 minute to the chairman of the Ways and Means Committee, Mr. THOMAS.

Mr. THOMAS. I thank the gentleman very much.

Mr. Speaker, of necessity, this bill, H.R. 4, governing pension rules is very complex. A detailed, plain-English explanation is available from the Joint Committee on Taxation and will be a key resource in understanding the intent underlying the bill's provisions and, therefore, obviously of the legislative intent behind the bill.

Mr. McKEON. I am happy to yield 3 minutes to a subcommittee chairman of the Education Committee, a member of the conference committee, a good friend of mine from Texas, a hero of this country, Mr. SAM JOHNSON.

Mr. SAM JOHNSON of Texas. Thank you, Mr. Chairman, for that time.

I normally don't do this, but I rise in opposition to this pension bill on which I am a conferee. The original House pension bill had no specific industry relief. In the House bill we did not pick winners and losers.

However, the Senate bill did contain specific airline industry relief. The four legacy carriers that maintain pension plans were all treated the same. Within that industry, there was no picking winners and losers. Yet this bill that we are debating chooses to favor two bankrupt airlines, Delta and Northwest. I appreciate the comments previous on Northwest. I think they need the help. It gives them extra relief for having run their pension plans even into the ground.

The two airlines that are not threatening the retirement security of their employees, American and Continental, are being punished for having gotten wage and benefit concessions from their employees during very hard-fought, but successful, negotiations. American Airlines has been working closely with their pilots, flight attendants, and ground crews to be sure that this is an airline that keeps flying and keeps its promises to its employees.

Yet the bill debated here tonight will give Delta and Northwest a huge competitive advantage. I will vote against this bill because all four legacy carriers should get the same interest rate, I believe, for unfunded promises.

The Senate bill and the draft conference report that has been circulated by the Senate would provide for parity for all four airlines on the interest rate. Those who support this deal say American and Continental are being greedy. I say American and Continental need the same interest rate as the other two or they are going to be hundreds of millions of dollars at a disadvantage against their direct competitors. As a matter of fact, American just reported, I think, somewhere around $300 million profit in this year, and $600 million is what they would be cost by this bill each year.

I am standing with the Texas delegation and airlines that keep their word. Our Texas airlines have worked hard to keep their word with their employees. This Congress must give equal treatment for our major airlines.

I urge a "no" vote.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts (Mr. TIERNEY).

Mr. TIERNEY. I thank the gentleman for yielding.

Mr. Speaker, I think that there are some provisions in this bill that merit our hesitation before we proceed forward on it here tonight. This will be the second bill that we have passed in this House on the same subject, and both of them have missed opportunities.

This bill misses an opportunity to encourage companies to keep offering traditional pensions to their employees. As my colleague Mr. NEAL from Massachusetts said earlier, it could be the demise of the defined contribution plan, defined benefit plan for employees, a plan that many, many people rely on and the best type of pension/retirement plan that people could have. This in the face of a majority of this body and a White House that are already intent on attacking and privatizing Social Security.

This bill misses an opportunity to protect taxpayers from footing the bill for the bailout of the Pension Benefit Guaranty Corporation. The PBGC estimates that this bill will increase its deficit by $2 billion over the next 10 years.

This bill misses an opportunity to prevent companies from using bankruptcy to dump workers' pension plans, and we have seen that happen too often in a number of instances very recently. We had every opportunity to put provisions in this bill that would force companies to try alternative means and other financing and ways to stop from having to dump their plan into bankruptcy and therefore hurt their retirees. We fail to do it in this bill.

The bill misses an opportunity to save pension benefits for older workers by allowing conversion to cash balance plans without protecting those that are 45 years or older, and estimates are that they stand to lose up to half of the accumulated value in their pension plans.

And the bill misses an opportunity to stop companies from awarding lavish retirement compensation packages to executives at the same time they cut workers' benefits. The fact of the matter is that the executives that are responsible for driving these plans into the ground ought to have their fate and their retirement hooked onto the fate of their employees so that they will make sure that these plans succeed every possible time.

And the bill misses an opportunity to protect workers' pension assets. The investment advice exemptions in the bill don't adequately protect against conflicted investment advice.

Mr. Speaker, they miss opportunity after opportunity. We can do better. Let it go back to conference, let's correct it, and let's come out with a good pension plan to protect America's workers.

Mr. MCKEON. I yield to the gentleman from Georgia, a member of the committee, for purposes of a unanimous consent request.

Mr. PRICE of Georgia. Mr. Speaker, I want to commend the leader and the chairman for their hard work on this. I rise in support of H.R. 4.

Mr. MCKEON. At this time I would like to yield to my good friend from across the aisle, the ranking member of the Transportation Committee, Mr. OBERSTAR, for 2 minutes.

Mr. OBERSTAR. I thank the gentleman for yielding.

As the chairman of the Ways and Means committee said earlier, he did say that the pension system is broken. I wouldn't say it is quite broken, but it does have some cracks. We forget that when ERISA was enacted in 1973, it was hailed in particular in my district by my predecessor for whom I was administrative assistant as the great salvation for iron ore mines that were about to go into bankruptcy and for workers whose pension plans would have been lost without PBGC set up under ERISA.

We find now that there are some oversights that should have been plugged over the years and failings that should have been corrected. But they weren't done. And now we are at a situation where there is an opportunity to make an adjustment and that is in the airline sector.

If the steel industry had been as responsible as I submit Northwest Airlines has been and Delta in working with their employees to protect the pensions, freeze the pensions, require the company to pay in over a period of time, we wouldn't have billions of dollars in unfunded liabilities for the steel industry in the PBGC, and we would have more steel industry still operating and more workers getting their fair pensions.

Now, the plan that Northwest has set before its workers was negotiated with the pilots, the flight attendants and the machinists, and they said, We'll freeze the plan, but we'll continue to pay into it so that you get the full amount you're entitled to and then we'll substitute a defined contribution plan.

Now, two other carriers, American and Continental, say that is unfair to them. But what is unfair to them would be if we do nothing tonight, defeat this bill, and then Northwest simply turns over in the month of August their pension plan to the PBGC and thousands of employees from both Northwest and Delta are out of luck, they lose huge amounts of money over the balance of their retirement years, and then American and Continental have a real disparity in competition because those companies don't have that burden of liability to pay.

So pass this bill and give those carriers an opportunity to do the right thing.

Mr. MCKEON. May I inquire how much time remains.

The SPEAKER pro tempore. The gentleman from California (Mr. MCKEON) has 3½ minutes remaining. The gentleman from California (Mr. GEORGE MILLER) has 10¼ minutes remaining.

Mr. MCKEON. Mr. Speaker, I am happy to yield at this time 2½ minutes to a member of the committee, Mr. EHLERS from Michigan.

Mr. EHLERS. This is a very complex issue, and we have worked on this bill for a considerable amount of time in the Committee on Education and the Workforce, of which I am a member.

I am puzzled, because there is a little confusion on the floor tonight about the airlines issue, and I hope I can help to clarify that. The impression that has been given, and I have heard it in other discussions and not just in this debate, that there is one plan here for Northwest and Delta and a different plan here for Continental and American Airlines. That is simply not true.

There are two plans, but it does not specify which airlines. Any of the airlines can pick one of the two plans. It is an open choice. One plan is for an airline which chooses to freeze their pensions. In that case, they will pay what they owe to the PBGC at a certain rate of interest over a certain period of time. In the other plan, airlines do not have to freeze their pensions and they pay their obligation to the PBGC at a certain rate over a certain amount of time.

Now, those rates and times are different because the two plans are different. The liabilities of the airlines are different. But Continental or American Airlines can choose to use the frozen plan with no problem whatsoever. If they think Northwest and Delta are getting a better deal, they can join them. They can freeze their plans and get the same repayment rate, same interest rate, same time to repay as Northwest and Delta. It is very simple. Two plans, but no airline is tied to a particular plan. They can make the choice they wish. In fact, Continental is using both plans.

And so the argument that we are being unfair and are picking winners and losers among the airlines simply does not apply in this case. As Mr. OBERSTAR said, this is a fair arrangement which will preserve the pension funds for the employees of the airlines and will prevent a further load from being assigned to the PBGC, the Pension Benefit Guaranty Corporation, which would lose a lot of government money and which we may have to bail out if we do not adopt this plan.

I urge an "aye" vote.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker and Members of the House, this is a complicated piece of legislation and Members of the House and Members of the Senate have struggled with it for some period of time. That struggle really hasn't been completed yet because this legislation was taken from the conference committee and it is here tonight to be passed unilaterally within the House and be presented to the Senate in the future.

It is difficult to understand all of the things that have been done in this legislation, certainly for the Democratic

Members of the House since we were not included in this conference committee. We were not invited into any of the sessions, nor was the information shared with us as it was developed during the conference committee because they chose to run it simply on a partisan basis among the House conferees.

□ 2230

But I think it is clear to understand also that this legislation does, in fact, as my colleague from Massachusetts said, miss a number of opportunities. And that is why we are concerned with it tonight.

We understand the changes that have been made that allow companies to continue to underfund those pension plans and then increase the contributions that those plans will have to make in later years, and it is pretty clear that as businesses sit down and make the decisions about the allocation of resources and they look at those increased contributions, the burden will really push them in the direction of freezing or terminating their plans. That is why we see the quote that was given this last day or so, "We will see an unprecedented number of companies freezing their plans in 2007 because they will recognize the difficulties of the new pension regime." That comes from the American Benefits Council, which deals with so many of these plans, because this tilts the table toward the decisions by companies to terminate or to freeze those plans.

And if that happens, of course, we have been warned now, under this legislation by the Pension Benefit Guaranty Corporation that as they contribute less to those plans and then make that decision, it also heightens the likelihood that these underfunding problems will become worse, according to this legislation as represented to us by the Pension Benefit Guaranty Corporation. And they also make it clear the Pension Benefit Guaranty Corporation that absorbs these plans on behalf of a safety net paid for by other plans that as they suffer from a huge deficit, a $23 billion deficit, they expect that this legislation that is before us tonight will add some $2 billion to that deficit over the next 10 years.

But there are other decisions that the conferees could have made or that you could have made in drafting this bill as you brought it to the floor. You could have erred on the side of working people. You could have made a decision that in these plans that are distressed and underfunded that we would, in fact, treat the employees and the executives alike. But we set two different standards. We said that if your plan is not 80 percent funded, then the employees can get no additional benefits in terms of their retirement out of that plan. But if a plan is only 60 percent funded, executives can continue to draw and add on and accrue pension benefits. So we have set two different standards here. Both people, I assume, are working very hard for the success of that corporation. One is just going to get treated entirely differently than the other. It is a matter of simple fairness. A matter of simple equity. But when we see the greatest disparities in the history of this country for a long time now, when we see these disparities, this bill increases those disparities between the executives and the employees.

You could have made a decision not to harm the pilots that were harmed after 9/11 because they were forced to retire early. Federal law made them retire at 60. Then 9/11 and the high fuel costs come along, and that drives United Airlines into bankruptcy, a bankruptcy I didn't agree with, but they went into bankruptcy; so you lost 40 percent of your pension. PBGC took over their plan, but you lost an additional amount because you retired at 60. Those pilots had no chance. We could have taken care of them in this bill. One would have thought that that was somewhat of a humane thing to do, a compassionate thing to do. They were victims of 9/11. They were victims of the downturn in the travel economy after 9/11. They were victims of high fuel costs. They did not do anything wrong, and Federal law forced them to retire. But we just blew off their cause in this legislation.

The issue of older workers, a missed opportunity there, to make sure, as we transition from defined benefits plans to cash balance plans, that we would protect the oldest of those workers, the closest to retirement, that we would make sure that they would be taken care of because, as we know, people who are 55, 60 years old, 5 years from retirement, have very little opportunity to accumulate the kind of economic resources that are necessary to match the retirement that they were expecting. You didn't have to do it. It was recommended by the administration.

The Secretary of Treasury, former Secretary Mr. Snow, said it should be done. He said he did it in his corporation at CSX. He voted to do it as a member of the board of Verizon. It was done by Honeywell. It was done by Wells Fargo Bank. It was a compassionate thing to do. They still realized the savings that they wanted by changing their pension plans, and I do not object to their doing that. I just thought that we could make an effort to try to protect those people who the GAO tells us would lose almost half of their benefits with those kinds of conversions. But that was not done in this legislation.

So I really think that we ought to understand that those kinds of decisions really do harm a number of people that could have been helped in this legislation, a significant number of people that could have been helped in this legislation. And we could have done some more to try to help keep these plans out of the PBGC.

We could have also made sure that before people went to bankruptcy in the manner in which United did, that they would have made the last ditch effort, the kind of effort that we just talked about earlier, where airlines made these kinds of efforts to freeze their plans, but they did not. But I think before we rush to bankruptcy and then we turn these plans over to the PBGC and maybe ultimately to the taxpayer that there ought to be a burden, there ought to be a showing, there ought to be evidence that, in fact, you made every effort. I am not asking you to destroy the company. I am asking you to make the kind of effort that we saw others make but they chose not to make it at United, and as a result of that, those machinists, those flight attendants, the pilots, the ramp workers, and so many others have taken such a serious hit on their pension benefits with no ability to recover. So those are my objections to this legislation.

We started this session with an unprecedented attack on Social Security. And as people started to look at that attack, and they saw the Federal privatization of Social Security, they started to look at their own pension plans, and they realized, as what we are doing with here today, that their own pension plans are very insecure. There is probably no employer in this country that can tell you that that pension plan will be there for their employees 75 years from now, 65 years from now, and be paying out 80 percent of the benefits. So people have come to realize that they need retirement security. And I do not believe that this legislation provides that kind of security that individuals need.

I recognize the transitions in pension plans. I recognize the changes in pension plans. But I really think that this legislation, in many ways, was drafted looking in the rear-view mirror as opposed to the future of these plans and how we encourage savings and how we encourage participation.

There is no question this legislation deals with some of those issues, but I do not believe that we did the kind of job that will serve us well in the future.

And I would encourage Members to oppose this legislation. We will have a motion to recommit, a motion that will protect those older workers, a motion that will treat those airlines the same. If they all freeze their plans, they should get the same number of years to do that, and we think it will provide them a greater margin of safety if they do that, and provide for that kind of transition and the protection of those pension plans as they originally requested, as the Senate originally voted to do. But the conferees didn't go there, and certainly this legislation being offered in the House tonight didn't go there. But that will be offered in a few minutes.

I urge opposition to this legislation.

Mr. Speaker, I yield back the balance of my time.

Mr. MCKEON. Mr. Speaker, it gives me great pleasure to yield the balance of my time to our majority leader, who started this project as a subcommittee chairman and then full committee chairman of the Education Committee, Mr. BOEHNER from Ohio.

Mr. BOEHNER. Mr. Speaker, let me thank my colleague for yielding.

And, Mr. MILLER, let me say hello to you and thank you for your loyal opposition. Even though over the last 7 years that we have worked on this project together, much of what is in here you should be very proud of because you and Mr. ANDREWS, Mr. THOMAS, Mr. MCKEON, Mr. JOHNSON, and others, all of us, over the last 6 or 7 years, have spent a lot of time bringing this bill together.

And I am pleased that this bill is on the floor tonight. It could be here in a different form. It could be here in a different way. But the fact is that we have worked together in a bipartisan way to craft a very good bill to protect American workers' pensions.

Simply put, I think these reforms that we have put in place tonight represent the most sweeping changes to America's pension system in 30 years. And they will ensure that workers and retirees can continue to count on their hard-earned retirement benefits. And these reforms, I think, deserve the support of every Member in this House.

Over the past few years, we have seen more and more companies get out of their pension system, freeze their pension plan, go bankrupt, turn it over to the Pension Benefit Guaranty Corporation, and put the pension benefits for American workers in jeopardy. And what we are attempting to do tonight, in a bipartisan way, is to protect the American workers and the benefits that they have earned and try to make sure that the commitments that companies make to their workers are kept. And the way to do that is to make sure that we put more money into these pension funds.

Now, my friend from California, who was down here arguing against this bill, had a two-sided argument. One, the bill is too strong. We are going to require companies to put more money into their pension plans, and as a result, they are going to freeze their plans. Yet on the other hand, he is complaining that we are not protecting the interests of the American worker. Now, we spent years on this, both of us together, and we know the only way you get there is to walk a very fine line, to make sure that promises made to American workers are kept, that plans are better funded, and that we try to prevent a taxpayer bailout of the Pension Benefit Guaranty Corporation.

As my colleague from California said, 7 years ago, when I was bounced out of the Republican leadership after the 1998 election, I became chairman of the Employer-Employee Relations Subcommittee of the Education and the Workforce Committee, a subcommittee most of you have never heard of. And my ranking member was my good friend from New Jersey, Mr. ANDREWS, and we began a series of hearings in 1999 to uncover what was happening in the pension system in America today. And we had dozens of hearings and worked hard. And some of the things that we learned, I think we have dealt with very comprehensively in this bill.

The bill ensures that employers better fund their pension plans. It closes loopholes that allow underfunded plans to skip their pension payments. It prohibits employers and union leaders from digging the hole even deeper by promising extra benefits when their plans are severely underfunded. The bill enhances disclosure to give workers and retirees more information about the condition of their own pension fund that they are a member of. It protects taxpayers from a multi-billion dollar bailout of the Pension Benefit Guaranty Corporation. It better protects multi-employer pension plans for both workers and the employers who fund them. And it gives access to critical investment advice for those who have 401(K) plans and IRAs.

I want to also mention the last issue, the fact that one of the issues I have worked on for these 7 years and never given up on is trying to get critical investment advice into those who have self-directed plans. My colleague from Massachusetts sits over there with a smile on his face because we worked on this together, although he disagrees with me. He is still my friend. But helping those who have to make decisions in their 401(k) plan or their IRA is critically important if we want to help them get the type of retirement security that they want for themselves. We all know that many of these plans are underfunded.

There is not enough diversification in their portfolios, and if we don't get real investment advice and personalized investment advice into their hands, we know they are not going to have the type of retirement that they are expecting. Thankfully, those provisions are included in this bill to help make sure that investment advice gets there.

Another big issue is bringing legal certainty to those cash balance plans, these hybrid plans. It is not a defined benefit plan; it is not a 401(K). And over 2,000 companies in America today have these hybrid pension plans, and they are in some legal jeopardy. And I think we have struck the right balance in this legislation to protect the interest of older workers that are in defined benefit plans as these conversions take place.

Now, not every Member favors every provision of this bill, as my friend from California pointed out. And if I had to write this bill myself, it would be different than what we see today. The fact is that I think we have made good on our promise to help American workers keep their retirement benefits they have earned, to make sure that those commitments are kept.

I want to thank my friend from California, Chairman BILL THOMAS, whom I have worked on this proposal with for the last 5 years. We all know BILL is a sweet, lovable human being. This is his last year as chairman of the Ways and Means Committee. And I have got to tell you that all of us in the House, whether we agree with BILL or disagree with BILL every day, BILL is someone who works hard, puts his mind to it, and no one has worked harder in bringing this bill to the floor tonight than my colleague and friend from California, Mr. THOMAS.

□ 2245

Also I want to thank Chairman MCKEON, the man who took my place as Chairman of the Education and Workforce Committee some 6 months ago, for his hard work.

I want to thank my staff, Stacey Dion. Stacey, everybody that has worked on this knows Stacey. She has been one of the principal authors of this. I want to thank Paula Nowakowski, Jo-Marie St. Martin, Kevin Smith, Mike Sommers, Greg Maurer, Dave Schnittger and George Canty on my staff for all of their work on this bill now and in the past.

I also have to thank some of my former staff on the Education and the Workforce Committee, Ed Gilroy, Steve Forde, Jim Paretti and Steve Perrotta, for all of the work they have done continuing to assist not only me when I was chairman, but Mr. MCKEON as well.

Let me also thank the staff from the Ways and Means Committee and our Democrat staff who have worked hard over many years to get us to this point.

This is a very important bill. I think all of my colleagues on both sides of the aisle know it is a very important bill.

When we started this process, Mr. ANDREWS and I in 1999, it wasn't many months into this when we asked ourselves, why haven't these laws been cleaned up and straightened out? Well, Mr. ANDREWS, I can tell you, I found out why, because it is hard work and there are a lot of people who have a lot of different interests.

But at the end of the day, the work that we started I think is going to pay dividends tonight, because what we have here is a process and a product that has been developed together that will in fact meet the goals that we set out to do. And it wouldn't have happened without the work of a lot of Members on both sides of the aisle.

With that, Mr. Speaker, I ask my colleagues to support this bill, to defeat the motion to recommit, and move this bill to the Senate and on to the President's desk.

Mr. BLUMENAUER. Mr. Speaker, there is probably no issue of more critical interest to the majority of the people that I represent than retirement security. We are facing a growing crisis in this country because of the way pension plans have been mismanaged and the stresses that are coming from demographic changes, in particular the pending retirement of the baby-boomers. We've already seen many of these programs disrupted to the serious disadvantage of hardworking men and women who through no fault of their own are facing a much more difficult time in retirement.

I am sad in this instance that this bill does not make the simple adjustment that all employees' pensions are treated the same whether they are an executive or metalworker or longshoreman. That would have been a simple reform providing equity and would have forced more attention and energy on the part of top executives to protect the integrity of their pension programs. However this is not the case.

I am frustrated that this comes at the last minute with little chance for review and without the full participation from conferees on both sides of the aisle. Frankly, my staff and I and the people in my district have had very little time to be able to fully analyze the consequences of this legislation. This is not the best we can do, but it looks to me like it's the best we can expect for now. I am quite confident this is not the last word and I will vote in favor while continuing to work to do a better job for American industry and its workers.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in opposition to H.R. 4, the Pension Protection Act of 2005. I support the Miller/Rangel motion for several reasons. Specifically, I oppose the bill because I am not satisfied that it adequately protects older workers' benefits in cash balance conversions and ensures that airline pilots do not see unfair cuts to their PBGC benefits because of the FAA's mandatory retirement rules and agree to the Senate provisions on airlines. I believe the bill can be designed better to prevent pension plan dumping and to treat equally executive compensation and worker and executive pensions equally.

PROVISIONS PROTECTING OLDER WORKERS' BENEFITS IN CASH BALANCE CONVERSIONS

These provisions prohibit discrimination against older workers by the practice of offsetting previously earned pension benefits against new benefits under the plan, also known as "wearaway" of older worker benefits. They also provide fair rules to protect workers' pensions in conversions of traditional pension plans to cash balance pension plans. In a recent study, the GAO found that, without these transition protections, almost all workers could lose up to 50 percent of their expected pension benefits in a cash balance conversion.

PROVISIONS THAT ENSURE THAT AIRLINE PILOTS DO NOT SEE UNFAIR CUTS TO THEIR PBGC BENEFITS BECAUSE OF THE FAA'S MANDATORY RETIREMENT RULES

Under FAA rules, airline pilots are required to retire at age 60, and if they retire earlier than age 60, they cannot go back to work once they hit age 60. When a pilot pension plan is terminated and sent to the PBGC, the PBGC considers age 65 to be the normal retirement age, treats age 60 as an early retirement, and cuts pilots guaranteed benefits as a result. These provisions would require the PBGC to treat age 60 as the normal retirement age for pilots and adjust their guaranteed benefits accordingly. The motion would limit this treatment to those pension plans which were terminated after September 11, 2001. It could come no sooner. United Airlines pilots are seeing their pensions cut by tens of thousands of dollars each year under the PBGC rules. Their retirement nest eggs have been decimated. They are hit twice—once by the company's unfair dumping and again by the PBGC's benefit reductions.

PROTECTION OF AIRLINES

The airlines have been hurt by skyrocketing fuel prices and 9/11. It would be devastating to hundreds of thousands of workers across the Nation if more airlines are permitted to dump their plans into the PBGC. These provisions give airlines the ability to keep their plans going by stretching out payments over 20 years instead of 7 years.

PROVISIONS DESIGNED TO PREVENT PENSION PLAN DUMPING

These provisions allow the PBGC and Treasury Secretary to enter into an alternative funding agreement with an employer if its pension plan is in danger of being terminated. If workers and retirees are facing the destruction of their pension plans, Congress should give the PBGC and Treasury Departments the flexibility to work out alternatives to termination. If such alternatives to simply dumping a plan were available during the United Airlines crisis, the largest pension termination in history might have been averted.

PROVISIONS ON EXECUTIVE COMPENSATION AND WORK TO TREAT WORKER AND EXECUTIVE PENSIONS EQUALLY

Under the House bill, workers see benefit restrictions when a pension plan falls below 80 percent funding. Executives, on the other hand, only see limited benefit restrictions much later—at less than 60 percent funding. The Senate bill achieves greater parity than the House bill in how workers and executives are treated. Over the last several years, we have seen repeated cases where executives have protected or even enhanced their own golden parachutes, while cutting or eliminating workers' pensions. It is time for these unfair practices to end. If it is good enough for the sailor, it is good enough for the captain.

CONCLUSION

For these reasons, I oppose H.R. 4 and urge my colleagues to join me.

Mr. KIND. Mr. Speaker, I rise in support of the legislation before us tonight. The Pension Benefit Guaranty Corporation, PBGC, is dangerously underfunded, current pension law is antiquated, and this Congress must do all it can to shore up America's private pension system.

The bill addresses the concerns of both workers and employers and makes necessary changes to shore up the Federal pension system. Among the welcomed reforms are greater transparency and accountability in the PBGC, the special consideration given to airlines, and the overall tightening of rules so that companies will meet their financial obligations to their employees and retirees.

As a cochair of the New Democrat Coalition, I believe it is important to reform pensions so that promises to workers are kept, taxpayers are not left footing the bill, and companies can continue to be good actors and offer pension plans. In addition, any discussion of pension reform must include an increased emphasis on personal responsibility.

Americans are not saving enough for retirement. In fact, the national savings rate is at its lowest level since the 1930s, declining from 9.4 percent in 1970 to just 1 percent in 2004. In response to these weak savings rates, we need to create new, simpler incentives for middle-class Americans to save. Fewer than 40 percent of U.S. workers have calculated how much they will need to retire, 30 percent have not saved anything for retirement, and only 20 percent feel very confident about having enough money to live comfortably in retirement. Therefore, I am pleased by provisions in this bill making the saver's credit permanent and encouraging automatic enrollment in 401Ks.

This legislation makes the necessary reforms to strengthen the Federal pension system to the benefit of workers, retirees and taxpayers alike.

Mr. LEVIN. Mr. Speaker, House Republicans are bringing this bill, rather than a final conference report, for one reason and one reason only—to prevent the inclusion of long-overdue provisions to extend important business tax credits that reward things like research and development and efforts to hire low-wage workers. Those credits expired 7 months ago and are now hostage to the Republican quest to pass tax cuts for a tiny number of incredibly wealthy families. That is an outrage.

However much I deplore the process by which this bill was rushed to the floor, and however flawed it may be, it does include some critically important and very time-sensitive provisions, and its worst elements have been significantly improved since the original Bush administration proposal. For that reason, I have decided to vote in favor of this bill.

The bill includes provisions which must be enacted quickly if we hope to save pension benefits for large numbers of workers in the airline industry and in the building trades and other industries with multi-employer pension plans.

Without a provision in this bill which would give airlines more time to fully fund their pension plans, Northwest Airlines has said it will have to terminate its pension plan and turn it over to the Federal Pension Benefit Guaranty Corporation. That's a bad outcome for everyone. It's a bad outcome for Northwest employees, because many of them will not receive their full earned pensions if that happens. It's a bad outcome for taxpayers, because we will assume Northwest's debt, even though the company is eager to pay it, given time.

The bill also includes long-overdue reforms to multi-employer pension plan law. These long-overdue reforms will allow multi-employer pension plans to address what for some plans is a short-term funding crisis, and will give all plans flexibility they didn't have before to advance fund and guard against a future crisis. Republican leaders unfairly dropped multi-employer pension plan reform from the pension reform bill that addressed similar problems for single-employer plans several years ago.

This final bill also represents a substantial improvement over the original proposal put forth by the Bush administration, and the bills that passed the House and Senate. Under the improved bill:

Companies will be spared the extreme funding unpredictability proposed by the Bush administration, which advocated forcing companies to respond to every short-term fluctuation in interest rates and workforce composition, without any "smoothing" of interest rates at all.

A provision which would have unfairly classified pension plans as "at risk" and subject to penalty if the company had a poor credit rating, even if the plan itself was well-funded, has been removed. That provision might have forced companies like General Motors to divert resources from addressing business challenges and into an already well-funded pension plan.

Plans will be allowed to amortize both gains and losses in their pension plans over time, and will be able to use accurate assumptions about early retirement to predict future liabilities so that the plans are properly funded.

The flawed Bush administration proposal to deny all workers plant shutdown benefits was mitigated, though not removed, and the conferees adopted provisions from the Senate bill which we hope will prevent employers from using pension plan underfunding as a tactic to cut retirement benefits negotiated in collective bargaining.

Despite my decision to support the bill and address immediate needs, I must admit I continue to have deep reservations about this bill's long-term impact on our defined benefit pension system, which provides guaranteed retirement income for millions of Americans. Knowing how committed President Bush and his allies in the House are to Social Security privatization increases my concerns, especially given the way this bill came to the House floor.

The final bill includes fundamental changes to the way companies determine their contributions to pension plans. The new "yield curve" methodology proposed by the Bush administration is completely untested, and is likely to make required pension obligations much more unpredictable. Many companies have suggested that this new unpredictability may be the final straw that leads them to terminate their guaranteed pension plans.

The final bill includes a requirement that companies subtract credit balances they earned by making advance pension contributions before calculating their plan funding level, a change which will provide a strong disincentive to advance fund, since advance contributions will be treated as if they don't exist in the future. Advance funding is critical if companies are to balance the need to fully fund retirement benefits with the need to direct resources to current operations in difficult times.

The final bill included provisions which may make workers pay the price when companies don't fund their pensions, including provisions which restrict benefits for workers when plants shut down and a dangerous provision which would allow deeply underfunded multiemployer pension plans to cut benefits that workers have already earned. The bill also misses a real opportunity to enact better protections for workers whose companies declare bankruptcy and terminate their pension plans.

I regret that this bill was not crafted in a Congress that genuinely believed in guaranteed retirement benefits and preserving them for the future. There is much bad with the good, and much of the effort that went into this bill was directed toward mitigating problems with the original bill, rather than addressing real problems with retirement security. I hope that in the next Congress, we will be in a position to pass legislation that will strengthen retirement security for all workers.

Mr. TIBERI. Mr. Speaker, H.R. 4 provides significant reforms of ERISA prohibited transaction rules. These new exemptions are in addition to exemptions that have already been granted by the Secretary of Labor or are included in the ERISA statute.

I am supportive of the relief for the use of electronic communication networks and similar trading venues. This reflects the availability of new technology to make trading more efficient. ERISA plans are incurring higher execution costs because of the difficulty of sending ERISA plan trades to electronic trading systems. Greater access to electronic trading can provide ERISA plan participants with the same benefits that are available to non-ERISA plans and other institutional investors.

The legislation requires plan fiduciary authorization and prior notice before an ECN or similar trading venue can be used if the manager or his affiliate has an ownership interest in the trading venue. However, it recognizes that prior notice and authorization is not required for exchanges or venues where a manager or its affiliate have an ownership interest that is insignificant, such as under 10 percent. In addition, as under current law, a transaction executed on an exchange or automated public quotation system will not result in a prohibited transaction, even if it is owned in part by an affiliate of an investment manager.

Ms. MCCOLLUM of Minnesota. Mr. Speaker, I support final passage of this pension legislation because we must do something today to protect working families so that the pension promises that were made to them are honored. I am proud today to stand with the employees and groups who are in support of this legislation, including the Affliated Unions of the Building and Construction Trades Department, AFL–CIO, International Association of Machinists, UNITE/HERE, the United Brotherhood of Carpenters and Joiners of America, and many others. And, I join with all of my Republican and Democratic colleagues from the Minnesota delegation in broad bipartisan support for this bill.

Without this legislation, Northwest Airlines, a major Minnesota-based employer and key player in the economic vitality of the region, will not be able to come out of bankruptcy with its pension plans intact. I support this legislation because it will help to ensure Northwest Airlines keeps flying and that their employees can keep working and ensure that their pensions are funded.

This bill is not perfect. In addition to much needed relief for airline employees, this bill includes provisions that will make it easier for working families to save for their retirements by encouraging automatic enrollment in retirement savings. It is critical that families are supported in their efforts to create a strong foundation of savings for their futures.

Working men and women have waited far too long for Congress to pass legislation to protect pension benefits and to honor the promise of pensions. Pension legislation should have been done many months ago. This Congress's failure to act in a more timely way will potentially make worse current and future employer bankruptcies and will impact the strength of all retirement benefits. It is shameful that this Republican Congress has put partisan politics ahead of the well-being of working men and women and those who have already retired.

I am concerned that this pension bill before us today has been introduced with no notice and there has been no opportunity for Members to review the provisions. Instead of bringing forward the bill that Congress has been working on now for more than a year, House Republicans have brought this bill forward.

It is outrageous that House Democrats were excluded in the conference committee negotiations between the House and the Senate. After missing three deadlines to complete their work, House Republicans, instead, were more interested in thinking of ways to attach their extreme tax cuts for America's wealthiest onto what should have been clean, common sense, bipartisan legislation. Their tactics were so extreme that their colleagues in the Senate were unwilling to go along with it. So, here we are now at the eleventh hour doing what we can to salvage pension legislation.

Today, I wish I were rising to support passage of a bill that will guarantee quick action to save the pensions of millions of workers, but instead, once again, partisan politics will slow down the much needed action on pension reform. Even with House passage of the bill, we can't guarantee anything to America's workers because this legislation was taken from the conference committee and now it must pass the Senate with no changes in order for it to move to the President's desk for his approval. If the Senate wants to change anything in the bill, American workers will have to continue to wait for Congress to act.

I do share some of the concerns expressed by my colleagues. There are some missed opportunities—including the failure to address executive compensation and provisions concerning the investment advice for those who have 401(K) plans and IRAS. The investment advice exemptions in the bill do not adequately protect against conflicted investment advice.

Despite some legitimate reservations voiced by groups I respect, this bill contains good provisions—important provisions that must be passed now so that employers can keep the pension promises made to their employees.

Mr. GEORGE MILLER of California. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. GEORGE MILLER of California. I am in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

(b) Multiemployer Plan Benefits Guaranteed.—Section 4022B(a) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1322b(a)) is amended by adding at the end the following: "If, at the time of termination of a plan under this title, regulations prescribed by the Federal Aviation Administration require an individual to separate from service as a commercial airline pilot after attaining any age before age 65, this subsection shall be applied to an individual who is a participant in the plan by reason of such service by substituting such age for age 65.".

(c) Effective Date.—The amendments made by this section shall apply to benefits payable on or after the date of enactment of this Act, but only with respect to plan terminations occurring after September 11, 2001.

Strike section 402 and insert the following:

SEC. 402. SPECIAL FUNDING RULES FOR PLANS MAINTAINED BY COMMERCIAL AIRLINES THAT ARE AMENDED TO CEASE FUTURE BENEFIT ACCRUALS.

(a) In General.—If an election is made to have this section apply to an eligible plan—

(1) in the case of any applicable plan year beginning before January 1, 2007, the plan shall not have an accumulated funding deficiency for purposes of section 302 of the Employee Retirement Income Security Act of 1974 and sections 412 and 4971 of the Internal Revenue Code of 1986 if contributions to the plan for the plan year are not less than the minimum required contribution determined under subsection (d) for the plan for the plan year, and

(2) in the case of any applicable plan year beginning on or after January 1, 2007, the minimum required contribution determined under sections 303 of such Act and 430 of such Code shall, for purposes of sections 302 and 303 of such Act and sections 412, 430, and 4971 of such Code, be equal to the minimum required contribution determined under subsection (d) for the plan for the plan year.

(b) Eligible Plan.—For purposes of this section—

(1) In general.—The term "eligible plan" means a defined benefit plan (other than a multiemployer plan) to which sections 302 of such Act and 412 of such Code applies—

(A) which is sponsored by an employer—

(i) which is a commercial airline passenger airline, or

(ii) the principal business of which is providing catering services to a commercial passenger airline, and

(B) with respect to which the requirements of paragraphs (2) and (3) are met.

(2) Accrual restrictions.—

(A) In general.—The requirements of this paragraph are met if, effective as of the first day of the first applicable plan year and at all times thereafter while an election under this section is in effect, the plan provides that—

(i) the accrued benefit, any death or disability benefit, and any social security supplement described in the last sentence of section 411(a)(9) of such Code and section 204(b)(1)(G) of such Act, of each participant are frozen at the amount of such benefit or supplement immediately before such first day, and

(ii) all other benefits under the plan are eliminated,

but only to the extent the freezing or elimination of such benefits would have been permitted under section 411(d)(6) of such Code and section 204(g) of such Act if they had been implemented by a plan amendment adopted immediately before such first day.

(B) Increases in section 415 limits disregarded.—If a plan provides that an accrued benefit of a participant which has been subject to any limitation under section 415 of such Code will be increased if such limitation is increased, the plan shall not be treated as meeting the requirements of this paragraph unless, effective as of the first day of the first applicable plan year and at all times thereafter while an election under this section is in effect, the plan provides that any such increase shall not take effect. A plan shall not fail to meet the requirements of section 411(d)(6) of such Code and section 204(g) of such Act solely because the plan is amended to meet the requirements of this subparagraph.

(3) Restriction on applicable benefit increases.—

(A) In general.—The requirements of this paragraph are met if no applicable benefit increase takes effect at any time during the period beginning on July 26, 2005, and ending on the day before the first day of the first applicable plan year.

(B) Applicable benefit increase.—For purposes of this paragraph, the term "applicable benefit increase" means, with respect to any plan year, any increase in liabilities of the plan by plan amendment (or otherwise provided in regulations provided by the Secretary) which, but for this paragraph, would occur during the plan year by reason of—

(i) any increase in benefits,

(ii) any change in the accrual of benefits, or

(iii) any change in the rate at which benefits become nonforfeitable under the plan.

(4) Exception for imputed disability service.—Paragraphs (2) and (3) shall not apply to any accrual or increase with respect to imputed service provided to a participant during any period of the participant's disability occurring on or after the effective date of the plan amendment providing the restrictions under paragraph (2) if the participant—

(A) was receiving disability benefits as of such date, or

(B) was receiving sick pay and subsequently determined to be eligible for disability benefits as of such date.

(c) Elections and Related Terms.—

(1) In general.—A plan sponsor shall make the election under subsection (a) at such time and in such manner as the Secretary of the Treasury may prescribe. Except as provided in subsection (h)(5), such election, once made, may be revoked only with the consent of such Secretary.

(2) Years for which election made.—

(A) In general.—The plan sponsor may select the first plan year to which the election under subsection (a) applies from among plan years ending after the date of the election. The election shall apply to such plan year and all subsequent years.

(B) Election of new plan year.—The plan sponsor may specify a new plan year in the election under subsection (a) and the plan year of the plan may be changed to such new plan year without the approval of the Secretary of the Treasury.

(3) Applicable plan year.—The term "applicable plan year" means each plan year to which the election under subsection (a) applies under paragraph (1).

(d) Minimum Required Contribution.—

(1) In general.—In the case of any applicable plan year during the amortization period, the minimum required contribution shall be the amount necessary to amortize the unfunded liability of the plan, determined as of the first day of the plan year, in equal annual installments (until fully amortized) over the remainder of the amortization period. Such amount shall be separately determined for each applicable plan year.

(2) Years after amortization period.—In the case of any plan year beginning after the end of the amortization period, section 302(a)(2)(A) of such Act and section 412(a)(2)(A) of such Code shall apply to such plan, but the prefunding balance as of the first day of the first of such years under section 303(f) of such Act and section 430(f) of such Code shall be zero.

(3) Definitions.—For purposes of this section—

(A) Unfunded liability.—The term "unfunded liability" means the unfunded accrued liability under the plan, determined under the unit credit funding method.

(B) Amortization period.—The term "amortization period" means the 20-plan year period beginning with the first applicable plan year.

(4) Other rules.—In determining the minimum required contribution and amortization amount under this subsection—

(A) the provisions of section 302(c)(3) of such Act and section 412(c)(3) of such Code, as in effect before the date of enactment of this section, shall apply,

(B) the rate of interest under section 302(b) of such Act and section 412(b) of such Code, as so in effect, shall be used for all calculations requiring an interest rate, and

(C) the value of plan assets shall be equal to their fair market value.

(5) Special rule for certain plan spin-offs.—For purposes of subsection (a), if,

with respect to any eligible plan to which this subsection applies—

(A) any applicable plan year includes the date of the enactment of this Act,

(B) a plan was spun off from the eligible plan during the plan year but before such date of enactment,

the minimum required contribution under subsection (a)(1) for the eligible plan for such applicable plan year shall be determined as if the plans were a single plan for that plan year (based on the full 12-month plan year in effect prior to the spin-off). The employer shall designate the allocation of the minimum required contribution between such plans for the applicable plan year and direct the appropriate reallocation between the plans of any contributions for the applicable plan year.

(e) FUNDING STANDARD ACCOUNT AND PREFUNDING BALANCE.—Any charge or credit in the funding standard account under section 302 of such Act or section 412 of such Code, and any prefunding balance under section 303 of such Act or section 430 of such Code, as of the day before the first day of the first applicable plan year, shall be reduced to zero.

(f) AMENDMENTS TO OTHER PROVISIONS.—

(1) QUALIFICATION REQUIREMENT.—Section 401(a)(36) of the Internal Revenue Code of 1986, as added by section 402 of this Act, is amended by adding at the end the following: "This paragraph shall also apply to any plan during any period during which an amortization schedule under section 403 of the Pension Security and Transparency Act of 2005 is in effect."

(2) PBGC LIABILITY LIMITED.—Section 4022 of the Employee Retirement Income Security Act of 1974, as amended by this Act, is amended by adding at the end the following new subsection:

"(h) SPECIAL RULE FOR PLANS ELECTING CERTAIN FUNDING REQUIREMENTS.—During any period in which an election by a plan under section 403 of the Pension Security and Transparency Act of 2005 is in effect, then this section and section 4044(a)(3) shall be applied by treating the first day of the first applicable plan year as the termination date of the plan. This subsection shall not apply to any plan for which an election under section 403(h) of such Act is in effect.".

(3) LIMITATION ON DEDUCTIONS UNDER CERTAIN PLANS.—Section 404(a)(7)(C)(iii) of the Internal Revenue Code of 1986, as added by this Act, is amended by adding at the end the following new sentence: "This clause shall also apply to any plan for a plan year if an election under section 403 of the Pension Security and Transparency Act of 2005 is in effect for such year."

(4) NOTICE.—In the case of a plan amendment adopted in order to comply with this section, any notice required under section 204(h) of such Act or section 4980F(e) of such Code shall be provided within 15 days of the effective date of such plan amendment. This subsection shall not apply to any plan unless such plan is maintained pursuant to one or more collective bargaining agreements between employee representatives and 1 or more employers.

(g) SPECIAL RULES FOR TERMINATION OF ELIGIBLE PLANS.—During any period an election is in effect under this section with respect to an eligible plan, the Pension Benefit Guaranty Corporation shall, before it seeks or approves a termination of such plan under section 4041(c) or 4042 of the Employee Retirement Income Security Act of 1974—

(1) make a determination under section 4041(c)(4) or 4042(i) of such Act whether the termination would be necessary if the Secretary of the Treasury were to enter into an agreement under section 4047(a) of such Act which provides an alternative funding agreement to replace the amortization schedule under this section, and

(2) if the Corporation determines such an agreement would make such termination unnecessary, take all necessary actions to ensure the agreement is entered into.

The Pension Benefit Guaranty Corporation shall make the determination under paragraph (1) within 90 days of receiving all information needed in connection with a request for a termination (or if no such request is made, within 90 days of consideration of the termination by the Corporation).

(h) CERTAIN BENEFIT ACCRUALS AND INCREASES ALLOWED IF ADDITIONAL CONTRIBUTIONS MADE TO COVER COSTS.—

(1) IN GENERAL.—If an employer elects the application of this subsection—

(A) the requirements of paragraphs (2) and (3) of subsection (b) shall not apply with respect to any eligible plan maintained by the employer and specified in the election, and

(B) the minimum required contribution under subsection (d) for any plan year with respect to the plan shall be increased by the amounts described in paragraphs (2) and (3).

Any liabilities and assets taken into account under this subsection shall not be taken into account in determining the unfunded liability of the plan for purposes of subsection (d).

(2) CURRENT FUNDING OF ACCRUALS AND INCREASES.—The amount determined under this paragraph for any plan year is the target normal cost which would occur under section 303(b) of such Act and 430(b) of such Code if—

(A) any benefit accrual, or benefit increase taking effect, during the plan year by reason of this subsection were treated as having been accrued or earned during the plan year, and

(B) the plan were treated as if it were in at-risk status.

(3) FUNDING MUST BE MAINTAINED.—The amount determined under this paragraph for any plan year is the amount of any increase in the shortfall amortization charge which would occur under section 303(c) of such Act and 430(c) of such Code if—

(A) the funding target were determined by only taking into account benefits to which paragraph (2) applied for preceding plan years,

(B) the only assets taken into account were the contributions required under this paragraph and paragraph (2) for preceding plan years (and any earnings thereon),

(C) the amortization period included only the plan year,

(D) the transition rule under section 303(c)(4)(B) of such Act and section 430(c)(4)(B) of such Code did not apply, and

(E) the plan were treated as if it were in at-risk status.

(4) SPECIAL RULES FOR YEARS BEFORE 2007.—Notwithstanding any other provision of this Act, in the case of an applicable plan year of an eligible plan to which this subsection applies which begins before January 1, 2007, in determining the amounts described in paragraphs (2) and (3) for such plan year—

(A) the provisions of, and amendments made by, sections 101, 102, 111, and 112 shall apply to such plan year, except that

(B) the interest rate used under section 303 of such Act and section 430 of such Code for purposes of applying paragraphs (2) and (3) to such plan year shall be the interest rate determined under section 302(b)(5) of such Act and section 412(b)(5) of such Code, as in effect for plan years beginning in 2005.

(5) ELECTION OUT OF SECTION.—An employer maintaining an eligible plan to which this subsection applies may make a one-time election with respect to any applicable plan year not to have this section apply to such plan year and all subsequent plan years. Subject to subsection (d)(2), the minimum required contribution under section 303 of such Act and 430 of such Code for all such plan years shall be determined without regard to this section.

(i) EXCLUSION OF CERTAIN EMPLOYEES FROM MINIMUM COVERAGE REQUIREMENTS.—

(1) IN GENERAL.—Section 410(b)(3) of such Code is amended by striking the last sentence and inserting the following: "For purposes of subparagraph (B), management pilots who are not represented in accordance with title II of the Railway Labor Act shall be treated as covered by a collective bargaining agreement described in such subparagraph if the management pilots manage the flight operations of air pilots who are so represented and the management pilots are, pursuant to the terms of the agreement, included in the group of employees benefitting under the trust described in such subparagraph. Subparagraph (B) shall not apply in the case of a plan which provides contributions or benefits for employees whose principal duties are not customarily performed aboard an aircraft in flight (other than management pilots described in the preceding sentence)."

(2) EFFECTIVE DATE.—The amendment made by this subsection shall apply to years beginning before, on, or after the date of the enactment of this Act.

(j) EFFECTIVE DATE.—Except as otherwise provided in this section, the amendments made by this section shall apply to plan years ending after the date of the enactment of this Act.

Strike title VII of the bill and insert the the following:

TITLE VII—TREATMENT OF CASH BALANCE AND OTHER HYBRID DEFINED BENEFIT PENSION PLANS

SEC. 701. PROSPECTIVE APPLICATION OF AGE DISCRIMINATION, CONVERSION, AND PRESENT VALUE ASSUMPTION RULES.

(a) APPLICATION OF AGE DISCRIMINATION PROHIBITIONS.—

(1) AMENDMENT OF ERISA.—Section 204(b) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054(b)) is amended by adding at the end the following:

"(5) SPECIAL RULES FOR CASH BALANCE AND OTHER HYBRID DEFINED BENEFIT PLANS.—

"(A) IN GENERAL.—A qualified cash balance plan shall not be treated as violating the requirements of paragraph (1)(H) merely because it may reasonably be expected that the period over which interest credits will be made to a participant's accumulation account (or its equivalent) is longer for a younger participant. This paragraph shall not apply to any plan if the rate of any pay credit or interest credit to such an account under the plan decreases by reason of the participant's attainment of any age.

"(B) QUALIFIED CASH BALANCE PLAN.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'qualified cash balance plan' means a cash balance plan which meets the vesting requirement under clause (ii) and the interest credit requirement under clause (iii).

"(ii) VESTING REQUIREMENTS.—A plan meets the requirements of this clause if an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions.

"(iii) INTEREST CREDITS.—A plan meets the requirements of this clause if the terms of the plan provide that any interest credit (or equivalent amount) for any plan year shall be at a rate which—

"(I) is not less than the applicable Federal mid-term interest rate (as determined under section 1274(d)(1) of the Internal Revenue Code of 1986), and

"(II) is not greater than the greater of the rate determined under subclause (I) or a rate equal to the rate of interest on amounts invested conservatively in long-term investment grade corporate bonds.

"(iv) DETERMINATION OF RATES.—For purposes of clause (iii)(II), the rate of interest on amounts invested conservatively in long-term investment grade corporate bonds shall be determined by the Secretary of the Treasury on the basis of 2 or more indices that are selected periodically by the Secretary of the Treasury. The Secretary of the Treasury shall make publicly available the indices and methodology used to determine the rate.

"(v) VARIABLE RATE OF INTEREST.—If the interest credit rate under the plan is a variable rate, the plan shall provide that, upon the termination of the plan, the rate of interest used to determine accrued benefits under the plan shall be equal to the average of the rates of interest used under the plan during the 5-year period ending on the termination date.

"(C) CASH BALANCE PLAN.—For purposes of this paragraph, the term 'cash balance plan' means a defined benefit plan under which—

"(i) the accrued benefit is determined by reference to the balance of a hypothetical accumulation account, and

"(ii) pay credits and interest credits are credited to such account.

"(D) REGULATIONS TO INCLUDE SIMILAR OR OTHER HYBRID PLANS.—

"(i) CASH BALANCE PLAN.—The Secretary of the Treasury shall issue regulations which include in the definition of cash balance plan any defined benefit plan (or any portion of such a plan) which has an effect similar to a cash balance plan. Such regulations may provide that if a plan sponsor represents in communications to participants and beneficiaries that a plan amendment results in a plan being described in the preceding sentence, such plan shall be treated as a cash balance plan.

"(ii) QUALIFIED CASH BALANCE PLAN.—The Secretary of the Treasury may in the regulations issued under clause (i) provide for the treatment of a cash balance plan as a qualified cash balance plan in cases where the cash balance plan has an effect similar to the qualified cash balance plan.".

(2) AGE DISCRIMINATION IN EMPLOYMENT ACT.—Section 4(i)(2) of the Age Discrimination of Employment Act of 1967 (29 U.S.C. 623(i)(2)) is amended—

(A) by inserting "(A)" after "(2)", and

(B) by adding at the end the following new subparagraph:

"(B) A defined benefit plan which is treated as a qualified cash balance plan for purposes of section 204(b)(5) of the Employee Retirement Income Security Act of 1974 shall not be treated as violating the requirements of paragraph (1)(A) merely because it may reasonably be expected that the period over which interest credits will be made under the plan to a participant's accumulation account (or its equivalent) is longer for a younger participant. This subparagraph shall not apply to any plan if the rate of any pay credit or interest credit to such an account under the plan decreases by reason of the participant's attainment of any age.".

(3) AMENDMENT OF INTERNAL REVENUE CODE.—Section 411(b) of the Internal Revenue Code of 1986 (relating to accrued benefit requirements) is amended by adding at the end the following:

"(5) SPECIAL RULES FOR CASH BALANCE AND OTHER HYBRID DEFINED BENEFIT PLANS.—

"(A) IN GENERAL.—A qualified cash balance plan shall not be treated as violating the requirements of paragraph (1)(H) merely because it may reasonably be expected that the period over which interest credits will be made to a participant's accumulation account (or its equivalent) is longer for a younger participant. This paragraph shall not apply to any plan if the rate of any pay credit or interest credit to such an account under the plan decreases by reason of the participant's attainment of any age.

"(B) QUALIFIED CASH BALANCE PLAN.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'qualified cash balance plan' means a cash balance plan which meets the vesting requirement under clause (ii) and the interest credit requirement under clause (iii).

"(ii) VESTING REQUIREMENTS.—A plan meets the requirements of this clause if an employee who has completed at least 3 years of service has a nonforfeitable right to 100 percent of the employee's accrued benefit derived from employer contributions.

"(iii) INTEREST CREDITS.—A plan meets the requirements of this clause if the terms of the plan provide that any interest credit (or equivalent amount) for any plan year shall be at a rate which—

"(I) is not less than the applicable Federal mid-term interest rate (as determined under section 1274(d)(1)), and

"(II) is not greater than the greater of the rate determined under subclause (I) or a rate equal to the rate of interest on amounts invested conservatively in long-term investment grade corporate bonds.

"(iv) DETERMINATION OF RATES.—For purposes of clause (iii)(II), the rate of interest on amounts invested conservatively in long-term investment grade corporate bonds shall be determined by the Secretary on the basis of 2 or more indices that are selected periodically by the Secretary. The Secretary shall make publicly available the indices and methodology used to determine the rate.

"(v) VARIABLE RATE OF INTEREST.—If the interest credit rate under the plan is a variable rate, the plan shall provide that, upon the termination of the plan, the rate of interest used to determine accrued benefits under the plan shall be equal to the average of the rates of interest used under the plan during the 5-year period ending on the termination date.

"(C) CASH BALANCE PLAN.—For purposes of this paragraph, the term 'cash balance plan' means a defined benefit plan under which—

"(i) the accrued benefit is determined by reference to the balance of a hypothetical accumulation account, and

"(ii) pay credits and interest credits are credited to such account.

"(D) REGULATIONS TO INCLUDE SIMILAR OR OTHER HYBRID PLANS.—

"(i) CASH BALANCE PLAN.—The Secretary shall issue regulations which include in the definition of cash balance plan any defined benefit plan (or any portion of such a plan) which has an effect similar to a cash balance plan. Such regulations may provide that if a plan sponsor represents in communications to participants and beneficiaries that a plan amendment results in a plan being described in the preceding sentence, such plan shall be treated as a cash balance plan.

"(ii) QUALIFIED CASH BALANCE PLAN.—The Secretary may in the regulations issued under clause (i) provide for the treatment of a cash balance plan as a qualified cash balance plan in cases where the cash balance plan has an effect similar to the qualified cash balance plan.".

(b) RULES APPLICABLE TO ACCRUED BENEFITS UNDER CONVERTED PLANS.—

(1) AMENDMENT OF ERISA.—Section 204(g) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054(g)) is amended by adding at the end the following new paragraph:

"(6) TREATMENT OF CONVERSIONS TO CASH BALANCE OR OTHER HYBRID PLANS.—

"(A) IN GENERAL.—For purposes of this subsection, an applicable plan amendment shall be treated as reducing the accrued benefit of a participant if, under the terms of the plan as in effect after the amendment, the accrued benefit of any participant who was a participant as of the effective date of the amendment may at any time be less than the accrued benefit determined under the method under subparagraph (B), (C), or (D) which is specified in the plan and applies uniformly to all participants. An applicable plan amendment shall in no event be treated as meeting the requirements of any such subparagraph if the conversion described in subparagraph (G)(i) is into a cash balance plan other than a qualified cash balance plan (as defined in subsection (b)(5)(B)).

"(B) NO WEARAWAY.—

"(i) IN GENERAL.—The accrued benefit determined under this subparagraph is the sum of—

"(I) the participant's accrued benefit for years of service before the effective date of the amendment, determined under the terms of the plan as in effect before the amendment, plus

"(II) except as provided in clause (ii), the participant's accrued benefit for years of service after the effective date of the amendment, determined under the terms of the plan as in effect after the amendment.

"(ii) REQUIRED AMOUNTS FOR CERTAIN PERIODS.—Notwithstanding clause (i)(II), the plan shall provide that either—

"(I) the accrued benefit of all participants for each of the first 5 plan years to which the amendment applies shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment, or

"(II) the accrued benefit for periods after the effective date of the amendment of all participants who, as of the effective date of the amendment, had attained the age of 40 and had a combined age and years of service under the plan of not less than 55 shall be determined under either of the methods described in clause (iii) which is selected by the plan and which is specified in the amendment.

"(iii) APPLICABLE METHOD.—For purposes of clause (ii)(II), the plan shall select 1 of the following methods:

"(I) The accrued benefit shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment.

"(II) At the election of the participant, the accrued benefit shall be determined under the terms of the plan as in effect either before or after the amendment.

"(C) GREATER OF OLD OR NEW OR ELECTION OF EITHER.—The accrued benefit determined under this subparagraph is the accrued benefit determined under 1 of the following methods which is selected by the plan and which is specified in the amendment:

"(i) The accrued benefit shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment.

"(ii) At the election of the participant, the accrued benefit shall be determined under the terms of the plan as in effect either before or after the amendment.

"(D) METHOD PRESCRIBED BY SECRETARY.—The accrued benefit determined under this subparagraph shall be determined under regulations prescribed by the Secretary which are consistent with the purposes of this paragraph and which may require a plan to provide a credit of additional amounts or increases in initial account balances in amounts substantially equivalent to the benefits that would be required to be provided to meet the requirements of subparagraphs (B) or (C).

"(E) INCLUSION OF PRIOR ACCRUED BENEFIT INTO INITIAL ACCOUNT BALANCE.—

"(i) IN GENERAL.—If, for purposes of subparagraphs (B), (C), or (D), an applicable plan amendment provides that an amount will be initially credited to a participant's accumulation account (or its equivalent) on the effective date of the amendment with respect to the participant's accrued benefit for periods before such date, the requirements of such subparagraph shall be treated as met with respect to such accrued benefit if the amount initially credited is not less than the present value of the participant's accrued benefit determined by using the applicable mortality table and the lower of the applicable interest rate under section 205(g)(3)(A), or the interest rate used to credit interest under the plan, as of such date.

"(ii) ADJUSTMENTS FOR CERTAIN SUBSIDIZED BENEFITS.—For purposes of subparagraph (B), if any early retirement benefit or retirement-type subsidy (within the meaning of paragraph (6)(B)(i)) is not included in the initial account balance under clause (i), the plan shall credit the accumulation account with the amount of such benefit or subsidy for the plan year in which the participant retires if, as of such time, the participant has met the age, years of service, and other requirements under the plan for entitlement to such benefit or subsidy.

"(F) REQUIREMENTS WHERE PARTICIPANT OFFERED CHOICE.—If a plan provides a participant with an election described in subparagraph (B)(iii)(II) or (C)(ii), the following rules shall apply:

"(i) NOTICE.—The plan shall not be treated as meeting the requirements of either such subparagraph unless the plan provides the participant a notice of the right to make such election which includes information (meeting such requirements as may be prescribed by the Secretary of the Treasury)—

"(I) by which the participant may project benefits under the formulas from which the participant may choose and may model the impact of any such choice, and

"(II) with respect to circumstances under which a participant may not receive the projected accrued benefits by reason of a plan termination or otherwise.

"(ii) SIGNIFICANT REDUCTION OF RATE OF ACCRUAL.—The plan shall provide that if, during any of the first 5 plan years during which such an election is in effect, the plan adopts an amendment which results in a significant reduction in the rate of future benefit accrual (within the meaning of section 204(h)), the accrued benefit of the participant shall be determined as if the participant had made the election which resulted in the greatest accrued benefit.

"(iii) BENEFITS MUST NOT BE CONTINGENT ON ELECTION.—The plan shall not be treated as meeting the requirements of either such subparagraph if any other benefit is conditioned (directly or indirectly) on such election.

"(G) APPLICABLE PLAN AMENDMENT.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'applicable plan amendment' means an amendment to a defined benefit plan which has the effect of converting the plan to a cash balance plan.

"(ii) SPECIAL RULE FOR COORDINATED BENEFITS.—If the benefits of 2 or more defined benefit plans established or maintained by an employer are coordinated in such a manner as to have the effect of the adoption of an amendment described in clause (i), the sponsor of the defined benefit plan or plans providing for such coordination shall be treated as having adopted such a plan amendment as of the date such coordination begins.

"(iii) MULTIPLE AMENDMENTS.—The Secretary of the Treasury shall issue regulations to prevent the avoidance of the purposes of this paragraph through the use of 2 or more plan amendments rather than a single amendment.

"(iv) CASH BALANCE PLAN.—For purposes of this paragraph, the term 'cash balance plan' has the meaning given such term by subsection (b)(5)(C).

"(v) COORDINATION WITH ACCRUAL RULES.—If a plan amendment is treated as meeting the requirements of this paragraph with respect to any participant because such participant is eligible to continue to accrue benefits in the same manner as under the terms of the plan in effect before the amendment, the Secretary of the Treasury shall prescribe regulations under which the plan shall not be treated as failing to meet the requirements of subparagraph (A), (B), or (C) of section 204(b)(1) if the requirements of this paragraph are met.

"(H) APPLICATION OF CERTAIN RULES TO EARLY-RETIREMENT BENEFITS.—Rules similar to the rules of clauses (i), (ii), and (iii) of subparagraph (B) and subparagraph (C) shall apply in the case of any early retirement benefit or retirement-type subsidy (within the meaning of section 204(g)(2)(A)).".

(2) AMENDMENT OF INTERNAL REVENUE CODE.—Section 411(d) of the Internal Revenue Code of 1986 (relating to special rules) is amended by adding at the end the following new paragraph:

"(7) TREATMENT OF CONVERSIONS TO CASH BALANCE OR OTHER HYBRID PLANS.—

"(A) IN GENERAL.—For purposes of paragraph (6), an applicable plan amendment shall be treated as reducing the accrued benefit of a participant if, under the terms of the plan as in effect after the amendment, the accrued benefit of any participant who was a participant as of the effective date of the amendment may at any time be less than the accrued benefit determined under the method under subparagraph (B), (C), or (D) which is specified in the plan and applies uniformly to all participants. An applicable plan amendment shall in no event be treated as meeting the requirements of any such subparagraph if the conversion described in subparagraph (G)(i) is into a cash balance plan other than a qualified cash balance plan (as defined in subsection (b)(5)(B)).

"(B) NO WEARAWAY.—

"(i) IN GENERAL.—The accrued benefit determined under this subparagraph is the sum of—

"(I) the participant's accrued benefit for years of service before the effective date of the amendment, determined under the terms of the plan as in effect before the amendment, plus

"(II) except as provided in clause (ii), the participant's accrued benefit for years of service after the effective date of the amendment, determined under the terms of the plan as in effect after the amendment.

A similar rule shall apply in the case of any early retirement benefit or retirement-type subsidy (within the meaning of section 411(d)(6)(B)(i)).

"(ii) REQUIRED AMOUNTS FOR CERTAIN PERIODS.—Notwithstanding clause (i)(II), the plan shall provide that either—

"(I) the accrued benefit of all participants for each of the first 5 plan years to which the amendment applies shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment, or

"(II) the accrued benefit for periods after the effective date of the amendment of all participants who, as of the effective date of the amendment, had attained the age of 40 and had a combined age and years of service under the plan of not less than 55 shall be determined under either of the methods described in clause (iii) which is selected by the plan and which is specified in the amendment.

"(iii) APPLICABLE METHOD.—For purposes of clause (ii)(II), the plan shall select 1 of the following methods:

"(I) The accrued benefit shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment.

"(II) At the election of the participant, the accrued benefit shall be determined under the terms of the plan as in effect either before or after the amendment.

"(C) GREATER OF OLD OR NEW OR ELECTION OF EITHER.—The accrued benefit determined under this subparagraph is the accrued benefit determined under 1 of the following methods which is selected by the plan and which is specified in the amendment:

"(i) The accrued benefit shall be equal to the greater of the accrued benefit determined under the terms of the plan as in effect both before and after the amendment.

"(ii) At the election of the participant, the accrued benefit shall be determined under the terms of the plan as in effect either before or after the amendment.

"(D) METHOD PRESCRIBED BY SECRETARY.—The accrued benefit determined under this subparagraph shall be determined under regulations prescribed by the Secretary which are consistent with the purposes of this paragraph and which may require a plan to provide a credit of additional amounts or increases in initial account balances in amounts substantially equivalent to the benefits that would be required to be provided to meet the requirements of subparagraphs (B) or (C).

"(E) INCLUSION OF PRIOR ACCRUED BENEFIT INTO INITIAL ACCOUNT BALANCE.—

"(i) IN GENERAL.—If, for purposes of subparagraphs (B), (C), or (D), an applicable plan amendment provides that an amount will be initially credited to a participant's accumulation account (or its equivalent) on the effective date of the amendment with respect to the participant's accrued benefit for periods before such date, the requirements of such subparagraph shall be treated as met with respect to such accrued benefit if the amount initially credited is not less than the present value of the participant's accrued benefit determined by using the applicable mortality table and the lower of the applicable interest rate under section 417(e)(3)(A), or the interest rate used to credit interest under the plan, as of such date.

"(ii) ADJUSTMENTS FOR CERTAIN SUBSIDIZED BENEFITS.—For purposes of subparagraph (B), if any early retirement benefit or retirement-type subsidy (within the meaning of paragraph (6)(B)(i)) is not included in the initial account balance under clause (i), the plan shall credit the accumulation account with the amount of such benefit or subsidy for the plan year in which the participant retires if, as of such time, the participant has met the age, years of service, and other requirements under the plan for entitlement to such benefit or subsidy.

"(F) REQUIREMENTS WHERE PARTICIPANT OFFERED CHOICE.—If a plan provides a participant with an election described in subparagraph (B)(iii)(II) or (C)(ii), the following rules shall apply:

"(i) NOTICE.—The plan shall not be treated as meeting the requirements of either such subparagraph unless the plan provides the participant a notice of the right to make such election which includes information (meeting such requirements as may be prescribed by the Secretary)—

"(I) by which the participant may project benefits under the formulas from which the participant may choose and may model the impact of any such choice, and

"(II) with respect to circumstances under which a participant may not receive the projected accrued benefits by reason of a plan termination or otherwise.

"(ii) SIGNIFICANT REDUCTION OF RATE OF ACCRUAL.—The plan shall provide that if, during any of the first 5 plan years during which such an election is in effect, the plan adopts an amendment which results in a significant reduction in the rate of future benefit accrual (within the meaning of section 4980F(e)), the accrued benefit of the participant shall be determined as if the participant had made the election which resulted in the greatest accrued benefit.

"(iii) BENEFITS MUST NOT BE CONTINGENT ON ELECTION.—The plan shall not be treated as meeting the requirements of either such subparagraph if any other benefit is conditioned (directly or indirectly) on such election.

"(G) APPLICABLE PLAN AMENDMENT.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'applicable plan amendment' means an amendment to a defined benefit plan which has the effect of converting the plan to a cash balance plan.

"(ii) SPECIAL RULE FOR COORDINATED BENEFITS.—If the benefits of 2 or more defined benefit plans established or maintained by an employer are coordinated in such a manner as to have the effect of the adoption of an amendment described in clause (i), the sponsor of the defined benefit plan or plans providing for such coordination shall be treated as having adopted such a plan amendment as of the date such coordination begins.

"(iii) MULTIPLE AMENDMENTS.—The Secretary shall issue regulations to prevent the avoidance of the purposes of this paragraph through the use of 2 or more plan amendments rather than a single amendment.

"(iv) CASH BALANCE PLAN.—For purposes of this paragraph, the term 'cash balance plan' has the meaning given such term by subsection (b)(5)(C).

"(v) COORDINATION WITH ACCRUAL AND NONDISCRIMINATION RULES.—If a plan amendment is treated as meeting the requirements of this paragraph with respect to any participant because such participant is eligible to continue to accrue benefits in the same manner as under the terms of the plan in effect before the amendment, the Secretary shall prescribe regulations under which—

"(I) the plan shall not be treated as failing to meet the requirements of subparagraph (A), (B), or (C) of section 411(b)(1) if the requirements of this paragraph are met, and

"(II) the plan shall, subject to such terms and conditions as may be provided in such regulations, not be treated as failing to meet the requirements of section 401(a)(4) merely because the plan provides any accrual or benefit which is required to be provided under subparagraph (B), (C), or (D) or because only participants as of the effective date of the amendment are so eligible, except that this subclause shall only apply if the plan met the requirements of section 401(a)(4) under the terms of the plan as in effect before the amendment.

"(H) APPLICATION OF CERTAIN RULES TO EARLY-RETIREMENT BENEFITS.—Rules similar to the rules of clauses (i), (ii), and (iii) of subparagraph (B) and subparagraph (C) shall apply in the case of any early retirement benefit or retirement-type subsidy (within the meaning of section 411(d)(6)(B)(i)).".

(c) ASSUMPTIONS USED IN COMPUTING PRESENT VALUE OF ACCRUED BENEFIT.—

(1) AMENDMENT OF ERISA.—Section 205(g)(3) of such Act (29 U.S.C. 1055(g)(3)), is amended—

(A) by striking "or (B)" in subparagraph (A)(i) and inserting ", (B), or (C)", and

(B) by adding at the end the following new subparagraph:

"(C) PRESENT VALUE OF ACCRUED BENEFIT UNDER CASH BALANCE PLAN.—Except as provided in regulations, in the case of a qualified cash balance plan (as defined in section 204(g)(6)(B)), the present value of the accrued benefit of any participant shall, for purposes of paragraphs (1) and (2), be equal to the balance in the participant's accumulation account (or its equivalent) as of the time the present value determination is being made.".

(2) AMENDMENT OF INTERNAL REVENUE CODE.—Section 417(e)(3) of such Code, is amended—

(A) by striking "or (B)" in subparagraph (A)(i) and inserting ", (B), or (C)", and

(B) by adding at the end the following new subparagraph:

"(C) PRESENT VALUE OF ACCRUED BENEFIT UNDER CASH BALANCE PLAN.—Except as provided in regulations, in the case of a qualified cash balance plan (as defined in section 411(d)(7)(B)), the present value of the accrued benefit of any participant shall, for purposes of paragraphs (1) and (2), be equal to the balance in the participant's accumulation account (or its equivalent) as of the time the present value determination is being made."

(d) NO INFERENCE.—Nothing in the amendments made by this section shall be construed to infer the proper treatment of cash balance plans or conversions to cash balance plans under sections 204(b)(1)(H) of the Employee Retirement Income Security Act of 1974, 4(i)(1) of the Age Discrimination in Employment Act of 1967, and 411(b)(1)(H) of the Internal Revenue Code of 1986, as in effect before such amendments.

Mr. GEORGE MILLER of California (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. THOMAS. Mr. Speaker, reserving the right to object, I know some people complained about having only a number of hours to read the bill, but this was just handed to me, and I am tempted to say that perhaps 30 seconds ought to be allowed, because it could have been handed anytime during the debate. But I know you were very busy over there, so you were only able to get it to us at the close of debate. We appreciate that.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. GEORGE MILLER of California. Mr. Speaker, this motion does two things. First, it sends the pension bill back to committee to include all of the airline protection provisions that were included in the Senate-passed pension bill. Second, it seeks to send back to the committee to add the Senate-passed provisions providing for the transition protections for older workers affected by cash balance conversions.

Both of these are critical to protecting America's workers' pensions and their retirement security. All across America, employees are worried sick about their retirement nest egg. They have seen big airlines like U.S. Air and United cut and run on their obligations to pay promised benefits and are wondering if they are next.

The House bill protects Delta and Northwest and enables them to extend their pension payments over 17 years at the plan's interest rate. However, the bill only provides American and Continental a 10-year payment and at a much lower interest rate, making their pension payments much higher. We would extend the same period of time, work-out time, for the airlines if they chose to provide for the freezing of their plans.

The bill does nothing for airline pilots who are forced to retire at age 60 and who received PBGC pensions reduced by 35 percent because of their age. All airlines were hurt by 9/11 and the skyrocketing fuel prices and the downturn in the economy.

It would be devastating to hundreds of thousands of workers across the Nation if more airlines were permitted to dump their plans into the PBGC. When this happens, the big losers are the employees. Look at what happened to the pilots at United, for example. They had vested pension benefits cut in half. The average pilot lost $1,270 a month. That is why we offer these protections.

Finally, the motion would report back this pension bill to provide for the protection of older workers who are facing conversions in cash balance plans. This means the older workers who the companies are now putting on notice that they will lower their benefits will now get a substitute plan called a cash balance plan.

Despite overwhelming votes in support of protecting older workers' pensions in the House and Senate, Republican leadership has excluded these vital transition protections. Many workers will lose hundreds of dollars a month in expected retirement benefits. Many of these workers will be in excess of 50 years of age, and it is highly unlikely they will be able to recover the retirement benefits that they have been counting on for many years, that they signed a contract for in exchange for their labor with their employers.

Today, the Congress is getting ready to tell them they are not going to make the employers live up to their agreements, and we are not going to even provide a transition to soften the economic blow when those agreements are changed.

Here is what AARP CEO William Novelli said about the backroom Republican deal for older workers: "AARP cannot support legislation that would undermine the age discrimination laws and prevent the reduction of pension benefits for older workers, thus discouraging older workers from continuing to participate in the workforce," unless they get a second job to make up for the loss of their retirement, of course. "Our members and older workers in general care a great detail about these issues." That is why we brought this motion to recommit.

Again, time and again the House and Senate have voted to provide these protections for older workers. We would have carried that message to the conference committee, but we were not allowed into those discussions and apparently the conference committee couldn't hear the Members of this House on the bipartisan basis that voted overwhelmingly to provide these protections, both to the airlines and to the older workers.

Mr. Speaker, I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. THOMAS. Mr. Speaker, I have in high regard those Members who focus on issues which they are concerned about in the pension bill, and I know that there are a number of sections that people could focus on in terms of their concern about the bill. And I know it is absolutely, totally a coincidence that one Member on this side of the aisle spoke against the bill.

Yet, as I am going through this particular motion to recommit, page after page after page refers to, you got it, the airline provisions. So I am quite sure on the basis of wanting to go through a 1,000-page bill to create a motion to recommit, that the fact that the one area that appears to be a bit sensitive on this side of the aisle is what the motion to recommit is all about.

I guess in that regard I hold in minimum high regard, on something as important as this legislation, to get it on the books as quickly as we can, that this motion to recommit is focused in a way, in my opinion, to advance political interests rather than policy interests.

I guess I am just a little bit bewildered when the gentleman from Ohio, the majority leader, handed me a letter, because as a conferee I received a letter that said we want you in the areas of key concern to be supportive of what we do in this pension bill.

There were two signatures on that letter. One was the majority leader, the gentleman from Ohio. The other one was the senior Senator from Massachusetts, Senator KENNEDY, urging us to make sure key provisions in the pension bill are preserved, because we want to preserve those, and not the whole bill, or in fact send the Senate the whole bill because Senator KENNEDY will be supportive of this bill once it is received in the Senate.

The idea that members of the conference don't know what is in it and aren't supportive is absolutely and totally refuted by the signature of the senior Senator from Massachusetts, Senator KENNEDY.

Mr. Speaker, I yield to the majority leader, the gentleman from Ohio (Mr. BOEHNER).

Mr. BOEHNER. Mr. Speaker, let me thank my colleague for yielding.

There is a very delicate balance in this bill. My colleague from California talked about the airline provisions. I am going to talk about one of the most important provisions in this bill, and that is the protection for hybrid plans, or cash balance pension plans.

This was a very difficult issue in the House; it was a very difficult issue in the conference. It has been worked out in a bipartisan way to the satisfaction of those on the farthest on the left in the Senate and the farthest on the right in the House. And to rewrite this provision in a motion to recommit I think is irresponsible.

I would say to my colleagues who have worked on this bipartisan pension bill for a long time, the balance of this bill is right. Let's support the underlying bill and reject the motion to recommit.

Mrs. JACKSON-LEE of Texas. Mr. Speaker, I rise in support of the Miller/Rangel Motion to Recommit with Instructions to Conferees on H.R. 4, the "Pension Protection Act of 2005." I support the Miller/Rangel motion for several reasons. Specifically, I agree that conferees should be instructed to agree to the Senate provisions: (1) protecting older workers' benefits in cash balance conversions; (2) ensuring that airline pilots do not see unfair cuts to their PBGC benefits because of the FAA's mandatory retirement rules and agree to the Senate provisions on airlines; (3) designed to prevent pension plan dumping; (4) on executive compensation and work to treat worker and executive pensions equally.

AGREE TO THE SENATE PROVISIONS PROTECTING OLDER WORKERS' BENEFITS IN CASH BALANCE CONVERSIONS

These provisions prohibit discrimination against older workers by the practice of offsetting previously earned pension benefits against new benefits under the plan, also known as "wearaway" of older worker benefits. They also provide fair rules to protect workers' pensions in conversions of traditional pension plans to cash balance pension plans. In a recent study, the GAG found that, without these transition protections, almost all workers could lose up to 50 percent of their expected pension benefits in a cash balance conversion.

AGREE TO THE SENATE PROVISIONS THAT ENSURE THAT AIRLINE PILOTS DO NOT SEE UNFAIR CUTS TO THEIR PBGC BENEFITS BECAUSE OF THE FAA'S MANDATORY RETIREMENT RULES

Under FAA rules, airline pilots are required to retire at age 60, and if they retire earlier than age 60, they cannot go back to work once they hit age 60. When a pilot pension plan is terminated and sent to the PBGC, the PBGC considers age 65 to be the normal retirement age, treats age 60 as an early retirement, and cuts pilots guaranteed benefits as a result. These provisions would require the PBGC to treat age 60 as the normal retirement age for pilots and adjust their guaranteed benefits accordingly. The motion would limit this treatment to those pension plans which were terminated after September 11, 2001. It could come no sooner. United Airlines pilots are seeing their pensions cut by tens of thousands of dollars each year under the PBGC rules. Their retirement nest eggs have been decimated. They are hit twice—once by the company's unfair dumping and again by the PBGC's benefit reductions.

AGREE TO THE SENATE PROVISIONS ON AIRLINES

The airlines have been hurt by skyrocketing fuel prices and 9/11. It would be devastating to hundreds of thousands of workers across the nation if more airlines are permitted to dump their plans into the PBGC. These provisions give airlines the ability to keep their plans going by stretching out payments over 20 years instead of 7 years.

AGREE TO THE SENATE PROVISIONS DESIGNED TO PREVENT PENSION PLAN DUMPING

These provisions allow the PBGC and Treasury Secretary to enter into an alternative funding agreement with an employer if its pension plan is in danger of being terminated. If workers and retirees are facing the destruction of their pension plans, Congress should give the PBGC and Treasury Departments the flexibility to work out alternatives to termination. If such alternatives to simply dumping a plan were available during the United Airlines crisis, the largest pension termination in history might have been averted.

AGREE TO THE SENATE PROVISIONS ON EXECUTIVE COMPENSATION AND WORK TO TREAT WORKER AND EXECUTIVE PENSIONS EQUALLY

Under the House bill, workers see benefit restrictions when a pension plan falls below 80 percent funding. Executives, on the other hand, only see limited benefit restrictions much later—at less than 60 percent funding. The Senate bill achieves greater parity than the House bill in how workers and executives are treated. Over the last several years, we have seen repeated cases where executives have protected or even enhanced their own golden parachutes, while cutting or eliminating workers' pensions. It is time for these unfair practices to end. If it is good enough for the sailor, it is good enough for the captain.

CONCLUSION

For these reasons, I support the Motion to Recommit with Instructions on H.R. 4 and urge my colleagues to support it also.

Mr. THOMAS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. GEORGE MILLER of California. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on passage of H.R. 4, if ordered, and suspending the rules on H. Res. 844.

The vote was taken by electronic device, and there were—yeas 189, nays 222, not voting 22, as follows:

"(D) Controlled group.—For purposes of this subsection, the term 'controlled group of corporations' has the meaning given such term by section 52(a).

"(3) Requirements.—A payment meets the requirements of this paragraph if—

Security may be provided under this paragraph without regard to whether a payment was made under section 9704(j).

The SPEAKER pro tempore. Pursuant to House Resolution 966, the gentleman from California (Mr. THOMAS) and the gentleman from New York (Mr. RANGEL) each will control 30 minutes.

The Chair recognizes the gentleman from California.

Mr. THOMAS. Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I ask unanimous consent to yield 15 minutes my time to the gentleman from California (Mr. GEORGE MILLER) for him to control.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield to the gentleman from Ohio (Mr. KUCINICH) for the purpose of a unanimous consent request.

Mr. KUCINICH. Mr. Speaker, I rise in opposition to the bill.

I will quote from the Good Book, not the Internal Revenue Code, but the Bible, Mr. Speaker. Isaiah 10th Chapter, First and Second verse: "Woe to those who make unjust laws, to those who issue oppressive decrees, to deprive the poor of their rights and withhold justice from the oppressed of my people. . . ."

Tonight we debate an unjust law which steals from the poor to give to the rich. It is unjust to attach a minimum wage increase to tax cuts for the rich. It would cost about $26 billion a year to give a $2.10 increase in the minimum wage to the least wealthy workers. The estate tax cut could give about $80 billion per year for 10 years to 3 families out of every 1,000.

Some call it a death tax, cut this poison pill will be the death of the minimum wage increase for millions of working Americans.

It is unjust that here, in the richest country on earth, there is no guarantee that a full-time job will lift a family out of a situation of dire poverty. That's because full-time year-round minimum wage earnings at $5.15 an hour leave a family of three $5,000 below the poverty line.

Since 1997, the last minimum wage increase, the cost of living has increased for all Americans. The cost of putting food on the table, of keeping a roof over your head, the cost of gas—all going up, up, up. The only thing that hasn't increased is the minimum wage. Congress's response: Give a tax cut to the wealthiest Americans. This is a perfect example of single-minded economic policy—surpluses: tax cuts to the wealthy; deficits: tax cuts to the wealthy; war: tax cuts to the wealthy; high gas prices: tax cuts to the wealthy. A much needed increase in the minimum wage to the humblest of workers: tax cuts to the wealthy.

"Woe to those who make unjust laws" said Isaiah.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2½ minutes to the gentleman from Maryland (Mr. HOYER).

☐ 2345

Mr. HOYER. I thank the gentleman for yielding, and I rise in opposition to this bill and to lament the fact that we did not do what 250 Members of this House want to do.

Mr. Speaker, 250 Members of this House have indicated they want to see a raise in the minimum wage, that they want to see it now, and they want to see it in a simple straightforward bill to say to those working at the lowest rungs in America, doing what we expect them to do, working day to day, week to week, month to month, year to year to support themselves, their family, and contribute to the welfare of our country. We expect them to work; we ought to pay them. We ought to pay them a wage that does not leave them in poverty.

We could do that, because 250 of us would vote for such a bill. But, unfortunately, once again, we are playing a game. This bill was referred to as an Estate Tax Bill, not a minimum-wage bill. Minimum wage is included in the Estate Tax Bill. But that is the reason you put this bill on the floor, to pass a bill you have already passed but can't pass the Senate, or at least has not passed the Senate.

Therefore, attaching the minimum wage, which 48 of your Republican colleagues say they want to be for, is to design a process for failure. Not a failure for us, none of us work for the minimum wage; but a failure for 6.6 million people and, indeed, some 12 million more people who rely on help from those earning the minimum wage to support themselves and their families.

How sad. How sad that a 250-Member majority of the House of Representatives cannot summon the will or the courage or the good sense to offer simply a bill which does what we want it to do, to raise from $5.15 the minimum wage over three increments to $7.25.

If a minimum-wage worker was earning now what he or she earned in 1968, they would be earning $9.05 an hour. This bill simply has an increase to $7.25, the bill that we proposed. Now, we will have that available in a motion to recommit, along with the extenders that everybody is for, which could have passed on a separate suspension bill, I suspect. But the fact of the matter is that this bill is designed to fail because the majority leadership opposes raising the minimum wage. How sad. How shameful.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Does anyone here think it is rather odd if we designed a bill to fail we would place in it what apparently the Members on the other side say is one of our really primary focuses, and that is to allow people who have worked all their lives to hang on to a little bit of what they get after death for their family? Why would you couple those two together if you wanted it to fail?

The so-called extenders are 7 months overdue. They need to be extended. Why would you put a minimum wage in this structure, and extenders, if you built a bill to fail?

I think it is going to be very tortured discussion on the floor, because our colleagues on the other side just can't quite get their arms around the fact that the Republicans are for a significant change in the estate tax, they are for extending the extenders, and we are for a minimum wage.

All you have to do is vote "yes." Now, that probably is your biggest difficulty, voting "yes" on a bill that is in front of you. If you vote "yes," as the gentleman from Maryland said, minimum wage goes from $5.15 to $7.25. If you vote "yes," you join us in encouraging the Senate. And if you want to find the graveyard for the minimum wage, I suggest you go over and visit the other body.

What we have done is tried to package this to succeed in getting the minimum wage through the other body. And if we can work together, all you have to do is start by voting "yes," and then it could be contagious, we could go over and get the Senate to vote "yes," and we could have a minimum-wage increase to $7.25 in 3 years. We could also extend the extenders, and we could also have a very reasonable appropriate structure for allowing people to hang on to a little bit more of what they work for and accumulate over their lifetime.

I know the cost of making that happen is high. It means you'd actually have to vote "yes."

Mr. Speaker, I reserve the balance of my time.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. No bill more clearly captures the distorted values of the majority of the House than the bill before us right now. People who earn the minimum wage and work full time mostly live below the poverty level, and they have been waiting for a very long time for a raise in their pay.

This bill says to those who wash dishes and launder laundry and clean houses, you got to wait just a little bit longer for that raise. You have to wait until the wealthiest people in the country are able to see their heirs pay little or no tax on the wealth that is passed to the next generation.

Now, the idea of reducing or eliminating the estate tax may or may not have merit, and that idea deserves a free and separate debate on this floor, but so does the idea of raising the minimum wage for those at the bottom of the ladder in this country. This shows us who comes first. This bill says those that launder laundry and clean rooms and work in car washes will wait their turn until the wealthiest people in the country can pass off wealth to their heirs. They come first.

This is a shameful distortion of the country's values. We should vote now and we should vote "yes" for an increase in the minimum wage, free and clear of this distortion of values for the estate tax. Vote against this bill.

Mr. THOMAS. Mr. Speaker, I yield myself briefly.

Gee, I know you work for the minimum wage, and I know you want a higher minimum wage, but the way the offer was packaged was such that I had to vote "no." So don't blame me that you didn't get an increase in the minimum wage, because I voted "no."

As I said, this is going to be very difficult. All you have to do is vote "yes."

Mr. Speaker, it is my pleasure now to yield 3 minutes to the gentleman from New York (Mr. SWEENEY).

Mr. SWEENEY. I thank the gentleman for yielding time.

Mr. Speaker, I came here tonight to vote for much-needed pension reform and to provide Americans with a better living wage. And I would have preferred a simpler, more straightforward minimum-wage vote as well. In fact, I voted that way in the Appropriations Committee. I voted for Mr. HOYER's provision that extended the minimum wage for 30 months, or extended a raise for 30 months to $7.15.

I come here tonight to say that I am going to vote for this bill, and I had actually hoped to vote for the Democratic motion to recommit, if it had been a simple, straightforward proposition to vote. And I note that the Democrats have had a number of opportunities to bring a straightforward minimum-wage vote to the floor, as they have done in a variety of other instances on a variety of other issues, but never have done it.

So it leads me to this one thought, that if we are actually serious about the minimum wage and passing a minimum-wage increase, and I say this as a former State labor commissioner and I say this as someone who worked numerous minimum-wage jobs over the course of my life, I say this as someone who comes from a blue collar background, not a privileged background, and I would note that some of the leadership on the other side comes from much better standing than I, you would have brought that bill and worked in good faith to negotiate. But that didn't happen. That didn't happen because politics won the day here. Rather than passing a minimum-wage increase, it was decided that we wanted to preserve an issue. That is wrong. It doesn't serve the American people.

In terms of including the estate tax, what I had said all along is I would like to see a minimum-wage increase, but we need offsets to small businesses and farmers who make up 90 percent of the employment in my district. So when you say that an estate tax, an extension of the estate tax isn't viable, doesn't belong in this bill, tell that to the farmers in my district like Tom Borden who runs the orchard and dairy farm in eastern New York; or Paul Schmidt, a dairy farmer in Posenkill, both of whom have been begging to see this estate tax eliminated for years so they can sleep at night knowing that despite all the hard work and all the government regulation and all the burdens that they have faced, they can pass on to their family that valuable contribution to society that they have.

So be careful. Be careful when you demagogue this issue. Be careful when you politicize this issue. This is about representing people. We need to pass a minimum wage. I am in favor of this bill, and I am going to oppose the motion to recommit, and I suggest my colleagues do the same.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentlewoman from California (Ms. WATERS).

Ms. WATERS. Mr. Speaker, I rise in support of raising the minimum wage for the nearly 7 million minimum-wage American workers. However, I oppose this bill because it contains provisions unrelated to actually increasing the minimum wage. Those provisions should be voted on separately.

As a matter of fact, I am really ashamed to be a Member of Congress at this point. The Republicans are playing tricks again. They have coupled another tax break for the richest in America with this minimum-wage increase.

Since 2001, this Republican Congress has cut taxes by $1.8 trillion, and most of these tax cuts have gone to the wealthiest 1 percent of Americans. Yet when it comes to helping low- and middle-income Americans, the Republican Party is nowhere to be seen. Even this vote came reluctantly and is tied to giveaways that will gut any increase in the minimum wage.

Each day Americans are confronted with rising prices of everyday items they need: gasoline, home energy, and health care. These rising costs are stretching family budgets thin, preventing them from saving for a family emergency, education, a new home, or retirement.

In California over the past 5 years, the cost of staple goods has risen at a steady rate. For example, the cost of milk has risen 23 percent; housing has increased 45 percent; and child care has increased 14 percent. However, the wages for thousands of workers have remained stagnant.

The increase in the minimum wage is about one thing, Mr. Speaker, justice for American workers. Without an increase in the minimum wage, the American worker cannot enjoy life, liberty, and the pursuit of happiness. Quality of life is indeed important. Freedom to pursue one's dreams, whether it is in education or a new home, is freedom. Happiness is about fulfilling dreams. Workers earning the current stagnant minimum wage are simply not as happy as they should be in America.

I oppose this legislation as drafted. I am ashamed to be here with these people who are denying the poorest of our society a decent living.

Mr. THOMAS. Mr. Speaker, I yield myself briefly.

All we have to do to provide an increase in the minimum wage is to vote "yes."

And I wonder how that person working for a minimum wage feels when you say, I couldn't vote "yes" for the increase in the minimum wage because I was offended the way it was presented to us. And you need to know that the way I feel about the process in the House of Representatives is more important than providing you with an increase in the minimum wage.

Mr. Speaker, it is now my pleasure to yield 2 minutes to the gentleman from Pennsylvania, a valued member of the Ways and Means Committee, Mr. ENGLISH.

□ 0000

Mr. ENGLISH of Pennsylvania. Mr. Speaker, let me say what is sad and shameful here tonight is the argument being made by so-called progressives to justify their vote against raising the minimum wage. This legislation, granted, includes an extension of the work opportunity tax credit so that we can encourage more people to move off welfare onto the rolls. It includes extensions of the deduction for higher education expenses and the deduction for teachers for their day-to-day expenses in the classroom. It includes expensing of mine safety equipment. It also improves access to lifesaving vaccines.

Mr. Speaker, it also includes an increase in the minimum wage, something they led us to believe that they wanted to see, something that I have been fighting for for years, and they have done nothing to carry any heavy lifting on.

Mr. Speaker, the one vote on raising the minimum wage in the House this year is this vote and we are going to take names, and workers are going to be watching.

Mr. Speaker, this current minimum wage is an embarrassment. A 40-hour-a-week worker at minimum wage makes just over $10,000. Working families are struggling to make ends meet, to address higher gas prices, to address rising home heating bills. And in the face of all of that, the so-called progressives are finding every imaginable excuse to vote against raising the minimum wage. They have always liked the politics of the minimum wage and generally cared little for the policy of the minimum wage. We have always clustered increases of the minimum wage with other issues. There is nothing novel about this.

This is one up-or-down vote. The American people are going to be holding them accountable. And if they vote "no," they are voting against raising the minimum wage. That includes the gentleman from Ohio who is running for the Senate and we are going to watch that one with a great deal of interest. There is only one vote this year for raising the minimum wage. It is this one. We are going to hold you accountable for how you vote on it, whether you hiss or not.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. BROWN).

Mr. BROWN of Ohio. Thank you, Mr. MILLER, for your terrific leadership fighting for workers. And to my hypocritical friends on the other side of the aisle, I actually plan to vote for the minimum wage.

I stand in honor of the millions of American workers trying to get by on a woefully inadequate minimum wage. On behalf of 500,000 Ohio workers and the Nation's 6 million workers, I will vote in favor of a minimum-wage increase tonight despite the dishonorable chicanery of the gentleman from Pennsylvania and his friends once again foisted on this Chamber by a Republican majority run amok.

For 10 years, Democrats have tried to increase the minimum wage.

Mr. ENGLISH of Pennsylvania. Will the gentleman yield?

Mr. BROWN of Ohio. I yield to the gentleman from Pennsylvania.

Mr. ENGLISH of Pennsylvania. Did the gentleman vote for raising the minimum wage the last time this came up in 1996?

Mr. BROWN of Ohio. Of course I did.

Mr. ENGLISH of Pennsylvania. And how did you distinguish this bill, which included tax provisions for a variety of small businesses, from this bill?

Mr. BROWN of Ohio. I voted for it then. I plan to vote for it now.

Mr. ENGLISH of Pennsylvania. So you voted for the chicanery then, and you are going to vote for it now. Congratulations.

Mr. BROWN of Ohio. I reclaim my time.

For 10 years, Democrats have tried to increase the minimum wage and Republicans have blocked it. Yet during the 10 years with no minimum wage increase, Congress, under Republican leadership, has increased its own pay six times. The CEO of ExxonMobil is paid more than $17,000 an hour while a minimum-wage worker who fills her tank with ExxonMobil gas earns less than $11,000 a year. Yet this bill puts first millions of dollars in tax cuts for the ExxonMobil CEO.

Tonight it is clear why we need a change. That change is only 3 months away.

Mr. THOMAS. Mr. Speaker, I want to thank the gentleman from Ohio for his vote.

I want to yield 3 minutes to the gentleman from New Jersey (Mr. LOBIONDO).

Mr. LOBIONDO. Mr. Speaker, I rise tonight in support of this minimum-wage package which I think is long overdue. I would like to take the opportunity to thank Speaker HASTERT and Majority Leader JOHN BOEHNER. A week ago, not many people would have believed that we could have a vote on minimum wage this quickly. You have only to track the articles about it: did not look possible, maybe sometime into the future. And I want to thank Congressman STEVE LATOURETTE and the 48 or 50 other Republicans that stood along together with me in presenting our case to the Speaker and majority leader for why we should do this. We had a very spirited debate in our conference, and we probably will have a record number of Republicans that will be voting for a minimum-wage package tonight.

Some Republicans are not happy about this. If I had my choice, this package would have looked a lot different. But we don't live in the world of the perfect, and we should not sacrifice the good for the perfect. The reality is, this is the minimum-wage vote. This vote actually has a chance of being signed into law. The reality is that probably a straight minimum-wage vote, that I would have preferred, might have been a good political exercise, but it stood no chance of passage in the Senate or a signature by the President. So if we really want to give relief to working men and women who so deserve this change, this 41 percent change, this is the opportunity.

The minority has said that the extenders are fine. So we have one part of the package that you will find a problem with. I submit that because Republicans are doing this, you would have found one part of this package to have a problem with no matter what was in it.

I would urge all of the Republican Labor Caucus members and, in fact, all of the Republican Conference, and the Democrats, to vote against the motion to recommit that will doom the minimum wage. Passage and vote for the bill sends a clear signal that we can find a combination, that we can find a way to come together. The definition of "perfect" is probably different for all 435 of us. But that is not what is at stake tonight. That is not what we are all about, finding the perfect. We are about finding something good. This is a good bill. We should vote for it.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 2½ minutes to the gentleman from Washington (Mr. INSLEE).

Mr. INSLEE. The only people in the State of Washington whose wages will be affected by this bill, should it pass, will have their minimum wage decreased. Every single worker who receives tips in the State of Washington will have their minimum wage decreased $1.78 an hour as a result of this ridiculous bill. Seven States are in the same position: Alaska, California, Minnesota, Montana, Nevada, Oregon and Washington. In seven States in this country, the only people who will be affected by this bill are those who will get their minimum wage slashed.

Where is the Republican desire to slash the minimum wage and call it an increase in the minimum wage? That is what you have written into this bill.

Now, we realize this bill isn't going to pass, and you think you are going to get relief from the voters because you voted for this when it isn't going to pass. Well, if it did pass, you would be cutting the minimum wage in the State of Washington by $1.78 an hour. The people who feed you, when you take your $30,000 pay increases we all have had over the last several years, you take your $30,000 pay increases, and you tell the people that serve your tostadas and your spaghetti that you can cut their minimum wage by $1.78 an hour. If you doubt me, ask Molly on your staff. She will tell you I am right. I don't know who the brilliant guy was who thought that that is good policy in this country. We Democrats think it is a very bad idea.

The situation is, you're not going to deliver a minimum wage of any dimension because of the way you packaged this, because you don't want to see a minimum-wage increase. That is why you packaged this with a poison pill. And this is not going to work for you, because mailmen who don't deliver the mail get punished. And you will be punished for this this November.

I will just say one thing: when you cut the minimum wage for restaurant tip workers in this country, I will say this, it is bad enough when you don't do a minimum-wage bill; it is worse when you do. The point I want to make is this bill is not going to pass because they put a poison pill in it. But I want to make sure people understand in the States of Washington, Montana, Nevada, California, those States, that if it did pass, they would be cutting restaurant workers.

Do you want to challenge that, Mr. HAYWORTH? I will yield to you. If you think that is wrong, you can walk up to your staff member and she will tell you that you are cutting restaurant workers $1.78 in the State of Washington. If you disagree with that, I will show you page 181 of your bill.

Mr. HAYWORTH. Mr. Speaker, will the gentleman yield?

Mr. INSLEE. I yield to the gentleman from Arizona.

Mr. HAYWORTH. Is the gentleman familiar with four letters, E-I-T-C, earned income tax credit?

Mr. INSLEE. I am.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume. I was kind of stunned when my colleague from Ohio indicated that he was going to support this bill. I believe him when he wants to support it for the minimum wage. And then it struck me: he is not going to be in a gerrymandered district. He is running statewide. He is actually going to have to respond. In an environment where if he doesn't pick the position that people believe is the right one, he could lose. But if he were in a district in which he could vote virtually any way he wanted and wanted to slant the issues in ways that provided a political benefit rather than a real benefit, I just wonder.

Gee, that means maybe if we had more competitive seats, we would have more folks voting for policies that actually benefit people like raising the minimum wage, because a "yes" vote tonight will raise the minimum wage.

It is now my pleasure to yield 2 minutes to the gentleman from Illinois, a member of the Ways and Means Committee, Mr. WELLER.

Mr. WELLER. Mr. Speaker, I rise in support of what we have before us, which is good legislation, a package of legislation that is good for workers and a package of legislation that is good for small business. This legislation deserves bipartisan support.

First, this bill raises the minimum wage. Today, the minimum wage is $5.15 an hour. Under this legislation, we raise it to $7.25 an hour. That is a 40 percent increase in the minimum wage. It is about time. I support this minimum wage increase. It is the right thing to do.

This legislation does more, because it is a package. Of course, when you look into the package, look at the details, you see some good things that help our communities. One example is an important environmental cleanup tax credit, the brownfields tax credit, which is extended for 2 more years under this legislation. Not only is it extended, it is expanded to be able to do more. There are almost 2,000 so-called brownfields in the region that I represent in the Chicago area. Forty percent of them have petroleum contamination. You think of that old abandoned gas station on that one prominent corner in your home community that has been sitting there for years and you always wonder, why doesn't somebody buy that and do something with that strategic corner in our town. It is because it has petroleum contamination. This tax incentive will help encourage private investors to buy that old abandoned gas station and other petroleum contaminated sites to recycle, revitalize and help rebuild neighborhoods. It is good legislation.

☐ 0015

And if you care about low-income workers, particularly those who are on welfare, and you want to encourage them to get a job, you should vote for this legislation because we extend the work opportunity tax credit. We extend the welfare to work tax credit. This past year almost half a million American citizens had the opportunity to leave welfare and go to work.

This legislation deserves bipartisan support.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker and Members of the House, it is rather interesting to see my colleagues on the Republican side of the aisle ask us whether we know that the minimum wage is $5.15 an hour. Apparently, they have just discovered that fact. I would ask them did they know that the minimum wage was $5.15 an hour 10 years ago and 9 years ago and 8 years ago and 7 years ago and 6 years ago and 5 years ago and 4 years ago? It was $5.15 an hour and you never raised a finger. You never raised a finger to help these individuals. We introduced a bill every year. I have asked for hearings in my committee every year to raise the minimum wage because these people have been stuck at $5.15 an hour. You control the House, you control the Senate, you control the White House. You could never find time for these people. You found time for the richest people in the country, but you never found time for the people at $5.15 an hour.

Now, as your political fortunes change, you get a letter from the most vulnerable members of your caucus, and you discover that people are working for $5.15 an hour. But even then you cannot play it straight. No, the only way you can do this bill for the people whom you now recognize need help, and they have needed it for many years, is to put a poison pill into the minimum wage increase of the estate tax cut, knowing that you will send it off to the Senate and it will be embroiled in the 18 days that we have left in this session and there will be no increase in the minimum wage.

You could vote for the motion to recommit. The extenders are not controversial. And apparently the minimum wage is not controversial on your side. Although when a clean minimum wage passed on the Health and Human Services appropriations bill, it came to a grinding stop, and your Speaker said we are not going to have a minimum wage increase, and your majority leader says, I haven't voted for one of these and I have not supported it for 25 years, with great pride. Did he know they were working for $5.15 an hour all that time? If he had his way, they would have been working for $3.15 an hour over the last 25 years.

So tonight what are we presented with? The appearance of a minimum wage increase, but it is really about driving the estate tax. But it is about driving the estate tax into a hostile environment in the Senate, where you will argue and you will argue and you will argue and the session will end, and those same people that are working for $5.15 an hour today will be working for $5.15 an hour next year and next month. As much compassion as you felt for them, you decided they ought to wait longer to get $7.25 in the bill you presented. As much compassion as you felt for them, you decided if they work for tips, you would take away their wages in the States that Mr. INSLEE pointed out, in Washington and California and elsewhere. They would lose their wages under this bill.

So I think this newfound compassion is somewhat shallow, somewhat less than sincere for these people because you could not find time for them over the last 5 years. You could not find time to deal with their problems of working all year long and ending up with $10,700 and being in poverty. You could not find time for them when the price of gasoline went up and the price of rent went up and the price of education went up and the price of milk went up. You could not find time then. But all of a sudden, you can find time now, but only, only if you can stick it in with relief for the richest people in America, relief that you know will not happen in this legislation. And once again, these people will be denied. They will be denied at the hands of the Republican leadership that has been hostile to the minimum wage from the moment they came to this House of Representatives. They had never had any intention of supporting it, they had never voted for it, and it will not happen again.

Mr. Speaker, I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, it is my pleasure to yield 3 minutes to a valued member of the committee, the chairman of the House subcommittee, the gentlewoman from Connecticut (Mrs. JOHNSON).

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise in strong support of this legislation. I am proud, yes, for raising the minimum wage by 40 percent.

It is simple. Working families deserve a pay raise, and tonight we pass a 40 percent increase in the minimum wage. But this bill helps workers in many other ways.

A permanent estate tax protects American jobs. In my district, an old manufacturing part of the Nation, most of our manufacturers, high quality, high skilled, are small and family owned. But to compete as a supplier in a global economy, they have to be good, and that takes expensive equipment. Dad dies, you have to sell off. You have to sell that family-owned business because you cannot afford the taxes. A permanent estate tax will let that family business survive and those jobs survive because you know what happens? Those small manufacturers get bought and the jobs leave town. They go to a bigger plant. They get merged in. So if you want to protect jobs in your town, we need a permanent estate tax because that way small family-owned manufacturers can survive.

But we need this bill because it protects global jobs as well. If we do not extend the research and development tax credit in a world in which some countries write it off completely, we will not be at the cutting edge of product development. We will not be the leaders in communications technology, in clean-up technology, and in medical technology. We protect jobs and that helps the American workers. That is what this bill is all about.

We also protect the opportunity for American workers to get the education they need to compete. That $4,000 tax deduction for education expenses, that is building the future. And it is not just people who can go to college. It is the work opportunities tax credit. It is the welfare-to-work tax credit.

This is about working America. This is a tax bill about working America, about opportunity, about equity, about fairness, and about protecting our jobs. And, yes, it raises the minimum wage.

I am proud to vote for it. I urge Members on both sides of the aisle to vote for it because this is good policy by a strong Congress, and we need to get through the Senate and to the President's desk.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

You can tell that if it is going to happen after midnight, that the majority just ain't up to something good because everything bad they do, they wait until late at night and then they come.

So you take a look at this bill, and they call it the minimum wage bill. Well, that is good; so why would they wait until after midnight? Or you might take another look at the bill and you see that they are trying to help the poor miners. Well, that doesn't sound like Republicans to me. If they ever got enough religion to help poor miners, they would certainly want to do that in the sunlight. But, no, they wait until after midnight.

Then, of course, there are the extenders that really help schools and research and development. It sounds pretty decent. It does not sound that Republican to me.

There has to be a skunk at this picnic somewhere. And then you take a look and you find out that with all of the wonderful, spiritual good that they want to do for so many people, the working poor, we find out that there are 7,500 families in this great country that are worth billions of dollars, that they cannot leave this Congress without saying, "We helped you. You are the people we really love." And if you take a look to see, have they sent us letters, these rich people, most of them, saying, "Hey, try to cut back on the war, try to help us with some health and education project?" They are not asking for this money. And yet over $800 billion, we are prepared to take away from the Treasury at a time that our country needs it the most but it just cannot stand on its own two feet. So, therefore, we have to find a sweetness for it, and we have enough nerve to believe that someone is going to believe that you have a concern for the minimum wage.

After 9 or 10 years, you wake up at the end of the day, and you bring in the estate tax relief bill that is the real money, and because that sucker is so heavy it cannot get off the ground, you try to spray some perfume on this skunk, and you call it minimum wage, extenders, and help for the miners.

If you had any compassion at all, don't these people deserve to be treated separately? Do they have to be with 7,500 people who are close friends of yours? Should not the working people have a bill of their own just to increase the minimum wage? Should not the miners, their pensions and their health benefits, should they not have a bill of their own during the daytime hours? And certainly the incentives are so popular, why do you have to hold them hostage for where your hearts really belong?

So I knew that you were going to wait until midnight, but no one knew exactly what you were up to. But, hey, it is after midnight, you are on the floor, and you say if you want all of this good medicine, then swallow our pill with it, but if you say no, you say no to what is good. It does not make any sense. But I think the newspapers, television, everyone knows what is going on. You have gotten away with this for a long, long time. But there comes a time when people wake up to what is happening, and even though you have done it in the middle of the night, the sun will rise and people would understand.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

I keep telling my friend from New York that there is a really big country west of the Hudson. It is 9 p.m. in California. The sun is shining in the United States. I understand east of the Hudson, but there is a big country west of the Hudson.

I told you this was going to be a strange debate.

The gentleman from California is right. He counted backward: ten, nine, eight, seven, six. We have not increased the minimum wage. It is about time we increased the minimum wage.

Are you offended that we finally got it? Is that what you are offended about? Or is it the fact that when you were the majority for 40 years, Medicare never saw one preventative service, they never saw one wellness program, and there was no drug program? We became the majority and all of that occurred.

I am now beginning to figure this out. These people are going to have to tear up these old, yellowed speeches they have been giving for decades because the Republicans get it.

There is one other thing we get. It is a concept you are beginning to hear about. It is called "multi-tasking." You do not really have to come with one subject. You can actually do several things at the same time. And there is a degree of synergy involved in those things. You heard the gentlewoman from Connecticut, that there are interactive aspects in this.

So I am really somewhat confused. Is it that you want to keep on giving speeches that Republicans do not understand that we should raise the minimum wage, that you do not want to rewrite the speech? Or is it because on every one of those hackneyed, worn political positions, you do not have a position anymore?

We are for raising the minimum wage. We agree with you. It is time to raise it. Your arguments are now: But it is not packaged correctly.

It is after midnight. I would love to be doing this at 7 p.m. You know the difficulties in moving. We just passed a massive pension bill. We got it done. It is 9 o'clock. You are going to complain that you are going to vote against this because we are doing it after midnight? Is it so offensive to you that you have to stay up a couple of hours and have presented to you a package which is very difficult for you to get your hackneyed, yellowed political speeches around?

Yes, we are Republicans. Are we for increasing the minimum wage? Yes. Do we want to get the extenders done before we go out because it is 7 months too late? Yes. Do we want to help people who want to hang on to a little bit of what they have built over their lifetimes? Yes. And you are going to vote "no" because it is put together in a way that offends you?

□ 0030

I wonder what that person hoping for an increase in the minimum wage thinks when they are told, I wanted to help you, but I was offended in the way in which the opportunity to help you was presented to me.

Who is kidding who?

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. CARDIN), an outstanding member of the Ways and Means Committee.

Mr. CARDIN. Mr. Speaker, let me thank my friend for yielding.

Let me speak for an interest group that has not been heard tonight, and that is our children and grandchildren, because they are going to be asked to pick up the tab of this legislation.

Yes, Mr. Speaker, I am for raising the minimum wage. It is a fair thing to do, and it is in the economic interests of this country. But the price to vote "yes" is just too high, $267 billion of additional debt on the estate tax changes.

And where are we going to get the money to pay for that? I hear from my friends that we have to be fiscally conservative, and I agree with that on every dollar of new spending. But tonight it is okay for $267 billion of additional debt. And where is that money going to come from? We borrow it. We borrow it from foreign governments that own banks. And it jeopardizes trade exchange with the United States. It costs us jobs.

It is in our national interest to balance our budget, we all understand that; and tonight, by passing this bill, we are moving in the wrong direction.

Mr. THOMAS. Mr. Speaker, I reserve my time.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from North Dakota (Mr. POMEROY), an outstanding member of our committee.

Mr. POMEROY. Mr. Speaker, we know what extortion is. You know those old movies? "Give me all the money or the kid gets it." Well, this is legislative extortion. You want a minimum-wage increase? Give the multimillionaire families a tax break. No tax break for multimillionaires, no minimum-wage increase.

So who gets this tax break? Well, as you can see, the bulk of it goes to estates worth more than $20 million. How much do these estates get? As you see, they get $5.8 million on average.

So that is the deal they offer us: Oh, we will give you an increase in that $5.15 per hour minimum wage, just as long as you give $5.8 million to those $20 million estates.

What do they think, we are crazy? That is no deal. That is legislative extortion, and it needs to be rejected with a "no" vote tonight.

Mr. THOMAS. Mr. Speaker, it is my pleasure to yield 2 minutes to the gentleman from Arizona (Mr. HAYWORTH), a member of the Ways and Means Committee.

Mr. HAYWORTH. Mr. Speaker, it is interesting to hear the level of Orwellian "newspeak" emanating from our friends on the left. We are now told that a reasonable, rational compromise that includes many commonsense ideas is somehow legislative extortion. We hear that a compromise that provides an increase in the minimum wage is paired with other policy initiatives that somehow make it a poison pill.

Isn't it interesting the lexicon offered by the left? If it is a compromise forged by conservatives that somehow actually, ironically delivers on an issue for which my friends on the left believe they have ownership, why, that is a poison pill.

Oh, and conveniently omitted when we hear the bold relief, including the impugning of our motives for moving forward on this, conveniently omitted, are the policy initiatives championed in bipartisan fashion: the work opportunity tax credit, the earned income tax credit, those extenders that are part of this that actually help those working to get ahead.

It is a very interesting occurrence we see here tonight. "Curiouser and curiouser," said Alice. It is not Wonderland, and this legislation may not be perfect, but it is not the glum, dour air of apocalyptic fate that the left would portray it as. It is a positive move, raising the minimum wage, extending tax relief, and revising tax policy.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Rhode Island (Mr. LANGEVIN).

Mr. LANGEVIN. Mr. Speaker, the American people deserve an up-or-down vote on the minimum wage and not have it tied to a poison pill that is designed to kill that increase. That is not what we are getting tonight.

Mr. Speaker, I am outraged that men and women across this country go to work, working 40 hours a week, often more, and can't even make ends meet.

The minimum wage hasn't been increased since 1997. Workers in Rhode Island, for example, have to earn approximately three times the minimum wage just to afford a basic two-bedroom apartment.

A majority in this House supports an increase in the minimum wage, but the Republican leadership only wants to help a privileged few. To put this in perspective, thousands of families in Rhode Island and millions of families across America would benefit from a minimum wage increase, while the Republican tax plan would help a handful of the wealthiest. This costly political stunt will add billions of dollars per year to our national debt and demonstrates the Republicans' misguided priorities.

It is time for a new direction. I urge my colleagues to join me in opposing this sham bill and supporting a stand-alone vote to increase the minimum wage to $7.25 an hour. It is the right thing to do for the American people.

Mr. THOMAS. Mr. Speaker, I reserve my time.

Mr. RANGEL. Mr. Speaker, I yield 1½ minutes to the gentleman from Georgia (Mr. SCOTT).

Mr. SCOTT of Georgia. I thank the ranking member very much.

This is indeed a ploy of the highest nature. There is nobody in this House that is more concerned about raising the minimum wage than Democrats. Seven times we have tried to raise the minimum wage.

If this is such an important effort to raise the minimum wage, we ought to ask the question, why is every group that represents working people calling and asking to vote down this sham?

You know, Mr. Speaker, William Shakespeare wrote an excellent play. He called it "Julius Caesar." In that play, just when Brutus and Cassius and all were digging in the swords, Julius Caesar grabbed Brutus and said, "Et tu, Brutus. Yours is the meanest cut of all."

Mr. Speaker, I am telling you what the meanest cut of all in this bill is. They say we don't read the bills. But the American people need to know what this bill says. It says the Tax Relief Act of 2006 excludes all of the tipped employees' tips from being considered as wages in determining if such tipped employees have been paid the applicable minimum wage rate.

This is the meanest cut of all in this bill. If it is right to give the minimum wage for one person, isn't it right to give it for everybody? There is nobody that deserves the minimum wage more than those people who are at the bottom of the ladder; and none are at the bottom of the ladder more than those people who have to make it on tips. This bill will not only not raise the minimum wage of those who make it on tips, 2.5 million Americans, their minimum wage will go down under this bill. Indeed, the meanest cut of all.

We must vote down this bill and put forward a genuine bill that will truly raise the minimum wage for everybody.

Mr. THOMAS. Mr. Speaker, it is my pleasure to yield 2 minutes to the gentleman from Louisiana (Mr. McCRERY), the chairman of the Social Security Subcommittee.

Mr. McCRERY. Mr. Speaker, I thank the chairman of the Ways and Means Committee for yielding.

I just want to say to the point that some are making about States that have no tip credit law and have a higher minimum wage, if in fact a State wishes to continue to have a higher minimum wage, all they have to do in response to passage of this bill is to pass any kind of tip credit. It can be a minimal tip credit, and then they can fully restore the minimum wage that that State wishes its employees to have. So it is not that complicated. It is not that difficult as some Members have suggested.

Mr. INSLEE. Mr. Speaker, will the gentleman yield?

Mr. McCRERY. I yield to the gentleman from Washington.

Mr. INSLEE. Mr. Speaker, what we want to point out and we want to make sure, because I think I have confirmed this with the Republican staff, the way this works, if this bill passes, in the State of Washington the minimum wage goes down the next day $1.78 an hour.

The gentleman is correct. If the State legislature got together and essentially overrode the Republicans in Congress, they might be able to get it back up where it was. But you know what? You Republicans in the State legislature, I say "you," Republican-controlled legislators, I will give you a clue: it is not going to happen. That is why we object to cutting the minimum wage in any State by any Congress of any party.

Unfortunately, that is what you are doing. You can confirm it with counsel. That is why we think it is an abomination.

Mr. McCRERY. Mr. Speaker, reclaiming my time, it is a legitimate issue the gentleman brought up, but I would hope he would agree that freely elected representatives in his State, or any other State, whether Republican or Democrat, should in fact be able to express the will of the people who elect them, whether they are Republicans or Democrats; and if in his State they want to, whoever they are, Republicans or Democrats, want to go back to the minimum wage they had prior to the passage of this bill, they may. This bill in no way prohibits that.

So the gentleman's complaint about this bill could easily be taken care of, the same way his State originally enhanced the minimum wage in Washington. That is the only point I wanted to make.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. LEVIN), an outstanding member of the Ways and Means Committee.

Mr. LEVIN. Mr. Speaker, I spoke earlier and I wasn't going to speak again so others could, but listening to the Republicans here, I felt compelled to come over.

In all my years here, this is the height of hypocrisy. You have sat here year after year failing to raise the minimum wage, refusing to come here and sign a discharge petition, doing nothing. And now, because you are worried you are going to lose an election, you are here. And you tie it to a proposal that will give the very, very wealthy many more times than would be benefiting the workers with a rise in the minimum wage.

If you really cared, you would have acted long ago. This isn't on your part even an election-year conversion. It is an election-year trick. It won't work.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it sounds to me like somebody is saying on this issue, I have a hostage, and if you try to force me to vote for minimum wage, I am going to kill the hostage.

There is a minimum-wage increase in this legislation. The argument that somehow, and I will say it again, somehow the fact that we didn't act earlier is a sufficient rationale for you to not vote for it now, to say that we have other items in this bill and we are hiding the minimum wage with other attractive packages to Republicans, I will repeat to you, is a way we might actually be able to get it through the other body, since the other body would not allow a clean minimum wage to pass through it. And they have exhibited that a number of times.

I know it is difficult for you, and I know it is going to take a period of time in terms of understanding that when we say this is a bill that contains extenders, that this is a bill that contains a reasonable and appropriate adjustment on estate taxes. The reason I say that is this is almost identical to the bill that got 43 Democrat votes just a few weeks ago.

And when I say there is an increase in the minimum wage in this bill, I have heard all kinds of tortured arguments about package and process, but I can't understand for the life of me, if we are such hypocrites, and this is a sham, why you don't take us up on it and show how wrong we are by voting for a minimum-wage provision and then see what we do with it.

□ 0045

What we are going to do with this is try to make law. This will pass this House. Join me. Let's go over to the Senate and do everything we can together to get the Senate to pass it.

Or is it that if it actually happened and the President signed it, and we had an increase in the minimum wage, you would have to draw one more line through those easy arguments that are now outdated about the difference between Republicans and Democrats, because it is hard enough to believe that Democrats no longer have a monopoly on improving Medicare with quality measures and putting prescription drugs in.

But don't Republicans have any shame? Coming to the floor trying to raise the minimum wage, what are we going to do? Well, the first thing you have to say is, okay, guys, we can't vote "yes". Why? Test us. Let's make law. It has been 10 years. Let's raise the minimum wage. I understand that we are also going to save the extenders.

I understand we are going to put in a reasonable estate tax change. But what I am asking you to do, rather than to wring your hands and figure out how you are going to explain you didn't want to vote for the increase in the minimum wage because of the way it was packaged is to test us. I want a test. Let's pass this. Let's go over to the Senate. Let's try to make law.

Mr. KENNEDY of Rhode Island. Mr. Speaker, will the gentleman yield?

Mr. THOMAS. I yield to the gentleman from Rhode Island.

Mr. KENNEDY of Rhode Island. Mr. Speaker, the gentleman has mentioned prescription drugs a number of times. I think it is analogous to this debate, because that was a debate that took place late at night, and you used the elderly and their need of prescription drugs to pass a trillion-dollar bill that benefited the pharmaceutical companies and the insurance companies in this country.

The people of the United States know that, and they are going to see it again tonight. You are using people in order to pass your agenda for the very wealthy in this country and it is wrong.

Mr. THOMAS. Mr. Speaker, reclaiming my time, millions of Americans are thankful they now have prescription drugs at significant savings. I know it is difficult because another line went through one of your typical political arguments. Test us. See if we are just kidding. See if this is a sham.

What I am inviting you to do is make law. I know it is a brave new world. But let's try it. Let's see if we can make law together. Your arguments have been so turned that you are explaining you are against raising the minimum wage because of the way it is being presented to you. It deserves to be clean. Okay. It's not.

I am offended that I would have to vote this way. By the way, you are still at $5.15. Test us. Let's make law.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am glad that the chairman has taken his mask off and brought his sense of honesty to this debate. Yes. Test you. What you are basically saying is that if you want to give some help to these people that have such low wages, we then have to buy, in the same bill, the $800 billion relief that you are giving to 7,500 people. I understand what you are doing.

Why don't you call it the Estate Tax Relief Bill, which is sweetening up, you know, by just giving some of them minimum wage. And you say, if you don't like the rich people, if you don't want to get close to $1 trillion away, then of course vote against the minimum wage.

It is so unfair to call this a package. It is a package for the rich, that just as an afterthought, you throw in minimum wage. But, fortunately, the chairman has said what he is doing. Either you buy it as I put it or forget about it. I think that is so unfair to the working poor people in this country.

Mr. Chairman, I yield 1 minute to the gentleman from New Jersey (Mr. ROTHMAN).

Mr. ROTHMAN. Mr. Speaker, tomorrow's headlines are going to read "hostage taken". And you know what they are going to mean? The increase in the minimum wage was taken hostage by the Republican majority. They have taken the increase in the minimum wage hostage unless we give the super-rich $100 billion.

To give the working poor a $2.10 increase an hour, they have held us hostage unless we give them $800 billion. Now, they have had 9 years in the majority in the House to have a clean increase in the minimum wage. They never did it. They would not let us do it, because they were in the majority.

They still will not do it. Only if we give the super-rich $800 billion. And American people are not stupid. They do not want a bad deal. They do not want a bad law. They do not want to give into hostage demands. They do not want to give in to extortion. They want an increase in the minimum wage, not another $800 billion gift to the super-rich because the Republican majority does not want to give it in any other way.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I really would like to travel with some of you folks to restaurants and hotels and watch you go back and find someone who is getting the minimum wage and make that pitch to them. Because what they are going to say is, gee, you are right, I am glad you voted against increasing the minimum wage so I could get a few more bucks.

I understand doing it here on the floor. I understand doing it in those expensive fund-raisers that you hold. I have a really difficult time seeing someone who says, would you just give me an increase in the minimum wage buying that argument.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield 15 seconds to the gentleman from New Jersey (Mr. ROTHMAN) to respond to the distinguished gentleman.

Mr. ROTHMAN. Mr. Speaker, the distinguished chairman dares me to go back and tell my people. I am going to say, the Republicans will not give you the minimum wage increase unless we give $800 billion to the super-rich.

They will say, don't do it, STEVE. We will throw the Republicans out in November and get an increase in the minimum wage without them.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I would love to make law with the distinguished chairman, Mr. RANGEL, but it sure is tough. We have been 50 years in the desert, 50 years on an increase relevant to minimum wage. It is the lowest in 50 years.

Rather than take the 250 Members of this body who are willing to have an up and down vote, and my good friend who is the chairman, and I do believe he is a good friend, knows that the Senate is not, the other body is not going to take this bill the way it is. This is a joke.

Ten million people are going to be denied the minimum wage with this bill. This is a joke. No one is going to take this on the other side. So we do this in the midnight hour. We have a headline. We go home to campaign. You will. We will go home and tell the truth.

Give us an up and down vote on a $7.25 minimum wage up or down vote. The joke is on you. This is an untruth and it makes no sense to put people who have been in the desert without getting any money for this joke, because you know your Senate Republicans are not taking this joke.

Mr. Speaker, it is time to vote up or down. Give us the 250 Members who will vote on a minimum wage. Vote for it now and throw this bill out the window.

Mr. Speaker, I rise in opposition to H.R. 5970, the Permanent Estate Tax, Minimum Wage, and Extenders Bill. But I would be remiss if I did not point out that it is clear that Republicans are playing politics with a pay raise for millions of American workers. We have had enough politics. It is time for a new direction.

Mr. Speaker, the Republican leadership is ignoring the American people, holding a pay raise for American workers hostage for partisan purposes. H.R. 5970 contains "poison pills" that will prevent the minimum wage increase from becoming law, most importantly a costly tax cut for multi-millionaires.

Mr. Speaker, H.R. 5970 is just a cynical, political ploy to defeat a minimum wage increase. It is a cruel hoax on the 6.6 million people who would get a raise with a minimum wage increase and would give a huge tax break to only 7,500 of the richest households in America.

The cynicism behind this ridiculous bill is as obvious as the Republicans devotion to giving away tax breaks to the wealthy and a hard time to the middle and working class. The aim of the H.R. 5970 is to make it look like Republicans support a minimum wage increase, while ensuring its demise in the Senate by attaching "poison pills."

Republicans' poison pill will cost nearly $753 billion when fully in effect, and impact less than 1 percent of all Americans, and Republicans are using that to derail an increase in the minimum wage for 6.6 million Americans.

Mr. Speaker, the only way to ensure that a minimum wage increase becomes law is to allow a straight up-or-down vote on H.R. 2429, the Fair Minimum Wage Act, which provides an increase to $7.25 an hour.

Mr. Speaker, Democrats have a New Direction for America, which raises the minimum wage and brings economic opportunity and security to all Americans, not just the privileged few.

OPPOSE ESTATE TAX REPEAL

Mr. Speaker, I have voted for estate tax relief before but I oppose this bill because it is irresponsible to cut taxes for the wealthy when the Nation is at war and the national debt is over $8 trillion. Indeed, Mr. Speaker, I think it is unconscionable to be considering voting another tax cut to the wealthiest 0.3 percent of Americans.

The Joint Committee on Taxation estimates that this estate tax proposal will cost the Federal Government $602 billion, plus an extra $160 billion when interest is accounted for. Only 0.5 percent of the richest families in America currently pay estate taxes. Moreover, under current law in 2009, only 3 out of every 1,000 estates will pay a penny in estate taxes—all couples with estates up to $7 million—99.7 percent—will pass on their entire estates tax-free. Any compromise proposal which deviates from 2009 current law—such as the bill before us—is therefore crafted entirely to benefit this tiny sliver of the richest estates. Particularly since I have voted for a fair estate tax initiative but this bill is not it.

According to recent polling data, nearly 60 percent of voters hold the initial, unaided view that estate tax should be left as is or reformed, and only 23 percent support repeal. When asked about the estate tax in the context of other budget priorities, voters rank repealing the estate tax as the last priority, and 55 percent of voters oppose repeal.

This so-called compromise, nearly as regressive and costly as a full repeal, is no compromise at all. Passing even this compromise legislation would constitute one of the most regressive tax cuts in the history of the United States. Middle- and lower-class Americans will be forced to shoulder the burden of radically decreasing the estate tax—both monetarily and through decreased public programs. In order to cover the monetary gap, the government will plunge further into debt, which will limit its ability to address the Social Security solvency gap and reduce the money available for public programs. It will also have to tap other tax sources, like payroll taxes, which will overwhelmingly hinder lower-income families.

I urge my colleagues to uphold the core American values of fairness and belief in meritocracy by rejecting this tax cut.

INCREASE MINIMUM WAGE

If we really wish to help the most deserving American families, we should raise the minimum wage from $5.15 to $7.25 over 3 years. Mr. Speaker, did you know that today's minimum wage of $5.15 today is the equivalent of only $4.23 in 1995, which is even lower than the $4.25 minimum wage level before the 1996–97 increase? It is scandalous, Mr. Speaker, that a person can work full-time, 40 hours per week, for 52 weeks, earning the minimum wage would gross just $10,700, which is well below the poverty line.

A minimum wage increase would raise the wages of millions of workers. An estimated 7.3 million workers—5.8 percent of the workforce—would receive an increase in their hourly wage rate if the minimum wage were raised from $5.15 to $7.25 by June 2007. Due to "spillover effects," the 8.2 million workers—6.5 percent of the workforce—earning up to a dollar above the minimum would also be likely to benefit from an increase.

Raising the minimum wage will benefit working families. The earnings of minimum wage workers are crucial to their families' well-being. Evidence from the 1996–97 minimum wage increase shows that the average minimum wage worker brings home more than half—54 percent—of his or her family's weekly earnings. An estimated 760,000 single mothers with children under 18 would benefit from a minimum wage increase to $7.25 by June 2007. Single mothers would benefit disproportionately from an increase—single mothers are 10.4 percent of workers affected by an increase, but they make up only 5.3 percent of the overall workforce. Approximately 1.8 million parents with children under 18 would benefit.

Contrary to popular myths and urban legends, adults make up the largest share of workers who would benefit from a minimum wage increase. Seventy-two percent of workers whose wages would be raised by a minimum wage increase to $7.25 by June 2007 are adults—age 20 or older. Close to half—43.9 percent—of workers who would benefit from a minimum wage increase work full time and another third—34.5 percent—work between 20 and 34 hours per week.

Minimum wage increases benefit disadvantaged workers, and women are the largest group of beneficiaries from a minimum wage increase. 60.6 percent of workers who would benefit from an increase to $7.25 by 2007 are women. An estimated 7.3 percent of working women would benefit directly from that increase in the minimum wage.

A disproportionate share of minorities would benefit from a minimum wage increase. African-Americans represent 11.1 percent of the total workforce, but are 15.3 percent of workers affected by an increase. Similarly, 13.4 percent of the total workforce is Hispanic, but Hispanics are 19.7 percent of workers affected by an increase.

The benefits of the increase disproportionately help those working households at the bottom of the income scale. Although households in the bottom 20 percent received only 5.1 percent of national income, 38.1 percent of the benefits of a minimum wage increase to $7.25 would go to these workers. The majority of the benefits—58.5 percent—of an increase would go to families with working, prime-aged adults in the bottom 40 percent of the income distribution.

Among families with children and a low-wage worker affected by a minimum wage increase to $7.25, the affected worker contributes, on average, half of the family's earnings. Thirty-six percent of such workers actually contribute 100 percent of their family's earnings.

A minimum wage increase would help reverse the trend of declining real wages for low-wage workers. Between 1979 and 1989, the minimum wage lost 31 percent of its real value. By contrast, between 1989 and 1997—the year of the most recent increase—the minimum wage was raised four times and recovered about one-third of the value it lost in the 1980s.

Income inequality has been increasing, in part, because of the declining real value of the minimum wage. Today, the minimum wage is 33 percent of the average hourly wage of American workers, the lowest level since 1949. A minimum wage increase is part of a broad strategy to end poverty. As welfare reform forces more poor families to rely on their earnings from low-paying jobs, a minimum wage increase is likely to have a greater impact on reducing poverty.

Mr. Speaker, the opponents of the minimum wage often claim that increasing the wage will cost jobs and harm the economy. Of course, Mr. Speaker, there is no credible evidence to support such claims. In fact, a 1998 EPI study failed to find any systematic, significant job loss associated with the 1996–97 minimum wage increase. The truth is that following the most recent increase in the minimum wage in 1996–97, the low-wage labor market performed better than it had in decades. And after the minimum wage was increased, the country went on to enjoy the most sustained period of economic prosperity in history. We had historic low levels of unemployment rates, increased average hourly wages, increased family income, and decreased poverty rates. Studies have shown that the best performing small businesses are located in States with the highest minimum wages. Between 1998 and 2004, the job growth for small businesses in States with a minimum wage higher than the Federal level was 6.2 percent compared to a 4.1 percent growth in States where the Federal level prevailed.

So much for the discredited notion that raising the minimum wage harms the economy. It does not. But it increases the purchasing power of those who most need the money, which is far more than can be said of the Republicans' devotion to cutting taxes for multimillionaires.

CONCLUSION

Mr. Speaker, Americans overwhelmingly side with progressive principles of rewarding hard work with a liveable wage. In a recent poll conducted by the Pew Research Center, 86 percent of Americans favored raising the minimum wage. In the 2004 election, voters in Florida and Nevada, two States won by President Bush, overwhelmingly approved ballot measures to raise the minimum wage. Even in Nevada's richest county, Douglas, where Bush received 63.5 percent of the vote, 61.5 percent of voters supported raising the minimum wage.

Forty-three percent of Americans consider raising the minimum wage to be a top priority. In contrast, only 34 percent considered making the recent Federal income tax cuts permanent and only 27 percent consider the passage of a constitutional amendment to ban same-sex marriage as top priorities.

Members of Congress have legislated a minimum salary for themselves and have seen fit to raise it eight times since they last raised the minimum wage. It is time we gave the Americans we represent a long overdue pay raise by increasing the minimum wage to $7.25 over 3 years. Even this amount does not keep pace with the cost of living. The minimum wage would have to be increased to $9.05 to equal the purchasing power it had in 1968. And if the minimum wage had increased at the same rate as the salary increase corporate CEOs have received, it would now be $23.03/hour.

Thank you, Mr. Speaker. It is time for a new direction. I urge my colleagues to reject H.R. 5970.

Finally, I have supported and do support the sales tax relief for Texas; however, the Republican majority knows that their bill is going nowhere and will not be heard by the Senate. We need an up or down vote on the minimum wage and an independent vote on sales tax relief on Federal income taxes for Texas—I would vote "yea" on both those two bills—which would not be a budget buster and deficit builder. The Republicans are simply playing games.

Mr. RANGEL. Mr. Speaker, I yield myself the balance of our time.

Mr. Speaker, I want to thank the Republicans for their honesty in expressing their concern at this late hour for the minimum wage bill. At least we know on the record, they know what the situation is, they know how long it has been since these people have not been able to increase the minimum wage.

It would just seem to me, though, that honesty would dictate that this subject alone, the millions of people that are affected, would warrant that we not put it in any other kind of package, but we deal with it by itself because it deserves to be dealt with by itself.

Mr. Speaker, I do not think that you have to really be a politician to understand that when any bill is going to cost $800 billion, and it only has 7,500 people as a beneficiary, I think you can call that controversial. I think you can say that all of the editorials believe it is unfair. People are talking about a Nation at war, a Nation that has a deficit, a Nation that has Katrina, a Nation that does not fund its health system.

They are concerned about the deficit, they are concerned about the war, and they should be concerned about close to a trillion dollars loss in revenue for people that have these large estates.

Now, for those who believe that they should get relief. Good. But why mix the two? Why take the poor folks and hold them hostage because you cannot get enough political support to get what you really want out of this, not help, I mean you are just not known to be concerned about coal miners. It is not my fault.

You are not known to have compassion about working people. It is not my fault. You are known to be concerned about the wealthiest people in our Nation. That is not your fault, you just cannot help yourself.

But why would you bring these things together and just give us one vote? Why do you not give America an opportunity to determine which side you are on? Are you with the minimum wage enough so that you give them a vote to say this is what you believe in, or are you so scared to death politically that you cannot get this 800-trillion-dollar gorilla off the ground that you have to throw in something that sounds compassionate?

I do not know, but I know one thing, it all does not come out of the same committee. So you are not only mixing ideas in terms of tax incentives and giving away money, but what you are doing is taking committees with different jurisdictions, and bringing it together in the middle of the night, and asking people to vote on these things.

Mr. Speaker, I do not think it is fair. But I do believe that the American people will be able to determine the difference between our parties. That is what makes our country great. I want to thank you for being able to admit that you just cannot get your package off the ground unless you throw in poor folks' help with it.

Mr. THOMAS. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, perhaps you did not hear the gentleman from New York's closing statement, that we are just going to have to throw the poor folks out with it. Let me get this straight. We want to vote "aye". That would produce a higher minimum wage. We want to vote "aye". That will provide those low-income people, especially in States like Texas, with a State and local sales tax deduction.

We want to vote "aye", so the work opportunity tax credit can continue. We want to vote "aye" so the welfare-to-work program will continue. But you are for those low-income folk. So you want to vote "no", which would deny the minimum wage, which would deny the State and local sales tax, which would deny the work opportunity tax credit, which would deny the welfare-to-work, and you are going to convince these folk that what you are doing is protecting them.

Well, let me tell you, if I had a gerrymandered district like some of you folks do, I guess I could get away with it. I do not. When you look at this vote tonight, no matter how much you squirm, no matter how much you squeal, no matter how much you protest, it is very simple.

An "aye" vote increases the minimum wage. An "aye" vote allows State and local sales tax to be deducted. An "aye" vote allows the work opportunity tax credit to continue. An "aye" vote allows the welfare-to-work program to continue.

No matter how much you are offended, if you vote "no", none of those will happen. Mr. Speaker, I have said it already, I will say it again to The gentleman from New York, this is an opportunity. This is a positive gesture on my part. Join me in making sure that those low-income people you are so compassionate about but cannot support will come with me and I will support them so that your compassion and my support, in terms of a "yes" vote, will actually deliver them something other than rhetoric.

☐ 0100

So I would love to have you vote "yes" so we are both supporting them. But you go ahead, bring your compassion. I will bring the "yes" vote along with the majority of people here bringing a "yes" vote, and we will pass it.

Mr. PENCE. Mr. Speaker, I come to this floor wishing for a different choice than the one before me. The bill under debate provides permanent estate and gift tax relief—something I have long supported. That is why the choice before us tonight is so difficult. While this bill will provide relief to American farmers and small business owners, it also will do much harm to those very same people and the people they employ because of the irresponsible 41% increase in the minimum wage that it also contains. This increase in the minimum wage is excessive and will hurt the poor and those entering the workforce by reducing the number of entry level positions in our economy.

Minimum wage increases raise unemployment among teenagers, minorities and part-time workers. The minimum wage violates fundamental free market economics. It costs jobs, and I cannot support policies that will take jobs from those who need a paycheck the most.

Any proposal containing a minimum wage increase should be jobs-neutral. If the federal government increases costs for businesses with one hand, it is only right that it reduce costs for businesses with the other. And while this legislation does contain good tax extensions, in totality, it is not jobs-neutral. This increase in the minimum wage will cost American jobs, and I cannot support it.

Additionally, this bill contains unrelated elements added during the eleventh hour. A budget-busting provision is included that converts the Abandoned Mine Land program from discretionary to mandatory spending. The result is an increase in the deficit of $3.9 billion over the next 10 years.

Mr. Speaker, I would like to stand before you tonight and say that I could support this bill because more than anyone, I want permanent death tax relief. But, I cannot in good conscience vote for a bill that also contains an excessive minimum wage increase that will hurt small businesses and cost American jobs. And, I cannot vote for a bill that busts the budget by nearly $4 billion over 10 years. Regretfully, Mr. Speaker, for those reasons I stand tonight in opposition to this bill.

Mr. BLUMENAUER. Mr. Speaker, after having their wages frozen since 1997, it is time to give a long overdue raise to millions of Americans who work hard but are paid only $5.15 per hour.

The Federal minimum wage is the lowest it has been, adjusted for inflation, in more than 50 years. Nine years have passed since the last increase and yet education, energy and healthcare costs have skyrocketed. No one can house, feed, and educate a household by earning the current Federal minimum wage.

Luckily in Oregon, voters passed a statewide initiative in 2002 which raises our own minimum wage that provides an automatic inflation adjustment. With the increase, we have seen significant benefits for our workforce without any ill effects for our economy. Instead of doomsayer predictions of job losses, Oregon has experienced the 8th fastest job growth amongst states since the legislation was enacted.

After months of stalling, the Republican leadership was finally forced to allow a vote. Unfortunately it was not a simple vote on minimum wage, but a loaded bill with costly and unnecessary provisions. This bill provides permanent estate tax relief for the wealthy by increasing estate and gift tax exemptions and lowering tax rates.

Even worse, the intent to raise the existing minimum wage is actually decreasing the wages of some workers due to the tip credit provision. This provision provides that tips must be counted towards the minimum wage. In Oregon restaurant workers are paid $7.50 per hour and yet this legislation would reduce their wage to only $5.15 per hour.

The bill is so poorly drafted that one interpretation would potentially double the minimum wage for select workers, while the other would show a decrease in the same jobs.

This bill should be firmly rejected. The minimum wage needs to be increased by crafting a simple and clear solution that protects states with existing legislation. Under no circumstance should the Federal government undercut what Oregon voters have already established.

Mr. SHAYS. Mr. Speaker, the time is past due for a raise in the Federal minimum wage, which as last increased 10 years ago. Today, workers making the least should be heartened that this legislation will raise their wages 41 percent to $7.25 per hour over the next 3 years.

Some argue that raising the minimum wage increases unemployment and prices. This is true only if the minimum wage is set too high or phased in too quickly. If done properly, there should be little to no impact on employment or prices.

I am also pleased we are lowering the estate tax, but adopting a far more rational approach than full repeal.

Under this legislation, small business owners will be able to know their businesses can be left with their families when they pass on because of a significantly reduced tax rate. Wealthy individuals would still pay something, between 15 and 30 percent on their estates, but not the 46 percent in existing law.

Because estate and gift taxes has a harmful impact on small businesses—many of which are forced to liquidate assets simply to pay estate taxes which fluctuates in crazy fashion, from 46 percent this year, to 0 percent in 2010 and way back up to 55 percent 2011—we must intervene and provide relief. This bill will protect families and business while still making sure the very wealthy are paying back something to society.

Mr. PAUL. Mr. Speaker, I appreciate the opportunity to address my concerns with H.R. 5970, a bill to raise the federally mandated minimum wage. Before addressing the substance of this bill, I must address the flaws in the process under which this bill is brought before us. Neither I nor my staff had received any indication the bill before us tonight would be considered by the House until late this afternoon, and the only way a member of the general public could learn about this bill is to look on the Rules Committee website. Therefore, Members of Congress are being asked to vote for a major piece of legislation that was introduced just hours before being voted on the Friday night before Congress adjourns for the month of August.

The practice of rushing bills to the floor before individual Members have had a chance to study the bills is one of the major factors contributing to public distrust of Congress. Mr. Speaker, I have introduced legislation, the Sunlight Rule (H. Res. 709), to prevent situations like the one currently confronting Members. The Sunlight Rule prohibits any piece of legislation, including conference reports, from being brought before the House of Representatives unless it has been available to Members and staff in both print and electronic versions for at least 10 days. H. Res. 709 also requires that conference reports and manager's amendments that make substantive changes to a bill must be available in both printed and electronic forms at least 72 hours before a vote.

The announced purpose of this bill is to raise living standards for all Americans. This is certainly an admirable goal, however, to believe that Congress can raise the standard of living for working Americans by simply forcing employers to pay their employees a higher wage is equivalent to claiming that Congress can repeal gravity by passing a law saying humans shall have the ability to fly.

Economic principles dictate that when government imposes a minimum wage rate above the market wage rate, it creates a surplus "wedge" between the supply of labor and the demand for labor, leading to an increase in unemployment. Employers cannot simply begin paying more to workers whose marginal productivity does not meet or exceed the law-imposed wage. The only course of action available to the employer is to mechanize operations or employ a higher-skilled worker whose output meets or exceeds the "minimum wage." This, of course, has the advantage of giving the skilled worker an additional (and government-enforced) advantage over the unskilled worker. For example, where formerly an employer had the option of hiring three unskilled workers at $5 per hour or one skilled worker at $16 per hour, a minimum wage of $6 suddenly leaves the employer only the choice of the skilled worker at an additional cost of $1 per hour. I would ask my colleagues, if the minimum wage is the means to prosperity, why stop at $6.65—why not $50, $75, or $100 per hour?

Those who are denied employment opportunities as a result of the minimum wage are often young people at the lower end of the income scale who are seeking entry-level employment. Their inability to find an entry-level job will limit their employment prospects for years to come. Thus, raising the minimum wage actually lowers the employment opportunities and standard of living of the very people proponents of the minimum wage claim will benefit from government intervention in the economy!

Furthermore, interfering in the voluntary transactions of employers and employees in the name of making things better for low wage earners violates citizens' rights of association and freedom of contract as if to say to citizens "you are incapable of making employment decisions for yourself in the marketplace."

Mr. Speaker, I do not wish my opposition to this bill to be misconstrued as counseling inaction. Quite the contrary, Congress must enact ambitious program of tax cuts and regulatory reform to remove government-created obstacles to job growth. However, Mr. Speaker, Congress should not fool itself into believing that the package of tax cuts included in this bill will compensate for the damage inflicted on small businesses and their employees by the minimum wage increase. This assumes that Congress is omnipotent and thus can strike a perfect balance between tax cuts and regulations so that no firm, or worker, in the country is adversely affected by Federal policies. If the 20th Century taught us anything it was that any and all attempts to centrally plan an economy, especially one as large and diverse as America's, are doomed to fail.

In conclusion, I would remind my colleagues that while it may make them feel good to raise the Federal minimum wage, the real life consequences of this bill will be vested upon those who can least afford to be deprived of work opportunities. Therefore, rather than pretend that Congress can repeal the economic principles, I urge my colleagues to reject this legislation and instead embrace a program of tax cuts and regulatory reform to strengthen the greatest producer of jobs and prosperity in human history: the free market.

Mr. UDALL of Colorado. Mr. Speaker, this bill is an example of the worst kind of political game playing.

After months and months of short work-weeks and long breaks, now the Republican leadership has brought the House into session late today—and for what?

Certainly not for a simple vote on raising the minimum wage—even though that's long overdue.

No, instead the purpose of this grab-bag of a bill is to provide political cover for people who want to say they voted to raise the minimum wage but don't want their votes to actually produce that result.

That's why the Republican leaders have chained onto the minimum-wage increase the deadweight of an estate-tax revision bill like the one the House passed last month—a bill so badly flawed that it has already reached dead end in the other body. They know that the added weight will mean that even if this bill is launched from the House it will not fly, and will never reach the President's desk.

It's a cynical move. And it's a lost opportunity—because if the estate-tax part of this bill were good enough to give the package a long-shot chance of enactment, the bill would merit support.

But, like the version we passed last month, the estate-tax part of this bill does not have that chance, because it does not represent a true compromise. While benefiting only a very few—the very largest estates—it would irresponsibly reduce federal revenue at a time when the country is at war and the budget is already deeply in deficit. And to make matters worse, it includes unrelated provisions that are even less fiscally responsible, such as a special tax break for timber companies that would reopen a loophole that was closed when President Reagan signed the landmark Tax Reform Act of 1986.

My opposition to this bill does not mean I am opposed to reducing estate taxes. When the House considered the estate-tax bill last month, I supported an alternative that would have raised the amount of an estate excluded from taxes to $6 million per couple and increased this to $7 million by 2009. This not only would have provided relief for small businesses and family farmers, but it would have done so in a much more fiscally responsible way, because it would have reduced revenues by much less than this bill. It also would have simplified estate-tax planning for married couples, who could carry over any unused exemption to the surviving spouse and so assured that the full $7 million would be available.

Furthermore, that alternative would have transferred the revenue from the estate tax to strengthen the Social Security trust fund, a change that, according to the Social Security Actuary, would solve one quarter of the trust fund's shortfall.

If the Republican leadership allowed us to vote on that—even as an added burden on a bill to raise the minimum wage—I would vote for it. But they could not do that, because that kind of true compromise—a reasonable and responsible compromise that would have a good chance of approval in the Senate—would not fit their plan to use the estate tax as a weight to sink the minimum wage increase.

So, once again, I have no responsible choice but to oppose what the Republican leadership has put before us and to vote against this cynical maneuver disguised as a serious legislative proposal.

Mr. KING of Iowa. Mr. Speaker, there is no doubt that most of the provisions contained in H.R. 5970 are good for America. I am in complete agreement with those who argue that no American family should be forced to sell off their loved one's life work in order to pay the federal inheritance tax bill. I have always considered the Death Tax to be a scourge on America, and I will continue working to bring about the day when this destructive tax is permanently repealed. In addition, as one who believes that our federal income tax code should be replaced by a national sales tax, under most circumstances, I would eagerly support the many provisions of this bill that are aimed at reducing the burden of taxation on hard-working Americans. Unfortunately, however, these provisions were brought before us this evening in an attempt to compensate for, and distract attention from, a politically-motivated, economically nonsensical, and utterly unprincipled move to raise the federally-mandated minimum wage.

When we artificially raise wages, we will force small businesses to either hire fewer workers; shrink their labor force; transition to more efficient means of production, like automation; or simply close their doors altogether. The effect that this wage hike will have on the American worker is simple: it will price low-wage workers—the very people it is intended to help—out of the labor market.

Labor is a commodity like corn, beans, gold or oil, and its value should be established by supply and demand in the marketplace—not by congressional mandate. If it makes sense to legislate a minimum wage, it also makes sense to legislate a living wage. And, if it makes sense to legislate a living wage, it makes sense to simply legislate prosperity . Yet, if Congress passed a law that everyone had to make $1,000,000 a year, there would only be a handful of people with a job in this country.

Eliminating the Death Tax on small business owners stands on its own merit. But, adding inheritance tax reforms to a minimum wage mandate that will cripple small businesses is a losing proposition. While I am supportive of the provisions in this bill that will undoubtedly bring much needed relief to the American taxpayer, I would be doing my constituents and the people of this nation a great disservice if I attempted to use these "sweeteners" to force the poison pill of a minimum wage hike down the throats of America's small business owners.

Mr. PASCRELL. Mr. Speaker, I rise tonight appalled by the way Republican leadership has decided to turn against American workers by playing politics, instead of passing a clean minimum wage increase.

It is shameful that millions of Americans are suffering the economic injustice of working a full-time job and earning a wage that leaves them below the poverty line.

It is unconscionable that we stand here tonight debating provisions on the estate tax and the extension of expiring tax provisions. These provisions only serve as a political ploy to kill any increase to the minimum wage.

Working-class Americans have waited too long, close to a decade in fact, for an increase in the minimum wage. This has been the second longest period without a pay raise since the Federal minimum wage law was first enacted in 1938.

Over this last decade while the minimum wage has remained stagnant, the cost of basic necessities such as energy and healthcare have skyrocketed—meaning that the minimum wage is no longer a livable wage.

Today a minimum wage earner has to work a day and a half just to pay for a full tank of gas. That is simply shameful.

As Americans we have always been told that if you have a job, and you work hard, you will have a secure future in our Nation. Yet, millions of Americans who do have jobs and who do work hard everyday have joined the ranks of the "working poor."

In fact, the number of full-time year-round workers who are poor has more than doubled since the late 1970s.

Let there be no doubt, a vote to increase the minimum wage to $7.25/hour is a vote to alleviate poverty in America, and it is a vote to help eliminate the term "working poor" from our reality.

Members of this body should be allowed a straight up-or-down vote on legislation to raise the minimum wage to a true livable wage of $7.25/hour over the next 2 years.

But instead the Republican leadership here in the House of Representatives has chosen to play dirty politics and attach poison pill provisions to this legislation with the implicit expectation of killing a real minimum wage increase.

It is quite simply a slap in the face for working-class Americans.

Ms. MILLENDER-McDONALD. Mr. Speaker, I rise today in strong opposition to the House Republican minimum wage legislation which is not a clean bill. A clean bill would not have poison pills in it.

Mr. Speaker this is a sad day. The American people need our help. From coast to coast, the lowest paid Americans are clamoring for assistance as they struggle to live off of wages not suitable for this decade. It is obvious that an increase in the minimum wage is sadly overdue.

Unfortunately, when the majority finally provides the opportunity to vote on increasing the minimum wage, it comes to us bloated, filled with provisions harmful to the American worker and which ensure that this legislation is never enacted.

While it is unfortunate that the majority leadership has not seen fit to bring legislation to the floor that neither the American people nor most of my colleagues have had a chance to review, it is downright insulting that the legislation on the floor today was written knowing that it will never pass out of the Senate. This bill is dead on arrival in the Senate.

For the last two years, the Democrats have fought to increase the minimum wage. The effect of the last minimum wage increase in

1996–97 has been completely eroded by inflation, which, when factored in, the $5.15 minimum wage today is lower than the $4.25 minimum wage level before the 1996–97 increase. At the same time fuel prices have continued to skyrocket, housing prices are soaring and health care continues to be out of reach for those whose jobs do not provide it for them.

If the Democrat minimum wage initiative would come to the floor, an estimated 14.9 million workers would receive an increase in their hourly wage rate if the Democrat minimum wage were raised. Over half a million of these workers reside in my home State of California. But this Republican bill does not provide the minimum wage increase American workers need. It delays the increase and nullifies wage protections for tipped workers.

Mr. Speaker, in the almost 10 years since the last increase in the minimum wage, the purchasing power of the minimum wage has deteriorated by 20 percent and the value of the minimum wage is at its lowest level since 1955 when adjusted for inflation. This is clearly unacceptable. The American people need us more than ever. I urge my colleagues to only support a clean bill focused solely on the minimum wage and to vote against this Republican legislation in its current form.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker it has been almost 10 years since we've seen an increase in the Federal minimum wage.

Unfortunately, this bill here today is not about helping American workers.

The bill is full of poison pills—tax breaks for the wealthy and hand-outs for special interests.

This is nothing more than a backdoor attempt to put money in the pockets of the wealthiest among us.

We're playing politics and decent hardworking Americans are the ones paying the price.

The reality is that there are millions of workers trying to support their families on $5.15 per hour.

Each day millions of minimum wage workers are forced to choose between food, shelter, health care or clothing.

No American who works hard for a living should have to make those types of choices.

Mr. Speaker, it is time for a new direction that truly reflects our core American values.

These hardworking Americans deserve an up-or-down vote on a clean minimum wage bill.

Mr. UDALL of New Mexico. Mr. Speaker, for nearly a decade, millions of American workers have waited for an increase in the Federal minimum wage, but none has come. They have watched as the purchasing power of their paycheck has crumbled, giving way to inflation. Many are working families, struggling to make ends meet, yet for 9 years Congress has ignored them and refused to pass a clean, simple increase in the minimum wage.

Nearly 44 percent of minimum wage workers work full time, nearly two-thirds of whom are women. Even working full time, they often remain below the poverty line. They are unable to buy their own home, cannot afford health insurance for themselves and their children, and often take a second job just to pay the bills.

Mr. Speaker it is time to increase the Federal minimum wage. I strongly support implementing a 2-year plan that would increase the minimum wage from $5.15 an hour to $7.25 an hour. However, I also strongly support passing such legislation cleanly, without attachments of tax cuts, without attachment of controversial language or convoluted provisions. We must demonstrate that we support those American families, those who are wondering why they are working 50-hour work weeks yet cannot seem to make ends meet.

Ms. BORDALLO. Mr. Speaker, I rise today in strong support of providing American workers a living wage with which to support and improve their families' livelihoods. Those in America who receive the minimum wage for their labors are particularly vulnerable to experiencing greater financial pressures and a lower overall quality of life.

The national minimum wage has not been increased in 9 years and has not kept pace with household expenses. Raising the minimum wage will help lift many families on Guam out of poverty. An increase in the Federal minimum wage is long overdue, as evidenced by the recent actions taken by the Guam Legislature and the Governor to increase the local minimum wage.

Living wages help families ensure that their children receive proper nutrition, quality education, and good health care. These are essential to ensuring that children have happy, productive and healthy childhoods. Living wages earned by American workers also help American families realize important financial goals as well as improving, long-term financial well-being. Eliminating high-interest debt, achieving home ownership, and investing now for a child's future higher education costs and a parents' retirement, for instance, are goals more easily realized by workers who earn a living wage.

Americans have proven to be productive, innovative, and resourceful workers. Their wages should reflect this reality. A worker's wage represents his or her worth to an employer. But it also represents much more. Wages and salaries are the foundations upon which families are begun. Living wages and salaries provide the financial security under which those families can grow. A worker's wage or salary helps ensure his or her financial future. Receiving a living wage is well deserved by American workers.

Mr. SCHIFF. Mr. Speaker, I rise today to express my disappointment that once again the Members of this House appear poised to let another opportunity pass us by that would have a meaningful impact in the lives of millions of American families. Today, we are voting on a bill that has been rushed to this House floor and purports to raise the Federal minimum wage. In reality, however, the bill before us seeks to muddy the waters about whether America's lowest paid workers deserve to make a living wage.

In stark contrast to the bill before us today, Mr. MILLER, the ranking member of the House Committee on Education and the Workforce, has introduced very simple legislation that would increase the Federal minimum wage to $7.25 per hour over the course of the next 2 years. This bill was introduced in May of 2005 and has yet to receive a hearing.

The hastily drafted bill before us today, however, was only introduced earlier this afternoon, and the House leadership has brought it to the floor for a vote.

This legislation adds unrelated and controversial provisions, that I'm sure some hope will end the debate and ensure that a meaningful increase in our minimum wage never takes place. We should instead, be voting today on a straightforward bill that simply raises the Federal minimum wage to a level that ensures that working families can emerge from the grasp of poverty.

Before the House adjourns for the August recess, I believe we owe the American people a simple up-or-down vote on whether or not working Americans deserve a decent living wage.

The current minimum wage of $5.15 per hour is not a living wage. It is not a wage on which single individuals, working full time, can adequately support themselves, and it is most certainly not a wage on which a single mother or single father can raise a family.

Millions of hard-working Americans would directly benefit from a minimum wage increase. Some would argue that this would only benefit high school students and young adults who are being paid minimum wages on their first job at a fast food restaurant. In fact, more than 84 percent of workers who would directly benefit from a minimum wage increase are above the age of 20. In addition, nearly 60 percent of those individuals work full time, and 45 percent of them are married and/or have children.

They are the victims of our inaction, Mr. Speaker. In many cases, it is our children who will suffer. I am ashamed that nearly 36 million Americans live in poverty in our country, and that nearly 13 million of those who live below the poverty line are children. With a very simple vote today—on a very simple piece of legislation—we could dramatically increase the physical, mental, and financial wellbeing of countless American children. No one who works for a living should have to live in poverty, and the children of these working families must not be made to suffer for our collective lack of moral conviction.

I call on my friends on the other side of the aisle, and I ask them to partner with us to pass a meaningful increase in the Federal minimum wage. We must pass legislation that does not contain controversial provisions that divide us. Instead, we should speak with one voice, as one Congress, and tell working Americans that we value their work, that we understand their sacrifices, and that they deserve to make a living wage.

Ms. LEE. Mr. Speaker, tonight we should have had an opportunity to help lift 6.6 million Americans out of poverty by passing the first minimum wage increase in nearly a decade.

As it is, it's an absolute disgrace that the minimum wage has been stagnant at $5.15 since 1997.

Republican inaction has led to the fact that the minimum wage is at its lowest level in 50 years. In fact, if the minimum wage had just kept up with inflation since 1968, it would have been $8.88 in 2005. That is still, quite frankly, a pittance for what people need to live.

But this increase is in jeopardy by a cynical, political ploy on the part of the House Republican leadership.

Mr. Speaker, this sham minimum wage legislation contains "poison pills." Namely, the incorporation of the estate tax cut and further tax cut extensions into the minimum wage bill.

Even worse, under this sham Republican legislation 1.8 million workers will have to wait until June 2009 before the minimum wage reaches $7.25.

Once again, the Republican majority is proving how much contempt they have for the working families of America.

Mr. Speaker, Congress should be voting on a clean minimum wage bill that will provide a meaningful increase to working Americans. It's only fair.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 966, the bill is considered read and the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

Such present value shall be determined without regard to the requirements of paragraph (3) and using as a discount rate the average annual interest rate of tax-exempt obligations having a term of 10 years or more which are issued during the month. Mr. GEORGE MILLER of California (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. GEORGE MILLER of California. Mr. Speaker, there has been a lot of discussion and there appears to be almost unanimity in this Congress that we should be raising the minimum wage. But it also is very clear from this discussion that if we proceed with the bill that is before us offered by the majority in this House, that we will not accomplish transferring that legislation into the law of the land, because that legislation has very little chance of passing in the time remaining in this House.

We offer this motion to recommit because in this motion we offer the minimum wage, we offer the extenders that are present in the bill that is before us, and the provisions for coal mining. These are important, they are widely supported in the Congress; we voted on them many times, and they are important for all the reasons people cited here today. But, most importantly, it will allow us to have in effect an up-or-down vote on the minimum wage because it will not have the poison pill of the estate tax, all of the costs, all of the deficit that is created by that legislation. It will not bring that controversy to this chance, the first chance in 9 years to raise the minimum wage for those people working at the federally mandated minimum wage of $5.15 an hour.

We have now seen that many, many Members of this Congress have decided that that is no longer acceptable in this country, that we cannot mandate under Federal law that that is the minimum wage for these people. And so we have an opportunity to change it, but the only real opportunity to change it comes with the motion to recommit, where we can clean this legislation up, we can take the poison pill out, we can take the deficit spending out, we can take the privilege out of this legislation, and we can address the important priorities of this Nation.

That is what we should be doing at this point in this session of this Congress. That is what we should be doing at 5 minutes after 1 o'clock in the morning. We should be addressing the important priorities of this Nation, and we should do it in the manner that ensures, that almost guarantees the opportunity to pass the minimum wage so that these people can help to lift themselves out of poverty, help to be able to provide the wherewithal for their families, and be able to continue in their employment.

We don't have to go the route that the Republicans went with the minimum wage where these people have to wait another 18 months. We don't have to go through this business of taking away the wages from people who earn tips. We don't have to do any of that. We can have a clean minimum wage, we can have clean extenders, clean coal provisions, and we can go about our way and take care of the priorities of this Nation.

Mr. Speaker, I yield to the gentleman from New York.

Mr. RANGEL. I thank the gentleman from California.

For those who have been listening to this debate, you would notice that the Republicans have never talked about one part of this bill. I heard the distinguished chairman of the committee go through all of the things that he requested a "yes" for, and he never mentioned the giveaway for the rich in the estate tax repeal.

Everything that he talked about dealt with helping the poor folks get an increase in minimum wage. Well, that is the motion to recommit. I think he mentioned something, other people did, about helping the poor coal miners. That is here. I know he talked about the carefully skilled extension, the tax bills that expire, the extenders for that, and that is in it. And so since he didn't mention the estate tax repeal, a motion to recommit takes it away. And so we can all start reading from the same page and say this is like the Thomas-Rangel bill: it takes care of the poor that are working, the 6 million workers that deserve a pay increase. It takes care of the extenders that are so badly needed that takes care of a lot of kids and tax incentives for disadvantaged workers and school teachers and school renovations. And so it does a lot of these good things.

But how can we refuse to see, pardon the pun, the elephant in the living room? Because it is there, and that elephant is called estate tax repeal. And you can say it any way that you want; if you want to do the good things that are in this bill, package, if you will, you have got to buy that elephant. And we are saying that not all of us are prepared to do it. We can take care of those people who work every day and believe that this Congress should be there for them, not as Republicans, not as Democrats, but the Congress.

These people deserve better than waiting until after midnight and taking their destiny and tying it up with an $800 billion elephant to provide relief for the richest in this country. I urge you to support the motion to recommit tonight.

Mr. THOMAS. Mr. Speaker, I rise in opposition to the motion.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. THOMAS. Mr. Speaker, speaker after speaker after speaker on the other side of the aisle went in the well. What was the common plea? Give us a clean vote on minimum wage. Just give us a clean vote on minimum wage. You have got 169 pages here. They wrote it. They can't even write a motion to recommit that is a clean vote on the minimum wage. I am offended. And any other Member who is offended, vote "no" on the motion to recommit.

Mr. THOMAS. I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. RANGEL. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes, if ordered, on passage of H.R. 5970, and conference report on S. 250.

The vote was taken by electronic device, and there were—ayes 190, noes 220, not voting 23, as follows:

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC 20515,
July 27, 2006.

I hereby appoint the Honorable MAC THORNBERRY, the Honorable FRANK R. WOLF, and the Honorable TOM DAVIS to act as Speaker pro tempore to sign enrolled bills and joint resolutions through September 6, 2006.

THE MINIMUM WAGE

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, I want on the record today because of the raucous debate that we just had. For those who voted "no" on this bill dealing with the minimum wage, in the clarity of the lateness of the night, let me be very clear. I have voted for the minimum wage many times. In fact, Democrats have pressed this issue over and over again. But what should be clear is that the vote that was taken today will be a minimum wage that will be delayed. Whereas the Democratic bill would have started in September, this will not start until January, and it will not be effectuated until 2009.

This is bogus. This is insincere. This is not real. It can also be understood that I did not vote against the relief for my State of a sales tax, sales tax relief on Federal income tax. This bill will go nowhere. I will vote up or down on a minimum-wage increase and the sales tax relief for Texas.

I wish we had been able to bring up H. Res. 945 to bring relief to the Lebanese and humanitarian aid but, of course, we end today and tonight without doing our job.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BACA (at the request of Ms. PELOSI) for today.

Mr. LEWIS of Georgia (at the request of Ms. PELOSI) for today on account of a death in the family.

Mr. STARK (at the request of Ms. PELOSI) for today on account of urgent family matters.

Mr. BILIRAKIS (at the request of Mr. BOEHNER) for today and the balance of the week on account of a family wedding.

Mr. COBLE (at the request of Mr. BOEHNER) for today on account of commitments in the district.

Mrs. NORTHUP (at the request of Mr. BOEHNER) for today and July 29 on account of personal reasons.

ADJOURNMENT

Mr. CANNON. Mr. Speaker, pursuant to the order of the House of today, I move that the House do now adjourn.

The motion was agreed to.

The SPEAKER pro tempore. Accordingly, pursuant to the previous order of the House of today, the House stands adjourned until 11 a.m. on Wednesday, August 2, 2006, unless it sooner has received a message from the Senate transmitting its adoption of House Concurrent Resolution 459, in which case the House shall stand adjourned pursuant to that concurrent resolution.

EXTENSIONS OF REMARKS

PAYING TRIBUTE TO LAWRENCE "JAKE" JACOBSEN

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor the life of former Nevada State Senator Lawrence "Jake" Jacobsen, who passed away on Wednesday, July 26, 2006.

Jake, who made his home in Minden, NV, retired from the legislature in 2002 as the longest-serving legislator in Nevada history, having served 16 years in the Assembly and 24 in the Senate. Over his long and distinguished career, Jake must have been proudest of his work on behalf of the state's veterans and the Department of Corrections honor camp system, and his fight for preservation of the Stewart Indian School and Marlette Lake. Jake was also a volunteer firefighter in Carson Valley for more than 50 years, and has fought several fires side-by-side with Forest Service personnel. As president of the Minden Engine Company for 25 years and a lawmaker for 40 years, Jake has supported firefighting and preserved funding for fire crews.

Mr. Speaker, I am proud to honor the life of former state Senator Lawrence "Jake" Jacobsen. In his long and distinguished career as a legislator in the State Senate he touched countless lives. He was a good friend, one whom I had the pleasure of serving with for 8 years. He will be greatly missed by all the citizens of Nevada.

THE AVAILABILITY OF AVIAN FLU RESEARCH DATA

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I sent the attached letter along with my colleagues to the Secretary of Health and Human Services regarding avian flu data on July 6, 2006.

CONGRESS OF THE UNITED STATES,
Washington, DC, July 6, 2006.

Mr. MIKE LEAVITT,
Secretary, Department of Health and Human Services, Washington, DC.

DEAR SECRETARY LEAVITT: As the looming threat of a pandemic flu continues, the need to take cost effective and time-saving steps to boost our capacity and response speed is vital. The free flow of information, in particular, can accelerate research, and the development of vaccines, saving lives. In the case of Avian Flu, the very properties we fear the most—the ease with which the virus is transmitted and its ability to kill its host—are encoded in the virus' genome. Yet the genetic sequences are currently only immediately available to a select group of researchers, a practice which is hampering and delaying our ability to respond to the threat of the pandemic influenza. We will need as many scientific eyes as possible examining the problem.

Though an adequate response to a future pandemic will require the cooperation of all involved countries, the US should show leadership commensurate with its expertise and wealth. We therefore applaud your request of the World Health Assembly, the decision making body of the World Health Organization, that they "pledge with me to abide by four principles of pandemic preparedness: Transparency, rapid reporting, data sharing, and scientific cooperation."

We ask that you set these principles into motion by requiring data from HHS-funded research on avian influenza and genetic sequences, in particular, to be promptly deposited in a publicly accessible repository such as GenBank, the sequence database of the National Institutes of Health. Researchers for the Human Genome Project published their sequences in a public database within 24 hours. Calls for the immediate deposition of sequence data have come from some of the most renowned scientists in the world in the field of avian influenza.

Some scientists and countries are reluctant to release their genetic and clinical data for fear of loss of scientific credit or that the information will be used to create a technology, such as a vaccine, that will then be priced out of their reach. In particular, certain countries are refusing to release their sequences. Unfortunately, those countries are reported to include several current or past hot spots for H5N1. These concerns can be satisfied. There are already public databases holding tens of thousands of genetic sequences that have intellectual property protections in place to prevent just such problems. While many countries may have policies in place to prevent the open sharing of such information, stressing the importance of rapid response worldwide is vital.

In the event of a pandemic, the public will need to be able to trust that their government and scientists are acting with the transparency, speed and cooperation you requested. The United States can take this opportunity to take on a critical leadership role.

Sincerely,

Dennis J. Kucinich, Sheila Jackson-Lee, Jim McDermott, John Conyers, Jr., Wayne T. Gilchrest, Tammy Baldwin, Diana DeGette, Ellen O. Tauscher, Lynn C. Woolsey, John W. Olver, Major R. Owens, Barbara Lee, Dale E. Kildee, William J. Jefferson, Madeleine Z. Bordallo, Bernie Sanders.

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

HONORING CHANNEL LOGISTICS, LLC

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. ANDREWS. Mr. Speaker, I rise today to commend and honor Channel Logistics, LLC for their recent achievement in maritime domain and seaport security.

On April 1, 2006, the Institute of Electrical and Electronic Engineers presented their Annual Corporate Innovation Award to Channel Logistics, LLC during the Institute's annual awards dinner in Philadelphia. The award recognizes the company's development of the Computer Assisted Threat Evaluation System. This system evaluates potential maritime and port security threats among ships, crew and cargo entering our ports. It is able to evaluate threats by analyzing information contained within maritime databases through the processes of data fusion, pattern and choke point mapping.

This technology plays an important role in uncovering possible terrorist threats to our vulnerable maritime and port infrastructures. I am proud that Camden, NJ-based Channel Logistics, LLC is a leader in developing innovative technologies designed to secure our country and ports, and I congratulate them on receiving the IEEE's distinguished Annual Corporate Innovation Award.

HONORING BOB BRAUER

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. LEE. Mr. Speaker, I rise today to honor the extraordinary life and work of Robert Brauer of Berkeley, CA. A visionary and courageous public servant, Bob has dedicated his life to serving his community and his country. Bob's unwavering commitment to social justice has inspired me and many others to dedicate our lives to this struggle, and has impacted the lives of countless others in California's 9th Congressional District and across our country. This month Bob "retires" after a lifetime of working for the advancement of a more just and equitable society for us all, and today I join our entire community in saluting him for his public exemplary service.

Bob's dedication to public service has been evident since he was a young adult. After graduating in 1960 from the University of California, Berkeley, where he met his wife Penny,

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Bob was commissioned as a Second Lieutenant in the United States Air Force. He was stationed in El Paso, TX, in the Strategic Air Command, and served there until 1963 when he left the Air Force as a Captain.

Upon completion of his service in the Air Force, Bob and his family, which by then included his wife, a son, and two young daughters, returned to Berkeley, CA, where he began a new job as an Assistant Personnel Officer at Wells Fargo Bank, where he was an integral part of Wells Fargo's participation in the industry-wide effort in California to integrate women and minorities into parts of the workforce in which they were dramatically underrepresented.

Following that job, Bob became the Skills Bank Director for the Bay Area Urban League, a role in which he was responsible for creating job opportunities for and placing minorities in jobs that had historically been inaccessible to them. During this time, Bob was also very active in civic and political affairs, serving in leadership positions in a number of local organizations, and with his wife Penny, he was very active in local political campaigns. Bob was appointed to the Recreation and Parks Commission by then-Berkeley City Council member Ron Dellums, and around that time he was also named as President of the Catholic Interracial Council of the Diocese of Oakland. He and his wife continued their activism in the farm workers' and civil rights struggles, the anti-Vietnam War movement and other local issues related to the ongoing fight for social justice.

In 1969, Bob became the Regional Director of the Office of Federal Contract Compliance (OFCC), Department of Labor, and soon became the OFCC Assistant Director in Washington, DC. In this role he helped to develop the national plan to integrate the construction trades, as well as the Philadelphia Plan's goals and timetables for women and minorities. Bob and his family, which by that time had grown considerably, moved to Bethesda, MD.

In 1971, the Secretary of Labor nominated Bob and the American Political Science Association (APSA) selected him to be an APSA Congressional Fellow, and he spent the next year working in the office of his friend, the newly elected Congressman Ron Dellums of California's then 7th District. At the end of his fellowship he left the Department of Labor and joined Mr. Dellums' staff.

This marked the beginning of what would become more than two decades of distinguished service to California's now-9th Congressional District and to our country. Bob would serve as Special Counsel to Congressman Dellums and for the House District of Columbia Committee during Mr. Dellums chairmanship. In 1993, Bob became a Senior Professional Staff Member on the House Armed Services Committee when Mr. Dellums became the HASC Chairman.

Bob was an integral part not only of the personal office and Committee staffs, but he played a major role in supporting Mr. Dellums' many policy initiatives during those years. At the DC Committee, Bob helped implement bold initiatives to use the Committee as a vehicle for promulgating solutions to some of the District's, and the Nation's, most important urban problems: mass transportation, pension reform, health care and infant mortality and education reform, among others. Among his most notable activities were his work on the investigation of the U.S. Intelligence Community undertaken by the Pike Select Committee, the successful authorization of the 50-foot federal channel dredging project at the Port of Oakland, and the construction of the Ronald V. Dellums Federal Building in Oakland. Bob was also centrally involved in the drafting and passage of Mr. Dellums' incredibly important anti-apartheid bill in the House of Representatives in the 1980s, a bill which became law over the veto of then-President Reagan. Throughout his time in Washington, Bob was also actively involved in international human rights issues, traveling as a peace observer several times to wartorn countries in Central America in the 1970s and 1980s, at the risk of his own life. On the HASC staff he played a significant role in maintaining Mr. Dellums' excellent working relationships with both sides of the aisle and assisting Mr. Dellums to accomplish one of the House's most exemplary chairmanships.

I met Bob during his early years in Congressman Dellums' personal office. I was then an intern for Congressman Dellums. I will never forget the way he supported and guided me, and helped me to not only become engaged in politics and policy, but also to become an effective advocate for social justice. For over 30 years, Bob has been a willing mentor, an advisor, a teacher and a friend, and serving the 9th Congressional District and our country alongside him has been and continues to be a great honor.

Bob worked for Congressman Dellums until the end of 1996. In 1997, Bob became Special Assistant to the President of California State University, Hayward, where he played a crucial role in the sizeable structural improvements, enrollment increases, and expansion of that campus into a leading institution in our state. During that time he has also continued to serve our community in numerous other roles, such as a volunteer Board member of the Chabot Observatory and Science Center, where he was responsible for raising close to $60 million to build a new facility in Oakland.

Bob recently retired from the renamed CSU East Bay, and today I would like to add my voice to the countless others that are expressing their congratulations and their gratitude to this extraordinary individual for his tireless work and ceaseless advocacy for social justice and equality of opportunity in the United States and around the world. On behalf of California's 9th Congressional District, I am humbled to honor Bob Brauer for his extraordinary service to our community, and to wish him the very best as he begins the next chapter in his life of conviction, character, and integrity.

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. GRAVES. Mr. Speaker, I proudly pause to recognize Mrs. Della Hoerl Huecker of Booneville, MO. As a long time citizen of Bunceton, MO, and then Booneville, Mrs. Byrd will be celebrating her 90th birthday on August 14, 2006. She has seen many events over the past 90 years and awoke each day with a strong sense of family and community that improved the lives of everyone she has touched. Her life should be celebrated with the same joy and excitement in which she gives back to our community.

Mr. Speaker, I proudly ask you to join me in recognizing Mrs. Della Hoerl Huecker. Throughout her 90 years, she has always given back more than was expected of her. Her life is an inspiration to many and I am proud to serve her in the United States Congress.

PAYING TRIBUTE TO CHAD CHRISTOFFERSON

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to pay tribute to Chad Christofferson, who has served my office—and more importantly, the American people—with distinction for the past 2 years.

Chad started in my office as a legislative correspondent in 2004. His organizational skills and ability to effectively respond to constituent concerns earned him a promotion the following year to the legislative staff of the U.S. House Subcommittee on the Federal Workforce and Agency Organization, which I chair.

In his current role, Chad has worked on many issues, but particularly of note, he has become one of our lead staffers on the Subcommittee's health initiatives. He has gained respect among leaders of the healthcare community by his quick grasp and thorough knowledge of complex health information technology matters that have gone into crafting the Federal Family Health Information Technology Act, a bill I introduced giving Federal employees electronic access to their own health records maintained under the Federal Employee Health Benefits Program. This legislation has a simple goal—to save lives by reducing medical errors.

Chad's work has been exemplary, and he is driven by personal devotion to integrity and public service. In fact, it is his commitment to improving the lives of others and his work on our health information technology legislation that led to his recent decision to pursue a career in medicine. And so, Chad is heading home to Utah, where this fall he will enroll in the school of pharmacology at Brigham Young University.

I have spoken of Chad's dedication and professionalism, which by themselves are deserving of thanks and recognition. He will continue to be a servant to others by fighting disease and illness, and, in so doing will reaffirm the values that make America the land of hope and opportunity to the world. I wish him Godspeed.

THE RESEARCH AGENDA FOR NIEHS

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I sent the attached letter along with my colleagues to the Director of the National Institutes of Environmental Health Sciences regarding environmental health research on July 11, 2006.

CONGRESS OF THE UNITED STATES,
Washington, DC, July 11, 2006.

Dr. DAVID A. SCHWARTZ,
Director, National Institute of Environmental Health Sciences,
Research Triangle Park, NC.

DEAR DR. SCHWARTZ: We are writing to encourage you to ensure the continued focus of the National Institute for Environmental Health Sciences (NIEHS) on preventable health risks associated with environmental sources and exposures, as you develop a program of greater relevance to human disease. An emphasis on discovering the role of environmental exposures in human health, disease, and disabilities will increase the importance of your proposed "roadmap" for NIEHS. We look forward to the future support and growth of the following established initiatives:

RESEARCH ON COMMUNITY HEALTH AND ENVIRONMENT

Environmental exposures, and often diseases, occur with disproportionate impact on the health and well-being of local communities, particularly those already impacted by other risk factors for health disparities. Thus, continuing the focus of NIEHS support for community-based research will serve the health needs of the American public. It will also contribute to increased knowledge of acquired factors in complex situations involving other preventable risks that too often track with economic and political inequalities. The men, women, and children of unfairly impacted communities often must work, live, play, and attend school in environments that are contaminated at levels that exceed national averages, and sometimes even exceed legal limits, but often lack the resources to initiate scientific investigations. NIEHS research and outreach provides critical data that supports strategies to prevent or treat disease and disabilities among these communities, as well as regulatory action to identify contamination sources for targeted clean up.

RESEARCH ON CHILDREN'S HEALTH AND ENVIRONMENT

Chronic diseases that show up later in life are frequently the result of preventable environmental exposures to pesticides, air pollution, and many other exposures that occur early in life. For this reason, continued support for research programs focused on children's health and environmental contaminants is a priority for our constituents and for the future of America's health. Examples of this kind of research currently supported by NIEHS include: pesticide impacts on cancer and brain development among children of agriculture communities; air pollution impacts on asthma and allergies among inner city children; and, industrial pollution impacts on learning and behavior among school children.

TIMELY AND COMPLETE REPORT ON CARCINOGENS

In order to efficiently manage environmental health risks like chemicals, we must have accurate information on their toxicity. The Report on Carcinogens (RoC) is a biannual, congressionally mandated report that scientifically evaluates the scientific evidence to compile a list of all substances known or suspected to cause human cancers and to which Americans are exposed. The RoC is a reference standard for the private sector, for certain legislation, and is even used overseas as an authoritative text on carcinogens. The timely release of this critical Report is a priority for state and federal regulators, for international regulatory bodies, for communities, and for Members of Congress.

Sustaining these strategic initiatives in connection with your new initiatives will contribute to the success of new research directions at NIEHS, and ensure that research findings on environmental factors are fully translated into protecting public health. We look forward to working with you to properly fund and support these programs.

Sincerely,

Dennis. J. Kucinich.
Louis Capps.
Rush Holt.
Bart Gordon.
Barbara Lee.
James E. Clyburn.

RECOGNIZING JONATHAN LOWERY

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. GRAVES. Mr. Speaker, I proudly pause to recognize Jonathan Lowery of Pattonsburg, Missouri. Over the past few months, Jonathan has served as my office intern. In aiding the day to day operations of the office, he has worked with enthusiasm and dedication. His efforts to represent my office have been commended by both my staff and our constituents.

As a student at Northwest Missouri State University, Jonathan has been pursuing a degree in Political Science with a minor in Public Administration and came to Washington, DC, this summer through the Stennis Congressional Intern Program. His ambition and interest in politics and government have been evident from the day he started his internship. He has a true commitment to the workings of government and his enthusiasm in helping the people of the 6th District is something to be admired.

Mr. Speaker, I proudly ask you to join me in recognizing Jonathan Lowery. He has been great to have in the office and his efforts are much appreciated. I wish him the best and that his future ambitions in the law and public service will be fulfilled. He will certainly be missed and I would like to ask the House of Representatives to join me in thanking him for all of his hard work and dedication. I am honored to represent him in the United States Congress.

H.J. RES. 88, THE "MARRIAGE PROTECTION AMENDMENT"

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. MOORE of Kansas. Mr. Speaker, on July 18, 2006, I voted against passage of H.J. Res. 88, a constitutional amendment to bar same-sex marriages.

The text of H.J. Res. 88, the Marriage Protection Amendment, reads as follows: "Marriage in the United States shall consist solely of the union of a man and a woman. Neither this Constitution or the constitution of any state, shall be construed to require that marriage or the legal incidents thereof be conferred upon any union other than the union of a man and a woman."

Marriage and family law have traditionally been regulated by state, rather than federal, laws. Current federal law, as well as some state laws, already prohibits federal recognition of same-sex marriage. Further, in 1996, President Clinton signed the Defense of Marriage Act, DOMA, which prohibits federal recognition of same-sex marriages and allows individual states to refuse to recognize such marriages performed in other states.

Some believe the Marriage Protection Amendment is necessary to strengthen the institution of marriage. While the amendment's supporters claim that it simply would remove the issue of same sex marriage from the courts, the text of the amendment also would remove decision making authority from Congress and state legislatures, where marriage and family law have traditionally been regulated.

My personal belief is that marriage is a union between a man and a woman, but that the regulation of marriage should be left to the states.

In 2004, Vice President DICK CHENEY spoke on the subject of a constitutional marriage amendment during a campaign appearance in Davenport, Iowa, when he said: The question that comes up with the issue of marriage is what kind of official sanction or approval is going to be granted by government? Historically, that's been a relationship that has been handled by the states. The states have made that fundamental decision of what constitutes a marriage. He also went on to say that with respect to the question of relationships, my general view is freedom means freedom for everyone.

I agree with Vice President CHENEY's remarks, and voted against the Marriage Protection Amendment on the House floor. This amendment would break sharply from our nation's commitment to, and constitutional tradition of, protecting individual rights. The truth is—and the proponents of this Amendment know it—there was not any chance for this to become a Constitutional Amendment. Just last month the Senate refused to pass it! The House Amendment was simply another effort by certain people to advance their political agenda. I support equal rights for all Americans. I am committed to a nation in which all Americans can share equally in the protections of the law.

IN HONOR OF MARTHA LOIS McGINNIS CAMERON NORTON

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. FARR. Mr. Speaker, I rise today to honor the achievements and promise of Martha Lois McGinnis Cameron Norton, or just simply Martha. I have known Martha much of my life as the "go to woman" in local elections. She is one of those Americans who embodies the meaning of the word citizenship; who works always to strengthen the quality of our democracy. Martha was born in Washington, Iowa, in 1922. She grew up on a farm and spent her childhood raising corn, tending hogs, and seeing to all the other chores of an Iowa farm girl. But being from Washington, she had politics in her blood. As a child she saw both President Hoover and Governor Roosevelt speak during the 1932 presidential campaign. Four years later she worked her first of many campaigns when she helped reelect President Roosevelt.

While Martha built a remarkable professional career as a research scientist and educator, it is her relentless political activism that I wish to focus on today. That activism began in earnest in 1946 when Martha joined a local campaign to save San Francisco's landmark cable car system. In 1956, she worked to reelect President Eisenhower. In 1959, she helped run her father's successful write-in campaign to become Mayor of her hometown.

In 1962 Martha moved to Monterey and hasn't stopped since. She soon worked on a variety of local races, including several of my father's, who was then serving in the California State Senate. In the late '60s, she worked on the coastal protection campaign that culminated in the voters 1972 adoption of the landmark Coastal Act. That same year Martha became a Democrat. As a young woman, she registered Republican on the advice of her mother who said that it was the Republicans who secured the vote for women. But she had become disenchanted with the direction that the Republican Party had taken, especially in civil rights, and followed Leon Panetta in making the switch.

In 1976, Martha worked as a precinct walker in Leon Panetta's successful race against Congressman Burt Talcott. She also worked on Jimmy Carter's presidential campaign, coordinating more than 100 volunteers from their teens into their 70s. In the '80s, she helped elect two pivotal Monterey County Supervisors, Sam Karas and Karin Strasser Kauffman. In 1996 she volunteered once again for Karin, in her primary race for the local state Assembly seat. While Karin lost the race, Martha felt that democrat Fred Keeley went on to be a great Assemblymember. And all along, Martha was instrumental in my own campaigns for local, state, and federal office.

Martha truly is the tireless volunteer. In addition to her campaign work, Martha has devoted countless hours to many different boards, commissions, and other community organizations, including the MPUSD school board, the Highway 68 committee, the Toxic Waste committee for Fort Ord, several League of Women Voters committees, and local Democratic committees and clubs. Martha also served several stints as the President of the Peninsula Women's Democratic Club. She has worked tirelessly over the years to register voters and encourage participation in the political process. And it is this grass roots commitment to making democracy work that deserves the attention of this House because it is the people like Martha across this country that keep our democracy alive and well.

CONGRATULATING MELISSA BROWN—SELECTED AS GRAND PRIZE WINNER IN OLIVE GARDEN'S NATIONAL ESSAY CONTEST

HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. WELDON of Pennsylvania. Mr. Speaker, I am proud today to insert into the CONGRESSIONAL RECORD a winning essay written by a very special constituent, 10th grade student Melissa Brown, a resident of Broomall, Pennsylvania.

Melissa's essay was chosen from nearly 11,000 entries written by students in first through 12th grade who were asked to "describe how a person or experience has made an important impact on your life."

In her essay, Melissa describes the many lessons she has learned from her brother, Josh. Her words are not only inspirational, but powerful in a message we can all take to heart. This young writer captures what family means for so many of us—love, acceptance and learning from one another. The text of her essay follows:

When people are asked, who has influenced you most in your life, most have to think about it. For me, I could answer that question in less than a second. My little brother Josh, without a doubt, has influenced me more than anyone.

Josh has Down Syndrome, which is a genetic disorder. It makes him do some things a little slower than most kids his age. But Josh is an exceptional child. He is extremely smart. He knows every little detail about every single animal, ever. He loves collecting anything that is long and skinny and giving them names and personalities. His memory is amazing and he learned all his letters, and some words, by the time he was 2 years old. He also reads fluently and does well in school. He has overcome many obstacles to really be a success.

Josh is the most loving and open person you will ever meet. He greets you with a smile that lights up a room. Josh isn't like most people who look at your appearance and judge you by that. He looks straight into your heart and will open his arms to you.

Living with Josh has taught me numerous things. The main thing he's taught me is to not judge a book by its cover. I need to look inside a person and find out what they're like inside before I make assumptions. Josh has made me sensitive to people that are less fortunate than I am. I realize I've been blessed and need to share that with others who need it. He's taught me that when I see people who are different, I shouldn't stare but should smile at them. One little smile can make a person's day. I've also learned not take life so seriously. Josh is one of those people who finds pleasure in little things. So I need to be able to find the good things in life and take pleasure in little things.

When people first see Josh, they may think that he looks weird or that he's just a little brother. Well, he's neither of those. He is an adorable little 11-year-old who is bounding with energy and love. He also is the one who makes me laugh, gives me support and is my best friend. I tell people that he is the person who has inspired me most in my life.

PAYING TRIBUTE TO PATRICIA GROW

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor Patricia Grow for her years of service as a high school teacher and Family, Career, and Community Leaders of America advisor.

Patricia earned a Bachelor's Degree in Homemaking Education from Utah State University, and then a Master's in Occupational Administration at Northern Arizona University. After graduating, she moved to Overton, Nevada, and began her teaching career as a substitute. She continued substitute teaching for eight years until she became the full-time Home Economics teacher at Moapa Valley High School.

For the past thirty years, Patricia has educated high school students and advised her chapter of the Family, Career, and Community Leaders of America, FCCLA. Patricia followed the growth of the community from the old high school to the new one, and, upon the expansion of the Home Economics program, she became the instructor for the Independent Living and Child Development and the Fashion and Quilting courses. Her hard work has been instrumental in bringing the program's courses to full enrollment.

Patricia has won a number of awards for her service to students, including Outstanding Service to Vocational Education in 1986, Outstanding Faculty for 1992–1993, the Nevada Vocational Association Award of Service in 1996, and Educator of the Year for 1999–2000. She is retiring this year after three decades of teaching.

Mr. Speaker, I am proud to honor Patricia Grow for her years of service as an educator in Nevada. Education is truly an admirable career, and I commend her dedication to Nevada's youth. I wish her all the best in her retirement.

CLIMATE CHANGE: UNDERSTANDING THE DEGREE OF THE PROBLEM?

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I made the attached statement in the House Government

Reform Committee regarding global warming on July 20, 2006.

STATEMENT OF REPRESENTATIVE DENNIS J. KUCINICH, U.S. HOUSE OF REPRESENTATIVES, GOVERNMENT REFORM COMMITTEE

Thank you, Mr. Chairman, for calling this important hearing on Climate Change, the first such substantive hearing in the House in recent memory. If we are to successfully deal with global warming, it cannot be a partisan issue. It will require our full attention and an inestimable share of our resources, which requires united leadership. This hearing, therefore, is a major step in the right direction. However, I was disappointed to hear the Administration's testimony today which is decidedly partisan. Indeed it continues to try to put a happy face on bad policies and take credit for work it has not done.

A good place to start is the Administration's claim to have reduced greenhouse gas "intensity" during its tenure. Efficiency gains make the "intensity" go down anyway. Moreover, this deceptive rhetorical device diverts attention from its failure to set a goal for greenhouse gas emissions reductions that is consistent with that which is justified by the current science. California has done so, calling for an 80 percent reduction. Holland is now cutting emissions by 80 percent in 40 years. Tony Blair has committed the UK to cutting emissions by 60 percent in 50 years. Germany has obligated itself to cuts of 50 percent in 50 years. Several months ago, French President Chirac called on the entire industrial world to cut emissions 75 percent by 2050.

In fact, this is only one of the instances in which this Administration has thumbed its nose at the international community. There is not only an unwillingness to move forward with substantive action on global warming, there is active resistance, and, in fact, bullying of other countries. The Administration started by walking away from the Kyoto protocol. I was in Johannesburg for the World Summit on Sustainable Development in 2002. Nothing of significance from the U.S. I went to Buenos Aires for the Conference of the Parties in 2004. Nothing of significance from the U.S. In Montreal, Harlan Watson walked out of negotiations in what was perceived in international media as a tantrum when the Administration didn't get its way. There was an agreement in the G8 that the U.S. re-engage on the issue. It did not happen.

Instead, we see not only rhetorical red herrings, but we see Enron accounting techniques being used to create the illusion that something is being done. The GAO released a report in August 2005 called Climate Change; Federal Reports on Climate Change Funding Should Be Clearer and More Complete. This report listed suspect activities claimed by the OMB as spending on global warming, including such efforts as the "Andean Counterdrug Initiative."

Making matters worse, the Administration advocates for dealing with global warming by advocating for nuclear power. Nuclear power has been shown to be greenhouse gas intensive, it is far less cost effective than renewables, far less polluting than renewables, and facilitates further proliferation of nuclear weapons materials. We are trading our addiction to oil and all the problems that go with it, for nuclear power and a whole new set of equally pernicious problems that go with it, when common sense alternatives are readily available or within our reach.

In the meantime, it is becoming increasingly clear that the effects of global warming are already being felt. The United Nations has declared that at least 5 million cases of illness and more than 150,000 deaths every year are attributable to global warming. The 2003 European heat wave killed over 20,000 people. The 10 hottest years on record have occurred in the last 15 years. Two consecutive record-breaking hurricane seasons.

Exactly how bad does it have to get?

IN MEMORY OF ARMY CAPTAIN BLAKE H. RUSSELL

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. GRANGER. Mr. Speaker, I rise today to honor the courage of a young hero from my district. On July 22, 2006, the Department of Defense declared that Army Captain Blake H. Russell (United States Army, Headquarters Company, 1st Battalion, 502nd Infantry Regiment, 101st Airborne Division) died from injuries that he suffered from an explosion while investigating a possible weapons cache in Baghdad, Iraq. Russell enlisted in the Navy in 1989 after graduating from Fort Worth Boswell High School. After completing his Navy obligations, Russell enrolled at Texas A&M University and upon graduation, he joined the Army.

His family describes Russell as a soldier who professed that he chose the military profession so "he could fight the bad guys over there so (his son) could be safe here."

Russell served with distinction during his military career which included two tours in Iraq. In the Navy, Russell served as an antisubmarine warfare specialist as well as a Navy search and rescue team member. He joined the Army after graduating from Texas A&M in 1998. Prior to the Iraq war, he was an aide to an Army general. During his initial tour in Iraq, Russell served with the 4th Infantry Division in the Al Anbar Province. He joined the 101st Airborne Division, based in Fort Campbell, KY, in March 2005. He was serving as a field artillery officer during his last tour in Iraq and was actively involved in military operations in the Baghdad area. His earned the Bronze Star and the Purple Heart during his military career.

The American people know the sacrifices Russell made to his country and his service will not be in vain. I am proud to honor Captain Russell's service to the United States of America. He will not be forgotten.

TRIBUTE TO PFC. KRISTIAN MENCHACA

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. CUELLAR. Mr. Speaker, I rise today to honor Army Pfc. Kristian Menchaca, of the 101st Airborne of the United States Army, who was kidnapped and murdered by Iraqi insurgents on June 16th in Yusufiyah, Iraq.

Army Pfc. Kristian Menchaca was born on May 29th, 1983, in Houston, TX, and moved to Brownsville with his mother, Maria Guadalupe Vasquez, when he was a young boy. He attended Gary Job Corps center in San Marcos, TX, where he completed the correctional officers training program in six months and earned a certificate. He married his wife, Christina, three weeks before he joined the United States Army with the goal of using his military experience to become a Border Patrol agent. Pfc. Menchaca will be forever remembered for his service in protecting the freedoms and ideals of our country and I extend my condolences to his family, and to his wife, Christina.

Mr. Speaker, I am honored to have had this time to recognize the service of Pfc. Kristian Menchaca in the United States Army.

HONORING JACKIE DOLLAR HARRISON, DIRECTOR OF CHILD START, INC.

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize the extraordinary career of Jackie Dollar Harrison on the occasion of her retirement as Director of Child Start, Inc., a Head Start program for Napa and Solano counties. Over the last 25 years, Jackie Harrison's commitment to broadening service and reaching out to communities has developed the program into one of the most respected early childhood educational programs in the country.

Mrs. Harrison was born in St. Louis, MO, but grew up in Los Angeles, where she earned a Bachelors degree from Mt. Saint Mary's College and then her Masters from the University of Southern California. The Watts riots in 1965 devastated chronically impoverished areas in southern Los Angeles; these riots were blamed on a lack of education and opportunity. Mrs. Harrison's first job in a long career of serving the under-served was as a pre-school teacher and curriculum specialist in the areas most impacted by rioting. Her work with marginalized and under-represented groups continued as a special education teacher serving children with autism and other learning disabilities in central Los Angeles.

Mr. Speaker, when Jackie Harrison arrived in the Napa Valley to direct the child care program, things began to change. The development of a Head Start program, new pre- and post-natal care efforts, and expansion into Solano County were direct results of Jackie's aggressive leadership. In 2000, Jackie led the innovative conversion of Napa-Solano Head Start into an independent non-profit corporation, which now operates as a nationally recognized model for others to follow. Jackie has emphasized kids' education not only through the programs, but has worked with parents and other community organizations to ensure that learning continues in the home.

Mrs. Harrison once said, "Anything about me, I want to be about the program." Mr. Speaker, by that measure, 2005 was an extraordinarily good year. Child Start, Inc. was recognized as one of the 40 top programs of its kind in the nation, it was the "Distinguished Program" recipient for California, it received a national "Program of Achievement Award", and Jackie herself was recognized with a "Lifetime Achievement Award" from the National Head Start foundation. These testaments to the success of her program are a well-deserved acknowledgement of Jackie's vision in transforming children's education and opportunities in the Napa Valley.

Mrs. Harrison has been an active leader for the Napa Valley and the State of California, sitting on boards and helping direct the development of organizations that support the welfare of those whose voices are so often drowned out in our society.

Mr. Speaker, it is appropriate at this time that we recognize Jackie Dollar Harrison for her remarkable achievements in a career distinguished by visionary and aggressive leadership for the welfare of our nation's children.

TRIBUTE TO THE D.J. JACOBETTI HOME FOR VETERANS

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. STUPAK. Mr. Speaker, I rise today to pay tribute to an institution in my district that serves those who have served the rest of us. The D.J. Jacobetti Home for Veterans in Marquette, MI, is celebrating its 25th Anniversary Rededication next month. My district is home to more veterans than any other Congressional District in Michigan. As such, the D.J. Jacobetti Home for Veterans has been indispensable to many of my constituents.

The D.J. Jacobetti Home for Veterans was rededicated in 1981 and was named after Dominic J. Jacobetti, the longstanding Chair of the Michigan House of Representatives Appropriations Committee. Representative Jacobetti was widely acknowledged as an effective advocate for veterans and for all of northern Michigan.

Before this important facility was established in Michigan's Upper Peninsula (U.P.), the only places for a U.P. veteran to go for long-term care were Michigan's Lower Peninsula or Wisconsin. Only after veterans organizations in the Upper Peninsula advocated for and requested this facility did the state of Michigan, with help from the Federal Government, establish the Jacobetti Home for Veterans. With the establishment of the Jacobetti Home for Veterans, Michigan became one of the first states to have two full-service, long-term care facilities for veterans.

It is important to note that the Jacobetti Home prides itself on truly being a home, not just a long-term care facility. The fact that the Jacobetti Home refers to its residents as "members" reflects the philosophy that has guided the Jacobetti Home over the last 25 years. The staff of the Jacobetti Home does not refer to residents as "patients" or "guests," but as "members," a title that underscores that residents of the Jacobetti Home for Veterans truly belong to a larger U.P. community.

The Jacobetti Home provides a ceramic shop, chapel, puzzle room and a solarium. The staff and veteran volunteers of the D.J. Jacobetti Home for Veterans provide members with outings and classes almost daily. With the help of volunteers, watercolor, woodworking, and sewing classes are offered as are shopping trips, picnics, and a host of other activities.

As of May of this year, the Jacobetti Home for Veterans had served 1,950 members. This impressive number is a glowing testament to the hard work and dedication of the Jacobetti staff who have been tireless in their efforts to serve Upper Peninsula veterans.

Dr. James Heron deserves enormous credit for leading the Jacobetti Home for nearly two decades in a dual capacity as both Director and Medical Administrator. Brad Slagle, the Director of the facility since August of 2005, deserves our support as he leads the organization into the future.

As the 25th anniversary of the D.J. Jacobetti Home for Veterans draws near, I would also like to salute the great number of individuals who volunteer thousands of hours each year to keep the Jacobetti Home for Veterans running. Almost every year, I attend the Jacobetti Home for Veterans' annual volunteer appreciation banquet to recognize the countless hours volunteers at the Jacobetti Home give to this veterans facility. I am pleased to note the roster of volunteers grows every year. Only a few years ago, area citizens contributed 10,000 volunteer hours per year to the D.J. Jacobetti Home for Veterans. Today, volunteer hours have increased to approximately 14,000 hours per year.

Volunteers help with the annual Jacobetti trip to the U.P. State Fair, as well as dinner nights and fishing trips. Volunteers put on Christmas parties, New Year's parties, Vegas nights and bingo. The Jacobetti woodshop is run by volunteers. Volunteers are also critical to the fundraisers that keep the Jacobetti Home operational. So, as all of the Upper Peninsula prepares to celebrate this 25th Anniversary, I tip my hat to the many volunteers who contribute so much personal time to make the Jacobetti Home such a special place for our veterans to live.

These values of volunteerism, community and a responsibility to those who have sacrificed for our country are just a few of the things that make the D.J. Jacobetti Home for Veterans special. Mr. Speaker, as we honor our brave fighting men and women serving abroad in Iraq and Afghanistan, it is important that we not forget them when they return home. In that spirit, for 25 years now, the Jacobetti facility has truly been a home for those who have served our country. Given the unique spirit of volunteerism and community service exhibited by the staff and volunteers of the D.J. Jacobetti Home for Veterans, I know we can expect the D.J. Jacobetti Home for Veterans to be serving today's soldiers, when they are tomorrow's veterans, 25 years from now.

Mr. Speaker, I close by asking that you and the U.S. House of Representatives join me in paying tribute to the D.J. Jacobetti Home for Veterans, a facility that truly serves those who have served all of us. In this time of conflict, it is more vital than ever that we retain those values of volunteerism, community and responsibility—values that the D.J. Jacobetti Home for Veterans truly exemplifies.

PAYING TRIBUTE TO SCOTT SULLIVAN AND JOELLE JARVIS

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor Scott Sullivan and Joelle Jarvis for their unparallel commitment to serving others. Sullivan and Jarvis founded the Corps of Compassion, a grass roots organization that is helping families in the wake of Hurricanes Katrina and Rita. The organization is founded on the belief of people helping people, and making a difference right now.

Scott and Joelle founded the Corps of Compassion after hurricanes Katrina and Rita devastated portions of the Gulf Coast. Their efforts to reach out and assist thousands of displaced Americans from these tragic events have inspired so many to help their fellow citizens. Since the hurricanes, the organization and its volunteers have provided numerous resources and services. For example, the Corps of Compassion has coordinated and sent one dozen tractor trailers to Louisiana. These trailers were filled with food, baby products, medical supplies, paper goods, clothing, water and furniture for the hurricane victims. The organization in conjunction with Feed the Relief helped and funded almost 10,000 hot meals for first responders in New Orleans.

This incredible organization has also raised close to $400,000 in monetary donations for emergency assistance and collected over $1,000,000 in goods and donated services for disaster victims. As a result of their ongoing efforts, the group was named by the Las Vegas Review Journal as the "Best Community Organization of 2006". In addition to donating goods to people, Corps of Compassion has helped many families through case management by connecting them with legal information, tax help and informing them of the aid for which they qualify.

Mr. Speaker, I am proud to honor Scott Sullivan and Joelle Jarvis. Their work with Corps of Compassion has enriched countless lives thrown into turmoil following Hurricanes Katrina and Rita. I applaud them for their service and wish them the best with their continued mission.

A BLUEPRINT FOR NASA?

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I made the attached statement in the Space and Aeronautics Subcommittee of the House Science Committee, regarding the National Academy of Science's Decadal Plan for Aeronautics on July 18, 2006.

Thank you Chairman Calvert, Ranking Member Udall, and members of this subcommittee for the opportunity to speak today about aeronautics. Under your leadership, this Congress has been tremendously supportive of aeronautics and I am grateful for that. I am also grateful to my colleague, Representative JoAnn Davis who has fought for strong aeronautics programs.

NASA's role in aeronautics is fundamental. Its research is important because NASA is able to develop long term, high-risk enabling technologies that the private sector is unwilling to perform because they are too risky or too expensive. In fact, this has historically been the role of government-sponsored research. This is true not only with aeronautics but also with pharmaceutical research, defense research, energy research, and environmental research.

When the government sponsored basic research yields information that could lead to a service or product with profit potential, the private sector transitions from research to development in order to bring it to market. While it is not always as simple as this, it is clear that where there is no basic research, there can be no development. This research has resulted in monumental innovations that affect our daily lives. Its contributions are especially significant in the areas of national security, environmental protection, and airline safety.

NASA's aeronautics programs also contribute substantially to the nation's economy. The NASA Glenn Research Center in Brook Park, Ohio, for example, is a cornerstone of the state's fragile economy and a stronghold of aeronautics research. In FY04, the economic output of NASA Glenn alone was 1.2 billion dollars per year. It was responsible for over 10,000 jobs and household earnings amounted to 568 million dollars.

Civil aeronautics is also the major contributor to this sector's positive balance of trade, contributing $29 billion in 2005 alone. Aeronautics contributes to a stronger economy by lowering the cost of transportation, enabling a new generation of service based industries like e-commerce to flourish by performing the research that leads to inexpensive and reliable flights.

These are only a few of the reasons that the proposed cuts to aeronautics are so pernicious. Many of the recommendations by the National Academy of Sciences (NAS) are already headed down the path of irrelevancy because we simply won't be able to pay for them. We will be feeling the effects of the proposed cuts—about 25% in FY07 alone—immediately in terms of economic jolts and then in the long term from the loss of innovation. In addition, the Administration's projected further decline of aeronautics research in the out years erodes our workforce by sending a clear signal that funding in the long term is unstable at best, a concern echoed by the NAS reports. Our NASA workforce is the reason for our aeronautics dominance. It is that simple. But the cuts are already causing us to struggle against rising expertise in countries like China as well as an aging scientific and technical workforce at NASA.

This subcommittee and this Congress have spoken unequivocally in the past few years on this issue by keeping aeronautics strong in NASA authorization and appropriations bills. Yet the NASA budget requests have not changed. We are still underfunding the Vision for Space Exploration, forcing the agency to take money from smaller programs like aeronautics, the first A in NASA. In the process, we run the risk of taking away one of NASA's great strengths—diversity. If NASA becomes a one trick pony focused almost exclusively on space exploration, NASA as a whole is vulnerable to political wind shifts.

Our priority should be to correct this. Earlier this year, I attempted to offer a bipartisan amendment to increase funding for aeronautics in the Budget Resolution by $179 million dollars, which would have left funding flat for FY07. But it was blocked by the Rules Committee. However, the Senate Appropriations Committee reported a bill last week that adds 1 billion dollars to cover the emergency costs associated with the loss of space shuttle Columbia. That would free up money for Aeronautics. It also included a ban on involuntary reductions in force, protecting the most valuable part of NASA, its world-class workforce. The House should support these provisions in conference.

In the long term, my hope is that this subcommittee will continue to defend aeronautics at NASA. I will most certainly do what I can to help.

HONORING OUR LADY OF VICTORY PARISH AND 100 YEARS OF COMMUNITY SERVICE

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. EMANUEL. Mr. Speaker, I rise today to recognize the distinguished history of the Our Lady of Victory Parish on the occasion of its 100th Anniversary. Over the last century, Our Lady of Victory has provided spiritual guidance and quality education to generations of families throughout the Jefferson Park and Portage Park communities on the north side of the City of Chicago.

Our Lady of Victory was originally established on September 10, 1906 as a mission of the Saint Edward's Parish. Reverend Martin M. Lennartz served as this Catholic community's inaugural Pastor. Its first Eucharistic celebrations were held in an unassuming hall located at the corner of Milwaukee and Lawrence Avenues.

It was not until 1907, and the community efforts of Elizabeth Massmann, that the congregation was renamed, "Our Lady of Victory," after her memory and the name of her childhood church located in the state of Ohio.

The cornerstone of Our Lady of Victory's current location was laid on May 22, 1910. The three story structure located at 4444 North Laramie Avenue is now but one of the parish's many buildings.

Today, Our Lady of Victory serves approximately two hundred elementary school aged students. It has served over 3,000 families throughout the Chicagoland area in its one hundred year history.

And on October 8, 2006, parishioners and distinguished leaders of our community will come together to celebrate this momentous anniversary. The Gala Centennial Dinner will take place at the Hyatt Regency O'Hare.

Mr. Speaker, on behalf of the citizens of the north side of Chicago and the constituents of the Fifth Congressional District of Illinois, I wish to recognize the Our Lady of Victory Parish and its Centennial celebration. I wish all the best for its clergy, for its families, and for its success in the future.

A TRIBUTE TO DOUG DASH

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. ANDREWS. Mr. Speaker, I rise today to honor Doug Dash, a man who has served his community and his country for nearly 30 years.

Doug is a graduate of West Chester State College. He was a teacher in Pennsauken, NJ and is the proud grandfather of a beautiful four and a half year old girl. During his time serving his community as a letter carrier, Doug has also been the Congressional Liaison for the Cherry Hill Postal Service. Mr. Dash began serving his community as a postal employee after he had already served his country in the armed forces for two years, receiving a Purple Heart after one year in Vietnam. Doug has been serving Cherry Hill and the First Congressional District of New Jersey since 1979.

Mr. Speaker, I commend Doug Dash today for all that he has done for The First Congressional District of New Jersey and our country. Doug's life of service is worthy of admiration, and in addition to being a constituent and colleague, I am proud to call Doug Dash a friend.

HONORING LEWIS EDWARD JORDAN

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. LEE. Mr. Speaker, I rise today to honor the extraordinary life and work of Lewis Edward Jordan. In a time and place when it was a rarity for an African American to operate a business, Lewis broke boundaries in the world of business. He used his acquired wealth to help lift the community as a whole and to instill the same optimism in others that drove him to accomplish so much. He passed away on June 20, 2006.

Lewis was born on September 7, 1914 in Oakville, Maryland. Lewis faced tremendous adversity as a child and teenager, living in southern Maryland after slavery with his grandparents, who were slaves themselves. As a child he had very little money, and he only received an eighth grade education because the county where he lived, Saint Mary's County, had no high school for African Americans.

As a young adult, Lewis moved to Washington, D.C. He married Catherine Frederick in 1936 and fathered three children, Frederick, Andre, and Monica. It was in Washington, D.C. that his great creativity and vision would help him find success in his various entrepreneurial ventures. He was successful in many different businesses, including a taxicab company, a coal distribution company, mobile markets that served urban communities, a bar and restaurant, and eventually a trucking company. Lewis had the bravery to start these companies at a time in our nation's history when, unfortunately, many thought that a man like

Lewis should only work for these companies rather than be the man at the helm, and his courage deserves recognition.

Lewis received many accolades for his work during and after his life. For his work on the decoration of the Blair House, he received a personal commendation by President Franklin D. Roosevelt. In addition, as a testament to his business skill, his trucking company was awarded the contracts for work on the Sam Rayburn Congressional Building as well as many other important Washington D.C. structures. Also, he received a tacit compliment from the business community when his "mobile market" concept for serving groceries to underserved neighborhoods was replicated by many.

Even when engaging in business, Lewis was socially conscious and sought to do business in a humane way. His mobile market business bloomed into all different sorts of philanthropic works. He became known for delivering fresh fruits and vegetables to families of need in northeast Washington, D.C., and in 1996 he started the Frederick and Jordan Families Fund. The fund is administered by the San Francisco Foundation, and focuses specifically on helping African American communities in areas of homelessness, at-risk youth, and food programs.

In his golden years, Lewis stayed busy, serving as chairman of the Frederick and Jordan Families Fund and writing his own book, From Slave Days to Present Days, the Roots of the Jordan Family, which is considered to be one of the few works portraying the lives of African Americans in Maryland after slavery.

In addition to his business and philanthropic efforts, Lewis was a loving father. His love and care are reflected in the success of his children. Andre Jordan became the highest-ranking African American federal law enforcement official in the United States; Frederick started a civil engineering and construction management firm, which was the first African American owned firm of that sort on the West Coast; and Monica is the Assistant General Counsel of a federal agency.

For his vision in business, his giving spirit, and his love of family and others, I am humbled to honor Lewis Edward Jordan. On behalf of California's 9th U.S. Congressional District, I am proud to add my voice to the countless others who have united in thanks, respect, and praise for this pioneering individual, Lewis Edward Jordan.

PAYING TRIBUTE TO SAM AND LOIS RUVOLO

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor my dear friends Sam and Lois Ruvolo as they celebrate their 50th wedding anniversary.

Sam and Lois met in Cleveland, Ohio, the city they were both born and raised. After a chance meeting at the local community center, where Lois was a secretary, they were married six months later at the Holy Name Church on August 11, 1956.

After serving in the United States Army from 1950–1952, Sam taught school and coached football at the high school, college, and pro levels for 32 years. In 1988, Sam and Lois both decided to retire. They sold their residence in California and traveled the United States, Canada, and Mexico in their motor home, finally settling in Henderson, Nevada in 1991 at the insistence of Sam's brother Pat.

Sam is active with the Knights of Columbus, and the American Legion, serving as Commander of Post 40 in Henderson, State Commander of Nevada, and most recently as the Alternate National Executive Committee member. He has also been reappointed to serve on the Governor's Committee of the Southern Nevada Veterans Cemetery.

Lois is active with the Catholic Daughters of the Americas, volunteers at the St. Viator Church, and is an auxiliary member of the American Legion's Unit 40.

Of all their accomplishments, Sam and Lois are most proud of their four children, Margaret Mary Janshen, Joseph Robert, Thomas Joseph, and John Salvatore. They also love and enjoy their seven grandchildren.

Mr. Speaker, I am honored to recognize two wonderful people who I have known for many years on their coming wedding anniversary and also for their service to the community of Southern Nevada. I wish them many more joyful years of marriage.

RESEARCH AND DEVELOPMENT OF THE DRUG, LUCENTIS

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I sent the attached letter to the Director of the National Eye Institute, inquiring about the role of publicly funded research in the development of the drug on July 12, 2005.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, July 12, 2006.

Dr. PAUL A. SIEVING, M.D., Ph.D.
Director, National Eye Institute, National Institutes of Health, Bethesda, Maryland

DEAR DR. SIEVING: I write to request your assistance in understanding NIH's contribution to research and development of the drug, Lucentis. According to your website, "the NEI alone has spent nearly $95 million and has sponsored more than 300 research studies that have investigated neovascularization in the eye." The studies have "discovered specific biological pathways and proteins that trigger the growth of new blood vessels." Specifically, a protein called vascular endothelial growth factor (VEGF) was found to be "important in the growth of new blood vessels in retinal degenerative diseases such as advanced AMD. The abnormal blood vessels leak blood and fluid, causing severe vision loss." Subsequently, "several pharmaceutical companies began developing anti-VEGF therapies."

Please provide a detailed overview of the research NIH has funded in this area. Please also indicate whether NIH supported any of the research that led to the Lucentis patents, or any of the research that was undertaken by Genentech or partners, including support for clinical testing, related to Lucentis. The intent is not to be able to review the findings of each of the relevant studies. Rather, it is to understand the role and contribution of NIH in the development of this important product.

Thank you for your assistance and your time.

Sincerely,

DENNIS J. KUCINICH,
Member of Congress.

TRIBUTE TO TRINITY EPISCOPAL CHURCH OF LAWRENCE, KANSAS, UPON THE CELEBRATION OF ITS 150TH ANNIVERSARY

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. MOORE of Kansas. Mr. Speaker, I rise today to pay tribute to the Trinity Eptscopal Church of Lawrence, Kansas, which on August 20th will celebrate its 150th year of serving Kansans attending the University of Kansas as well as residents of Lawrence.

Lawrence has a long and vibrant history of religious diversity, dating back to its founding prior to the Civil War by immigrants who sought to establish Kansas as a state where slavery was prohibited. I am pleased to have this opportunity to place into the CONGRESSIONAL RECORD an article originally published in the Lawrence Journal-World which details the history of several of Lawrence's original congregations, including Trinity Episcopal Church.

Mr. Speaker, I am pleased to have this opportunity to share this history with the House and I commend the members of Trinity Episcopal Church as they prepare to celebrate 150 years of service to the people of Lawrence and the University of Kansas.

[From the Lawrence Journal-World, Sept. 19, 2004]

CITY CHURCHES TRACE ROOTS TO PIONEER DAYS

(By Jim Baker)

Lawrence was born from the reaction between pro-slavery forces and abolitionists fighting for control over the future of the Kansas Territory—and the city's early churches were the catalyst.

The struggles of the abolitionists, in Lawrence's opening decades, set the course for many congregations that went on to flourish in the ensuing 150 years.

In 1854, the New England Emigrant Aid Company sent a hardy band of 29 men to found a city in the Kansas Territory, hoping to settle the land with as many abolitionists as possible. The hope was that when the territory eventually achieved statehood, Kansas would be a free state.

Among the men recruited by Amos Lawrence, a wealthy merchant based in Boston, were Unitarians, Methodists and Congregationalists. The most prominent Unitarian among them was Charles Robinson, who would become the first governor of Kansas.

It took the group about two weeks to reach a site here, and then its members set up housing in order to establish a beachhead for abolitionists.

The Unitarian Church—known as the Unitarian Society in Lawrence—was founded in 1856, the year that a stone church was built at what is now Ninth and Ohio streets. The church also was used by the Congregationalists and Methodists. The first minister was the Rev. Ephraim Nute.

"Certainly in the early years, Unitarians were instrumental in building the schools, fostering abolitionism, providing aid for the Underground Railroad and settlers of the abolitionist persuasion. The Unitarian Church was used as a hospital in the aftermath of Quantrill's Raid (Aug. 21, 1863)," said Carol Huettner, administrator of the Unitarian Fellowship of Lawrence, 1263 N. 1100 Road.

"I think that the idea of tolerance, inclusion and basic fairness is part and parcel of the mindset of Lawrence, and I believe that comes in a straight, unbroken line from the first Unitarian settlers here. Lawrence would not have been founded were it not for Unitarians."

IMPRESSIVE HERITAGE

The history of three of Lawrence's oldest churches also is rooted in the epic clash between those who wanted Kansas to be a slave state and those who were "free-staters."

The founders of Plymouth Congregational Church, 925 Vt., came to Kansas to swell the ranks of settlers opposed to slavery. They were among the group sent out by the New England Emigrant Aid Company.

"They were abolitionists, and they came to Lawrence in 1854. Lawrence was a frontier town, and the only place where they could meet was a building made out of hay, with a thatched roof. That's where the church started," said the Rev. Peter Luckey, Plymouth's senior pastor.

Plymouth was founded Oct. 15, 1854. The church, like the city itself, is celebrating its sesquicentennial this year.

Plymouth's historic sanctuary, designed by noted Kansas architect John G. Haskell, was built in 1870—only 7 years after Quantrill's Raid on the city.

"The pastor at the time was Richard Cordley (the church's second pastor, who came in 1857), and he was a very strong, abolitionist preacher. It can be argued that part of what brought William Quantrill to Lawrence is they were intent on getting him. They actually came to his house," Luckey said.

Plymouth, which today has 1,200 members, has been at the same location since 1870.

First Baptist Church, 1330 Kasold Drive, is a year younger than Plymouth—it was founded in June 1855 and will celebrate its 150th anniversary next year—and traces its roots back to the conflict between pro-slavery and abolitionist forces.

"We had seven founding members in 1855. One of them was actually murdered in Quantrill's Raid, though the (original) church at Eighth and Kentucky wasn't harmed," says the Rev. Marcus McFaul, First Baptist's senior pastor, and the 30th full-time pastor in the church's history.

"Lawrence, Kansas, and the Christian experience in this town in many ways does reflect what I would call classic, liberal Christianity. Our founders really did embrace the dignity and worth of all people. That's a pretty significant thing in 1855 on the frontier, when everybody thought Kansas was going to be like Missouri, a slave state."

First Baptist's original sponsoring denominational group came from Boston, home to many abolitionists, and this influenced the course the congregation was to take.

McFaul said he was conscious of his church's history and legacy.

"It's almost overwhelming, because you're made very much aware that you stand on the shoulders of all those pastors who went before you."

Another Lawrence congregation that was directly affected by the battle over slavery is Trinity Episcopal Church, 1011 Vt., founded in 1857.

"All of our parish records were burned in Quantrill's Raid. Everything was burned. We lost all the documents, baptism certificates, all of that was burned. They had to start again," said the Rev. Jonathon Jensen, who is the 19th rector in the church's history.

Trinity Episcopal has been in downtown Lawrence nearly as long as the city itself has existed. The church was formed, and the present lot of Vermont Street was purchased, in 1857.

The church's first building was consecrated and opened for service July 29, 1859. The present building in the Gothic Revival style was begun in 1870 and completed in 1873.

Jensen is proud of Trinity Episcopal's long history, and he often reflects on the church's founders and past rectors.

"I feel a connection with all those who've gone before us, and it reminds me of all of those who will come after us. It feels much larger than myself," he said.

RICH HISTORY

Plymouth is not the only Lawrence church celebrating a sesquicentennial anniversary this year. So is First United Methodist Church, 946 Vt.

"We consider our history as beginning with the arrival of the Rev. William Goode and the Rev. James Griffing to Lawrence on Nov. 7, 1854. They held revival services here in November and December of 1854. The church charter was actually in 1855, but we have always celebrated our history as starting in 1854," said Jerry Niebaum, co-chairman of First United Methodist's sesquicentennial committee.

Goode was appointed to the Kansas-Nebraska district of the Methodist Church. Griffing was a circuit rider, traveling between communities from Lawrence to near Junction City. He was a preacher on horseback, who rode the countryside and preached the Gospel throughout the territory.

"Our first framed church was built in 1858 where the Southwestern Bell tower is downtown. If you look at the Harper's Bazaar (magazine) drawing of Quantrill's Raid, you see the Methodist church right in the center of the destruction. It was not damaged at all, and it was used as a morgue for the victims of the raid. They moved out the pews to make room for the bodies," Niebaum said.

A brick church was built in 1865 where the Masonic Temple now stands, 1001 Mass., and it was used until 1891, when the congregation moved into its present stone structure at 946 Vt.

First United Methodist has now been in the same downtown church for 113 years.

"History doesn't excite a lot of people, but yes, there are many here who understand the rich history that we have," Niebaum said.

SENSE OF BELONGING

For black settlers who migrated to Lawrence in the city's early years, the churches they formed offered much more than simply a place to worship.

They offered a safe haven for the expression of culture, opportunities for leadership and education, as well as a place for social, political and, later, civil rights activities.

"African-American churches are important in every community, especially if you go back in history. There was a time when blacks didn't have much of a social role outside the church. They needed some place of stability, some place that they felt was their own," said the Rev. William Dulin, pastor of Calvary Church of God in Christ, 646 Ala.

"If it hadn't been for the black churches that offered a feeling that they belonged, blacks who came to this area probably wouldn't have stayed here. Churches gave them a sense of spiritual guidance, as well as some roots. The city might have been different today if we hadn't had some of those churches."

The earliest black churches in Lawrence that have maintained continuous congregations—despite name changes and physical relocations—date back almost to the founding of the city itself.

St. Luke AME Church, 900 N.Y., and Ninth Street Baptist Church, 847 Ohio, were both founded in 1862.

Other black congregations founded in the city's early years are: St. James AME Church, North Seventh and Maple streets, established in 1865; First Regular Missionary Baptist Church (originally located at 416 Lincoln), founded in 1868; and Second Christian Church, 1245 Conn., (it has also changed locations), organized in 1897.

The Rev. Reginald Bachus, as pastor of First Regular Missionary Baptist Church, 1646 Vt., is the leader of a congregation with a venerable history. The church will celebrate its 136th anniversary in October.

He reflected on the meaning of churches to Lawrence's black residents, particularly during a time when they were largely shunned by the city's whites.

"In the life of the African-American community, especially 150 years ago, the church was really the only place that they could feel comfortable, express themselves and have a sense of belonging in society. Many times, people could exercise their talents and leadership abilities, which they couldn't do in a secular setting," Bachus said.

Alice Fowler, historian of First Regular Missionary Baptist Church as well as a member of the congregation for the past 50 years, agreed with her pastor's assessment.

"The (black) church was the social and political outlet, the congregating place of African-Americans. It was a church, a school and a way to inform people of events that were going on in the community," she said.

"There was very large participation in events for the church, such as vacation Bible school and church picnics. There weren't a lot of activities that African-Americans could take part in (in the wider community). So churches provided their own resources for African-Americans during the (city's) early years."

IN HONOR OF CARL POHLHAMMER

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. FARR. Mr. Speaker, I rise today to praise the work of Carl Pohlhammer, one of the pillars of my California Central Coast district. Carl is one of those Americans who embodies the meaning of the word citizenship; who works from humble circumstances to strengthen the quality of our democracy. I am privileged to be able to call Carl a friend.

Carl and I both share a common point of personal history having mothers who both chose the San Francisco Bay Area as our port of entry into the world. And while my parents had the good sense to move our family to the Monterey Peninsula in the late 1940s, Carl left it to the U.S. Navy to decide.

In 1963, Carl arrived at the Naval Postgraduate School as a Navy Lieutenant and Assistant Professor where he taught political science. That same year, Carl also began teaching political science down the road at Monterey Peninsula College, the Monterey Peninsula's community college. Carl eventually left the Navy, but has continued to teach to this day, despite his nominal retirement in 1995.

Prior to arriving in Monterey, Carl graduated cum laude from San Jose State University followed by the University of California at Berkeley. He married Anita Arellano, his college sweetheart, in 1954, and then spent a year in France, courtesy of the U.S. Army.

Since arriving on the Monterey Peninsula, Carl has been active in numerous community campaigns and organizations. Perhaps his most infamous effort was to chair the 1968 'bourbon renewal' campaign to convince his adopted hometown of Pacific Grove to allow the sale of alcoholic beverages. Always active Democrats, Carl and Anita attended both of the Clinton inaugurals. Anita was a delegate to the 1984 Democratic Convention in San Francisco. Carl has been a member of the Monterey County Democratic Central Committee since 1996, and was Chair from 2001 to just this year.

Mr. Speaker, every member of the House knows from their own district the crucially important role that civically involved volunteers play in the life of their own communities. Our democracy depends on them. Carl is one of those people who deserve the Nation's gratitude for his public service as a community activist.

IN MEMORY OF STAFF SGT. ROBERT J. CHIOMENTO

HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. WELDON of Pennsylvania. Mr. Speaker, I rise today with great sadness and tremendous gratitude to honor the life of a brave young man, Staff Sgt. Robert J. Chiomento. He died fighting the Taliban on July 17, 2006 in Khwaya Ahmad, Afghanistan, when his patrol encountered enemy forces using rocket-propelled grenades and mortars. Staff Sgt. Chiomento was assigned to the 2nd Battalion, 4th Infantry Regiment, 4th Brigade Combat Team, 10th Mountain Division, Fort Polk, Louisiana. He was supporting Operation Enduring Freedom.

Every soldier that passes away has a story behind him, and has a family. The news of Staff Sgt. Chiomento's death was relayed to me by his cousin, Thomas Chiomento, my good friend and constituent. Thom remembers his hero cousin as a third-generation who has fought in combat. Their grandfather served as a Marine in the Pacific during World War II and his father served in Vietnam. We must not forget the individual stories of these soldiers who have served our country with courage and honor. Staff Sgt. Chiomento was a brave and gifted soldier who was awarded the Bronze Star, a Purple Heart and the Combat Infantrymen's Badge. He was the kind of soldier that boosted our pride in being an American.

Mr. Speaker, Staff Sgt. Robert J. Chiomento exemplified the spirit of service that has made this country great. It is proper to remember and honor a man of such worth and character with great respect for what he stood for. Our pride in Robert shall certainly live on—his life, his courage, his sacrifice and strength of character. The example of his citizenship and dedication to duty will be his enduring legacy. We will not forget his sacrifice. Mr. Speaker, at this time I ask you and my other distinguished colleagues to join me in honoring the memory, life and service of Staff Sgt. Robert J. Chiomento—"an American hero," and in sending our heartfelt condolences to his wife, Staci, his two daughters, Ambre and Syleste, his entire family, his friends, and community.

PAYING TRIBUTE TO CAROL WATSON

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER Mr. Speaker, I rise today to honor Carol Watson for her service in the United States Marine Corps and subsequent volunteer work.

Carol enlisted in the Marine Corps immediately after graduating high school in 1952. After completing boot camp at Parris Island, South Carolina and Motor Transport School at Camp Lejeune, North Carolina, she was assigned to Washington, DC as a staff car driver. Following her honorable discharge, Carol attended college under the GI Bill and subsequently entered the U.S. Postal Service. While with the Postal Service, Carol's hard work and dedication was recognized as she was promoted to Manager and ultimately Post Master.

Upon retiring from government service in 1992, Carol began a new career in volunteerism. After volunteering for 8 years at the Long Beach California Memorial Hospital and Teaching 55/Alive for AARP, she moved to Las Vegas and continued her work. Carol joined the Women Marine Association and the Women Veterans of Nevada. Her strong desire to assist her fellow veterans also prompted her to join the Veterans Administration (VA) as a Deputy Representative and volunteer at the VA Women's Clinic.

Earlier this year, Carol became the President of the local Sagebrush Chapter of the Women Marine Association and the Area Director for Arizona, New Mexico, Utah and Nevada. Some of her duties include recruiting new members nationwide as well as interacting with other volunteer groups. She is also working on fundraisers for the WMA to send packages to Iraq and for veterans here at home.

Mr. Speaker, I am proud to honor Carol Watson. Her service to the people of the United States is to be applauded and her subsequent volunteerism is commendable. I thank her for her efforts and wish her the best in future endeavors.

IN MEMORY OF ARMY STAFF SGT. ERIC CABAN

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. GRANGER. Mr. Speaker, I rise today to honor the courage of a young hero from my district. On July 19, 2006, the Department of Defense declared that Army Staff Sergeant Eric Caban (United States Army, 3rd Battalion, 7th Special Forces) died from injuries that he suffered the previous day during a combat reconnaissance patrol in Southern Afghanistan.

A native of Manhattan, NY, Caban moved to Fort Worth with his family when he was 3 years old. A year after graduating from Fort Worth Paschal High School in 1997, Caban enlisted in the Army. His first assignment was with the 75th Ranger Regiment, where he served in a sniper platoon and was a team leader. His first deployment to Afghanistan occurred in October 2001. In that assignment, Caban participated as an airborne ranger who did a combat jump in what is described as an "operation that took the strategically important Kandahar Airfield."

Following his assignment in Afghanistan, Caban left the Army in 2002 to attend the University of Texas at Arlington. However, after a year in college, Caban decided his love was the military and he re-enlisted in 2004. Initially, he was a sniper instructor. He then enrolled in the Special Forces Qualifications Course and in March 2006, became a sergeant in the Special Forces—better known as the Green Berets—and returned to Afghanistan. During his career he earned the Army Commendation Medal, three Army Achievement Medals and, posthumously, the Bronze Star Medal for valor, the Purple Heart, the Meritorious Service Medal and the Combat Infantryman Badge.

His family and friends describe Caban as someone who was committed to defending his country and to battling alongside his fellow soldiers. It is these qualities of incredible courage, strength, and pride in serving his country that we see in young heroes like Eric Caban that makes us appreciate the freedoms we enjoy here at home.

I am proud to honor Sergeant Caban's service to the United States of America and to defending freedom around the world. He will not be forgotten.

TRIBUTE TO SAINT PAUL'S EPISCOPAL

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. STUPAK. Mr. Speaker, I rise today to recognize a northern Michigan treasure that has enjoyed a rich legacy of community service and outreach.

Next month, Saint Paul's Episcopal Church in Marquette, Michigan will celebrate its 150th anniversary. For a century and a half, this local landmark has served as a place of worship for the residents of Marquette and the surrounding communities. The story of St. Paul's, in many ways, parallels the story of Marquette. As the Marquette community grew, so too did St. Paul's Episcopal Church, serving the community's spiritual needs and many of its material needs.

Saint Paul's Episcopal Church, or simply St. Paul's as locals call it, can be traced back, in one form or another, to 1851, when a small group of some of the first settlers in Marquette, Michigan began holding services at various sites throughout Marquette. Some of these earliest services were held aboard the steamships *Planet* and *Napoleon* as they were anchored in Marquette's harbor.

In 1856, St. Paul's hired its first rector. The sponsor of the first rector, Charles Trowbridge, stipulated that the rector would hold services each week at Collinsville, a community of 300 people 3 miles north of Marquette. One of Marquette's other early residents, Peter King, took on the challenge of ensuring that the rector arrived in Collinsville each week. This weekly trek occasionally required travel by dog sled.

In August of 1856, St. Paul's Episcopal Church was incorporated into the City of Marquette. Work began on a wooden frame edifice at the location of the present church on Marquette's Ridge Street. Establishing a church in the frontier community of Marquette was a challenge, but the church was assisted by gifts from Episcopal churches in downstate Michigan as well as by gifts from other parishes as far away as New York and Boston.

By 1874, St. Paul's and Marquette were thriving and the church had outgrown its original small frame church. The original St. Paul's structure was purchased by German Lutherans and moved two blocks away. Construction then began on the present-day church. On Christmas, 1875, the new church held its inaugural services. Since that day, St. Paul's has remained a prominent feature of the Marquette community.

In 1907, St. Paul's conceived, financed and built the Guild Hall, a structure that many say was the first community building erected in Marquette. Built under the leadership of the Reverend Bates Burt, the Guild Hall provided a meeting place for the people of Marquette. The Guild Hall housed a reading room, an assembly room, a stage and recreation facilities including a swimming pool, gymnasium, billiard tables and bowling alley. In the words of Reverend Burt, the Guild Hall was meant to "provide facilities where people could meet and work in a social way, a clubhouse for the Parish where it could do efficient work not once in seven days, but every day."

Today, St. Paul's Episcopal Church remains an important part of the fabric of the Marquette community. The church actively supports Habitat for Humanity and works to provide medical care for the uninsured through the Medical Care Access Coalition. The church operates the Camp New Day Upper Peninsula Program, which provides urban children of residents of the State's penal institutions with a recreational experience in Michigan's north woods. The church has reached out beyond its borders to provide support for at-risk children in places as far away as Honduras, Haiti and the Sudan and to provide an annual market for third world craftspeople.

Mr. Speaker, the spirit and philosophy of St. Paul's Episcopal Church is reflected in its motto: Gathered by Grace; Sent Forth to Serve. Since those early days aboard steamships in Marquette's harbor to its current location at Ridge Street, St. Paul's has lived by that motto, serving as a spiritual foundation and community anchor for the people of Marquette. As its members prepare to celebrate the 150th anniversary of St. Paul's Episcopal Church I would ask, Mr. Speaker, that you and the entire U.S. House of Representatives join me in celebrating the church's many contributions to the Marquette community and in paying tribute to the rich historical legacy of St. Paul's Episcopal Church, its members and many acts of faith.

ON WARNING MECHANICS WORKING ON BRAKES CONTAINING ASBESTOS

HON. DENNIS. J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KUCINICH. Mr. Speaker, I sent the attached letter to the Secretary of OSHA, inquiring about the Asbestos-Automotive Brake and Clutch Repair Work Safety and Health Information Bulletin on July 12, 2005.

HOUSE OF REPRESENTATIVES,
July 10, 2006.

Mr. EDWIN G. FOULKE,
Assistant Secretary, Occupation Safety and Health Administration,
U.S. Department of Labor, Washington, DC.

DEAR ASSISTANT SECRETARY FOULKE: In 2002, OSHA began work on Asbestos-Automotive Brake and Clutch Repair Work Safety and Health Information Bulletin (SHIB) regarding exposure to asbestos-containing brakes. The Bulletin was completed in 2005. OSHA and the Office of Management and Budget (OMB) met to discuss the matter in August 2005, whereupon the draft SHIB was sent to Dan Crane of OSHA for technical review. Mr. Crane gave it a favorable review, agreeing that mechanics should be warned about the health risks of exposure. However, seven months later, the Baltimore Sun reported that OSHA was delaying issuing the SHIB.

When does OSHA intend to issue the SHIB? If the Sun's article is correct, what are the reasons for the delay? Was this decision made by OSHA or OMB? Please provide a copy of any meeting minutes and a list of attendees of the August 2005 meeting between OMB and OSHA. Please also provide any correspondence between OSHA and OMB regarding the SHIB during the time period beginning in 2002, extending to July 10, 2006.

I look forward to hearing from you.

Sincerely,

DENNIS J. KUCINICH,
Member of Congress.

HONORING ENGINE COMPANY NO. 106 OF THE CHICAGO FIRE DEPARTMENT AND 100 YEARS OF COMMUNITY SERVICE

Friday, July 28, 2006

Mr. EMANUEL. Mr. Speaker, I rise today to recognize the distinguished history of Engine Company No. 106 of the Chicago Fire Department on the occasion of its 100th Anniversary. Over the last century, the firefighters of Engine Company No. 106 have shown an enduring commitment to community service and have worked tirelessly to keep our communities safe.

Fire-related fatalities in Chicago are at a 25 year-low, thanks to the life saving efforts of Chicago's firefighters and community outreach efforts by firefighters to schools, senior centers and neighborhood associations. Chicago's citizens are now better informed about how to prevent and handle emergency situations, and they view their local firehouse as an important and valuable resource in the neighborhood.

I have visited Engine Company No. 106 many times. This company has always epitomized the exemplary values of honor and protection that the Chicago Fire Department and the Maltese Cross have become known to symbolize. All too often we take for granted the heroic efforts of these dedicated public servants.

Fire Marshal and Chief of Brigade, James Horan originally established Engine Company No. 106 on December 31, 1906. As a part of the Fourth Fire Battalion of Chicago, the original firehouse was located at 2754 North Fairfield Avenue, near the intersection of Diversey and Fairfield Avenues.

The original members of the company roster included Captain Alexander Kopeto, Lieutenant Thomas Mulcahy, Engineer Henry Clohecy, Assistant Engineer Thomas Walsh, Pipemen Frank Mashek, Thomas Cavanaugh, Frank McDermott, and Thomas Hogan, and Drivers John Murphy and Thomas McCarthy. Today, Captain Kenneth Soo of Engine No. 106 and Captain Steven Kierys of Truck No. 13 continue this tradition of excellent service for our community.

This year's Grand Gala celebrating Engine Company No. 106, Truck No. 13, and Ambulance No. 48 will take place at the current firehouse location at 3401 North Elston Avenue. This will be a wonderful event that will memorialize this important anniversary: Mr. Speaker, on behalf of the citizens of the north side of Chicago and the constituents of the Fifth Congressional District of Illinois, I wish to recognize the past and current firefighters of Engine No. 106 for their dedication and commitment to service. Moreover, I wish all the best for the future firefighters of Engine No. 106 and their families.

Mr. ANDREWS. Mr. Speaker, I rise today to commend and honor Cadet Andrew W. Doyle for his promotion to Chief Petty Officer of the United States Naval Sea Cadet Corps. On May 14th, 2006, family and friends of CPO Doyle gathered on the Battleship *New Jersey* in Camden to celebrate this outstanding achievement.

HONORING CHARLOTTE QUANN

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. LEE. Mr. Speaker, I rise today to honor the extraordinary life and community service of Charlotte Marie Peterson Quann, a courageous servant of the public good. A protector of battered women and children, an advocate for the poor, and a courageous woman in her personal life, Charlotte Quann always strove to lift up the disadvantaged and bring light to any situation with her great sense of humor. Her life is being celebrated following her passing on May 17, 2006.

Charlotte was born on December 5, 1934, the first of seven children. Charlotte grew up in Detroit and attended Detroit public schools, graduating from Northwestern High School at the young age of 16. Throughout her childhood, Charlotte was extremely precocious and motivated; she was active in the Urban League, YMCA speech and debate, ran for President of the school, and excelled academically. Unsurprisingly, her picture now sits in the Northwestern High School hall of fame.

Beyond her achievements, she also nurtured a sense of civic duty from a young age. Influenced by her father, a union organizer, she helped unionize Detroit's factory workers while still in high school. Because of her intelligence and political activism, she went to Washington and served as one of the youngest Congressional pages, working for Congressman JOHN CONYERS. Shortly thereafter, she attended Wayne State University.

Charlotte's energy and ambition continued, and she achieved great personal success. Charlotte became the first African American to work for Capital Airlines, which later became United Airlines, rising through the ranks of management. However, she was always cognizant of social and racial issues within the company. She became an important leader for African-Americans in the organization, serving as Secretary, Vice President, and eventually President of the United Airlines Black Professional Organization.

Beyond achieving professional success, she also sought personal success, and she worked to balance the different areas of her life. During this time, she started her family. After marrying Charles David Quann on June 7, 1958, she gave birth to three children, Steven, Warren, and Carla. All of her children have grown up to emulate Charlotte's compassion, generosity and community-mindedness. I have personally known Warren for many years, and have always held him in high regard for his constant community advocacy and work for political change at the systemic level. He places the same high value on the well-being of others and of his community as his mother always did, and I am privileged to know and to have worked with someone as special as Warren.

In 1972, Charlotte transferred within United Airlines to San Francisco, which ultimately became one of the most important events in her life because all of the philanthropic work that she would do in the San Francisco Bay Area. Her passions in community service were wide ranging, but mostly she focused on underserved children, battered women, and impoverished families, and her record of charitable work is second to none. She served as the Chair of the Board for the Casa De Las Madres emergency residential shelter for battered women and children, for the Mary Elizabeth Inn residential shelter for battered women, for the Center Point drug treatment programs, and served on the board at Glide Memorial United Methodist Church, becoming extremely involved there, with a particular focus on Glide's children's programs. She also grew involved with the ministry and represented Glide within the United Methodist Church and was an active member on the Commission on Race and Religion.

Charlotte was not only cherished by people for her service to the community, but also because her bright spirit served to lift up those around her. The good humor and optimism that Charlotte radiated could make any situation more bearable, and her love and desire to help others was cherished by all who knew her.

A champion of the underserved, a courageous citizen, and a loving mother and wife, Charlotte Quann, as her sister said, "lived well, loved much, and laughed often." On behalf of California's 9th U.S. Congressional District, I am proud to add my voice to the countless others who have united in appreciation of this outstanding individual, and I salute Charlotte Quann for her invaluable contributions to the San Francisco Bay Area, the United States, and to our world.

PAYING TRIBUTE TO DANIEL EDMONDSON

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor Daniel Edmondson for his outstanding volunteer work and being awarded the 2006 Prudential Spirit of Community Award.

Daniel, an eighth-grader at Silvestri Junior High School in Las Vegas, has been teaching Taekwondo karate classes to young children for the past eight years. Daniel started taking Taekwondo lessons when he was just six years old. As a young child, he was so taken with the sport that he wanted to share it with others.

In order to become a junior instructor, Daniel had to train for two years, log 350 hours of volunteer service at the Taekwondo studio, and pass both physical and written tests. Daniel now leads classes, mentors young students, and helps them prepare for tournament competitions. Over the last several years, Daniel has taught more that 150 youths not only the physical techniques of Taekwondo, but also self-discipline, confidence, respect, and integrity.

Mr. Speaker, I am proud to honor Daniel Edmondson for his volunteer activities. His being recognized at the Prudential Spirit of Community Awards is truly a great accomplishment. I applaud his efforts and wish him the best with his future endeavors.

CONGRESS SHOULD UPDATE CREDIT UNION REGULATIONS AND IMPROVE RULES FOR CREDIT CARDS

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. UDALL of Colorado. Mr. Speaker, we all recognize the importance of the financial services industry—including both banks and credit unions—to our economy. I support and applaud the steps both have taken toward better services and improved products.

However, I think there's a need to change some of the rules involving credit cards and I also think we need to remember the need for diversity in the industry. That's why I am cosponsoring H.R. 2317, to update the regulation of credit unions, and have introduced a bill dealing with credit cards.

The last major changes to the Federal Credit Union Act were in 1998, and since then there has been time to identify unnecessary and outdated provisions and develop legislation that would make common sense improvements.

That is the background for H.R. 2317, the Credit Union Regulatory Improvements Act (or "CURIA"), introduced by our colleagues, Representatives ED ROYCE and PAUL E. KANJORSKI. It combines a series of regulatory enhancements that will allow credit unions to operate more effectively and efficiently. These changes can help improve productivity and efficiency in a competitive and dynamic marketplace, and will translate into better and lower-cost service to credit union members.

The current bill improves upon similar bipartisan legislation introduced in the 108th Congress, and its broad support is shown by the fact that it has no fewer than 121 cosponsors. That support reflects the reality that credit unions—with 87 million members nationwide and 1.5 million just in Colorado—provide choice in the financial services industry.

My support for credit unions does not mean hostility to banks, because I do not think credit unions represent a threat to the continued success of banks. Credit unions remain member-owned not-for-profit institutions directed by volunteer boards that pool their resources to help each other. And while credit unions have changed and grown, that has not prevented banks from growing as well. In 2005, bank profits reached a record level of $134.2 billion.

Banks have a 94% share of the financial services industry, holding more than $10 trillion in assets. In fact, the net growth in bank assets in 2005—$626 billion—was nearly as much as the combined total assets of all credit unions in the country while one of the biggest banks has assets that exceed the $669 billion in assets held by all the credit unions.

In view of these realities, I am not persuaded that the modest changes in credit-union regulation included in CURIA represent a real threat to the continued success of the banking industry—and there is no doubt they can and will benefit consumers.

Similarly, consumers will benefit from the common-sense changes in the rules governing issuance of credit cards that would be accomplished by enacting H.R. 5383, the Credit Card Accountability Responsibility and Disclosure Act, which I introduced earlier this year.

That bill reflects the reality that Congress needs to do more to promote responsibility by those who provide credit, beginning with credit card companies. Like a similar (but not identical) bill introduced by Senator DODD, my bill takes some simple, common-sense steps to stop abusive practices, educate cardholders, and stiffen the penalties for violations.

I hope that when we return in September, the House will have an opportunity to consider both H.R. 2317, the Credit Union Regulatory Improvements Act, and H.R. 5383, the Credit Card Accountability Responsibility and Disclosure Act.

PAYING TRIBUTE TO MARTIN TAGGART

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor Martin L. Taggart as he retires from a distinguished career as a coach and an educator at Moapa Valley High School.

Marty Taggart grew up in Afton, Wyoming. He graduated from Southern Utah University with a major in Physical Science and Health and minors in both Math and Botany. During college, Taggart played 4 years of football and spent his summers as a forest ranger.

Marty has been a beloved teacher in Moapa Valley for the past 35 years. When he began his career, Moapa Valley High School served all of the students in Moapa Valley from Kindergarten through 12th Grade. Marty spent the first 13 years of his career teaching junior high school math, science and physical education. However, he has spent the majority of his career teaching at the high-school level. In addition to math, science and physical education, Taggart has taught health, careers, and weight training while at Moapa Valley High School.

Although he has been an incredibly committed educator, perhaps his most memorable contributions to Moapa Valley High School are those he made while coaching football and wrestling. Coach Taggart founded the wrestling program in Moapa Valley and has been the driving force behind its expansion and success over the past 31 years. He has also spent the past 33 years coaching football at Moapa Valley High School. Both teams have been very competitive and enjoyed many successes as a result of Coach Taggart's dedicated leadership.

As a coach and as an educator, Marty Taggart has been devoted to helping his students grow and succeed. He has emphasized discipline and hard work as a way for every person to achieve at the height of their ability. In doing so, he has made a profound impact on his students, his colleagues and the community as a whole.

Mr. Speaker, I am proud to honor Marty Taggart. The commitment he has shown to both the academic and athletic programs at Moapa Valley High School has truly enriched countless lives. I applaud Marty's years of service to the school and surrounding community and I wish him the very best for an enjoyable retirement.

RECOGNIZING THE 60TH ANNIVERSARY OF IKE AND OLIVE HAMMOND OF ORLEANS, INDIANA

HON. MICHAEL E. SODREL

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. SODREL. Mr. Speaker, I want to take a minute to recognize a couple of my constituents marking a truly momentous occasion. W.E. "Ike" and Olive E. Hammond of Orleans, IN will celebrate 60 years of marriage on Wednesday, August 2nd, 2006.

Both Ike and Olive have been lifelong residents of Orleans and have been active participants in their community. Both are involved in the local Republican Party, and have been for quite some time. In fact, their daughter shared a memory of riding on a float in a parade in 1952 proudly wearing her, "I like Ike" memorabilia. Olive served as County Vice-Chairwoman for the party and Ike served three terms on the Orleans Town Council. To this day, the Town Council looks to Ike for consultation on matters of importance to community. In 2001, Ike was recognized as "Citizen of the Year" in Orleans. The Hammonds have been members of the Orleans United Methodist Church for over 60 years.

Ike proudly served our country in the Second World War in the U.S. Army Air Corps as a crew member on a B–17. Ike continues to be an active member of the American Legion in Orleans. In his civilian career, Ike was in the insurance business retiring in 1988 after a 40-year career. Olive served the area as a Probation Officer in Orange County and has since retired.

In what was perhaps their most important job, the Hammond's raised three daughters who love, support, and congratulate them on their 60 years of marriage.

Mr. Speaker, it is an honor I share in congratulating these two fine people who have enjoyed 60 years of love together as husband and wife. I wish them many more years of happiness and memories together.

HONORING TEXAS STATE REPRESENTATIVE BOB HUNTER

HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. NEUGEBAUER. Mr. Speaker, Dr. Bob Hunter has served the people of Taylor and Nolan Counties honorably in the Texas Legislature for the past 20 years. He truly is a statesman and a scholar. Now, as he leaves the Texas House of Representatives, I would like to take time to recognize his tireless service to the State and her people.

Dr. Hunter was born in California, but his home is firmly in Texas. He has left a legacy of service that began with the Navy in the South Pacific and has spanned the six decades since. He has been a champion of higher education and a servant to the people of Abilene and the surrounding area.

Dr. Hunter began his relationship with the region with his enrollment as a student at Abilene Christian University in 1948. He took his first job after his Navy service back at ACU in 1956 and remained a vital part of the university's administration until 1993, when he retired as Senior Vice President. The degrees he earned in his time at ACU were just his first. He has gone on to be honored with no fewer than seven honorary doctorate degrees.

Dr. Hunter received many honors in gratitude for his work to open the doors of academic choice for all Texans. He was instrumental in passage of the Texas Tuition Equalization Grant program, which helps Texas students to attend the Texas private college or university of their choice. While an ACU administrator, he was appointed to the State's Advisory Council for Technical-Vocational Education and served as Executive Vice President of the Independent Colleges and Universities of Texas, serving 40 institutions statewide.

In 1986 Dr. Hunter was elected to the Texas House of Representatives and since then has served the citizens of his district faithfully, chairing several House committees and working on issues such as higher education, economic development, tourism and veterans affairs. While a State Representative, he has continued to serve his alma mater and the people of his district through involvement in civic organizations and charities.

As Representative Hunter retires from the Texas Legislature to return to his wife, three children and four grandchildren, I congratulate and thank him for his many years of service to the Abilene area and the State of Texas.

INTRODUCTION OF THE "FEDERAL LIVING WAGE ACT ACT"

HON. LUIS V. GUTIERREZ

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. GUTIERREZ. Mr. Speaker, today I am introducing the "Federal Living Wage Act," legislation to mandate a livable wage for employees under federal contracts and subcontracts. Twenty Representatives are original cosponsors to this important legislation.

I introduce this bill after the Chicago City Council took a strong stand for workers by passing a living wage ordinance for employees of big-box retailers. The ordinance is an important victory in the fight for living wages for all workers.

That fight now needs to come here, to Washington, where it is long overdue. The bill I am introducing today will hopefully move us closer to delivering all workers in America a fair and equitable wage. No full-time worker deserves to live in poverty. And certainly, the federal government should not be in the business of paying federal workers, or federally contracted workers, sub-poverty wages.

Although Congress passed laws, such as the Davis-Bacon Act and the Service Contract Act, to help ensure that employees of Federal contracts earn a decent wage, thousands of Federal workers and federally contracted workers still do not earn enough to support themselves and their families.

This legislation will allow hard-working individuals to earn quality wages and to increase their savings for such essential needs as their retirement and their children's education. The Federal government must take responsible, workable steps to reward working Americans and to help keep them out of poverty. This bill represents a practical and tangible step toward this goal and I urge my colleagues to join me in calling for the passage of this important and sensible legislation.

WSSC EXTENSION REMARKS

HON. ALBERT RUSSELL WYNN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. WYNN. Mr. Speaker, I rise to recognize the commendable efforts of the Washington Suburban Sanitary Commission (WSSC) in safeguarding the citizens of Prince George's and Montgomery counties in Maryland from flooding. On the weekend of June 24, 2006 anywhere from six inches to two feet of rain fell in the Washington, DC area, leaving some homes under water, bridges washed away, and residents displaced.

The WSSC is among the ten largest water and wastewater utilities in the Nation, serving 1.6 million customers in Prince George's and Montgomery counties. The agency's response to the storms and subsequent flooding was executed with foresight and sound planning. Their staff remained in constant communication with city, state, and emergency officials, allowing residents to evacuate in a safe and timely manner.

One noteworthy individual is WSSC Systems Control Group Leader, Karen Wright. Wright and her staff were responsible for monitoring the rainfall and opening the dam gates. Recently, she was recognized by The Baltimore Sun for her efforts.

In crisis situations such as the June storms, it is comforting to know that the employees of the WSSC can rise to the occasion, make the difficult decisions, and safeguard our citizens.

Mr. Speaker, I ask all of my colleagues to join me in commending the WSSC and its employees on a job well done.

TRIBUTE TO NASA MISSION STS–121

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. POE. Mr. Speaker, we have all suffered setbacks in our lives. For most of us, millions of people are not watching as monumental tragedy unfolds in a matter of seconds.

This was the case for family and friends of the astronauts who tragically died in the Columbia Shuttle disaster in 2003. In that instant, the folks at NASA lost their friends and coworkers in the Space Shuttle Columbia tragedy. It was a moment they will never forget. It was a moment that has created great sorrow and an intense pressure for perfect missions.

NASA employees, have vowed to use hard work and determination, to never again make the same mistakes. It is with that determination that they completed their second journey into space after Columbia, and it was a perfect mission.

Today I congratulate all seven members of the STS–121 mission, and the countless men and women who supported them throughout their successful 13-day, five million-mile journey. This second successful space mission since the Columbia tragedy, marks the new standard of success NASA has resolved to meet and exceed.

The Commander of STS–121, Col. Steve Lindsey was also mission commander on a space flight in 2001. He flew as pilot on 2 previous shuttle missions, and he has logged more than 1,000 hours in space. A graduate of the U.S. Air Force Academy, and the Air Force Institute of Technology he has been the recipient of many awards and medals, including the Distinguished Flying Cross, three NASA Space Flight Medals, the NASA Outstanding Leadership Medal, and the NASA Exceptional Service Medal. He and his wife Diane have three children.

Pilot Mark Kelly has logged 12 days in space. His dream to become an astronaut started with Alan Shepard, the first American to fly into space. A graduate of the U.S. Merchant Marine Academy, he flew 39 combat missions in Operation Desert Storm. He has logged over 4,000 flight hours in more than 50 different aircraft and has served as a pilot on STS–108. With this latest mission, he has logged almost 25 days in space. He is also the father of two children.

Mission Specialist Michael Fossum, wasn't always an astronaut. Before riding into the heavens he was a NASA Systems Engineer, charged with evaluating the use of the Russian Soyuz spacecraft as a viable emergency escape vehicle for the space station. He also represented the Flight Crew Operations Directorate during the redesign of the International Space Station. Once a Capsule Communicator, CAPCOM, in Mission Control, Fossum was able to log more than 306 hours in space during STS–121. He and his wife Melanie have four children.

Mission Specialist Lisa Nowak, a graduate of the U.S. Naval Academy, made her first space flight on STS–121. She also logged 13 days of space flight time. A former Mission Commander and EW Lead of the Electronic Warfare Aggressor Squadron 34, she also worked in the Astronaut Office Robotics Branch and in NASA Mission Control as prime communicator with on-orbit crews. She and her husband have three children.

A Harvard graduate, Stephanie Wilson served as an astronaut on STS–121, her first mission into space. She has completed extensive research on controlling and modeling large, flexible space structures. She has worked for the Jet Propulsion Laboratory in Pasadena, California, and was a member of the Attitude and Articulation Control Subsystem for the Galileo spacecraft. After working in Mission Control Wilson worked in the Astronaut Office Shuttle Operations Branch, with the Space Shuttle Main Engines, External Tank and Solid Rocket Boosters.

Mission Specialist Piers Sellers is an expert on how the Earth's biosphere and atmosphere interact. His studies have included computer modeling of the climate system, satellite remote sensing studies and climatological field work coordinating aircraft, satellites and ground teams across the world. Sellers also worked part time in Moscow as a technical liaison on ISS computer software. This is his second mission and he has logged more than 559 hours in space, and 6 spacewalks. He and his wife have two children.

Finally, Mission Specialist Thomas Reiter, of Germany is the only astronaut to stay in space during STS–121. He will live aboard the International Space Station and return to Earth aboard Shuttle mission STS–116 or a Russian Soyuz in a few months. He has trained as a cosmonaut and was also involved in European Space Agency, ESA, studies of manned space vehicles and the development of equipment for the International Space Station. He and Russian colleagues were on the crew of ESA-Russian Euromir 95 mission to the Mir Space Station. Reiter was the on-board engineer for the record-breaking 179-day mission. He performed some 40 European scientific experiments and performed two spacewalks. He and his wife have two sons.

Each astronaut on this mission and the countless people who supported them accomplished great tasks, to help our space program move forward, in characteristic giant steps.

NASA equipped this shuttle with more cameras to improve views and data from all angles of the shuttle during and after launch. Piers Sellers and Mike Fossum performed spacewalks to test equipment, remove and replace power, command and data cables on International Space Station equipment. They also tested techniques for inspecting and repairing the Shuttle mid-flight while also successfully transferring 14 tons of equipment to the ISS.

Mr. Speaker today I congratulate the NASA space program for enduring great tragedy, and turning it into a monumental success, again. They are doing what we all hope to have the strength and power to do during times of great adversity, they are facing the challenge and then conquering it.

I wish everyone involved in our space program the very best as they embark on future missions which will no doubt, continue to change our country for the better. That's Just the Way It Is.

TRIBUTE TO PSORIASIS AWARENESS MONTH

HON. DAVID WU

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. WU. Mr. Speaker, I rise today in recognition of August as Psoriasis Awareness Month and to speak on behalf of the 7.5 million Americans who are afflicted with this disease.

Those affected by psoriasis suffer from chronic, inflammatory, painful, disfiguring and disabling skin irritations referred to as scales that can cover anywhere from small patches of skin to entire sections of their body. Many of those who have psoriasis also suffer from psoriatic arthritis, which causes severe stiffness and swelling of the joints. Psoriasis typically develops between the ages of 15 and 25, and while there are varied treatments, there is no cure for this disease.

This auto-immune disease has become both a burden on the individual and society. Many people afflicted with psoriasis battle social discrimination and stigma because psoriasis is mistakenly thought of as a contagious disease, and sometimes patients needlessly have incorrect or delayed diagnosis. Also, it is estimated that psoriasis and psoriatic arthritis cost the nation 56 million hours of lost work and between $2 billion and $3 billion in treatments each year.

I would like to thank the National Psoriasis Foundation, whose national headquarters is located in Oregon. Their tireless work has brought the struggle of those affected by psoriasis and the need for more psoriasis research through the National Institutes of Health, NIH, to combat this disease to light. Their message of awareness they brought to our offices has been helpful and has worked to elevate understanding of this diseases.

Mr. Speaker, too many people in this country needlessly suffer from psoriasis and psoriatic arthritis. We must work to decrease the amount of incorrect or delayed diagnosis, inadequate treatments and insufficient access to care. I am ready to work with my constituents, the National Psoriasis Foundation and my colleagues to elevate the awareness of psoriasis and expansion of research of effective treatments for this debilitating disease.

INTRODUCTION OF THE TEAM (TO ENCOURAGE ALTERNATIVELY-FUELED VEHICLE MANUFACTURING) UP FOR ENERGY INDEPENDENCE ACT

HON. ZOE LOFGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. ZOE LOFGREN of California. Mr. Speaker, climate change threatens the security and stability of our planet. The temperature of the earth is increasing at a rate unseen in modern times. Climate forecasters predict that if greenhouse gases continue to accumulate in the atmosphere at the current rate, temperatures may rise dramatically, weather patterns sharply shift, ice sheets shrink, and seas rise.

Rising gas prices and instability in oil producing regions have reinforced the need for the United States to secure our energy independence. We can make progress by developing and distributing alternatively fueled vehicles. Through innovation as well as existing technology, we can reduce our dependence on foreign oil, and promote energy efficiency and conservation to secure a safer future for our country and the environment.

Alternatively fueled vehicles, such as those that use E85 ethanol fuel, could reduce our use of petroleum fuels by up to 40 percent, helping our country move towards sustainable energy independence. E85 ethanol fuel can be produced from agricultural products grown here in the United States, so that money spent on fuel supports farmers in the Midwest, not countries in the Middle East.

Congress must do more to make alternative fueled vehicles practical and accessible to every American. There are currently only six million E85-capable vehicles on U.S. roads, compared to approximately 230 million gasoline- and diesel-fueled vehicles, according to the National Ethanol Vehicle Coalition. Only 556 fuel stations in the entire country currently provide E85 fuel, with only four of these located in California.

That is why I am introducing this bill to encourage manufacturers to provide a flex fuel opportunity to American consumers and to develop the infrastructure necessary for a cleaner energy future. We must do more to make alternatively fueled vehicles practical and accessible to everyone. The cost of producing flex fuel capable vehicles is minimal at the time of manufacture, but there are currently few incentives for the production of flex fuel vehicles and a lack of infrastructure to service them.

My bill will encourage the production of more alternatively fueled vehicles by phasing in a tax penalty on the manufacture or import of new, non-flex fuel vehicles. However, since the cost to manufacture fleets that are flex fuel capable as compared to gasoline powered vehicles is nearly nil, it will be easy for manufacturers or importers to avoid these costs completely. Any revenues generated would be used to help independent gas station owners install alternative fuel equipment. This bill is a good first step towards securing our energy independence, and I hope that Congress will move quickly to pass this important legislation and help America move towards a more secure and sustainable future.

HONORING MR. DANIEL E. McKEEVER

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. MORAN of Virginia. Mr. Speaker, the City of Falls Church, Virginia has lost a steady hand, sure-footed manager and good friend this week, with the passing of Daniel E. McKeever.

Dan McKeever joined the Falls Church community as City Manager in 2000, after an accomplished career in both law enforcement and local government. Thoughtful, genial and very well-liked, Dan helped guide Falls Church through a period of rapid transformation. He oversaw development of a number of mixed-use projects that revitalized downtown Falls Church and will increase the City's taxable real estate value by $336 million.

During his 6 year tenure, Dan McKeever helped implement the City Council's vision for Falls Church as a pedestrian friendly, urban community with small town charm. He worked for more affordable housing, improved the City's building permit process and spent significant time reorganizing the City's public safety system. As City Manager, Dan placed a premium on efficiency, team work, transparency and communication. Sheparding a $25 million bond referendum for new school construction and protecting the City's AA+ bond rating were among his most noted accomplishments.

In his spare time, Dan was an avid baseball fan, attending as many Washington Nationals games as his busy schedule would allow. He was even a part owner of a minor league baseball team in Pulaski, Virginia, where he served as Chief of Police and town manager in the 1980's.

Never one to wilt in the face of an obstacle, no matter the challenge presented, Dan was intimately involved with the City's management throughout his nine-month battle with cancer. While Dan left us far too soon, his good works, cheerful demeanor and practical advice will long be remembered by the citizens of Falls Church.

PERSONAL EXPLANATION

HON. DIANA DeGETTE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. DEGETTE. Mr. Speaker, I am listed as voting "yea" during rollcall vote number 401 on H.R. 5013, the "Disaster Recovery Personal Protection Act of 2006," when it was before the House of Representatives on Tuesday, July 25, 2006. This is an error. I oppose H.R. 5013 and want it noted that had my intention been properly expressed I would be recorded as having voting "nay."

TRIBUTE TO MARINE CORPORAL JEREMIAH CUMMINS

HON. RICHARD W. POMBO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. POMBO. Mr. Speaker, I rise today to recognize Marine Corporal Jeremiah Cummins, of San Ramon, CA, who recently returned from his third tour of duty in Iraq. Corporal Cummins served in the Third Marine Battalion of the 5th Marines with bravery and honor, and I am honored to represent him in Congress.

First sent to Iraq shortly after the initial invasion was winding down, Corporal Cummins spent that tour in a town about 80 or so miles south of Baghdad called Diyauneah. For his next tour he served in Fallujah, which saw some of the fiercest fighting. His third tour saw him stationed a few miles south of Fallujah and patrolling south of that post until the last 6 weeks of the deployment when he was posted in Ramadi, the scene of more fierce fighting.

Corporal Cummins is a remarkable young man, and I rise today to honor and thank him for his service, and the service of all those who put themselves in harm's way for our Nation.

Mr. HENSARLING. Mr. Speaker, today I would like to congratulate and honor Todd Foxworth for being recognized by the Rusk Chamber of Commerce as the 2005 Citizen of the Year.

A native Texan, Warden Foxworth earned his Bachelor of Science Degree from Sam Houston State University in Criminology/Corrections. After his service in the armed forces, Warden Foxworth served over 19 years with the Texas Department of Criminal Justice. His work has been instrumental in the beautification, emergency relief, construction and maintenance-related demands of the surrounding communities providing offender manpower through the Community Work Squad.

Warden Foxworth is also an exemplary member of the community and has always made an extra effort to help his fellow citizens. He has been personally involved as a member of the Rusk Industrial Foundation and Economic Development Committee. He has worked in fund raising for such charitable organizations as March of Dimes, Toys for Tots, Texas Special Olympics and Cherokee County Crisis Center.

It am proud to honor Warden Todd Foxworth and his valuable contributions to the Rusk Community and congratulate him for being named Rusk Citizen of the year.

FREEDOM FOR ALEXANDER SANTOS HERNÁNDEZ

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I rise today to speak about Alexander Santos Hernández, a political prisoner in totalitarian Cuba.

Mr. Santos Hernández is a member of the pro-democracy opposition that seeks to return sovereignty, democracy and human rights to the Cuban people. According to reports, he is a member of the Cuban Liberal Movement, the director of an independent library and the national coordinator for the Eastern Democratic Alliance. Independent librarians in Cuba, such as Mr. Santos Hernández, provide the indispensable service of circulating truth. These vital librarians loan out the classics of anti-totalitarian literature, including authors such as Vaclav Havel and Martin Luther King, Jr.

As an outspoken opponent of tyranny who believes that liberty is an inalienable right, Mr. Santos Hernández has been constantly targeted by the regime's machinery of repression. According to reports, in Nov. 2004, Mr. Santos Hernández spent six months in the totalitarian gulag because he was "convicted" for "disobedience." Despite the regime's constant gangster style repression, Mr. Santos Hernández continued his efforts to bring freedom to Cuba.

According to a report published on June 5, 2006, on Directorio.org, Mr. Santos Hernández was recently "convicted" in another sham trial for the "crime" of "social dangerousness." He was sentenced to 4 years in the abhorrent, subhuman, totalitarian gulag. The U.S. State Department reports that police and prison officials beat, neglect, isolate, and deny medical treatment to detainees and prisoners, including those convicted of political crimes. It is a crime of the highest order that people who work for freedom are imprisoned in these grotesque conditions.

Freedom and democracy are on the march to inevitable victory in Cuba. Courageous leaders like Mr. Santos Hernández defy the dictator's machinery of repression and, despite every threat and obstacle, demand liberty for the people of Cuba. Because of their unwavering commitment, and the works of thousands of other Cuban patriots, Cuba will be free again.

Mr. Speaker, it is a profound embarrassment for mankind that the world stands by in silence and acquiescence while political prisoners are systematically tortured because of their belief in freedom, democracy, human rights and the rule of law. We can never forget those who are locked in gulags because of their desire to be free. My colleagues, we must demand the immediate and unconditional release of Alexander Santos Hernández and every political prisoner in totalitarian Cuba.

A POSTHUMOUS TRIBUTE TO PASTOR BISHOP CLARENCE HARMON

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. TOWNS. Mr. Speaker, I rise today in recognition of the late Pastor Bishop Clarence Harmon, a man who was a giant among men in the Brooklyn, New York community. Although he has passed on, it behooves us to pay tribute to this outstanding leader. I hope my colleagues will join me in recognizing his impressive accomplishments, as the community prepares to honor the memory of this great man of God at a memorial service on July 30, 2006.

Clarence Harmon was born July 26, 1926 in Columbia, South Carolina. After completing high school, he came to New York City. After several years in New York, he met and married Catherine P. Penn. To that union, three children, one daughter and two sons were born. It was after their marriage that he accepted Christ as his personal Savior and joined Betterview Baptist Church. Upon departure from Betterview, he became affiliated with the Institutional Church of God in Christ under the leadership of Reverend Carl E. Williams. There, God began to mold and shape him for greater service. On Easter Sunday, 1951, he preached his first sermon. He graduated from Shelton College in 1956. In April 1956, he started a mission at 645 Halsey Street, Brooklyn. Shortly thereafter, by the direction of the Holy Spirit, Elder Harmon was led to 623 Madison Street. The building was totally void. However, the spirit of God confirmed to him whispering the words "This Is It" and the Lord blessed his hands to build a structure such as the one that is known as Unity Temple.

During the latter part of 1956, Unity Temple became affiliated with the Church of God in Christ, Inc. Eastern New York Jurisdiction. For the next 30 years, Pastor Harmon held various leadership positions within the COGIC, such as: President and Administrative Assistant of the Pioneers, Chairman of the Board of Elders; President of the State Benevolent Committee; and Superintendent of District No. 3 under the leadership of the late Bishop F. D. Washington. As an Assistant Bishop to over 100 churches throughout the dioceses of the Churches of God in Christ, Bishop Harmon instituted a benevolence committee to take care of the pioneers and widows of the Eastern N.Y. Jurisdiction.

In 1988, he was appointed to the position of First Assistant of the First Ecclesiastical Jurisdiction, Eastern New York; the late Bishop Ithiel Clemmons, Jurisdictional Prelate. In October 1995, he was elevated to the office of Bishop in the Churches of God in Christ. He served as Presiding Bishop of the O. M. Kelly/F. D. Washington Brotherhood.

Bishop Harmon was a pioneer in the Brooklyn community, hosting one of the largest food pantries in Bedford-Stuyvesant feeding over 4,000 people a month. Bishop Harmon was a generous person donating his time and talent to those in need. He had an open door policy at the church, often allowing weddings and funerals to be held without cost. Bishop Harmon's favorite saying was "Everybody is somebody" and he lived and proved that every day. Through his ministry, 15 churches to date have been birthed. Though small in stature, Bishop Harmon stood tall among men. He acquired the name "Muscles" from his friends in the ministry because of his strength and tenacity in defending the underprivileged. Some of those friends included the late Bishop F.D. Washington, Bishop O.M. Kelly and Bishop I. Clemmons, to name a few.

He was and still is an inspiration to those who knew him. Bishop Harmon's church community continues his legacy through the implementation of the Clarence Harmon Scholarship Fund that will award two scholarships in his name to high school seniors seeking a college degree. This tribute will further serve as a reminder to our youth that no height is too great for them to achieve.

Mr. Speaker, I believe that it is incumbent on this body to recognize the accomplishments of Pastor Bishop Clarence Harmon, a man who offered his talents and services for the betterment of our local and global communities.

Mr. Speaker, Bishop Harmon's selfless service has continuously demonstrated a level of altruistic dedication that makes him most worthy of our recognition today.

TRIBUTE TO SERVICEMEN AND WOMEN

HON. ERIC CANTOR

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. CANTOR. Mr. Speaker, I rise today to recognize the important contributions and deep sacrifices that our men and women in the military make. I would like to share the experience of one of my constituents, Major Jeff Farmer, who recently returned from Iraq and sent me this message:

> I'll leave you with a little story. After going on R&R three months earlier (to date I'd been away from my home for more than twelve months), I flew into Atlanta National

> Airport from Kuwait for a layover waiting for the next flight to Charlottesville, VA. I had on my same uniform that I had been wearing for 36 straight hours. I was trying to get home to my family. I was hungry so I went into an Appleby's in the airport terminal. I did not feel very patriotic so I found a corner booth and dropped my pack next to the floor by my table. I was tired so I put my head down as if to meditate and trying not to attract any attention. I was not quite sure if I wanted to eat or sleep however both were weighing heavily on my mind. The waiter came to my table and reminded me that I could not drink alcohol in the airport in uniform because of General Order #1. I told the waiter that was OK. I was not drinking anyway. My eyes were a little hazy and I was appreciating the look of free people walking around and enjoying each other's conversation. It was refreshing and distracted my attention while I was trying to look at the menu and order. It was nice to hear a baby cry, people laugh, and just enjoy what they were doing without consequences or repercussions. The environment was very warm which made me feel a little envious of my experience and if they really knew how good life really is. My meal finally came and I ate slowly trying to taste, smell, and enjoy every bite. French fries never tasted so good.
>
> After an enjoyable meal I slowly got up and walked over to the counter to ask for my waiter so I could pay and leave. The cashier said, "Don't worry. The meal is covered." I thanked him and he said don't thank me. Four different people offered to pay your meal and when I told the other three the meal was paid in full they said, "Keep the money for the next soldier coming in." As I turned from the counter with my pack on my back people began to stand, thank me, pat my back, and applaud. Tears filled my eyes. I was humbled. Just the thought and gesture made me feel proud of what I was doing and my service to my country. At that moment I knew I was home.

We owe Major Jeff Farmer and his fellow servicemen and women a debt of gratitude for helping preserve freedom and democracy.

HONORING GIRLS INC.

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Ms. LEE. Mr. Speaker, I rise today to recognize Girls Inc., an outstanding organization that serves young women and girls throughout my district and across our country. Girls Inc. is a national nonprofit organization whose mission is to inspire all girls to be "strong, smart, and bold." With local roots dating to 1864 and national status since 1945, Girls Inc. has responded to the changing needs of girls and their communities through research-based programs and public education that empower girls to reach their full potential and to understand, value, and assert their rights.

Girls Inc. reaches nearly 800,000 girls through its direct service, website, products, and publications. In 1,700 program sites in the United States and Canada, Girls Inc. directly serves girls ages 6–18 with research-based programs focusing on science, math, and technology; physical and mental health and sexuality; violence prevention and safety; substance abuse prevention; financial literacy; sports and athletic skills; leadership and advocacy; and media literacy. Of the girls served by Girls Inc., 76 percent are girls from communities of color and 70 percent come from families earning $25,000 or less. More than half are from single-parent households, most of which are headed by women.

The Girls Inc. movement started in New England during the Industrial Revolution as a response to the needs of a new working class: young women who had migrated from rural communities in search of newly available job opportunities in textile mills and factories. The movement grew during the Great Depression, and in 1945, 19 charter clubs formed the Girls Club of America, a name that would, in 1990, change to Girls Inc.

Over the years Girls Inc. programming has changed to accommodate the evolving needs of young women in our society. While programming in the 1950s focused on preparing young women for future roles as wives and homemakers, amidst the social turbulence that marked American life in the 1960s, Girls Inc. rethought its mission and educational message. In response to hundreds of letters from young women seeking programming that could better address the changing roles of young women and girls in our society, Girls Inc. initiated a major fundraising campaign, tripled its budget, and more than doubled the number of centers nationwide. With a strong financial foothold, and in the wake of the civil rights movement, the women's movement, and a flood of women entering the workforce, Girls Inc. shifted the organization from its role as shaper of homemakers and good citizens to a new role as an advocate for the rights and needs of girls of all backgrounds and abilities.

Girls Inc. today is a multifaceted organization, devoted to the dual goals of empowering girls and creating a more equitable society. The work of Girls Inc. is especially significant in California's 9th Congressional District, with Girls Inc. of Alameda County annually serving over 7,000 young women and their families, many of whom are my constituents. Under the excellent longtime leadership of Executive Director Pat Loomes, Girls Inc. of Alameda County has reached untold numbers of girls in the East Bay through its successful implementation of numerous programs such as the GIRLSmart intensive after school literacy program, and the Eureka Program, which seeks to give young women the opportunity to explore different career options, take on leadership roles and take positive risks.

This four-year program is especially significant to my District Office, where Girls Inc. Eureka Program participants have sought and been placed in internships there every summer for the past several years. It has been an honor to get to know these young women and to assist them in developing the tools and the knowledge they will need as our future leaders, and I am thrilled to have the opportunity to continue this work in partnership with Girls Inc. every year.

Today, on behalf of California's 9th Congressional District, I ask my colleagues to join me in saluting the directors, staff, supporters, and most of all, the girls of Girls Inc. for their work to reach out to, educate and empower young women and girls everywhere. Their extraordinary work has touched the lives of countless young people, and I thank Girls Inc. for its ongoing commitment to helping all girls to become strong, smart and bold.

IN SUPPORT OF PROVIDING COTTON TARIFF RELIEF FOR HIGH-QUALITY SHIRT MAKERS

HON. ROB SIMMONS

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. SIMMONS. Mr. Speaker, last year I introduced duty suspension legislation for high-quality woven cotton shirting fabrics that are not currently produced in the United States. Today, after receiving valuable input from the International Trade Commission, ITC, and the National Council of Textile Organizations, NCTO, I am happy to reintroduce a slightly revised version of this legislation.

The high-quality cotton fabrics affected by this legislation are used in the domestic production of fine men's and boys' dress shirts. Unfortunately, several American companies that produce these shirts are being unfairly penalized by tariffs on the cotton they must import for this purpose. But because this type of cotton is not produced domestically, these tariffs protect no American interest.

What's more, Canada has eliminated its tariffs on this type of imported woven shirting fabrics, and under a provision of the North American Free Trade Agreement, NAFTA, Canadian shirt makers can export large quantities of these shirts to the U.S. duty-free. This further puts U.S.-based shirt manufacturers at a competitive disadvantage.

Last year, following a request for public comments by the House Ways and Means Committee on all tariff relief trade bills, the NCTO raised a concern about the scope of fabrics that could conceivably be covered by my original bill, H.R. 1945. In addition, the Ways and Means Committee requested technical comments on all tariff relief bills from the ITC.

Because this legislation was never intended to cover other cotton fabrics—and to alleviate any perceived concerns about the scope of the bill—I have adjusted the language in the bill to specifically list the affected fabrics by number. This will make it perfectly clear that the bill only covers men's and boys' cotton shirting fabrics. In addition, the bill has been adjusted to reflect minor technical corrections suggested by the ITC.

I am proud to say that this newly revised bill has gained the approval of NCTO. Therefore, it is my hope that this legislation will serve as a strong demonstration of continuing House support for these duty suspensions, which are also included in companion legislation that has been introduced in the Senate by Sen. ARLEN SPECTER of Pennsylvania.

I urge my colleagues to support this common-sense tariff relief measure that will yield positive benefits for American companies, workers and consumers.

100TH ANNIVERSARY OF THE HOLY SAVIOUR CLUB OF NORRISTOWN, PENNSYLVANIA

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. GERLACH. Mr. Speaker, I rise today to celebrate the 100th anniversary of the Holy Saviour Club of Norristown, Pennsylvania.

The Holy Saviour Club was founded by Italian-American immigrants from the town of Montella, Italy. It was the desire of the founding families to share their Italian heritage and culture with their fellow Montgomery County citizens.

The Holy Saviour Club will celebrate its 100th anniversary with a weekend celebration on August 4th–6th and the members and guests will participate in a celebratory procession, feast, and a solemn mass at Holy Saviour Church.

Mr. Speaker, I ask that my colleagues join me today in honoring the Holy Saviour Club of Norristown, Pennsylvania as it celebrates its 100th anniversary. It is my hope the Club continues to prosper and promote the Italian heritage and culture of its members for the benefit of the larger Montgomery County community.

IN TRIBUTE TO LEONARD H. ROBINSON, COMMITTEE ADVOCATE FOR AFRICA

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. RANGEL. Mr. Speaker, I rise today to pay tribute to Leonard H. Robinson, a humble and committed public servant whose judgment and insight helped further USA policy initiatives in Africa and whose dedication and leadership helped change the lives on two different continents. Mr. Robinson who was a strong advocate for Africa, and for the rights of others, died unexpectedly at Washington Hospital Center on July 25, 2006 of kidney failure following a short illness. Mr. Robinson's belief in the potential of Africa motivated others to look beyond themselves to see how their actions could be used to benefit others.

Born in North Carolina, Robinson earned a BA from Ohio State and did graduate studies at the State University of New York, the American University and Harvard's John F. Kennedy School of Government. Mr. Robinson believed that if you can conceive it, then you can achieve it, and he proved that with all of his many accomplishments. At the tender age of 23, Mr. Robinson was named the associate Director for India for the Peace Corps, where he later became the director of minority recruitment. Mr. Robinson left America at a time when people were not learning from one another to serve in a country that benefited from his help as a black man. This experience shaped how he envisioned the rest of the world, laying the groundwork for a long and successful career in the public sector.

Following his work in the Peace Corps, Mr. Robinson served two terms as a deputy assistant secretary of State for Africa. From 1983–1984 during the Reagan administration, Robinson oversaw economic and commercial policy at the State Department. When he returned to the African Bureau in 1990, he coordinated U.S policy toward west and central Africa and directed U.S diplomatic efforts to end Liberia's civil war, until President Bush left office in 1994. During that time, for six years between his State Department postings, Robinson served as president of the U.S. African Development Foundation which was established by Congress to provide small-scale assistance to community based organizations in Africa.

Also in 2001, Robinson helped in the creation of the Africa society to carry on public awareness and support for Africa as a direct outgrowth of the historic National Summit on Africa. This National Summit was initiated with funding from the Ford Foundation and the Carnegie Corporation of New York to build support for Africa in the United States. He was named President of the organization in 1999.

The Africa Society is helping educate America about Africa and has assisted in the expansion of a broad base of support for Africa through the initiatives taken on by Mr. Robinson. Bernadette Paolo, vice president and cofounder of the Africa Society said that Mr. Robinson "gave everything he had to the Africa society, and to the continent of Africa for over 30 years. He contributed brilliance, passion, and visionary leadership. He was our founder, our inspiration and our star. His memory will serve to move us forward on our mission to educate all Americans about Africa".

Africa for a long time and perhaps still is considered a poor and aids stricken "country" and not a rich and diverse continent. The African Society with Mr. Robinson's leadership has attacked this misconception. We all mourn the loss of such a true pioneer.

I enter into the CONGRESSIONAL RECORD the press release written about his life published by the Africa Society of the National Summit on Africa on July 25, 2006. As more and more American's perceptions and policy decisions change towards Africa, we must forever reflect on the individuals who gave their life so that we can begin the process of understanding the lives of others. One will not be able to speak about the progress between the USA and Africa without bringing up his name, for he has without a doubt made great contributions to achieving understanding between us.

[From the Africa Society of the National Summit on Africa]

AFRICA SOCIETY STAFF—LEONARD H. ROBINSON, JR.

Leonard Robinson has more than 30 years working and living experience in international affairs, with Africa and Asia as regions of specialization. He served as Deputy Assistant Secretary of State for African Affairs, from 1983–85 where he was responsible for economic and commercial policy. And, as Deputy Assistant Secretary of State from 1990–1993, he was responsible for U.S. policy toward Central and West Africa. His other portfolios for Africa included Narcotics, Terrorism, Democracy and the Peace Corps. He also directed U.S. diplomatic initiatives to help in the resolution of the Liberia civil war.

Robinson spent six years as President of the U.S. African Development Foundation, established by Congress in 1981 to provide official assistance to community-based organizations and grassroots enterprises throughout Africa. During his tenure, annual Congressional appropriations increased from an initial $1m to $17m. He has also worked with the U.S. Agency for International Development, the Battelle Memorial Institute, and the Peace Corps where he served as a volunteer, Associate Director for India and as Director of Minority Recruitment for the United States.

A native of North Carolina, Robinson received a BA from Ohio State University: and attended graduate school at the State University of New York, Binghamton, and post graduate school at the American University, Washington, DC, and Harvard's John F. Kennedy School of Government. He is the recipient of two honorary doctoral degrees.

He is professor of African Studies at the University of Massachusetts—Boston, and Senior Fellow at the Center for Development and Democracy at the John W. McCormack Institute, the University's think tank. He founded LHR International Group, Inc. in 1997, a political policy consulting firm specializing in the analysis of U.S. foreign policy for the heads of state and foreign ministers of African and Asian nations.

Mr. Robinson and colleagues founded The Africa Society in 2001 as a direct outgrowth of the historic National Summit on Africa. The mission of the Africa Society is to educate and inform all Americans about the great and diverse continent of Africa. With a grant supported by the Ford Foundation and the Carnegie Corporation of New York, the National Summit on Africa was established in 1997 to educate all Americans about Africa, to build a broad constituency of support for Africa in the United States, and to formulate a National Policy Plan of Action on U.S.-Africa Relations in the Twenty-First Century—the Summit held a historic conference on Africa in Washington, D.C., February 16–20, 2000. Over 8,000 Americans from every state, as well as continental Africans, attended. Robinson will continue to serve as President and CEO of the newly established Africa Society of The National Summit on Africa.

Robinson is the author of several articles and publications, and serves on a number of boards and advisory councils including the National Peace Corps Association, and Discovery Channel's Global Education Fund. In 2005 Mayor Anthony Williams appointed and swore in Robinson to the Board of Trustees of the University of the District of Columbia. A frequent speaker, he has made presentations at World Affairs Councils throughout the U.S., the Economic Commission for Africa in Addis Ababa, Ethiopia, at UNC-Chapel Hill, UMass-Boston, Eastern Connecticut University, UCLA, The Monterey Language Institute and the Miller Center at the University of Virginia.

The University of Virginia appointed Robinson as its first Diplomat Scholar in Residence in August 2004. He has been listed in Who's Who in America since 1985.

ASEAN MUST BE USED TO MAKE HUN SEN LISTEN

HON. MARK R. KENNEDY

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. KENNEDY of Minnesota. Mr. Speaker, as we stand here today, Secretary of State

Condoleezza Rice, and other representatives of the United States are attending the annual meeting of the Association of Southeast Asian Nations (ASEAN) in Kuala Lampur.

As a Representative from a State with a large and vibrant Cambodian community, I have been very closely following issues on the ground in Cambodia.

For some time, I have been deeply concerned about Cambodian Prime Minister Hun Sen's policy of undermining democratic principles and justice.

Having met with leaders like Sam Rainsy, Mu Sochua and Kem Sokha, I have heard their chilling reports of routine violations of the Cambodian constitution's guarantees of freedom of expression and association. I have been outraged by Hun Sen's arbitrary arrests and violations of fundamental human dignity and respect.

I urge the Secretary of State to use the ASEAN forum to rally the world community to remind the Hun Sen regime of its obligations to its people.

The government must immediately end its systematic campaign to undermine democracy, the rule of law, and human rights in Cambodia. The Secretary should remind the regime that the American people, the world community, and the donor community that has provided $2 billion in aid to Cambodia is watching.

POVERTY IN AMERICA ONE YEAR FOLLOWING HURRICANES KATRINA AND RITA

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. DAVIS of Illinois. Mr. Speaker, before Congress recesses for the month of August, I would like to take a moment of time to call attention to an issue of great importance. As a nation, we are approaching the year anniversary of Hurricanes Katrina and Rita, two of the most powerful and destructive natural disasters the United States has seen.

Chaos ensued in the aftermath of the hurricanes; untimely responses to the disaster in addition to inadequate resources turned the situation from a natural into a man-made disaster. As people were fleeing their homes and gathering in camps like refugees without water, food, or adequate shelter—media coverage began to expose the dirty secret of America's working poor. Out of the 5.8 million people from the States of Louisiana, Mississippi, and Alabama who were directly affected by this devastation, more than one million—nearly one-fifth of those affected—lived in poverty. These atrocities shined the light on poverty in America. People could not ignore it. Indeed, the events made Americans question, "how is it that so many people, most of them children, are living below the poverty line in the wealthiest country in the world?"

Upon visiting New Orleans after the Hurricanes, President Bush declared that the nation had a solemn duty to help the poor. But the issue of America's poor was brief in the presidential limelight. Despite the clarity of the problem of poverty that the disasters brought, poverty fails to be a priority for this administration. The war in Iraq is the top priority for this administration, draining the country's resources and taking precedent over the pressing domestic issue of abject poverty in America. Tax cuts for the wealthiest Americans, not healthcare and living wages for those who are struggling to make it. Significant cuts to our social safety nets of Medicare and Medicaid. Failure to raise the minimum wage. Time after time, this Administration has promoted legislation that disenfranchises the working poor. The administration had an opportunity to address poverty, and it has shown a complete lack of leadership to do so. Poverty is not a priority for this administration.

As Members of Congress, we share the responsibility with the executive branch of government to put poverty back on the agenda, to create and fund programs that can help America's forgotten poor. I hope that assisting the poor in fundamental ways will top our legislative agenda when we return. Doing so would be the best tribute to the victims of the recent hurricane disasters to mark the year anniversary of this sad moment in our history.

RECOGNIZING NELL GRISSOM

HON. CHARLES W. "CHIP" PICKERING

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. PICKERING. Mr. Speaker, today I want to share with this Congress the life and work of Nell Grissom at Wesley House in Meridian, Mississippi. She represents the best of Mississippi and demonstrates again and again, the power of faith, hope, and love.

Nell was stricken with polio at the age of twelve and paralyzed from the neck down. Doctors said she would never walk or have children. For years she lived in a full-length steel brace from chin to hip. But she finished high school; she married, and has three children and two grandchildren. Faith, determination, and hard work gave her inner strength to match the steel of those braces. Strength to build, guide, and direct a mission that feeds, clothes, educates, counsels, reforms, and heals: touching over 33,000 people every year.

In the mid-1960's, Wesley House Community Center in Meridian was about to close. Founded in 1904 by a group of churchwomen to bring hope into the lives of women and children living in poverty around a cotton mill, for sixty years, they held Bible classes and sewing lessons and distributed food and shoes and Christmas presents to the poor people in that neighborhood. Methodists operated Wesley House in a small frame cottage and staffed it with a missionary deaconess.

By 1967, the church could no longer provide a deaconess and Nell Grissom, who was volunteer leader of the Youth Fellowship at Central Methodist Church, was asked to help keep the doors open until a qualified mission worker could be found. Now forty years later it is obvious to all that Nell Grissom was the mission worker they needed.

Wesley House currently serves as the central hub for the regions Toys-for-Tots drive at Christmas. Nell Grissom has also turned Wesley House into a crisis center for local, regional, and state disasters. This past year Wesley House was instrumental in distributing aid to Hurricane Katrina victims.

Years of service to thousands of people trapped in the vicious cycle of poverty, neglect, abuse, and crime, led Nell to open East Central Mississippi's first Sexual Assault Crisis Center in 1990. Almost overwhelmed by the response of hundreds of victims of sexual assault and abuse, Nell worked tirelessly. Counselors were employed and a volunteer crisis line response team was set up to counsel with victims at hospital emergency rooms and law enforcement facilities on a twenty-four hour basis. Nell's efforts have expanded the Sexual Assault Crisis Center and Children's Advocacy Center at Wesley House to include a traveling counselor serving victims in five counties and abuse prevention programs in the public schools. Moving beyond direct services to victims of sexual assault and abuse, Nell Grissom expanded the Wesley House victims rights programs to include services to families of victims of homicide and other crimes.

For over forty years now, Nell Grissom has led countless volunteers to build an agency that gives victims productive futures. Helping victims of poverty and neglect before they become victims of crime is a major focus of Nell Grissom's life. Every day she and her coworkers are salvaging lives from the mean streets, instilling the virtues of work, faith, and morality in those most vulnerable of our citizens. Nell retires in August and ends this chapter in Wesley House's history, but she does so with sadness and with joy. Sadness that she will not be guiding the great services that Wesley House provides, and joy because she knows that God has used her to touch the lives of countless people.

Mr. Speaker, Nell Grissom could have rested on her laurels and retired years ago, yet she has kept working for over forty years as she still works late into the evening at Wesley House helping just one more victim with one more problem. The impact of Nell Grissom's service is reflected in the countless people from all walks of life who can testify about the healing Nell Grissom has brought to their lives and their families. She has made her community, her state, and her country a better place through her efforts and I am proud to call her a daughter of Mississippi.

75TH ANNIVERSARY OF THE BOROUGH OF KENHORST

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. GERLACH. Mr. Speaker, I rise today to celebrate the 75th anniversary of the Borough of Kenhorst in Berks County, Pennsylvania.

The residents of Cumru Township, upset with what they described as an exorbitant streetlight tax, a lack of fire and police protection, and a lack of street improvement, decided to secede from the Township to create their own municipality, thereby resulting in the establishment of the Borough of Kenhorst nearly 75 years ago.

Its name is of most interesting origins. Along New Holland Road to the south of the proposed borough was a large estate owned by the Horst family. Along Lancaster Avenue was a large farm operated by the Kendall family, also known as Kendall Park. Consequently, the founders decided to combine both names and Kenhorst Borough was thereby incorporated on August 25, 1931.

The Borough remains largely residential, but has recently seen expansion along the two main throughways—New Holland Road and Lancaster Avenue—because of the community's outstanding beauty and quality of life. Today, the Borough is considered one of the premier communities in Berks County and the Commonwealth of Pennsylvania.

Mr. Speaker, I ask that my colleagues join me today in honoring the Borough of Kenhorst on its 75th anniversary and recognizing the service of a multitude of citizens who worked tirelessly to establish, promote, and grow the Borough to become the exemplary community it is today.

IN TRIBUTE TO CORA WALKER: LAWYER WHO BROKE RACIAL GROUND

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. RANGEL. Mr. Speaker, I rise today to pay tribute to Cora Walker, a just woman whose sincere determination and resolve not only helped change the way law became practiced in New York but also helped diversify its practitioners. Ms. Cora Walker who is recognized as being one of the first black women to practice law in the state of New York, succumbed to cancer at her Manhattan home on July 20, 2006. As a living example of an individual who defied the odds, Ms. Walker walked the path less traveled, opening it up for many others to follow.

Born in Charlotte in 1922, to William and Benetta Jones Walker, Ms. Walker was one of 9 children. Ms. Walker's family, at that time like most Southern families, wanted a life beyond the laws of segregation and Jim Crow. Their search for the American dream carried them to the Bronx. The new life in New York, however, brought unexpected changes, the biggest one being the sudden divorce of her parents. The separation of her parents, created a financial burden for the entire family leaving her mother and her siblings dependent on public assistance. Although this incident proved to be tragic, just like the saying goes, "only the most beautiful flowers bloom in adversity," Ms. Walker emerged from this hardship as the main provider and supporter of the family, eventually getting her family off of welfare.

Ms. Walker earned her bachelors degree and law degree in a special 6-year program in which students earned both a bachelors and law degree. She is recognized as being the first African-American woman to graduate from the St. John's University School of Law in 1946. Recognizing the disparity between the number of black and white lawyers, Ms. Walker spent much of her career working for the National Bar Association, the organization of Black lawyers formed to support the advancement of Blacks in the progression and helped found the Associations Counsel Conference, an annual meeting that helped black lawyers cultivate relationships with corporate clients. It is through her work within this organization and others that gave her the skills to become the first woman to serve as president of the Harlem Lawyers Association.

Although she was admitted to the Bar in 1947, the color of her skin still proved to be the only measure being used to judge her capabilities and worth. A woman who defied so many odds, who found the self-will within, to do the unthinkable, whose courage should have been commended, was still black. Sadly, the only position offered to her was the position to be the firms' secretary. Unwilling to write the story of a woman who came, fought the great battle and lost, she decided to rewrite history with her own thoughts utilizing her own gifts.

Her efforts culminated in the establishment of her own firm. Although she ran unsuccessfully for the New York Senate in 1958 and 1964, she was recognized at that time as being one of the most powerful leaders in Harlem. Her legacy rings true even today. Not only does the African American community mourn her loss, but all the lives she touched by being a symbol for justice everywhere as well feel her loss.

I enter into the CONGRESSIONAL RECORD the obituary published in the New York Times on July 24, 2006. She has truly left her mark on our society and she will always be remembered for that. As the percentages of African American lawyers continue to increase across the country, we must acknowledge the pioneers whose contributions to justice and equality made the opportunities we have today a reality.

CORA WALKER, 84, DIES; LAWYER WHO BROKE RACIAL GROUND

(By Margalit Fox)

Cora T. Walker, a prominent New York lawyer who nearly 60 years ago became one of the first black women to practice law in the state, died last Thursday at her home in Manhattan. She was 84.

The cause was cancer, said her son Lawrence R. Bailey Jr., a lawyer, who practiced with his mother for many years.

For decades, Ms. Walker ran a private practice in Harlem, first on 125th Street and later from a restored brownstone at 270 Lenox Avenue. From 1976 until her retirement in 1999, she was the senior partner in Walker & Bailey, one of the city's few black law firms, which she established with her son.

The firm's practice eventually included corporate clients like Conrail, the Ford Motor Company, Texas Instruments and Kentucky Fried Chicken. But Ms. Walker continued drawing up wills and preparing personal-injury claims for the men and women she described as the "plain, ordinary, not elegant people" of her Harlem community.

Active in Republican politics, Ms. Walker ran unsuccessfully for the New York State Senate in 1958 and 1964. In 1970, The New York Times included her—the only woman—on a list of the most powerful leaders in Harlem.

Cora Thomasina Walker was born on June 20, 1922, in Charlotte, N.C., one of nine children of William and Benetta Jones Walker. The family moved to the Bronx when she was a child. When she was an adolescent, her parents separated, leaving her, her mother and her siblings dependent on public assistance.

After graduating from James Monroe High School in the Bronx, Ms. Walker promptly informed the Welfare Department that their help was no longer required: she would support the family. She took a night job as a teletype operator with Western Union and also sold Christmas cards.

At the same time, Ms. Walker was enrolled at St. John's University, then in Brooklyn, in a special six-year program in which students earned both a bachelor's degree and a law degree. She received a bachelor's degree in accounting from St. John's in 1945 and a law degree the next year.

For much of her career, Ms. Walker was active in the National Bar Association, a historically black organization. She helped found the association's Corporate Counsel Conference, an annual meeting sponsored by its commercial law section. Begun in 1988, the conference helps black lawyers cultivate relationships with corporate clients.

In the 1960s, Ms. Walker became the first woman to serve as president of the Harlem Lawyers Association.

Ms. Walker's marriage, to Lawrence R. Bailey Sr., a lawyer, ended in divorce. In addition to her son Lawrence Jr., of the Bronx, she is survived by another son, Bruce E. Bailey, a physician, of Norwich, Conn.; a sister, Danetta Black, formerly of White Plains; and three grandchildren.

In 1947, when Ms. Walker was admitted to the New York bar, she found the doors of the city's law firms tightly shut. (One firm relented and offered her a position—as a secretary.) So she struck out on her own.

Her first client was an undertaker, for whom she did collections. Before long, by dint of reading self-improvement books, Ms. Walker had learned to "join everything, give everybody a card, join a political club," as she told The New York Times in 1989.

In 1999, the New York County Lawyers' Association installed a plaque outside the Lenox Avenue brownstone where Ms. Walker had her office, commemorating her half-century in the law. The building has since been sold, her son said, and the plaque is now gone.

KC–135 REPLACEMENT PROGRAM TECHNOLOGY

HON. TERRY EVERETT

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 28, 2006

Mr. EVERETT. Mr. Speaker, it is more important than ever that our military have the best technologies available in their weapon systems and equipment. The tremendous strides that have been made in the area of technology have allowed us to do more with less. With a smaller force, it becomes imperative to provide the best technology and the best capabilities to our warfighters.

Our front line systems require cutting edge technologies to preserve the maximum advantage over our adversaries. It is important that we remain mindful of this as we look to the KC–135 Tanker replacement aircraft the Air

Force is scheduled to purchase. We would be ill advised to disregard the technologies available in the aircraft being offered, as this aircraft will be in our inventory for decades.

This KC–X competition involves an older aircraft and a newer one. Old technology built today is still old, and offers little in the competitive environment. Retrofitting add-on technologies into older aircrafts' cockpits and elsewhere are costly modifications that offer only a partial solution to acquiring the best available aircraft.

Instead, the Air Force should consider the value of buying the latest, proven generation of commercial aircraft with modem technology already integrated into the platform. In closing, I believe we must procure the most advanced technology available for this aircraft to both accomplish the mission and to ensure the highest level of performance over its service life. The Air Force has a clear opportunity to procure the most advanced aircraft for the KC–X and our warfighters deserve no less.

HON. SANFORD D. BISHOP, JR.

Mr. BISHOP of Georgia. Mr. Speaker, I rise today to honor a great soldier and a great American, Colonel Rick R. Riera, who is giving up command next week at Fort Benning, GA, the "Home of the Infantry."

Colonel Riera was born on June 4, 1959 in Matanzas, Cuba. At the tender age of nine years old, he and his family fled the Communist government and were granted political asylum in this country. They were flown via a Liberty Flight to Miami, Florida, where Colonel Riera grew up.

Riera was admitted to the United States Military Academy and in 1981 graduated and reported for training at Fort Benning. After his initial training, he was assigned as a Rifle and Scout Platoon Leader on the Demilitarized Zone in Korea.
